Diphenylboric acid β-aminoethyl ester complex

$C_{14}H_{16}BNO$ · D 1,17 to 1,2 g/cm³ · mp 190 to 192 °C
CAS No. 524-95-8
WGK 1

Warning H315-H319-H335

Natural product reagent A
≥98 %, p.a.

Biochemical analytical reagent for determination of flavonoids and vegetable acids.

Application: Natural substance-polyethylene glycol reagent (NST/PEG). Spray a 1 % methanol solution of natural substance reagent A and a 5 % ethanol PEG 4000 solution, one after the other onto the TLC-plate (approx. 10 ml and 8 ml). Intensive fluorescent colours will appear immediately or after 15 min in UV-365 nm. Adding PEG will lead to an increase in detection sensitivity (from 10 µg to 2.5 µg). The fluorescence behaviour depends on the structure. The reagent must be freshly prepared before use (1 % in methanol). Spray under the fume hood!

Nourseothricin

Nourseothricin dihydrogen sulphate

CAS No. 96736-11-7
WGK 1

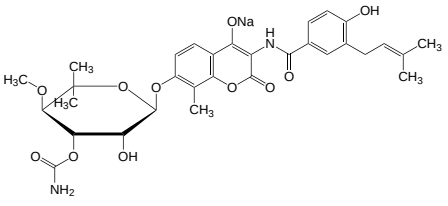
Warning H302-H315-H319-H335

Nourseothricin
≥85 %, for biochemistry and microbiology

Broad-band antibiotic and antimycotic of viruses, bacteria and fungi.

Stock solution: 100 mg/ml in water
Storage of stock solution at –20 °C
Working concentration: ca. 100 µg/ml
One package Nourseothricin should be solubilized in whole and the stock solution should be frozen in aliquots.

Storage temperature: +4 °C



Type analysis
Appearance ..... beige powder
Streptothricine D, F ..... ≥85 %
Streptothricine C, E ..... <15 %
Ash ..... ≤3,0 %

Packed under argon.

Pepsin

CAS No. 9001-75-6 · EC no. 232-629-3
WGK 1
Danger H315-H319-H334-H335

Pepsin
≥2 000 FIP-U/g, for biochemistry

From porcine gastric mucosa. For detection of trichina in meat.

Well soluble in water, stable in aqueous solutions of pH up to 5.5, unstable above pH 6.0

Storage temperature: +4 °C

Guarantee analysis
Appearance .... white to clear beige, crystalline or amorphous powder
Specific activity ..... ≥2000 FIP-U/g
pH value (1 % in H_2O) 3,0-5,0
Loss on drying ..... ≤5,0 %

Art. No.	Pack Qty.	Pack.	€
KK38.1	50 g	plastic	77,95

Phenylmethyl sulphonyl fluoride (PMSF)

α-Toluene sulphonyl fluoride · PMSF

$C_7H_7FO_2S$ · D 0,79 g/cm³ · mp 92 to 94 °C
CAS No. 329-98-6 · EC no. 206-350-2
UN no. 2923 · ADR 8 (6.1) II · WGK 1

Danger H301-H314

Phenylmethyl sulphonyl fluoride
≥98 %, for biochemistry

Irreversible inhibitor of serine- and thiol proteases. Reversible effect on cysteine proteases.

Stock solution: 17.4 mg/ml (100 mM) in isopropanol, ethanol or methanol.
Storage of stock solution protected from light at –20 °C.

For your convenience, **Art. No. 6367.4** comes packed in a 30 ml brown glass bottle. Addition of 20 ml 2-propanol results in a 100 mM stock solution.

Type analysis
Appearance .... White to beige powder or crystals
Assay ..... ≥98 %
Identity (Raman) ..... complies
Melting point ..... 91-95 °C
Solubility in ethanol ..... complies
Solubility in methanol ..... complies

Potassium sodium tartrate solution

▸ Fehling's solution II see page 934

Potassium sodium tartrate tetrahydrate

Seignette salt

$C_4H_4KNaO_6 \cdot 4\ H_2O$ · D 1,79 g/cm³ · mp 70 to 80 °C
CAS No. 6381-59-5 · EC no. 205-698-2
WGK 1

Potassium sodium tartrate tetrahydrate
≥99 %, p.a., ACS, ISO

Used as a constituent of Fehling's solution.

Guarantee analysis

Assay (perchloric acid titration)	≥99 %

Reinecke salt monohydrate

Ammonium tetrathiocyanato-diamminechromate(III) monohydrate

$NH_4[Cr(SCN)_4(NH_3)_2] \cdot H_2O$ · mp 268 to 272 °C
CAS No. 13573-17-6 · EC no. 237-003-3
WGK 1

⚠ **Warning** H302+H312+H332-EUH032

Reinecke salt monohydrate

≥93 %, p.a., ACS

Guarantee analysis

Appearance ..... red-brown to purple powder
Assay ..... ≥93,0 %
In diluted HCl insoluble matter ..... ≤0,05 %
Sensitivity ..... complies

Reinforced Clostridial Medium

Medium P (Ph. Eur. 6.0) · RCM · Reinforced Medium for Clostridia (Ph. Eur. 6.3, 7.0, 8.0 and 9.0)

WGK 3

Reinforced Clostridial Medium
Ph. Eur., for microbiology

For enrichment and enumeration of *Clostridiae* and other anaerobes from foods and other specimens.

Application: Use 38 g for 1 l broth.

Storage temperature: +15 to +25 °C
Transport temperature: ambient temp.

WGK 1

Ribonucleic acid sodium salt
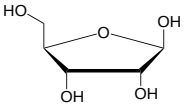
≥93 %, for biochemistry



from pure cultured yeasts (*Candida Utilis*).

Storage temperature: +4 °C

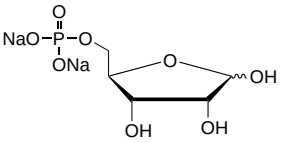
Type analysis
Appearance ..... yellowish powder
Assay (dry substance) ..... ≥93,0 %

Art. No.	Pack Qty.	Pack.	€
4362.1	25 g	plastic	49,35

D(–)-Ribose

D(–)-Ribofuranose

$C_5H_{10}O_5$ · D 0,8 g/cm³ · mp 87 °C · bp >150 °C
CAS No. 50-69-1 · EC no. 200-059-4
WGK 1



D(–)-Ribose
≥98 %, for biochemistry

Storage temperature: +4 °C

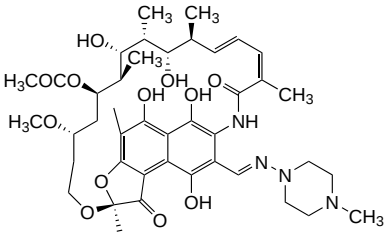
Type analysis
Appearance ..... pale white to white powder
Assay (HPLC, dry substance) ..... ≥98,0 %
Specific rotation $[\alpha]_D^{20}$ ..... -18° to -22°
Loss on drying (3 h, 110 °C) ..... ≤3,0 %
Heavy metals (as Pb) ..... ≤0,001 %
Loss on ignition ..... ≤0,2 %

Art. No.	Pack Qty.	Pack.	€
7168.1	10 g	plastic	24,65
7168.3	25 g	plastic	48,95
7168.2	100 g	plastic	128,50

D-Ribose-5-phosphate disodium salt

D-Ribofuranose 5-phosphate disodium salt · R-5-P-Na_2

$C_5H_9Na_2O_8P$
CAS No. 18265-46-8 · EC no. 242-140-7
WGK 1



D-Ribose-5-phosphate disodium salt
≥85 %, for biochemistry

Storage temperature: –20 °C
Transport temperature: ambient temp.

Type analysis
Assay (titr.) ..... ≥85,0 %
Solution (5 % in H_2O) .... colourless to light yellow
Water (KF) ..... ≤15,0 %
pH value (1 % in H_2O) 6,5-7,5

Art. No.	Pack Qty.	Pack.	€
5253.1	250 mg	glass	73,00
5253.2	1 g	glass	223,10

Rifampicin

3-(4-Methylpiperazinyl-iminomethyl)rifamycin SV

$C_{43}H_{58}N_4O_{12}$ · mp 183 to 188 °C
CAS No. 13292-46-1 · EC no. 236-312-0
WGK 1

Warning H302-H315-H319-H335

Rifampicin
≥90 %, for biochemistry

Bacteriostatic antibiotic

Art. No. 4163.3: A stock solution with a concentration of 100 mg/ml can be prepared directly by adding 5 ml chloroform or DMSO.

Storage temperature: +4 °C

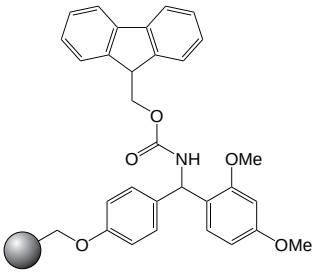
Type analysis
Assay (HPLC) ..... ≥90 %
Solution (5 % in chloroform) ..... orange to dark brown
Loss on drying (60 °C, vacuum) ..... ≤2 %
Sulphated ash ..... ≤0,1 %

Art. No.	Pack Qty.	Pack.	€
4163.1	500 mg	glass	40,75
4163.3	500 mg	glass	50,45
4163.2	1 g	glass	74,10

Ringer solution 1/4

D 1,039 g/cm³ · mp 0 °C · bp 100 °C
WGK 1

Ringer solution 1/4
ISO 8199, ISO 10718, for microbiology



Isotonic solution for cell suspensions according to ISO standards.

Storage temperature: +15 to +25 °C
Transport temperature: ambient temp.

Composition
Sodium chloride (NaCl) ..... 2,25 g/l
Calcium chloride ..... 0,06 g/l
Potassium chloride (KCl) ..... 0,1 g/l
Sodium bicarbonate ..... 0,05 g/l

Art. No.	Pack Qty.	Pack.	€
1L88.1	180 ml	glass	40,75

Rink amide resin

4-(2',4'-Dimethoxyphenyl-Fmoc-aminomethyl) phenoxy resin

WGK 1

Rink amide resin
PEPTIPURE® 100–200 mesh, 1 % DVB

For peptide synthesis

Type analysis
Appearance ..... white to slightly yellow beads
Loading ..... 0,3-0,8 mmol/g
Identity (IR) ..... complies
Swelling ..... 4,0-7,0 ml/g (DMF, 24 h)
Swelling ..... 4,5-8,5 ml/g (CH_2Cl_2, 24 h)
Kaiser test ..... negative
Loss on drying ..... ≤2 %

ROTI®Fair BBS

Borate Buffered Saline (tablets)

D 2,065 g/cm³ · mp >75 °C
WGK 1

Danger H319-H360FD

ROTI®Fair BBS
for 500 ml/tablet, for biochemistry and molecular biology

Coating of ELISA plates and blocking supplement.

1x BBS solution is prepared by solubilization of 1 tablet in 500 ml highly pure water.

Composition

Prepared 1x BBS solution contains: 0.15 M NaCl, 10 mM borate buffer, pH-value 8.2 ±0.05, when prepared in deionized or distilled water.

Art. No.	Pack Qty.	Pack.	€
1005.1	100 unit(s)	plastic	330,60

ROTI®Fair BSC

BSC buffer powder (pouch) · Buffered Sodium Citrate

WGK 1

ROTI®Fair BSC
for 100 ml/pouch, for cell culture and microscopy

Buffer solution for isolation of blood cells.

0,109 M BSC solution is prepared by dissolution of 1 pouch in 100 ml highly pure water.

Not a medical device / Not an IVD product

Composition

Prepared BSC solution contains: 0,109 M (3,2 %) buffered Na-citrate, when prepared in deionized or distilled water.

Art. No.	Pack Qty.	Pack.	€
1011.1	10 unit(s)	box	117,75

ROTI®Fair BSC
for 1000 ml/pouch, for cell biology

Buffer solution for isolation of blood cells.

0,109 M BSC solution is prepared by dissolution of 1 pouch in 1000 ml highly pure water.

Not a medical device / Not an IVD product

Composition

Prepared BSC solution contains: 0,109 M (3,2 %) buffered Na-citrate, when prepared in deionized or distilled water.

Art. No.	Pack Qty.	Pack.	€
1026.1	5 unit(s)	box	217,70

ROTI®Fair EDTA

EDTA powder (pouch) · Ethylenediamine tetraacetic acid

WGK 2

Warning H332-H373

ROTI®Fair 0.5M EDTA
for 500 ml/pouch, for life science applications in general

For preparation of bioanalytical solutions, anticoagulant.

0,5 M EDTA solution is prepared by dissolution of 1 pouch in 500 ml highly pure water.

Composition

Prepared solution contains: 0.5 M EDTA, pH value 8.0 ±0.05, when prepared in deionized or distilled water.

Art. No.	Pack Qty.	Pack.	€
1031.1	5 unit(s)	box	321,45

ROTI®Fair Glucose

D(+)-Glucose · Dextrose · Glucose powder (pouch) · Blood sugar

D 1,54 g/cm³ · mp 146 °C
WGK 1

ROTI®Fair 20% Glucose
for 1000 ml/pouch, for microbiology and biochemistry

For preparation of nutrient media and solutions for enzymatics.

20 % glucose solution is prepared by dissolution of 1 pouch in 1000 ml highly pure water.

Composition

Prepared solution contains: 20 % glucose, when prepared in deionized or distilled water.

Art. No.	Pack Qty.	Pack.	€
1030.1	5 unit(s)	box	209,65

ROTI®Fair Glycine

Glycine powder (pouch)

WGK 1

ROTI®Fair Glycine 3.0
for 1000 ml/pouch, for biochemistry

For preparation of buffer solutions with acidic pH and elution buffer in affinity chromatography.

0,1 M glycine solution is prepared by dissolution of 1 pouch in 1000 ml highly pure water.

Composition

Prepared solution contains: 0.1 M glycine-HCl, pH value 3.0 ±0.05, when prepared in deionized or distilled water.

Art. No.	Pack Qty.	Pack.	€
1032.1	10 unit(s)	box	124,20

ROTI®Fair HBS

HEPES Buffered Saline (tablets)

WGK 1

ROTI®Fair HBS
for 500 ml/tablet, for biochemistry and cell biology

General buffer base and for calcium phosphate mediated transfection.

1x HBS solution is prepared by dissolution of 1 tablet in 500 ml highly pure water.

Composition

Prepared 1x HBS solution contains: 10 mM HEPES, 0.15 M NaCl, pH-value 7.4 ±0.05, when prepared in deionized or distilled water.

ROTI®Garose-His/Co Columns
ROTI®Garose for biochemistry

For isolation of His-tagged proteins by affinity chromatography.

Affinity chromatography colums · Cobalt agarose beads · Cobalt charged IMAC columns · IMAC columns

Prefilled colums for gravity flow chromatography.
Matrix volume 1 or 5 ml, whole volume 12 or 35 ml, respectively.
For approx. 120 and 600 mg His labelled protein.

Prepacked columns, binding capacity ca. 120 (.1) resp. 600 (.2) mg/column $(His)_6$

Storage temperature: +4 °C

Type analysis
Particle size ..... 50-150 µm
Beads (cross-linked agarose) ..... 6 %
Ligand ..... IDA
Metal ion ..... Cobalt
Binding capacity (DHAK-6xHis) ..... 135 mg/ml
Activating agent ..... Epichlorohydrin
Stabilizer ..... 20 % ethanol

Heating bath fluid ROTITHERM® K + H

Modified polyglycol ether

D 1,13 to 1,17 g/cm³ · mp -39 °C · bp 200 °C · flp >290 °C
WGK 1

Heating bath fluid ROTITHERM® K + H
ROTITHERM®

Heat transfer fluid for cooling and heating baths.

Due to the low pour point, Rotitherm® K + H can also be used as a coolant. Mixes with water in any ratio, non-sensitive to water hardness. Mixtures with 10–30% proportion of water can be used up to –55 °C. Does not form build-up even when heated and can easily be removed using water.

Type analysis
Density (23 °C) ..... 1,13-1,17 g/cm³
Viscosity (23 °C) ..... 220-280 mm²/s
Pour point ..... <-39 °C
Flash point ..... >290 °C
Autoignition temperature ..... ~390 °C
Water ..... <0,5 %

Salmine sulphate

Protaminsulphate

CAS No. 53597-25-4
WGK 1

Salmine sulphate
for biochemistry

From salmon sperm.

Type analysis
Appearance ..... white to light yellowish powder
Loss on drying ..... ≤5,0 %
Nitrogen (N) ..... 22-26 %
Sulphate (SO_4) ..... 16-21 %

Art. No.	Pack Qty.	Pack.	€
7194.1	5 g	plastic	160,20

Salmonella chromogenic Agar

WGK 1

Salmonella chromogenic Agar
for microbiology

For isolation of *Salmonella* from foods, waters and other samples.

Application: Use 37.1 g for 1 l agar.

Storage temperature: +4 °C

Composition
Sodium citrate ..... 8,5 g/l
Casein peptone ..... 5 g/l
Beef extract ..... 5 g/l
Chromogene Mixture ..... 5,81 g/l
Agar ..... 12,8 g/l
pH value ..... 7,2 ±0,2

Art. No.	Pack Qty.	Pack.	€
CL46.2	100 g	plastic	223,10
CL46.1	500 g	plastic	908,40
Original pack 6 x 500 g			862,98/500 g

Salmonella-Shigella Agar

WGK 2

Salmonella-Shigella Agar
for microbiology

For isolation of pathogenic enterobacteria, especially *Salmonella* and *Shigella*.

Application: Use 60 g for 1 l agar.

Storage temperature: +15 to +25 °C
Transport temperature: ambient temp.

Composition

Beef extract ..... 5 g/l
Peptone mixture ..... 5 g/l
Lactose ..... 10 g/l
Ferric citrate ..... 1 g/l
Bile salts ..... 8,5 g/l
Sodium citrate ..... 8,5 g/l
Sodium thiosulphate ..... 8,5 g/l
Brilliant green ..... 0,0003 g/l
Neutral red ..... 0,025 g/l
Agar ..... 13,5 g/l
pH-value 6,8-7,2

Art. No.	Pack Qty.	Pack.	€
X934.1	500 g	plastic	79,05

Salmon Sperm DNA sodium salt

DNA from salmon sperm · Deoxyribonucleic acid sodium salt

CAS No. 9007-49-2
WGK 1

Salmon Sperm DNA sodium salt
ex salmon testes

Stock solution: 10 mg/ml in H_2O. Storage of stock solution: –20 °C in aliquots. Working concentration: 100 µg/ml.

Storage temperature: +4 °C

Guarantee analysis

Appearance ..... off-white to light brown powder
Solution (10 % in H_2O at 40 °C) ..... colourless to slightly yellow
Loss on drying ..... ≤12,0 %
Sodium (dry substance) ..... ≥5,8 %
Maximum absorption ..... 258-262 nm
UV-Absorption (0,001 % in phosphate buffer pH 7) ..... ≥0,155 AU

Silicone anti-foaming emulsion

Defoamer

D 1 g/cm³ · mp ~0 °C · bp ~100 °C
WGK 1

Silicone anti-foaming emulsion 100

For use in non-aqueous, organic media. Suitable for adhesive production, paint production, lacquer production and polymerisation of plastics. Consists of polydimethylsiloxane with modified inorganic components. Applicable in the entire range of pH in non-ionic, cationic and anionic solutions. Above about pH 10, a time- and temperature-dependent reduction of the defoaming effect is to be expected.

The silicone antifoam emulsion 100 should be inserted into the medium where the foam is created before the working process. The foam already formed is very difficult to destroy afterwards. For defoaming in organic media, a very low concentration of about 2 ppm to 10 ppm is usually required. The defoaming effect or the optimal dosage should be determined in advance in the laboratory. Tip: To facilitate dosing, the silicone emulsion can be pre-diluted in the medium to be defoamed.

Type analysis
Defoaming effect (30 sec.) ..... ≤60 mm
Defoaming effect (200 sec.) ..... ≤100 mm
Viscosity (25 °C) ..... 900-2500 mPas

Original pack 4 x 2.5 l			172,62/2.5 l

Silicone anti-foaming emulsion 30

Useful as anti-foaming agent in aqueous solutions of surfactants. The antifoam emulsion consists 30 % of polydimethylsiloxane in water and modified inorganic components. It applies to entire range of pH in non-ionic, cationic and anionic solutions. Above about pH 10, a time- and temperature-dependent reduction of the defoaming effect is to be expected.

Admixture upwards of 30 ppm. The antifoam emulsion must be homogenized by shaking briefly prior to use. When diluting, the emulsion should be placed in the vessel and the required amount of water added while stirring gently. Rapid stirring or shaking should be avoided. Shake well before using!

Type analysis
Appearance ..... white liquid
Defoaming effect (30 sec.) ..... ≤80 mm
Solids after 30 min./120 °C ..... 42,0-49,0 %

Silicone-free antifoam

Silicone-free non-ionic antifoam

D 0,8 to 0,9 g/cm³ · mp 9 °C · bp >300 °C · flp 174 °C
WGK 2

Silicone-free antifoam

The composition is based on white oil, fatty acid derivatives and alkylpolyglycol ethers. Suitable for use in surfactant-containing aqueous solutions. Silicone-free defoamer can be used for aqueous mixtures in the pH range 2-12 and at higher temperatures.

Silicone-free defoamer can be used both as a foam prevention agent and for foam destruction. Use in pure form only in exceptional cases. Recommendation: 1:10 dilution with cold water. Mix the defoamer presented well with the same proportion of water and then slowly add the remaining water and mix homogeneously by hand or with a slow-running stirrer. The use of fast-running stirrers as well as the use of warm water should be avoided. Depending on the application, the recommended dosage in low-viscosity liquids is 0.05 to 2 g/l and in higher-viscosity systems up to 5 g/l. In the latter case, an additive should also be used. In the latter case, addition in pure form is also possible.

Type analysis
pH value (1 % in H_2O) 5-8

Silicone oils M

Thermal stability
In the presence of air, silicone oils M are stable up to 150 °C for a long time. If you impede the air supply they are even stable up to higher temperatures. If you stop the air supply totally, i.e. the oil is used in a closed system or in an inert atmosphere, e.g. in an atmosphere of nitrogen or carbon dioxide, the oils can be used up to peak temperatures of about 300 °C, but the viscosity will decrease continously.

Solubility
All silicone oils M can be solved easily in aliphatic and aromatic hydrocarbons, higher alcohols, ether, ester and chlorinated hydrocarbons, e.g.
petroleum benzine, benzene, toluene, ether, butyl alcohol, amyl alcohol, ethyl acetate, butyl acetate, carbon tetrachloride, chloroform, trichloroethylene, tetrachloroethane.

Silicon oils are not soluble in water, methanol and ethylene glycol. The solubility in organic solvents increases with decreasing viscosity. Therefore, in addition, silicone oils M 50 and M 100 are soluble in isopropanol and n-butanol and partially miscible with n-propanol. Silicone oils M with a viscosity below 20 $mm^2 \cdot s^{-1}$ can be solved in n-propanol and also in acetone and dioxane. Silicone oils M with a viscosity of 10 $mm^2 \cdot s^{-1}$ are even soluble in ethanol.

Lubricant and gliding properties
The lubrication properties of silicone oils M depend on the bearing material to a high degree. They give the best results with plastics, e.g. polyamides, polystyrene, phenol resins and with rubber. They are also suited as lubricants for some special combinations of metallic materials, e.g. steel combined with bronze, brass, chromium, zinc or cadmium, also chromium combined with bronze. However there is no lubricity when you combine steel with steel in the range of the critical friction. In each case you have to decide whether the use of pure silicone oils M is to be taken into account. It is necessary to distinguish between the lubricity and the gliding properties of the oils. Silicone oils M are excellent gliding agents in many cases, e.g. in the treatment of special plastics and man-made fibres. This property is not due to the building up of a load-bearing lubrication film, but to the separation effect of the silicone oils M.

Surface tension
The surface tension of the silicone oils M is in the range of about 19–21 mN · m^{-1}, so it is extremely low. It increases only a little with viscosity of the oils.

Refractive index
The refractive index of silicone oils M increases from n_D^{25} = 1.3941 for M 3 to 1.4000 for M 20, and it is almost constant at 1.4042 for M 1000 and higher.

Density
At 25 °C the densities of silicone oils M range between 0.90 and 0.97. So they are not very different from the density of water. With increasing viscosity the densities of the oils increase too. They depend on temperature nearly linear: The values mentioned above were measured between –40 °C and 175 °C.

Chemical inertness
Generally silicone oils M are inert. They are stable in contact with water, organic solvents, pure oxygen and many other chemicals. In contact with most metals they will not be changed, and on the other hand they will not corrode metals, wood, paper and plastics. Strong oxidising agents like concentrated nitric acid or elemental chlorine decompose silicone oils M especially at higher temperatures.

Main properties of silicone oils:

- Heat and cold resistance
- Low setting point
- Low temperature and pressure dependency of viscosity
- Low steam pressure
- Good dielectric strength, little depending on temperature and frequency
- High interfacial tension to water and organic polymers
- High surface activity
- High compressibility
- Chemical and physiological inertness

Due to these properties silicone oils M are ideal as:

- Heat transfer agents
- Hydraulic fluids
- Fluid dielectrics
- Surface agents
- Separating agents
- Gliding agents
- Defoamer
- Auxiliary agents in varnishes
- Damping fluids

Silicone paste

Heat resistance
Silicone pastes are stable within temperature range of –40 to +200 °C without any considerable change in their consistency.

Chemical resistance
Silicone pastes are resistant to steam, sulphur dioxide, diluted acids and alkaline solutions. They are chemically indifferent to metals and different kinds of plastic.

Applications:

- Laboratory techniques as an antiseize agentand lubricant for stopcocks, taper ground joints and regulating valves. Also suitable for sealing various glass apparatus.
- Apparatus engineering
- Electrotechnology

Silicone release agent SPM

Polydimethylsiloxane/Alumosiloxane

D 0,97 g/cm³ · mp -60 °C · flp >250 °C
WGK 1

Silicone release agent SPM

For the production of casting and moulded plastic parts. More heat stable than wax-based release agents.

Shake the silicone release agent SPM well before application. Apply very thinly using a brush or cloth to the mould surface to be treated. Compressed air may help to distribute the release agent evenly and remove potential excess.

Danger H304-H314

Silicone remover, liquid

First remove silicone from the treated surface with a knife or similar tool. Apply the liquid silicone remover with a brush on the surface to remove remaining residues. After a dwell time of 3-20 hrs. (depending on the thickness of the layer), wiped off the liquid silicone remover. Any remaining residue is then removed with a wet cloth.

Sodium-2,2,3,3-trimethylsilyl-propionate D4
▸ 3-(Trimethylsilyl)propionic-2,2,3,3 acid sodium salt D4 (TSP-D4) see page 1381

penta-Sodium triphosphate

Sodium tripolyphosphate · STPP

$Na_5P_3O_{10}$ · D 2,52 g/cm³ · mp 622 °C
CAS No. 7758-29-4 · EC no. 231-838-7
WGK 1

penta-Sodium triphosphate
≥94 %, pure

Type analysis
Assay ..... ≥92,0 %
Loss on drying (150 °C) ..... 2,5-4,5 %
pH-value (1 %) 9,5-10,5

Art. No.	Pack Qty.	Pack.	€
1HEH.1	500 g	plastic	23,15
Original pack 6 x 500 g			21,99/500 g
1HEH.2	1 kg	plastic	38,20
Original pack 6 x 1 kg			36,29/1 kg
1HEH.3	2.5 kg	plastic	78,40

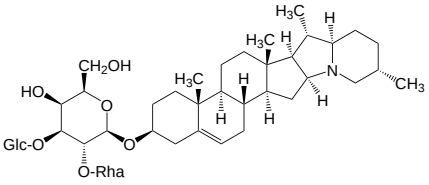
▸ penta-Sodium triphosphate see page 1298

Sodium tungstate dihydrate

Tungstic acid sodium salt dihydrate

Na_2WO_4 · 2 H_2O · D 3,23 g/cm³ · mp 100 °C
CAS No. 10213-10-2 · EC no. 236-743-4
WGK 1

Warning H302



Sodium tungstate dihydrate
≥99 %, p.a., ACS

Guarantee analysis
Assay (gravim.) ..... 99,0-101,0 %
In H_2O insoluble matter ..... ≤0,01 %
Free alkali ..... ≤0,02 meq/g
Chloride (Cl) ..... ≤0,005 %
Sulphate (SO_4) ..... ≤0,01 %
Heavy metals and iron (as Pb) ..... ≤0,001 %
Arsenic (As) ..... ≤0,0005 %
Molybdenum (Mo) ..... ≤0,001 %

Art. No.	Pack Qty.	Pack.	€
2604.1	100 g	plastic	61,20
2604.2	250 g	plastic	120,95
2604.3	500 g	plastic	224,70
Original pack 6 x 500 g			213,47/500 g

Sodium vanadium oxide
▸ tri-Sodium monovanadate see page 1291

α-Solanine

Solatunine

$C_{45}H_{73}NO_{15}$ · mp 285 °C
CAS No. 20562-02-1 · EC no. 243-879-8
WGK 1

Warning H302

α-Solanine
ROTICHROM® HPLC

Reference substance for HPLC.
From *Solanum tuberosum*.

Storage temperature: +4 °C

Type analysis
Purity (HPLC) ..... ≥98 %

Art. No.	Pack Qty.	Pack.	€
2826.1	10 mg	glass	317,15

α-Solanine
ROTICHROM® TLC

From *Solanum tuberosum*.

Storage temperature: +4 °C

Art. No.	Pack Qty.	Pack.	€
4180.1	10 mg	glass	267,70

Solatunine
▸ α-Solanine see page 1299

Solidofix® Cryo spray

Cryospray · Cold spray

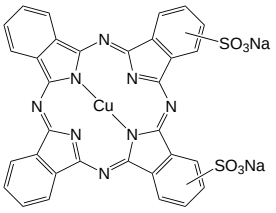
D 0,55 g/cm³
UN no. 1950 · ADR 2 (2.1)

Danger H222-H229

Solidofix® Cryo spray
ready-to-use, for histology

Freezing of histological specimens. Cooling of paraffin blocks. Cooling to –45 °C.

Not a medical device / Not an IVD product



Notes on the product
Appearance ..... colorless
Flash point ..... <-35 °C

Art. No.	Pack Qty.	Pack.	€
T200.1	300 ml	spray bottle	10,25
T200.2	1.5 l	spray bottle	38,60

Solochrome cyanine
▸ Eriochrome cyanine R see page 913

Solution de revivification maximale
▸ Maximum Recovery Solution see page 1070

Solvent blue 38 (C. I. 74180)

Luxol® Fast Blue MBSN

$C_{32}H_{12}CuN_8Na_2O_6S_2$ · D 0,426 g/cm³ · mp 210,3 °C
CAS No. 1328-51-4
WGK 1

Solvent blue 38 (C. I. 74180)
for microscopy

Type analysis
Appearance ..... dark blue powder
Appearance of solution (0,1 % in MeOH) ..... dark blue

Art. No.	Pack Qty.	Pack.	€
7709.1	5 g	glass	18,85
7709.2	25 g	glass	33,25
7709.3	100 g	glass	80,55

Solvent orange 1
▸ Sudan orange G (C. I. 11920) see page 1344

Solvents for Ultra LC-MS

Art. No.	Description	Page
1HP7	Acetic acid ethyl ester, ROTISOLV®, ≥99,9 %, Ultra LC-MS	693
HN40	Acetonitrile, ROTISOLV®, ≥99,98 %, Ultra LC-MS	697
1HP8	Ethanol, ROTISOLV®, ≥99,95 %, Ultra LC-MS	915
HN41	Methanol, ROTISOLV®, ≥99,98 %, Ultra LC-MS	1077
0733	2-Propanol, ROTISOLV®, ≥99,95 %, Ultra LC-MS	1185
0739	Tetrahydrofuran, ROTISOLV®, ≥99,9 %, Ultra LC-MS, unstabilised	1361
HN43	Water, ROTISOLV®, Ultra LC-MS	1400

Solvents for LC-MS

Art. No.	Description	Page
AE69	Acetic acid ethyl ester, ROTISOLV®, ≥99,9 %, LC-MS Grade	693
3153	Acetone, ROTISOLV®, ≥99,9 %, LC-MS Grade	696
AE70	Acetonitrile, ROTISOLV®, ≥99,95 %, LC-MS Grade	697
AE71	Methanol, ROTISOLV®, ≥99,95 %, LC-MS Grade	1077
AE73	2-Propanol, ROTISOLV®, ≥99,95 %, LC-MS Grade	1186
AE72	Water, ROTISOLV®, LC-MS Grade	1400

Solvents for HPLC

Art. No.	Description	Page
7336	Acetic acid ethyl ester, ROTISOLV®, HPLC	693
7328	Acetone, ROTISOLV®, HPLC	696
T195	Acetonitrile, ROTISOLV®, HPLC Ultra Gradient Grade	698
8825	Acetonitrile, ROTISOLV®, HPLC Gradient Grade	698
HN44	Acetonitrile, ROTISOLV®, HPLC Gradient	698
7330	Acetonitrile, ROTISOLV®, HPLC	698
CN20	Acetonitrile, ROTISOLV®, HPLC, isocratic	698
6827	Acetonitrile, ROTISOLV®, ≥99,8 %, for preparative HPLC	698
T178	1-Butanol, ROTISOLV®, HPLC	796
T175	*tert*-Butyl methyl ether, ROTISOLV®, HPLC	799
7333	Cyclohexane, ROTISOLV®, HPLC	857
7334	Dichloromethane, ROTISOLV®, HPLC	875
0702	*N*,*N*-Dimethylformamide (DMF), ROTISOLV®, HPLC	887
0728	Dimethyl sulphoxide (DMSO), ROTISOLV®, HPLC	889
X949	1,4-Dioxane, ROTISOLV®, HPLC, unstabilised	892
P076	Ethanol, ROTISOLV®, HPLC Gradient Grade	915
6828	*n*-Heptane, ROTISOLV®, ≥99 %, HPLC	979
7337	*n*-Heptane, ROTISOLV®, ≥95 %, HPLC	979
7339	*n*-Hexane, ROTISOLV®, HPLC	983
T176	Isohexane, ROTISOLV®, HPLC	1021

Art. No.	Description	Page
7340	Isooctane, ROTISOLV®, HPLC	1022
X948	Methanol, ROTISOLV®, HPLC Ultra Gradient Grade	1077
7342	Methanol, ROTISOLV®, HPLC Gradient Grade	1078
KK39	Methanol, ROTISOLV®, HPLC Gradient	1078
P717	Methanol, ROTISOLV®, HPLC	1078
CN99	*n*-Pentane, ROTISOLV®, HPLC	1141
0731	Petroleum ether 40–60 °C, ROTISOLV®, HPLC	1149
T177	1-Propanol, ROTISOLV®, HPLC	1185
7343	2-Propanol, ROTISOLV®, HPLC	1186
7344	Tetrahydrofuran, ROTISOLV®, HPLC, unstabilised	1361
7346	Toluene, ROTISOLV®, HPLC	1372
7331	Trichloromethane/Chloroform, ROTISOLV®, HPLC	1377
A511	Water, ROTISOLV®, HPLC Gradient Grade	1400
1C5K	Water, ROTISOLV®, HPLC	1401

Solvents for Headspace-GC

Art. No.	Description	Page
HN45	*N*,*N*-Dimethylacetamide (DMA), ROTISOLV®, ≥99,99 %, Headspace Grade	885
HN46	*N*,*N*-Dimethylformamide (DMF), ROTISOLV®, ≥99,99 %, Headspace Grade	888
HN48	1,3-Dimethyl-2-imidazolidinone (DMI), ROTISOLV®, ≥99,5 %, Headspace Grade	889
HN47	Dimethyl sulphoxide (DMSO), ROTISOLV®, ≥99,99 %, Headspace Grade	890

Solvents for GC

Art. No.	Description	Page
KK42	Acetic acid ethyl ester, ROTISOLV®, ≥99,9 %, GC Ultra Grade	693
KK40	Acetone, ROTISOLV®, ≥99,9 %, GC Ultra Grade	696
KK41	Cyclohexane, ROTISOLV®, ≥99,9 %, GC Ultra Grade	857
KK47	Dichloromethane, ROTISOLV®, ≥99,9 %, GC Ultra Grade	875
KK48	*n*-Hexane, ROTISOLV®, ≥95 %, GC Ultra Grade	983
KK44	Methanol, ROTISOLV®, ≥99,9 %, GC Ultra Grade	1078
KK45	*n*-Pentane, ROTISOLV®, ≥99 %, GC Ultra Grade	1141
KK46	Toluene, ROTISOLV®, ≥99,8 %, GC Ultra Grade	1373

Solvents for residue analysis (Pestilyse® plus)

Art. No.	Description	Page
7565	Acetic acid ethyl ester, ROTISOLV® Pestilyse® plus, ≥99,9 %	693
7535	Acetone, ROTISOLV® Pestilyse® plus, ≥99,9 %	696
1HP5	Acetonitrile, ROTISOLV® Pestilyse® plus, ≥99,9 %	698
7542	Cyclohexane, ROTISOLV® Pestilyse® plus, ≥99,9 %	857
7562	Dichloromethane, ROTISOLV® Pestilyse® plus, ≥99,9 %	875
1HP6	Ethanol, ROTISOLV® Pestilyse® plus, ≥99,9 %	916
7566	*n*-Heptane, ROTISOLV® Pestilyse® plus, ≥99 %	979
7573	*n*-Hexane, ROTISOLV® Pestilyse® plus, ≥99 %	983
7567	*n*-Hexane, ROTISOLV® Pestilyse® plus, ≥96 %	983
7576	Isohexane, ROTISOLV® Pestilyse® plus, ≥96 %	1021
7580	Isooctane, ROTISOLV® Pestilyse® plus, ≥99,7 %	1022
7583	Methanol, ROTISOLV® Pestilyse® plus, ≥99,9 %	1078
7587	*n*-Pentane, ROTISOLV® Pestilyse® plus, ≥99 %	1141
7588	Petroleum ether 40–60 °C, ROTISOLV® Pestilyse® plus	1149
7590	2-Propanol, ROTISOLV® Pestilyse® plus, ≥99,9 %	1186
7591	Toluene, ROTISOLV® Pestilyse® plus, ≥99,8 %	1373
7554	Trichloromethane/Chloroform, ROTISOLV® Pestilyse® plus, ≥99,9 %	1377

Solvents for residue analysis (Pestilyse®)

Art. No.	Description	Page
T164	Acetic acid ethyl ester, ROTISOLV® Pestilyse®, ≥99,8 %	694
T161	Acetone, ROTISOLV® Pestilyse®, ≥99,8 %	696
T168	Acetonitrile, ROTISOLV® Pestilyse®, ≥99,9 %	698
T163	Cyclohexane, ROTISOLV® Pestilyse®, ≥99,5 %	857
T162	Dichloromethane, ROTISOLV® Pestilyse®, ≥99,8 %	875
T900	Diethyl ether, ROTISOLV® Pestilyse®, ≥99,8 %, stabilised	878
X878	*n*-Heptane, ROTISOLV® Pestilyse®, ≥99 %	979
T861	*n*-Hexane, ROTISOLV® Pestilyse®, ≥99 %	983
T165	*n*-Hexane, ROTISOLV® Pestilyse®, ≥97,5 %	983
T904	Isohexane, ROTISOLV® Pestilyse®, ≥99 %	1021
T167	Isooctane, ROTISOLV® Pestilyse®, ≥99,5 %	1022
T169	Methanol, ROTISOLV® Pestilyse®, ≥99,9 %	1078
T903	*n*-Pentane, ROTISOLV® Pestilyse®, ≥99 %	1141
T170	Petroleum ether 40–60 °C, ROTISOLV® Pestilyse®	1149
T902	2-Propanol, ROTISOLV® Pestilyse®, ≥99,8 %	1186
T166	Toluene, ROTISOLV® Pestilyse®, ≥99,8 %	1373
T901	Trichloromethane/Chloroform, ROTISOLV® Pestilyse®, ≥99,8 %	1377
T905	Water, ROTISOLV® Pestilyse®	1401

Solvents for UV/IR spectroscopy

Art. No.	Description	Page
4442	Acetic acid ethyl ester, ROTISOLV®, ≥99,8 %, UV/IR Grade	694
T906	Acetone, ROTISOLV®, ≥99,9 %, UV/IR Grade	696
T907	Acetonitrile, ROTISOLV®, ≥99,9 %, UV/IR Grade	699
CP81	Cyclohexane, ROTISOLV®, ≥99,9 %, UV/IR Grade	857
4433	Dichloromethane, ROTISOLV®, ≥99,8 %, UV/IR Grade	875
CP79	*N*,*N*-Dimethylformamide (DMF), ROTISOLV®, ≥99,9 %, UV/IR Grade	888
CP78	*n*-Heptane, ROTISOLV®, ≥99 %, UV/IR Grade	979
T908	*n*-Hexane, ROTISOLV®, ≥99 %, UV/IR Grade	983
CP80	Isooctane, ROTISOLV®, ≥99,8 %, UV/IR Grade	1022
T909	Methanol, ROTISOLV®, ≥99,9 %, UV/IR Grade	1078
4443	*n*-Pentane, ROTISOLV®, ≥99 %, UV/IR Grade	1142
T910	2-Propanol, ROTISOLV®, ≥99,9 %, UV/IR Grade	1186
CP83	Tetrachloroethylene, ROTISOLV®, ≥99,9 %, UV/IR Grade	1360
CP82	Tetrahydrofuran, ROTISOLV®, ≥99,9 %, UV/IR Grade	1361
4445	Toluene, ROTISOLV®, ≥99,8 %, UV/IR Grade	1373
4432	Trichloromethane/Chloroform, ROTISOLV®, ≥99,8 %, UV/IR Grade	1377

Solvents, dried, in a septum bottle

Art. No.	Description	Page
5175	Acetonitrile, ROTIDRY®Sept, ≥99,9 % (≤50 ppm H_2O)	699
5176	Dichloroethane, ROTIDRY®Sept, ≥99,9 % (≤50 ppm H_2O)	875
5177	Diethyl ether, ROTIDRY®Sept, ≥99,5 % (≤50 ppm H_2O), stabilised	879
5179	Dimethyl sulphoxide (DMSO), ROTIDRY®Sept, ≥99,8 % (≤100 ppm H_2O)	890
5180	*n*-Hexane, ROTIDRY®Sept, ≥99 % (≤30 ppm H_2O)	983
5181	Methanol, ROTIDRY®Sept, ≥99,9 % (≤50 ppm H_2O)	1078
5182	Tetrahydrofuran, ROTIDRY®Sept, ≥99,8 % (≤50 ppm H_2O)	1361
5191	Toluene, ROTIDRY®Sept, ≥99,5 % (≤30 ppm H_2O)	1373

Solvents, dried, with molecular sieve

Art. No.	Description	Page
1A9P	Acetic acid ethyl ester, ROTIDRY® plus, ≥99,8 % (≤50 ppm H_2O), with molecular sieve	694
1A9K	Dichloromethane, ROTIDRY® plus, ≥99,9 % (≤30 ppm H_2O), with molecular sieve	875

Art. No.	Description	Page
1A9X	Diethyl ether, ROTIDRY® plus, ≥99,5 % (≤50 ppm H_2O), with molecular sieve, stabilised	879
1A9L	Methanol, ROTIDRY® plus, ≥99,8 % (≤50 ppm H_2O), with molecular sieve	1078
1A9Y	Tetrahydrofuran, ROTIDRY® plus, ≥99,5 % (≤50 ppm H_2O), with molecular sieve, stabilised	1361
1A9T	Toluene, ROTIDRY® plus, ≥99,5 % (≤50 ppm H_2O), with molecular sieve	1373
1A9N	Trichloromethane/Chloroform, ROTIDRY® plus, ≥99,9 % (≤30 ppm H_2O), with molecular sieve, stabilised	1377

Solvents, dried

Art. No.	Description	Page
4424	Acetic acid ethyl ester, ROTIDRY®, ≥99,8 % (≤100 ppm H_2O)	694
AE00	Acetonitrile, ROTIDRY®, ≥99,9 % (≤10 ppm H_2O)	699
AE03	Dichloromethane, ROTIDRY®, ≥99,8 % (≤50 ppm H_2O)	875
AE04	Diethyl ether, ROTIDRY®, ≥99,5 % (≤50 ppm H_2O), stabilised	879
AE02	Dimethyl sulphoxide (DMSO), ROTIDRY®, ≥99,5 % (≤200 ppm H_2O)	890
4429	1,4-Dioxane, ROTIDRY®, ≥99,8 % (≤100 ppm H_2O)	892
AE05	*n*-Hexane, ROTIDRY®, ≥99 % (≤50 ppm H_2O)	983
AE01	Methanol, ROTIDRY®, ≥99,9 % (≤50 ppm H_2O)	1079
AE07	Tetrahydrofuran, ROTIDRY®, ≥99,9 % (≤50 ppm H_2O)	1361
AE06	Toluene, ROTIDRY®, ≥99,5 % (≤50 ppm H_2O)	1373
4423	Trichloromethane/Chloroform, ROTIDRY®, ≥99,8 % (≤50 ppm H_2O)	1377

Solvents for analysis

Art. No.	Description	Page
CP28	Acetic acid anhydride, ROTIPURAN®, ≥99 %, p.a., ACS, ISO	692
P036	Acetic acid *n*-butyl ester, ROTIPURAN®, ≥99,5 %, p.a., ACS	693
6784	Acetic acid ethyl ester, ROTIPURAN®, ≥99,5 %, p.a., ACS, ISO	694
9372	Acetone, ROTIPURAN®, ≥99,8 %, p.a., ACS, ISO	697
4722	Acetonitrile, ROTIPURAN®, ≥99,5 %, p.a., ACS	699
7173	Benzene, ROTIPURAN®, ≥99,5 %, p.a.	767
0336	Benzyl alcohol, ROTIPURAN®, ≥99 %, p.a.	771
7171	1-Butanol, ROTIPURAN®, ≥99,5 %, p.a., ACS	796
AE16	*tert*-Butanol, ROTIPURAN®, ≥99,5 %, p.a., ACS	797
T920	2-Butanone, ROTIPURAN®, ≥99,5 %, p.a., ACS	797
8462	*tert*-Butyl methyl ether, ROTIPURAN®, ≥99,5 %, p.a.	799
6886	Cyclohexane, ROTIPURAN®, ≥99,5 %, p.a., ACS, ISO	857
6837	1,2-Dichloroethane, ROTIPURAN®, ≥99,5 %, p.a.	874
6053	Dichloromethane, ROTIPURAN®, ≥99,5 %, p.a., ACS, ISO	876
0332	Diethanolamine, ROTIPURAN®, ≥99 %, p.a., ACS	877
3495	Diethylamine, ROTIPURAN®, ≥99,5 %, p.a., ACS	877
3942	Diethyl ether, ROTIPURAN®, ≥99,5 %, p.a., stabilised	879
T919	Diisopropyl ether, ROTIPURAN®, ≥99 %, p.a., stabilised	884
T921	*N*,*N*-Dimethylformamide (DMF), ROTIPURAN®, ≥99,8 %, p.a., ACS, ISO	888
4720	Dimethyl sulphoxide (DMSO), ROTIPURAN®, ≥99,8 %, p.a.	890
4626	1,4-Dioxane, ROTIPURAN®, ≥99,5 %, p.a., ACS, ISO, stabilised	892
9065	Ethanol, ROTIPURAN®, ≥99,8 %, p.a.	916
0911	Ethanol, ROTIPURAN®, ≥99,8 %, p.a., denatured	916
T868	Ethanol, ROTIPURAN®, ≥70 %, p.a.	917
0342	Ethanolamine, ROTIPURAN®, ≥99,5 %, p.a.	918
6881	Ethylene glycol, ROTIPURAN®, ≥99,5 %, p.a.	924
6749	Formamide, ≥99,5 %, p.a., ACS	946
T174	*n*-Heptane, ROTIPURAN®, ≥99 %, p.a.	979
4723	*n*-Hexane, ROTIPURAN®, ≥99 %, p.a., ACS	984
T870	Isoamyl alcohol, ROTIPURAN®, ≥98,5 %, p.a., ACS	1019
0338	Isobutyl methylketone, ROTIPURAN®, ≥99 %, p.a., ACS	1020
6889	Isooctane, ROTIPURAN®, ≥99,5 %, p.a., ACS	1022
4627	Methanol, ROTIPURAN®, ≥99,9 %, p.a., ACS, ISO	1079
CP08	2-Methoxyethanol, ROTIPURAN®, ≥99,5 %, p.a., ACS	1081
3926	2-Methylbutane, ROTIPURAN®, ≥99,5 %, p.a.	1083
6772	2-Methyl-1-propanol, ROTIPURAN®, ≥99 %, p.a., ACS	1088
4978	*n*-Pentane, ROTIPURAN®, ≥99 %, p.a.	1142
T173	Petroleum ether 40–60 °C, ROTIPURAN®, p.a., ACS, ISO	1149
6776	1-Propanol, ROTIPURAN®, ≥99,5 %, p.a.	1185
6752	2-Propanol, ROTIPURAN®, ≥99,8 %, p.a., ACS, ISO	1187
9729	Pyridine, ROTIPURAN®, ≥99,5 %, p.a., ACS	1191
6788	Tetrahydrofuran, ROTIPURAN®, ≥99,5 %, p.a., ACS	1362
7115	Toluene, ROTIPURAN®, ≥99,5 %, p.a., ACS, ISO	1373
3313	Trichloromethane/Chloroform, ROTIPURAN®, ≥99 %, p.a.	1377
T172	Water, ROTIPURAN®, p.a., ACS	1401
4436	Xylene (isomers), ROTIPURAN®, ≥99 %, p.a., ACS, ISO	1407

Solvents in Pharmacopoeia Quality

Art. No.	Description	Page
CP42	Acetic acid ethyl ester, ≥99,5 %, Ph. Eur., extra pure	694
CP40	Acetone, ≥99,7 %, Ph. Eur., extra pure	697
8657	Benzyl alcohol, ≥98 %, Ph. Eur.	771
CP45	Dichloromethane, ≥99,5 %, Ph. Eur., extra pure	876
8810	Diethyl ether, ≥99,5 %, Ph. Eur., stabilised	879
5054	Ethanol, ≥99,5 %, Ph. Eur., extra pure	916
6724	Bioethanol, SOLVAGREEN®, 96 %, Ph. Eur.	917
P075	Ethanol, 96 %, Ph. Eur., extra pure	917
7301	Ethanol, 70 %, DAB	918
6967	Glycerol, ≥99 %, anhydrous, Ph. Eur., USP, synthetic	966
7530	Glycerol, SOLVAGREEN®, ≥98 %, anhydrous, Ph. Eur.	966
7533	Glycerol, SOLVAGREEN®, ~86 %, Ph. Eur., extra pure	966
CP43	Methanol, ≥99,5 %, Ph. Eur., extra pure	1079
CP44	Petroleum ether 40–60 °C, extra pure, DAB	1149
1LA5	1,2-Propanediol, ≥99,5 %, Ph. Eur.	1184
CP41	2-Propanol, ≥99,5 %, Ph. Eur., extra pure	1187
3510	2-Propanol, 70 %, USP	1187
6340	Trichloromethane/Chloroform, ≥99 %, DAB, BP, extra pure	1377
2652	Water, Ph. Eur., USP, purified	1401
CN80	Xylene (isomers), ≥98,5 %, extra pure, Ph. Helv.	1407

Solvents for synthesis

Art. No.	Description	Page
4483	Acetic acid anhydride, ≥99 %, for synthesis	692
4600	Acetic acid *n*-butyl ester, ≥99 %, for synthesis	693
7338	Acetic acid ethyl ester, ≥99,5 %, for synthesis	694
4370	Acetic acid isobutyl ester, ≥99 %, for synthesis	694
1A9C	Acetic acid *iso*-propyl ester, SOLVAGREEN®, ≥99 %, for synthesis	695
1A9A	Acetic acid *n*-propyl ester, SOLVAGREEN®, ≥99,5 %, for synthesis	695
5025	Acetone, ≥99,5 %, for synthesis	697
4380	Acetonitrile, ≥99,5 %, for synthesis	699

Standard Count Agar

WGK 1

Standard Count Agar
for microbiology

For enumeration of aerobic bacteria in milk, water and wastewaters.

Application: Use 25 g for 1 l agar.

Storage temperature: +15 to +25 °C
Transport temperature: ambient temp.

Composition
Meat extract ..... 3 g/l
Casein peptone ..... 5 g/l
Sodium chloride (NaCl) ..... 5 g/l
Agar ..... 12 g/l
pH value ..... 7,2 ±0,2

Art. No.	Pack Qty.	Pack.	€
AE91.1	500 g	plastic	139,25
Original pack 6 x 500 g			132,29/500 g

Standard Nutrient Agar I

WGK 1

Standard Nutrient Agar I
for microbiology

For cultivation and enumeration of fastidious bacteria. Also high-base for preparing special culture agars.

Application: Use 37 g for 1 l agar.

Storage temperature: +15 to +25 °C
Transport temperature: ambient temp.

Composition
Peptone ..... 15 g/l
Yeast extract ..... 3 g/l
Sodium chloride (NaCl) ..... 6 g/l
Glucose ..... 1 g/l
Agar ..... 12 g/l
pH value ..... 7,5 ±0,2

Art. No.	Pack Qty.	Pack.	€
AE93.1	500 g	plastic	107,40

Violet Red Bile Agar with Glucose, granulated

Ph. Eur., granulated, for microbiology

For cultivation and enumeration of enterobacteria in water, foods and other materials.

Application: Use 38.53 g for 1 l agar.

Storage temperature: +15 to +25 °C
Transport temperature: ambient temp.

Guarantee analysis

Yeast extract ..... 3 g/l
Pancreas hydrolysate made from gelatin ..... 7 g/l
Sodium chloride (NaCl) ..... 5 g/l
Bile salts ..... 1,5 g/l
Glucose monohydrate ..... 10 g/l
Neutral red ..... 0,03 g/l
Crystal Violet ..... 0,002 g/l
Agar ..... 12 g/l
pH value ..... 7,4 ±0,2

Art. No.	Pack Qty.	Pack.	€
1525.1	500 g	plastic	224,70
Original pack 6 x 500 g			213,47/500 g

Violet Red Bile Agar with Lactose

VRB Agar

WGK 1

Violet Red Bile Agar with Lactose

ISO 4832, ISO 11133, for microbiology

For detection and enumeration of coliforms in milk, foods and other materials.

Application: Use 41.5 g for 1 l agar.

Storage temperature: +15 to +25 °C
Transport temperature: ambient temp.

Guarantee analysis

Yeast extract ..... 3 g/l
Gelatine peptone ..... 7 g/l
Sodium chloride (NaCl) ..... 5 g/l
Bile salts ..... 1,5 g/l
Lactose monohydrate ..... 10 g/l
Neutral red ..... 0,03 g/l
Crystal Violet ..... 0,002 g/l
Agar ..... 15 g/l
pH value ..... 7,4 ±0,2

Å	Ångström = 10^{-10} m
abs	absolute
ACS	American Chemical Society
ADR	European agreement on international road transport of hazardous goods
Amp.	ampoule
aq	water
art.	artificial
asym.	asymmetrical
awg	hazardous to water in general (see WGK)
BP	British Pharmacopoeia
bp	boiling point, boiling range
c	amount-of-substance concentration
CAS	Chemical Abstract Service
CAS No	unique numeric identifier for chemicals
CELLPURE®	suitable for cell culture
C.I. No	colour index number
conc.	concentrated
cP	centipoise
cryst.	crystallised
cSt	centistokes
D	density
DAB	Deutsches Arzneibuch (German Pharmacopoeia)
DAC	Deutscher Arzneimittel-Codex (German Drugs Codex)
dec.	decomposition
dist.	distilled
DIN	German Industrial Standards
EN	European Norm or European Standard
EC no	the official number of a chemical substance that is commercially available within the EC
ERD	empfohlenes Retestdatum (recommended retest date)
extra pure	suitable for laboratory use
FCC	Food chemical codex
FIP	Fédération Internationale Pharmaceutique
flp	flash point
g	gram or gramme
GC	gas chromatography
(GC)	content defined by gas chromatography
H	Hazard statement acc. to regulation (EC) No 1272/2008 (CLP, GHS)
HPLC	high performance liquid chromatography
IE	Internationale Einheit (international unit)
ISO	International Organization for Standardization
IU	international unit
IVD	*In-vitro* diagnostics
JP	Japanese Pharmacopoeia
kg	kilogram or kilogramme
KU	Kilo unit
l, ltr	litre
Lit.	literature
LSC	liquid scintillation counting
lyophil.	lyophilised (readily soluble form)
M or mol/l	molarity, amount-of-substance concentration
M	molecular weight or molar mass
m%	percentage by mass
mg	milligram or milligramme
ml	millilitre
Mol.%	molar percent
MP	Medical product
mp	melting point, melting range
MU	Mega unit
nat.	natural
n_D	refractive index
nwg	non-hazardous to water (see WGK)

Abbreviations and Symbols

P	Precautionary statement acc. to regulation (EC) No 1272/2008 (CLP, GHS)
Pa s	Pascal second
p.a.	pro analysi = for analytical purposes
PEPTIPURE®	suitable for peptide synthesis
Pestilyse®	solvent, suitable for residue analysis (environmental, water and food analysis)
pH	pH value
pK_a	pK_a value
pharma.	pharmaceutical quality, for pharmaceutical purposes
Ph.Eur.	European Pharmacopoeia
ppb	parts per billion = 1 µg per kg
ppm	parts per million = 0,0001 %, 1 mg per kg
ppt	parts per trillion = 1 ng per kg
prim.	primary
PUFFERAN®	can be used as buffer
pulv.	pulverised
pure	suitable for synthesis and laboratory use
rect.	rectification
redist.	redistilled
resubl.	resublimated
ROTICHROM®	suitable as reference substance in chromatography
ROTICHROM® CHR	chromatographically pure reference substances that are chromatographically (HPLC, GC, etc.) tested for their purity and are supplied without a chromatogram
ROTICHROM® CHR_{TLC}	compound in this catalogue is designated asbeing thin-layer chromatographically pure (CHR_{TLC}) if no impurities can be detected under experimental conditions with 20 µg sample
ROTICHROM® ~CHR_{TLC}	for products with impurities which under our conditions, (see CHR_{TLC}), allow the main compound to be designated; such products can be identified as being „approximately thin-layer chromatographically pure“ (~CHR_{TLC})
ROTICHROM® GC	reference substance for gas chromatography, delivered with GC chromatogram
ROTICHROM® HPLC	reference substance for HPLC, delivered with HPLC chromatogram
ROTICHROM® TLC	reference substance for thin-layer chromatography, delivered with thin-layer chromatogram
ROTICUBE®	combi-box of 5 litre or 10 litre, consisting of a stable outer card box with inner bag made of PE; comes with stopcock
ROTIDRY®	dried solvents, filled under protective gas
ROTIPHORESE®	product is suitable for electrophoresis
ROTIPURAN®	highly pure product, suitable for analysis
ROTISOLV®	solvent tested for specific applications (e.g. HPLC, LC-MS, GC, Head-Space)
ROTITAINER®	stackable containers that are convenient to handle. Matching safety pumps are available
sec.	secondary
SOLVAGREEN®	solvents and products that comply with the principles of green chemistry and are either obtained from renewable resources or are considered to be less environmentally hazardous than traditional solvents
stab.	stabilised
subl.	sublimated
sym.	symmetrical
synth.	synthetic
techn.	technical quality. Products with the purity designation *„technicum“* feature a different content. They are generally mass produced and may have a slightly foreign odour and colour. They are used for general technical purposes.
tert.	tertiary; standard for thin-layer chromatograhy (TLC)
TLC	thin layer chromatography
U	unit
USP	United States Pharmacopoeia
WGK	Wassergefährdungsklasse, German Water Hazard Class (on the basis of the Ordinance on facilities for handling substances that are hazardous to water, AwSV)
WGK 1	generally hazardous to waters
WGK 2	clearly hazardous to waters
WGK 3	severe hazardous to waters
wt.% or wt%	percentage by weight

● resistent
❍ conditionally resistent
– not resistent

All values given in this table refer to plastic raw material and can only be regarded as guidelines. As the chemical resistance may vary with different conditions of manufacturing or environmental influences, suitability tests by the user are highly recommanded.
No legal claims can be derived from this information; nor do we accept any liability for it.

Classification & Labelling acc. to (EC) 1272/2008

Hazard Pictograms

The hazard pictogram on the designation label indicates the main hazard arising from a substance. If there are several hazardous qualitiies, several symbols are necessary.

Each pictogram is allocated a hazard designation and coding that do **not** appear on the designation label.

GHS01
exploding bomb

GHS02
flame

GHS03
flame over circle

GHS04
gas cylinder

GHS05
corrosion

GHS06
skull and crossbones

GHS07
exclamation mark

GHS08
health hazard

GHS09
environment

Hazard Statements H Codes

Hazard statements for physical hazards

H200	Unstable explosives.
H201	Explosive; mass explosion hazard.
H202	Explosive, severe projection hazard.
H203	Explosive; fire, blast or projection hazard.
H204	Fire or projection hazard.
H205	May mass explode in fire.
H206	Fire, blast or projection hazard; increased risk of explosion if desensitising agent is reduced.
H207	Fire or projection hazard; increased risk of explosion if desensitising agent is reduced.
H208	Fire hazard; increased risk of explosion if desensitising agent is reduced.
H220	Extremely flammable gas.
H221	Flammable gas.
H222	Extremely flammable aerosol.
H223	Flammable aerosol.
H224	Extremely flammable liquid and vapour.
H225	Highly flammable liquid and vapour.
H226	Flammable liquid and vapour.
H228	Flammable solid.
H229	Pressurised container: May burst if heated.
H230	May react explosively even in the absence of air.
H231	May react explosively even in the absence of air at elevated pressure and/or temperature.
H232	May ignite spontaneously if exposed to air.
H240	Heating may cause an explosion.
H241	Heating may cause a fire or explosion.
H242	Heating may cause a fire.
H250	Catches fire spontaneously if exposed to air.
H251	Self-heating; may catch fire.
H252	Self-heating in large quantities; may catch fire.
H260	In contact with water releases flammable gases which may ignite spontaneously.
H261	In contact with water releases flammable gases.
H270	May cause or intensify fire; oxidiser.
H271	May cause fire or explosion; strong oxidiser.
H272	May intensify fire; oxidiser.
H280	Contains gas under pressure; may explode if heated.
H281	Contains refrigerated gas; may cause cryogenic burns or injury.
H290	May be corrosive to metals.

Hazard statements for health hazards

H300	Fatal if swallowed.
H301	Toxic if swallowed.
H302	Harmful if swallowed.
H304	May be fatal if swallowed and enters airways.
H310	Fatal in contact with skin.
H311	Toxic in contact with skin.

H312	Harmful in contact with skin.
H314	Causes severe skin burns and eye damage.
H315	Causes skin irritation.
H317	May cause an allergic skin reaction.
H318	Causes serious eye damage.
H319	Causes serious eye irritation.
H330	Fatal if inhaled.
H331	Toxic if inhaled.
H332	Harmful if inhaled.
H334	May cause allergy or asthma symptoms or breathing difficulties if inhaled.
H335	May cause respiratory irritation.
H336	May cause drowsiness or dizziness.
H340	May cause genetic defects.
H341	Suspected of causing genetic defects.
H350	May cause cancer.
H350i	May cause cancer by inhalation.
H351	Suspected of causing cancer.
H360	May damage fertility or the unborn child.
H360F	May damage fertility.
H360D	May damage the unborn child.
H360FD	May damage fertility. May damage the unborn child.
H360Fd	May damage fertility. Suspected of damaging the unborn child.
H360Df	May damage the unborn child. Suspected of damaging fertility.
H361	Suspected of damaging fertility or the unborn child.
H361f	Suspected of damaging fertility.
H361d	Suspected of damaging the unborn child.
H361fd	Suspected of damaging fertility. Suspected of damaging the unborn child.
H362	May cause harm to breast-fed children.
H370	Causes damage to organs.
H371	May cause damage to organs.
H372	Causes damage to organs through prolonged or repeated exposure.
H373	May cause damage to organs through prolonged or repeated exposure.
H300+H310	Fatal if swallowed or in contact with skin.
H300+H330	Fatal if swallowed or if inhaled.
H310+H330	Fatal in contact with skin or if inhaled.
H300+H310 +H330	Fatal if swallowed, in contact with skin or if inhaled.
H301+H311	Toxic if swallowed or in contact with skin.
H301+H331	Toxic if swallowed or if inhaled.
H311+H331	Toxic in contact with skin or if inhaled.
H301+H311 +H331	Toxic if swallowed, in contact with skin or if inhaled.
H302+H312	Harmful if swallowed or in contact with skin.
H302+H332	Harmful if swallowed or if inhaled.
H312+H332	Harmful in contact with skin or if inhaled.
H302+H312+ H332	Harmful if swallowed, in contact with skin or if inhaled.

Hazard statements for environmental hazards

H400	Very toxic to aquatic life.
H410	Very toxic to aquatic life with long lasting effects.
H411	Toxic to aquatic life with long lasting effects.
H412	Harmful to aquatic life with long lasting effects.
H413	May cause long lasting harmful effects to aquatic life.
H420	Harms public health and the environment by destroying ozone in the upper atmosphere.

Supplemental Hazard Information H Codes

EUH014	Reacts violently with water.
EUH018	In use may form flammable/explosive vapour-air mixture.
EUH019	May form explosive peroxides.
EUH029	Contact with water liberates toxic gas.
EUH031	Contact with acids liberates toxic gas.
EUH032	Contact with acids liberates very toxic gas.
EUH044	Risk of explosion if heated under confinement.
EUH066	Repeated exposure may cause skin dryness or cracking.
EUH070	Toxic by eye contact.
EUH071	Corrosive to the respiratory tract.
EUH201	Contains lead. Should not be used on surfaces liable to be chewed or sucked by children.
EUH201A	Warning! Contains lead.
EUH202	Cyanoacrylate. Danger. Bonds skin and eyes in seconds. Keep out of the reach of children.
EUH203	Contains chromium (VI). May produce an allergic reaction.
EUH204	Contains isocyanates. May produce an allergic reaction.
EUH205	Contains epoxy constituents. May produce an allergic reaction.
EUH206	Warning! Do not use together with other products. May release dangerous gases (chlorine).
EUH207	Warning! Contains cadmium. Dangerous fumes are formed during use. See information supplied by the manufacturer. Comply with the safety instructions.
EUH208	Contains (name of sensitising substance). May produce an allergic reaction.
EUH209	Can become highly flammable in use.
EUH209A	Can become flammable in use.
EUH210	Safety data sheet available on request.
EUH401	To avoid risks to human health and the environment, comply with the instructions for use.

Hazard classes and categories

Classification				Labelling		
Hazard class	**Category codes**		**Pictogram, code**	**Signal word**	**Hazard statements**	
Explosive	Unstable explosives	Unst. Expl.	 GHS01	Danger	H200	Unstable explosives.
	Divisions 1.1	Expl. 1.1			H201	Explosive; mass explosion hazard.
	Divisions 1.2	Expl. 1.2			H202	Explosive, severe projection hazard.
	Divisions 1.3	Expl. 1.3			H203	Explosive; fire, blast or projection hazard.
	Divisions 1.4	Expl. 1.4		Warning	H204	Fire or projection hazard.
	Divisions 1.5	Expl. 1.5	No pictogram	Danger	H205	May mass explode in fire.
	Divisions 1.6	Expl. 1.6	No pictogram, no signal word, no hazard statement			
Flammable gas	Category 1	Flam. gas 1	 GHS02	Danger	H220	Extremely flammable gas.
	Category 2	Flam. gas 2	No pictogram	Warning	H221	Flammable gas.
Flammable aerosol	Category 1	Flam. aerosol 1	 GHS02	Danger	H222	Extremely flammable aerosol.
	Category 2	Flam. aerosol 2		Warning	H223	Flammable aerosol.
Oxidising gas	Category 1	Ox. gas 1	 GHS03	Danger	H270	May cause or intensify fire; oxidiser
Gas under pressure	Compressed gas	Press. gas	 GHS04	Warning	H280	Contains gas under pressure; may explode if heated.
	Dissolved gas					
	Liquefied gas				H281	Contains refrigerated gas; may cause cryogenic burns or injury.
	Refrigerated liquefied gas					
Flammable liquid	Category 1	Flam. Liq. 1	 GHS02	Danger	H224	Extremely flammable liquid and vapour.
	Category 2	Flam. Liq. 2			H225	Highly flammable liquid and vapour.
	Category 3	Flam. Liq. 3		Warning	H226	Flammable liquid and vapour.
Flammable solid	Category 1	Flam. Sol. 1		Danger	H228	Flammable solid.
	Category 2	Flam. Sol. 2		Warning		

Classification				Labelling		
Hazard class	**Category codes**		**Pictogram, code**	**Signal word**	**Hazard statements**	
Self-reactive substance or mixture **Organic peroxide**	Type A	Self-react. A Org. Perox. A	 GHS01	Danger	H240	Heating may cause an explosion.
	Type B	Self-react. B Org. Perox. B	 GHS01 + GHS02		H241	Heating may cause a fire or explosion.
	Type C and D	Self-react. CD Org. Perox. CD	 GHS02	Danger	H242	Heating may cause a fire.
	Type E and F	Self-react. EF Org. Perox. EF		Warning		
	Type G	Self-react. G Org. Perox. G	No pictogram, no signal word, no hazard statement			
Pyrophoric liquid	Category 1	Pyr. Liq. 1	 GHS02	Danger	H250	Catches fire spontaneously if exposed to air.
Pyrophoric solid	Category 1	Pyr. Sol. 1				
Self-heating substance or mixture	Category 1	Self-heat. 1		Danger	H251	Self-heating; may catch fire.
	Category 2	Self-heat. 2		Warning	H252	Self-heating in large quantities; may catch fire.
Substance or mixture which in contact with water emits flammable gas	Category 1	Water-react. 1		Danger	H260	In contact with water releases flammable gases which may ignite spontaneously.
	Category 2	Water-react. 2		Danger	H261	In contact with water releases flammable gases.
	Category 3	Water-react. 3		Warning		
Oxidising liquid **Oxidising solid**	Category 1	Ox. Liq. 1 Ox. Sol. 1	 GHS03	Danger	H271	May cause fire or explosion; strong oxidiser.
	Category 2	Ox. Liq. 2 Ox. Sol. 2		Danger	H272	May intensify fire; oxidiser.
	Category 3	Ox. Liq. 3 Ox. Sol. 3		Warning		
Substance or mixture corrosive to metals	Category 1	Met. Corr. 1	 GHS05	Warning	H290	May be corrosive to metals.
Desensitised explosive substances/ mixtures	Category 1	Desen. Expl. 1	 GHS02	Danger	H206	Fire, blast or projection hazard; increased risk of explosion if desensitising agent is reduced.
	Category 2	Desen. Expl. 2		Danger	H207	Fire or projection hazard; increased risk of explosion if desensitising agent is reduced.
	Category 3	Desen. Expl. 3		Warning		
	Category 4	Desen. Expl. 4		Warning	H208	Fire hazard; increased risk of explosion if desensitising agent is reduced.
Acute toxicity	Category 1	Acute Tox. 1	 GHS06	Danger	H300 H310 H330	Fatal if swallowed. Fatal in contact with skin. Fatal if inhaled.
	Category 2	Acute Tox. 2				
	Category 3	Acute Tox. 3			H301 H311 H331	Toxic if swallowed. Toxic in contact with skin. Toxic if inhaled.
	Category 4	Acute Tox. 4	 GHS07	Warning	H302 H312 H332	Harmful if swallowed. Harmful in contact with skin. Harmful if inhaled.

Terms and Conditions of Sale and Delivery

These Terms and Conditions of Sale and Delivery also apply for all future deliveries.

1. Validity for future business transactions – Validity of contrary General Terms and Conditions – Validity for companies only

1.1. Our Terms and Conditions of Sale and Delivery apply exclusively. They shall also apply to all future deliveries, even when no special reference is made thereto. We do not accept any contrary terms and conditions or those terms and conditions of the customer which differ from our Terms and Conditions of Delivery, even if the contract is performed unconditionally, unless we have expressly agreed to the validity thereof in writing or in text form.
1.2. Our Terms and Conditions of Sale shall only apply to entrepreneurs (Section 14 German Civil Code [BGB]), legal persons governed by public law or a separate legal entity under public law.

2. Quotes, formation of contract, delivery item

2.1. Our quotes are subject to change and are non-binding unless they have been explicitly declared binding or include a specific period of acceptance.
2.2. The ordering of goods by the customer shall be deemed to be a binding contractual offer. Orders are only binding for us if we confirm them in writing or in text form within two weeks, or if we fulfil them within two weeks through shipment of the ordered goods.
2.3. The legal relationship between the customer and us shall be governed exclusively by the contract, which has been entered into in writing or in text form, including these general Terms and Conditions of Sale and Delivery. Verbal agreements made by us before the contract is formed are not legally binding and verbal understandings between the parties are superseded by the contract that is formed in writing or in text form, unless it is expressly stated therein that such agreements will continue to apply.
2.4. Amendments and modifications to the agreements made, including these general Terms and Conditions of Sale and Delivery, must be made in writing or in text form in order to be valid. With the exception of managing directors and holders of commercial powers of attorney, our employees are not authorised to make verbal agreements which are contrary to the cited provisions.
2.5. The information we provide on the item to be supplied (e.g. weights, dimensions, quantities and functional values), as well as our representations of the item to be supplied, are only approximations, unless use for the purpose intended by the contract requires full conformity and specific characteristics have been agreed. Unless identified as such, these are not guaranteed physical characteristics, rather descriptions or characterisations of the product. Deviations that are customary in the trade and deviations that are the result of legal provisions are permissible provided that they do not impair usability for the contractually agreed purpose. Refer below to Item 10 of these Terms and Conditions.

3. Prices, price adjustments, electronic invoicing

3.1. Our prices are quoted "ex works" from Karlsruhe plus packaging, tariffs where export shipments are concerned, statutory VAT, fees and other public duties.
3.2. We reserve the right to amend our listed prices upon which the contract is based accordingly if cost reductions or increases arise as a result of tariff agreements, or if the price of materials increases after the contract is concluded. These shall be verified to the customer upon request. A price adjustment shall not be effected in cases where delivery is made as contractually stipulated within four months of conclusion of the contract.
3.3. We provide an electronic invoice in compliance with data protection legislation. This presumes the formation of a separate agreement.

4. Payment terms and conditions, payment arrears

4.1. To avoid accounting errors and the resulting erroneous issue of dunning notices, we rely on receiving the correct invoice number, invoice date and individual invoiced amounts with incoming payments. This data can be found on all of our invoices. If the payer is not the same as the invoice recipient, the name stated on the relevant invoice must also be given when the payment is made. If we receive payments without this information, we cannot guarantee that payments will be assigned correctly.
4.2. The invoiced amounts become payable upon receipt of the goods. Unless otherwise specified in writing or in text form, they are payable within thirty days without any deduction. In the event that the date on which the invoice or an equivalent payment schedule was received is disputed, the customer is considered to be in default 30 days after receipt of the goods at the latest, according to Section 286(4) German Civil Code [BGB]. The date of receipt of payment is decisive. Otherwise, the statutory regulations on defaults of payment apply.
4.3. For payment within eight days from date of invoice, a 2% discount shall be granted. The precondition for any discount shall be the settlement of all other customer payables arising from the business relationship with us that are older than 30 days.
4.4. For new customers, we reserve the right to require that payment be made prior to delivery or by cash on delivery.

5. Off-setting, retention

The off-setting of counter-demands by the customer or the retention of payment due to such demands shall only be permissible if such demands are indisputable, or if their validity has been legally established.

6. Shipping, packaging, transfer of risk

6.1. The shipping method and the packaging shall be subject to our due discretion in compliance with the statutory provisions if no other agreement has been made.
6.2. The risk of accidental loss or incidental deterioration of the delivered goods is, at the latest, transferred to the customer upon handover of the goods to the forwarding agent, the carrier, or any other third party charged with the task of performing shipment (applicable from commencement of loading). This also applies in the case of partial deliveries, and with respect to each partial delivery.
6.3. The shipment is only insured against theft, breakage, transport, fire and water damage or other insurable risks at the express request of the customer and at the customer's expense.

7. Delivery time

7.1. The promised delivery periods and dates are only binding for us if we have confirmed them in writing or in text form. The delivery dates indicated on our website during the ordering process or in our catalogue do not constitute such confirmation. Compliance with our delivery obligation requires the timely and proper fulfilment of the customer's obligations. The delivery dates and deadlines refer to the time at which the goods are made available for handover upon collection by the forwarding agent, carrier, or other third party assigned to transport the goods.
7.2. We cannot be held liable should a delivery prove impossible or in the case of delays in delivery due to force majeure or other events that were unforeseeable on signing of the contract (e.g. fire, explosion, strikes, lawful lockout, complications in procuring materials or energy, war, unrest, epidemics or pandemics where a risk level of "moderate" or above has been defined by the Robert Koch Institute, government rejection or renunciation of import and export licences, shortage of raw materials and/or other products and/or constituent parts), and for which we are not accountable. We reserve the right to withdraw from the contract if such occurrences substantially complicate delivery or make delivery impossible, and if the disruption is not merely of a temporary nature. If the disruption is of a temporary nature, delivery times shall be extended to take account of the period of disruption and a reasonable start-up period. We shall notify the customer of the start and end of such circumstances as promptly as possible. If such a delay makes acceptance of delivery unreasonable for the customer, the customer shall be entitled to withdraw from the contract by issuing immediate notice in writing or in text form.
7.3. If we are in default of delivery or performance, or are unable to carry out delivery or performance, for any reason whatsoever, our liability is limited to the extent set out in Item 13 of these Terms and Conditions of Sale and Delivery.
7.4. We cannot be held liable for the impossibility of, or delay in, performance of delivery obligations if, and to the extent that, such an impossibility or delay arises from circumstances caused by the customer, in particular if the customer fails to comply with public law obligations in connection with the European Regulations on Chemical Substances (REACH) or with other mandatory provisions.

8. Partial deliveries

8.1. In the absence of any special agreement, we may provide partial deliveries if
– the partial delivery can be used by the customer in the context of the contractually agreed intended use,
– delivery of the remaining goods is ensured and
– this causes no extensive additional effort or additional costs to the customer.
8.2. A partial delivery made under these conditions is considered a complete delivery with regard to the agreed delivery date.

9. Default of acceptance

Should the customer be in default of acceptance or culpably in breach of other duties to cooperate, we shall be entitled to charge for the resulting damages, including any additional costs incurred. In this case, the risk of accidental loss or incidental deterioration of the purchased goods also passes over to the customer at such time as the customer falls into default of acceptance, provided that our delivery obligation has already been met with regard to the goods to be delivered.

10. Intended use of the goods, obligations of the customer, liability

10.1. If we have made a pledge for certain products to effect delivery contingent upon their intended use, the customer shall be liable for any and all disadvantages which we may suffer as a result of incorrect statements made. In the case of toxins and other substances which may only be used within the scope of legal or official provisions, the customer's order shall also serve as a statement that these substances shall be used for a purpose permissible under the foregoing terms and conditions. The customer shall observe all the applicable statutory provisions when handling or using the substances, mixtures and products supplied by us. Private persons cannot be supplied with chemicals.
10.2. Information given concerning the usability of goods does not constitute any assurance or guarantee of suitability for such use. Relevant identified uses according to Regulation (EC) No. 1907/2006 (REACH Regulation) in the applicable version do not represent a contractual guarantee of any characteristic nor a use stipulated in the contract.
10.3. Our products shall be checked by the user with respect to their specific suitability, particularly prior to use for medical purposes, food and beverage processing, plant cultivation and similar applications. This applies in particular to natural substances, which are always subject to slight variation in content. We therefore cannot assume any liability for any such use.
10.4. Where a product comes with specific conditions for use provided by us or the manufacturer, e.g. as per the product datasheet, these must be complied with. We expressly accept no liability for any use to the contrary. Product datasheets are available via our homepage or can be requested from us directly.
10.5. Insofar as we provide the customer with advice – be this verbally, in writing or as a result of tests – such advice is provided to the best of our knowledge but without liability on our part, and does not release the customer from the obligation to check the delivered goods with respect to their suitability for the intended processes and purposes. The application, use and processing of goods is carried out beyond the scope of our control and is therefore the sole responsibility of the customer.

11. REACH clause

If the customer notifies us of a use according to Article 37.2 of the Regulation (EC) No.1907/2006 dated 5th August 2021 (Regulation (EC) No. 2021/1297) of the European Parliament and the Council for the Registration, Evaluation, Approval and Control of chemical substances (REACH Regulation) which requires updating of the registration or the chemical safety report or results in another obligation according to the REACH Regulation, the customer shall reimburse us all expenses for which evidence is provided. Art. 53 of the REACH Regulation remains unaffected. We shall not be liable for delays in delivery caused by the notification of this form of use and performance of the applicable obligations as stipulated by the REACH Regulation. If, for reasons of health and safety or environmental protection, or due to other mandatory provisions, we are unable to consider this use an identified use and should the customer, against our advice, intend to use the goods in the manner which we have advised against, we shall be entitled to withdraw from the contract.

12. Claims for defects, compensation

12.1. Claims for defects are subject to the prerequisite that the customer has properly performed their duties to examine and give notice of defects according to Section 377 German Commercial Code [HGB].
12.2. Rejected goods must no longer be used without our explicit prior written consent. Where notification of defects is justified, we undertake to bear the costs of all expenses required for rectification of the defects, in particular transportation, travel, labour and material costs. This shall not apply insofar as the expenses increase as a result of the delivery item being subsequently delivered to a location that differs from the one specified in the contract. The buyer's rights according to Section 439(3) German Civil Code [BGB] shall not be restricted as a result.
12.3. Insofar as we are liable for a defect in goods purchased from us, we are entitled to correct the defect or replace the relevant product at our discretion and within a reasonable period of time. The place of subsequent performance is our registered office (Karlsruhe, Germany). If this subsequent performance or replacement delivery fails, i.e. if it is impossible, unreasonable, rejected or unreasonably delayed, the customer shall be entitled to withdraw from the contract or to reduce the purchase price by a reasonable amount, where statutory requirements are present.
12.4. If a defect is attributable to us, the customer is entitled to claim for compensation exclusively according to the following provisions.
12.5. In the case that an essential contractual obligation is culpably breached (a material obligation), where statutory requirements are present, we shall be liable for compensation, but only limited to the foreseeable damages typically incurred, unless otherwise specified below. Material obligations are those which must be fulfilled as part of the proper execution of the contract in the first instance, the fulfilment of which the buyer may rely on and which if breached would jeopardise the achievement of the purpose of the contract.
12.6. The customer is entitled to assert claims for compensation against us, without restriction, according to the statutory provisions and at the statutory rate, if these are attributable to us, one of our legal representatives or vicarious agents and are based on
– a culpable loss of life, physical injury or damage to health, or
– an intentional or grossly negligent breach of duty, or
– the German Product Liability Act [Produkthaftungsgesetz], or
– a breach of a duty arising from an assumption of procurement risk or warranty.
12.7. Any further claims to compensation against us, our legal representatives or vicarious agents are excluded, regardless of their legal basis.
12.8. Section 478 German Civil Code [BGB] remains unaffected by the above provisions.
12.9. The bases of claims relating to data protection law are not covered by this limitations of liability clause.

13. Limitation period

13.1. Claims on the part of the buyer concerning material defects shall become time-barred after one year, unless
a) the goods supplied by us include an item which has been used for a building in accordance with its normal use and has caused a defect in the latter, or
b) the defect was maliciously concealed or is based on an intentional breach of duty by us or our legal representatives or vicarious agents, or
c) they relate to a culpable loss of life, physical injury or damage to health, or
d) they relate to claims based on a warranty or procurement risk assumed by us, or
e) they relate to claims to compensation (with the limitation of Item 13.2.).
The statutory limitation period applies in the cases above.
13.2. Claims to compensation which are based on refused subsequent performance are subject to a shortened limitation period of one year if subsequent performance has not been requested within the period shortened to a year for claims concerning material defects.
13.3. The statutory limitation periods also apply in the event of claims according to Section 445a German Civil Code [BGB] if the last contract in the supply chain is a consumer goods contract in the meaning of Section 474 German Civil Code [BGB].

14. Withdrawal by the customer

If the purchased item is defective, the legal right of the purchaser to withdraw from the contract shall not be subject to our culpability. In all other cases, the customer shall only be entitled to withdraw in the event that we are in breach of obligations for which we are accountable.

15. Return of defect-free goods

Insofar as we accept the return of defect-free goods, this shall only apply to new goods in original packaging. We are entitled to charge the customer any third-party costs which we incur as a result of the return up to 25% of the list price of the goods.

16. Consequences of deterioration in the financial circumstances of the customer

16.1. In the case of payment arrears and justified doubts concerning the solvency or creditworthiness of the customer, we are – irrespective of our other rights – authorised to request guarantees or advance payments for outstanding deliveries and set all claims arising from the business relationship to payable immediately.
16.2. We may withdraw from the contract in the event that we become aware of the suspension of payments, the opening of insolvency or judicial settlement proceedings, the refusal of insolvency due to lack of assets, bill protests or cheque protests or any other tangible indications that the financial circumstances of the customer have deteriorated.

17. Retention of title

17.1. The retention of title agreed to hereinafter serves to safeguard all existing and future claims that we may have against the customer as a result of the supply relationship between the two parties.
17.2. We, the seller, shall retain the right to ownership of the goods delivered to the customer until full payment has been made for all secured receivables. The goods and any goods taking their place and subject to retention of title under the following provisions shall hereinafter be referred to as "Reserved Goods".
17.3. The customer shall ensure the safekeeping of the Reserved Goods on our behalf at no charge.
17.4. The customer shall be entitled to process and resell the Reserved Goods in normal business transactions until such time as a claim is made against them. It is not permitted to pledge Reserved Goods or to use Reserved Goods as collateral.
17.5. If the Reserved Goods are processed by the customer, it is agreed that they will be processed in our name and for our account and that we will acquire direct title to them or – if they are processed together with items from more than one owner or the value of the processed item is greater than the value of the Reserved Goods – we will acquire (partial) joint ownership of the newly-created item. In the event that we do not acquire such title to goods, the customer shall herewith transfer future ownership or, to the extent specified above, joint ownership of the newly-created item to us as a security. If the Reserved Goods are compounded or inseparably combined with other items to form a single item and if one of the other items is considered the main item, then, insofar as the main item belongs to us, we shall transfer the co-ownership of the single item proportionally to the customer in the ratio stated in sentence 1.
17.6. In the event of the resale of Reserved Goods, the customer shall, by way of a security, herewith transfer to us the resulting accounts receivable from the buyer or our pro rata share in the case of joint ownership. The same shall apply to any other claims that take the place of Reserved Goods or otherwise accrue with respect to Reserved Goods, such as insurance claims or claims arising from unauthorised actions in case of loss or irreparable damage. We hereby authorise the customer on a revocable basis to collect receivables assigned to us on its own behalf. We shall only be entitled to revoke this authorisation for collection in the event that a claim is made.
17.7. In the event that third parties lay claim to the Reserved Goods, particularly through seizure, the customer shall without delay inform them of our ownership and notify us in writing, so that we can take action to enable assertion of our ownership rights. Unless the third party is in a position to reimburse us for legal expenses and out-of-court settlement costs, the customer shall be liable for our loss.
17.8. We undertake to release the Reserved Goods as well as any goods or claims superseding the Reserved Goods should their value exceed the amount of the secured receivables by more than 50%. The selection of the securities subsequently to be released shall be incumbent upon us.
17.9. Should we withdraw from a contract due to a breach of contract on behalf of the customer, particularly with regard to delayed payment (enforcement event), then we shall be entitled to demand that the Reserved Goods be returned.

18. Export control clause

18.1. When transferring our goods or services performed by us to third parties, the customer undertakes to observe and comply with the relevant applicable national and international legal regulations with regard to export control. This includes, but is not limited to, compliance with legal regulations governing export control in the European Union, the United States of America and the Federal Republic of Germany.
18.2. Prior to transferring our goods or services performed by us to third parties, the customer undertakes to ensure by means of suitable checks and measures that such transfer or provision does not constitute a violation of embargo regulations, including but not limited to those applicable in the European Union and the United States of America, also taking into account any anti-circumvention provisions.
18.3. The customer also undertakes to observe the provisions of European and US sanctions lists with regards to any business activities with organisations, individuals and companies listed therein. The customer also undertakes to guarantee that the use or transfer of our goods and services does not serve any military or arms-related purposes that are prohibited or require authorisation, unless the necessary authorisations have been granted.
18.4. If deemed necessary as a result of any checks, the customer is obligated, upon request and without delay, to provide us with all information regarding the end use, end recipient and intended use of our supplied goods and services.
18.5. The customer shall fully indemnify us against all claims asserted by the recipient as a result of the failure to comply with the above legal obligations regarding export control and undertakes to compensate us for the losses and expenses arising from such claims.

19. Information on brands and other industrial property rights

The goods we supply may be subject to intellectual property rights such as brands, utility models or other industrial property rights. Please contact the relevant manufacturer or owner for information on brands and other industrial property rights. We are happy to help you in this process.

20. Use of customer data, data protection

On this subject, we refer to our following data protection notice and to our Privacy Policy Statement, which you can access on our website at
https://www.carlroth.com/en/en/Datenschutzerklaerung

21. Place of performance, place of jurisdiction, choice of law

21.1. Unless specified otherwise in the order confirmation, the place of performance for all obligations arising from the contractual relationship is Karlsruhe, Germany.
21.2. The exclusive place of jurisdiction for all disputes arising from the contract is, if the customer is a merchant, a legal person governed by public law or a separate legal entity under public law, the competent court for our head office. However, we are also entitled to bring action against the customer in their domicile court. Peremptory legal provisions concerning the exclusive place of jurisdiction for disputes shall not be affected by this provision.
21.3. The laws of the Federal Republic of Germany exclusively govern the relationship between us and our customer. The United Nations Convention of 11th April 1980 on the International Sale of Goods (CISG) does not apply.

Alphabetical Index

A

Accessories for solid-phase extraction (SPE) 570-571
Acid buffers 341
Agar-based dip slides 273-279
Agarose gel chambers 56-71, 74, 76, 78, 81-82, 84
Albumins 191-193, 195-196, 228, 352
Amino acids 444-448
Antibiotics 361

B

Basic reagents for culture media 352
Biological buffer salts 167
Bleaching solutions 383
Blocking reagents 217
Blotters 96-99
Blotting membranes 101-105
Blotting papers 106-107, 540
Blotting reagents 108
Blue light excitation 56-57, 93-94
Blue/white selection 140
Buffer mixtures 164
Buffer salts, biological 167

C

Calibration standards, see standards 630
Capillary electrophoresis 84
Carbohydrates 506, 509-511
Catalysts 430
Cell culture reagents 228
Chemiluminescence substrates 189
Chromatography accessories 536, 539
Chromatography columns 543-545, 555-556
Coenzymes 178
Crosslinking reagents 99
Cryo-preservation 373
Culture media additives 335

D

Dot blotters 99
Dry culture media, granulated 332
Dyes 405

E

Electrophoresis accessories 90-92
Electrophoresis chambers 56-71, 74, 76, 78, 81-82, 84
Electrophoresis chambers for sequencing gels 84
Electrophoresis chambers, horizontal 56-71
Electrophoresis chambers, vertical 74, 76, 78, 81-82, 84
Electrophoresis comb 58-59, 61-70, 75, 79, 82-84
Electrophoresis gel casting trays 65-66, 91
Electrophoresis gel documentation 93
Electrophoresis spacers 75, 78, 81, 83-84
ELISA 217
Eluent mixtures . . . . .
Embedding agents 391-392
Empty cartridges 213
Enhancers 220
Enzyme inhibitors 179
Enzymes 173
Essential oils 505
Ethidium bromide 52, 418
Euparal 421
Extrachel 201-203
Extracts 353, 356

F

Fatty acid references 498
Filtration and extraction agents 680
Fixing agents 420-424
Fixing agents for cytology 389
Fixing agents for electron microscopy 390
Flat-bed electrophoresis 71
FTA system 131-133

D

DAB kits 187
Decontamination reagents 145-146
Density gradient centrifugation 133
Desiccants 666
Detection Reagents for TLC 538
Detergents 168
DipSlides 273-279
DNA markers 44
DNA quantification 417
DNA synthesis 439

G

Gel blotting papers 107
Gel buffer solutions 28-31, 47, 218
Gel casting trays 65-66, 91
Gel documentation systems 93-94
Gel drying 95
Gel elution 119-122
Gel evaluation 93-94
Gel extraction 118
Gel loading buffers 32-33
Gel scoops 92

Alphabetical Index

G

Gel solutions 12
Gel staining 46, 49, 52
Gel transfer membrane 92
Gelling agents 27, 357-360
Glass plates. 74-75, 77-79, 81, 83-84
Gradient mixers 91
Gradient thermal cyclers 151, 153
Granulated dry media 332

H

H&E staining 397
Haematoxylin solutions 398-399, 401
Hemalum solutions 398-399, 401
Histology accessories 425-426
Horizontal electrophoresis chambers 56-71
Horizontal gel chambers 56-70
HPLC columns 543-546
Hybridisation reagents 109-110, 141-142

I

IMAC 201, 204, 206, 208
Immersion oils 425
Immunohistochemistry 219
Inhibitors 179-185
Intermedia 380-382
Ion chromatography 541
Ionic liquids 480
Ion pair reagents 547

L

LC-MS eluent mixtures 548
Levelling tables 91
Liquid chromatography 543
Luminous stencils 224
Lumitester 257
Lymphocyte separation media 234-235

M

Magnetic beads 124-128
Molecular sieves 675
Mycoplasma 231

N

Nitrocellulose membranes. 101-103
Nucleotides 154
Nutrient media for molecular biology 344

O

Oil, grease 500, 502
Organic standards 488
Oxidising agents 472

P

PAGE gel chambers 74, 76, 78, 81-82, 84
PAGE markers 36, 217
PAGE pre-cast gel solutions 12-19, 28, 47
PAGE reagents 17
PAGE spacers 75, 78, 81, 83-84
Paper chromatography 540
Paraffins. 392
PCR reagents 158
Peptide synthesis 451-454, 456-458
Peptones 270-271, 319, 333, 353-355
Phenols 112-113
Phytochemicals 489-490, 492-495
Plasmid extraction 114
Plasmid isolation 114
Plasmids 139
Polymerase (thermally stable) 149
Polysucrose solution 236
Power supplies 85-89
Pre-cast gel solutions 12
Pre-cast gels 11
Primary standards 488
Primers 160
Protein gel chambers 74, 76, 78, 81-82
Protein gel staining 46
Protein isolation 129-130, 138, 200, 213
Protein purification. 213
Protein quantification 214-215

Q

QuEChERS mixes 572

Alphabetical Index

R

Random primer kits 160
Reactors for peptide synthesis 457
Ready-made buffers 109-110, 141
Ready-made culture media 267, 273-283, 290-292
Ready-made sequencing solutions 15-16
Ready-made solutions 12
Reagents . . . . .
– for DNA synthesis 441
– for PCR 158
– for cell culture 228
Reference standards 489-490, 492-495, 497
Reference substances 489-490, 492-495
Replicator stamps 376

S

Scintillation 216
Semi-dry blotters 98
Sequencing chambers 84
Solid-phase extraction (SPE) 560-568
Solvents . . . . .
– Alternative solvents 482
– Deuterated solvents 484-485
– Dried solvents 477-478
– Green solvents 481-483
– Headspace-grade solvents 526
– HPLC solvents 549
– Ionic liquids 480
– LC-MS solvents 547-548
– Solvents for DNA synthesis 443
– Sovents for residue analysis 525
– Solvents for synthsesis 478-479
Sorbents 552
Spacers 75, 78, 81, 83-84
SPE columns 560-568
Spray fixative 389
Starch 355
Staining solutions 394
Streptavidin proteins 210
Stripping buffers 221-222
Substrate kits 187
Substrates 186-187, 189-190
Synthesis building blocks 459-460, 466, 468-470
Synthesis reagents 471-474, 476

T

Tank blotters 96-97
Taq polymerase 149
Thermal cyclers 151, 153
TLC ready-made plates 527, 529-534
TLC separation chambers 536
TLC Spray Solutions 537
Transfection reagents 237-239
Transfer membranes 101-105

U

Ultrapure reagents 658-659

V

Vertical electrophoresis chambers 74, 76, 78, 81-82, 84
Vertical gel chambers 74, 76, 78, 81-82, 84
Vitamins 513

W

Water analysis 265-266, 608-612
Western-blot immuno trays 224
Western blot enhancers 219-220
Western blot membranes 103-104
Western blot substrates 187-188

X

Xylene replacements 380

Carl Roth GmbH + Co. KG
Schoemperlenstraße 3-5 · 76185 Karlsruhe · Germany

Carl ROTH is synonymous with customer proximity, sustainability and innovative products.

This product catalogue provides you with an overview of all of our new products as a supplement to our full 2022/23 catalogue. You will find everything in the areas of laboratory equipment, life sciences and chemicals here.

By once again not printing a new edition of the full catalogue, we – together with you – can save tonnes of paper and CO_2. With your help, Carl ROTH is making the world just a little bit greener. We would like to take the opportunity to thank you for your support in this.

And our online store is open around the clock for you, making your purchasing more effective and also making it easier to find information. It offers a wealth of information, documents, images and videos on many of our products. Likewise, given that we are not immune to price changes in these turbulent times, you can also always see the latest prices online.

However, for us, less paper also means more service – for example in the form of our digital catalogues and special offers. And, most importantly of all, we will continue to support you with tailored advice. Follow us on our social media channels and subscribe to our newsletter so as not to miss any promotions, competitions or scientific articles.

We are proud to be able to improve the information and resources available to you, while also making a valuable contribution to protecting our environment. With this in mind, we hope you will join us in looking forward to a bright future and to the difference we can make together.

Kind regards,
André Houdelet

Managing Director
André Houdelet

Your partner for high-quality performance

With 5 plus points to your advantage:

Quality

All products in the ROTH product range are subjected to strict in-house checks. This enables us to ensure you receive consistently high product quality.

Logistics

Direct dispatch! Delivery fast, simple and reliable!

Special rates & Discount

Fair and calculable, i. e. a quantity discount of 5 % from 6 packs and 10 % from 24 packs of same items will be granted. Please check with us for special rates on bulk amounts or standing orders.

Customer advice

Customer proximity and competence, i. e. we are here to advise you before and after buying.

Returned & Take-Back Goods

You can take advantage of our 10-day exchange and take-back guarantee. Just send the goods to us in their original packaging together with a copy of the invoice or delivery note and your modified order. We are unfortunately unable to pay the costs for postage and packing. We request you to get in touch with us for any legitimate complaints which require goods to be returned. We shall then authorize our forwarding agent immediately to pick up the goods in question. In the event of goods being returned independently and without prior notice, postage and packing costs can only be refunded for the same amount as agreed upon with our forwarding agent. Further information on returning goods can be found in the terms of sale and delivery at the back of this catalogue.

A private enterprise with tradition

Best service for 144 years

1879

CARL ROTH is established as a “material goods, colonial goods and dyes merchant and chemists” in Karlsruhe.

1891

CARL ROTH is appointed as an “official purveyor to the Grand Duke of Baden“.

1899

ROTH publishes its first sales and mailorder catalogue.

1907

CARL ROTH operates the first delivery van in Karlsruhe.

1928

The laboratory chemicals department opens.

Quality, Environment, Safety

We take responsibility

Our QM system celebrated its 25th birthday in 2020. Over this time, we have continuously adapted our QM system to the growing market demands in order to meet quality requirements and to continue to deliver a high standard of quality.

CERTIFICATE

The Certification Body
of TÜV SÜD Management Service GmbH
certifies that

Carl Roth GmbH + Co. KG
Schoemperlenstraße 1-5, 76185 Karlsruhe, Germany
for the scope of application
Distribution of
labware and chemicals

An der Mole 5, 76187 Karlsruhe, Germany
G.-Braun-Str. 11, 76187 Karlsruhe, Germany
for the scope of application
Production and distribution of
labware and chemicals

has established and applies
a Quality and Environmental Management System.
Performance of audits (Order No. 70001407)
has furnished proof that the requirements under:

ISO 9001:2015
ISO 14001:2015

are fulfilled.

The certificate is valid from 2022-07-06 until 2025-07-05.
Certificate Registration No.: 12 100/104 20247 TMS.

Head of Certification Body
Munich, 2022-06-23

The guiding principle for an environmentally conscious corporate management has always been a fundamental part of our business conduct. In addition to fulfilling our statutory environmental commitments, therefore, we always strive to define environmental protection targets and to optimise our operating procedures taking into account environmental aspects.

Our certified environmental management system helps us to systematically pursue this aim.

By participating in the *Responsible Care*® programme of the chemical industry, we have undertaken a commitment to meet the goals set by the programme.

These goals are to promote sustainability, to show product responsibility, to ensure safety, to improve health protection in the workplace and to better protect the environment.

Innovative use of combined heat and power technology when printing this product reduced CO_2 emissions by up to 52% in comparison to conventional methods in Germany.

minus 52% CO_2

SOLVAGREEN® - Green Solvents
Our brand for alternative solvents

Green Solvents serve as an alternative for environmentally hazardous and harmful reagents, and thus contribute to risk minimisation.

1945

The highly efficient manufacturing and bottling department enters service.

1958

ROTH unveils its proprietary high-pressure laboratory autoclaves at the ACHEMA Fair.

1971

ROTH is awarded a patent on its Mercurisorb-ROTH® high-speed mercury absorber.

1989

The „Association of Independent Businesses“ presents its award to ROTH in recognition of its environmentally friendly business practices.

1990

CARL ROTH publishes its first general product catalogue for its Labware, Life Science and Chemicals product lines.

Plastics – Technical data / Key to symbols

What about the packaging material?

We are making our contribution to the environment:

- By trying to use as little packaging material as possible. Unfortunately we cannot do without packaging completely as it has the important function of not only protecting the product, but also man and environment from any harm.

- By using environmentally friendly and recyclable packaging material as far as possible. As early as the beginning of the 80s, we stopped using polystyrene inserts for packing solvents, acids and alkaline aolution. We now use special boxes for hazardous goods made of 100 % recyclable corrugated cardboard. Paper is used as stuffing material.

Please also help by putting the **packaging in the recycling container after use**. Our boxes are labelled with the recy-symbol; they can be easily stored when cut open and pressed together without taking up much space, prior to being put out for recycling.

Our **plastic containers made of polyethylene (PE)** can also be turned in for recycling after they have been completely emptied and cleaned of all harmful substances.

The same applies to **tin flasks and canisters** once emptied and pollutent-free.

Sterilizing plastics – Autoclaving

Recommended autoclave cycle:
20 minutes at 121 °C, 1 bar

1. Clean autoclave goods thoroughly prior to sterilizing.
2. Rinse off used detergent with distilled water.
3. Unscrew caps to enable pressure compensation.
4. Only autoclave containers with stop-cock when empty, screw off stop-cocks.

   Following plastics can be autoclaved repeatedly: ETFE, PFA, PTFE, FEP, E-CTFE, PMP/TPX®, PP, SI, PVDF; PES, PSU

Note:
Polycarbonate PC and Polysulfone PSU are also autoclavable, however this reduces the mechanical stability. This can result in material failure particularly when under high mechanical strain, e.g. during centrifuging.

Please contact us should you have any further questions regarding packaging.

1993

Construction of a modern high-bay warehouse.

1995

First certification of the quality management system to DIN EN ISO 9001.

2005

The chemicals department moves into modern premises on the Karlsruhe-Rheinhafen industrial estate.

2013

An extension with an automated small parts warehouse is added to the Chemicals and Life Science building, enlarging its area to approx. 8,000 m². CARL ROTH now stocks over 21,000 products in its warehouse.

Abbreviations / temperature resistance of plastics

DIN-Abbrev.	Description	Application temperature (°C)		
		from	to	
ABS	acrylonitrile butadiene styrene	-40	+85	(+100)

PE	polyethylene	-40	+80	(+90)
PES	polyethersulfone	-100	+150	
PET	polyethylene terephthalate	0	+60	
PETG	polyethylene terephthalate modified with glycol	0	+65	
PFA	perfluoroalkoxy alkane	-200	+260	
PMMA	polymethyl methacrylate	-40	+85	(+90)
PMP (TPX®)	polymethylpentene	0	+150	(+180)
POM	polyoxymethylene	-40	+90	
PP	polypropylene	-10	+110	(+140)
PS	polystyrene	-20	+70	(+80)
PSU	polysulfone	-50	+150	(+180)
PTFE	polytetrafluoroethylene	-200	+260	
PU	polyurethane	-30	+60	(+70)
PVC	polyvinyl chloride	-20	+80	
PVDF	polyvinylidene fluoride	-40	+105	
SAN	styrene acrylonitrile	-20	+85	(+95)
SI	silicone rubber	-50	+180	
TPE	thermoplastic elastomer	-50	+121	

Temperature in ( ) short-term

All data in this table are approximate data and refer exclusively to raw plastic products; they can therefore only be regarded as indicative recommendations. As the temperature resistance may vary with different conditions of manufacturing or chemical influences, suitability tests by the user are highly recommanded.

No legal claims can be derived from this information; nor do we accept any liability for it.

Key to symbols

NEW / + — News and programme extensions

A 121 °C — Autoclavable products. Please also note any additional instructions when autoclaving.

Temperature resistance:
Safe to freeze (approx. -10/-20 °C)

Suitable for low temperatures (approx. -70/-80 °C)

Suitable for liquid nitrogen (gaseous phase / -196 °C)

See catalogue text for detailed information.

ready-to-use — Ready-to-use products and reagents

S — Sterile products

All products identified as being particularly temperaturesensitive are shipped **in special ice boxes with freezer packs or in dry ice.**

ROTH for Future — Products, with optimised manufacturing process in terms of sustainability.

2014
Succsesfull participation in the ECOfit programme sponsored by the state of Baden-Württemberg.

2014
Participation in the Responsible Care® programme.

2015
Relaunch of the new ROTH Online Shop.

2016
Certification of the corporate environmental management system according to ISO 14001 for the sustainable environmental protection.

2019
140th anniversary of CARL ROTH.

2020
Opening of the third plant with new logistics centre and automatic small parts warehouse and approx. 7,000 m² of additional storage space.

Reaction vials BIO-CERT® 1.5 ml

BRAND. Material: PP. Non-sterile. Autoclavable: yes.

- BIO-CERT® PCR quality: free of DNA, RNase/DNase, pyrogens and PCR inhibitors
- Frosted labelling space on the side
- Graduation every 100 µl
- Tightly sealed snap-on lid
- Easy to open and close the lid with just one hand

Not a medical device / Not an IVD product

Centrifuge tube Snap Cap

Semadeni. Material: PP. Autoclavable: yes.

Non-sterile centrifuge tubes with snap-lock mechanism enable one-handed opening and closing. With graduation and labelling area. DNase/RNase-free, pyrogen-free and not cytotoxic. Suitable for incubation, centrifugation and storage of samples. **Note:** the recommended fill quantity when centrifuging is 80% of the max. fill volume.

Not a medical device / Not an IVD product

Made in Germany

Wide mouth bottle CircularLine with GL thread

Semadeni. Material: LDPE with a recycling ratio of renewable raw materials of over 30 %. Transparent. Screw-cap closure made of PP.

Universally applicable laboratory flask with GL thread. Compatible with diverse laboratory equipment such as bottle-top dispensers or burettes.
Temperature stable from -100 to +80 °C.
Note on material: made from sustainable LDPE with a recycling ratio of renewable raw materials of over 30 %. These 30 % renewable hydrocarbons come above all from the chemical recycling of waste products such as plant-based cooking oil waste or residues from plant oil production. The raw material has the same chemical and thermal properties as the traditional LDPE based purely on crude oil.
The bottles can be reused, and disposed of at the end of their service life like traditional LDPE bottles, via the standard recycling process.

Delivery incl. screw-cap closure made of polypropylene (PP).

ROTH for Future

Made in Germany

Wash bottle CircularLine

Semadeni. Material: LDPE with a recycling ratio of renewable raw materials of over 30 %. Transparent.

Wash bottles with GL threads and large neck for convenient filling of the medium. The length of the stem (supplied original height 30 cm) can be tailored to the individually desired dimension with shears.
Note on material: made from sustainable LDPE with a recycling ratio of renewable raw materials of over 30 %. These 30 % renewable hydrocarbons come above all from the chemical recycling of waste products such as plant-based cooking oil waste or residues from plant oil production. The raw material has the same chemical and thermal properties as the traditional LDPE based purely on crude oil. The bottles can be reused, and disposed of at the end of their service life like traditional LDPE bottles, via the standard recycling process.

Delivery incl. screw-cap closure and stem.

Vol. (ml)	Ø (mm)	Height (mm)	Thread	Art. No.	Pack Qty.	€
125	51	98	GL 32	**1NX3.1**	1 unit(s)	6,35

1,000	93	196	GL 45	**1NX6.1**	1 unit(s)	9,95

Vessels and bottles

Made in Germany

Wash bottle with venting valve, wide neck

Bürkle. Material: LDPE, transparent yellow with light protection.

The leak-proof venting valve in the screw cap enables overpressure to be released and substantially prevents leakage, dripping or escape of the liquid from the stem, e.g. in the case of temperature fluctuations. Wide neck opening enables safe filling.
Optionally available with printed text according to GHS with substance name in German, English, French and Spanish, hazard and safety information (H statements/P statements) according to GHS, GHS pictograms and CAS number, or with no printed text.
Note: the chemical resistance of the spray bottles is limited when aggressive filling media are used. The bottles should therefore be replaced regularly and not used for analytical or critical applications.

Funnels

Disposable fluid funnel

Bürkle.

Fluid funnel with hanger eyelet. For the safe filling and decanting of liquid samples using bottles and containers with narrow filling openings. Suitable for filtering when used with filter paper. For use in the laboratory, clean room or when collecting samples in the cosmetics, pharmaceutical, food or feed industries and in any other areas where a high degree of cleanliness is crucial.

- Compliant with the EU food directives and FDA guidelines
- Manufactured in a clean room (Class 7)
- Individually packed and optionally sterilised
- For single use

LaboPlast® Bio
Non-sterile. Made of BIO-PE.

Multi-tube rack ONERACK® for tube Ø 10–30 mm

ROTH SELECTION. Material: PP. Autoclavable: yes.

Flexible rack for the use of many different sample vessels. Test stand can optionally be combined with two inserts.

Six inserts are included:

- Two inserts with 20 slots for tube Ø 10–13 mm (5/7.5/10 ml)
- Two inserts with 20 slots for tube Ø 13–17 mm (5/15 ml)
- Two inserts with 6 slots for tube Ø 25–30 mm (25/50 ml)

Inserts can be swivelled into a lower or upper position, and are therefore suitable for high and low tubes. Numbered slots, drop-shaped for better hold.

Delivery incl. 6 inserts.

Precision tweezers ROTILABO®

ROTH SELECTION.

Handmade for perfect tip symmetry and balance. Polished edges,scratchproof and glare-free, satin-finished surface.

Application examples

Microscopy preparation, sample handling, precision manufacturing, electronics industry, watch production, general laboratory applications.

Not a medical device / Not an IVD product

Straight DX high-alloy stainless steel

Material: stainless steel DX (high-alloy, 1.4539). Autoclavable: yes. Extra-fine tips, ideal for handling extremely small, sensitive materials and grids. Perfectly suited to use under the stereo microscope.

- 95% anti-magnetic
- Temperature stability up to +450 °C
- Very good resistance to corrosion

Type	Tip thickness (mm)	Tip width (mm)	Length (mm)	Width (mm)	Opening width (mm)	Art. No.	Pack Qty.	€
3	0.05	0.10	120	10	11	**1P2N.1**	1 unit(s)	29,55
5	0.05	0.10	110	10	11	**1P2P.1**	1 unit(s)	33,25

Straight NC stainless steel alloy

Autoclavable: yes.

- 100% anti-magnetic
- Temperature stability up to +800 °C
- Great corrosion resistance against most chemicals, salts and acids

Type	Tip thickness (mm)	Tip width (mm)	Length (mm)	Width (mm)	Opening width (mm)	Art. No.	Pack Qty.	€

Microscope slides, coverslips

DURAN WHEATON KIMBLE

Microscope slides

DWK Life Sciences. Material: soda-lime glass.

- Ideal for microscopy, planarity and thickness distribution remain within very tight tolerance ranges
- Glass features high visual homogeneity, making it virtually free from surface defects, inclusions, streaks and bubbles
- The edges of the glass slides are uniform and crystal clear, reducing the risk of breakage along the edges
- Excellent wettability
- According to ISO 8037-1

Technical specifications:

DURAN WHEATON KIMBLE

Coverslips thickness 1

DWK Life Sciences. Material: borosilicate glass.

- Thickness no. 1 (0.13 to 0.16 mm)
- Virtually free from surface defects, inclusions, streaks and bubbles and unwanted striations thanks to high optical homogeneity
- Highly transparent and colourless, preventing colour distortions
- Absorption-free within the visible spectrum
- Very consistent wettability
- High planarity

Not a medical device / Not an IVD product

Microscope slides, coverslips

Coverslips thickness 1

Marienfeld. Material: borosilicate glass from hydrolytic class I.

Applications: examinations using light and fluorescence microscopy, especially in medicine and biology.

- Thickness no. 1 (0,13–0,16 mm)
- Absolutely colourless, completely clear, suitable for fluorescence microscopy
- High light transmission
- Refractive index tailored to microscopes
- Low inherent fluorescence
- Low flatness deviation, exact compliance with thicknesses
- Good wettability on both glass surfaces
- Low alkali content encourages cell growth
- Ready-to-use
- Suitable for use in coverslippers
- Acc. to DIN ISO 8255

Purpose: coverslips are accessories for in vitro diagnostic examinations in optical microscopy and are used to cover specimens for archiving purposes.

Microscope slides, coverslips

Coverslips thickness 1.5H

Marienfeld. Material: borosilicate glass from hydrolytic class I.

- 1.5H thickness (0.17 ±0.005 mm), specially for high-resolution precision instruments
- Absolutely colourless, completely clear, suitable for fluorescence microscopy
- Refractive index 1.524 to 1.527 at 546.07 nm

Ideal for lenses with a high numeric aperture and high resolving power, e.g.:

- Dry lenses (air immersion): N.A. >0.7
- Water immersion lenses: N.A. >1.0
- Glycerine immersion lenses: N.A. >1.2
- Oil immersion lenses: N.A. >1.3

Purpose: coverslips are accessories for in vitro diagnostic examinations in optical microscopy and are used to cover specimens for archiving purposes.

Bowie-Dick single use test pack stericlin®

ROTH SELECTION.

Indicator for autoclave monitoring

Steam penetration test for daily function monitoring and quality assurance of the steam steriliser according to DIN EN ISO 11140-4. Free from heavy metals and toxic substances.

Application:

- Place the test pack in the steriliser
- Carry out the Bowie-Dick test procedure
- Remove the test sheet
- Review the result: in the event of complete steam penetration, the indicator will evenly change colour from blue to pink. In the event of a malfunction, however, no even colour conversion will occur. Following a successful colour conversion, the colour hue of the indicator will no longer change. This ensures complete reliability of documentation

Screw caps SILICOSEN®

Hirschmann. Material: silicone. Autoclavable: yes.

Screw caps can be easily put on and removed. Seated securely due to sealing lip, very good air permeability due to regular pores. Ideal for preparing and sterilising culture media and for cultivating aerobic micro-organisms.

- Low water evaporation rate
- Specially suitable for shaken cultures
- Washable and reusable
- Can be dry sterilised up to 180 °C

Culture plug SILICOSEN®

Hirschmann. Material: silicone. Autoclavable: yes.

With regularly spaced pores, ideal for preparing and sterilising culture media and for cultivating aerobic micro-organisms.

- Good air permeability with low evaporation
- Ideal for cultures in long-term tests
- Washable and reusable
- Can be dry sterilised up to 180 °C

Microlitre pipettes

Multi-channel microlitre pipette Pipetman® G

Gilson.

Adjustable air-cushion plunger pipette offering one of the lowest pipetting forces on the market. These pipette models are noted for their robustness, accuracy, ease of maintenance and long life.

- Easy dismantling and maintenance
- Despite the low pipetting force, the initial pressure point is easy to feel during pipetting
- Conformity certified according to DIN EN ISO 8655 with test protocol

Microlitre pipettes

Multi-channel microlitre pipette Pipetman® L

Gilson. Autoclavable: yes.

Lightweight and safe yet robust quality pipette. Pipette with improved pipetting strength, increases the performance without sacrificing on comfort.

- Patented Lock/Unlock System for safe pipetting
- The set volume is locked during the first pipetting operation
- Easy release of the volume adjustment lock
- Ergonomic handle
- Adjustable tip ejector for left- and right-handed users
- 2D identification code
- Fully autoclavable

Pipette tips and accessories

Pipette tips Sapphire

Greiner Bio-One. Material: PP. Non-sterile. Autoclavable: yes.

Suitable for ROTH, BRAND, Eppendorf, Gilson, Sartorius, Socorex, Starlab.

- Smooth surface minimises liquid residues and prevents the loss of samples
- Thin tip shape reduces risk of contamination
- Excellent sample visibility thanks to ultra-transparent polypropylene
- Flexible tip sleeve for minimal insertion and ejection force
- With visible graduations
- Free of RNase/DNase, human DNA and PCR inhibitors
- Pyrogen-free and non-cytotoxic

Not a medical device / Not an IVD product

ROTH for Future

A 121 °C

Sustainability information:
The sustainability-focussed product design reduces consumption of raw materials.
Boxes are autoclavable at least 50 times. Box inserts are made of recycled raw material.
Cardboard packages are made of recycled material.

Filtration

Glass/quartz fibre filters 42
Water treatment 42

Glass fibre round filters

Macherey-Nagel.

For fast filtration with simultaneously high retention.
Very good resistance to most organic and inorganic solvents (not resistant to hydrofluoric acid).

- Filtration speed, air: 15 s
- Surface weight: 70 g/m²
- Retention range: ≥0,6 µm
- Thickness: 0.35 mm

Type: MN 85/70
Material: borosilicate glass fibres, organic binding agent.

Most commonly used glass fibre filter with high mechanical stability for general use. Temperature stable up to 200 °C.

Type	Ø (mm)	Art. No.	Pack Qty.	€

Water still Puridest made of stainless steel

Lauda.

Fully automatic device for creating ultra-pure distilled water.
Tubular heating element and still made of stainless steel.
Housing made of galvanized sheet steel, powder-coated.

- Energy saving thanks to distilling heated cooling water
- CO_2 degassing opening on the condenser
- Still easily accessible for cleaning purposes

Please pay attention to supply voltages!

PD series
Mono-still with no reservoir for tabletop use.

- Tubular heating element, still and condenser made of stainless steel
- Distillate drawing via drain pipe on the condenser
- Thermostatic low-water safety device
- Manual cooling water regulation via outlet temperature

Technical specifications:

Art. No.	**1P82.1**	**1P83.1**
Type	PD 2	PD 4
Production output	2 l/h	4 l/h
Heating output	2000 W	3000 W
Conductivity mono destillate at 25 °C	2.3 µS/cm	
Width	280 mm	
Depth	250 mm	
Height	490 mm	
Max. operating pressure	2 bar	
Connection	water cooling intake: ½″, water cooling drain: ¾″	water cooling intake: ½″, water cooling drain: ½″
Water consumption	0.33 l/min	0.67 l/min
Intake power	2,000 W	3,000 W
Mains connection	230 V, 50/60 Hz	
Power cord	with angled safety plug (CEE7/7)	

Type	Art. No.	Pack Qty.	€
PD 2	**1P82.1**	1 unit(s)	1.320,00
PD 4	**1P83.1**	1 unit(s)	1.430,00

PD R series
Mono-still with reservoir, suitable for wall mounting and tabletop use.

- Tubular heating element, still, reservoir and condenser made of stainless steel
- Reservoir for distillate holds double the hourly output of the device
- Distillate tap with permanent and tilt drain positions
- Condenser (cooling coil) in the reservoir, easily replaceable
- Solenoid valve for controlling the water supply
- Water saving thanks to automatic switch-off function preventing unnecessary water consumption
- Electronic contamination monitoring of the still with distillation stop and visual cleaning indicator
- Automatically refills the reservoir after distillate drawing, controlled via electronic level detection
- Thermostatic low-water safety device
- Double-wall housing design

PD D series
Bi-still without reservoir, suitable for wall mounting and tabletop use.

- Tubular heating element and still made of stainless steel
- Condenser (cooling coil) 1st stage made of stainless steel, 2nd stage including spray prevention made of DURAN® borosilicate glass 3.3
- Mono-distillate tap stopcock made of borosilicate glass 3.3 with plugs made of PTFE, bi-distillate free-flow tap with dust protection cover made of borosilicate glass 3.3
- Solenoid valve for controlling the water supply
- Water saving thanks to automatic switch-off function preventing unnecessary water consumption
- Electronic contamination monitoring of the still with distillation stop and visual cleaning indicator
- Electronic level monitoring throughout the entire distillation process
- Double low-water safety function with float switch and thermostatic overtemperature protection switch
- Master switch and indicator lights for monitoring both distillation stages
- Double-wall housing design

Technical specifications:

Water still Puridest made of glass

Lauda.

Fully automatic device for creating ultra-pure distilled water.
Still, condensers and overflow made of DURAN® / borosilicate glass 3.3, heating elements with quartz glass casing, housing made of galvanised sheet steel, powder-coated.

- Energy saving thanks to distilling heated cooling water
- Water saving thanks to automatic switch-off function preventing unnecessary water consumption
- Solenoid valve for controlling the water supply
- Electronic level monitoring throughout the entire distillation process
- Water level check in the evaporator with automatic power disconnection if the water level is too low
- Electronic contamination monitoring system triggers an automatic water change for rinsing and cleaning the evaporator
- Condensers with droplet-repellent steam flow
- Condenser sterilisation via steaming
- Visible working process thanks to anti-fogging, shatterproof and easily removable front panel
- Distillate drawing on the right-hand side of the device via hose connection
- CO_2 degassing opening on the condenser
- Suitable for wall mounting and tabletop use

Please pay attention to supply voltages!

Accessories for Puridest water still

Lauda.

Hose set for PD series
Hose set consisting of hoses for water intake and drain (1.5 m each) as well as hose securing devices.

Designation	Suitable for	Art. No.	Pack Qty.	€
Hose set for PD series	PD 2, PD 4	**1PAL.1**	1 unit(s)	48,40

Hose set for PD R and PD D series
Hose set consisting of hoses for water intake and drain (1.5 m each) as well as hose securing devices.

Designation	Suitable for	Art. No.	Pack Qty.	€
Hose set for PD R and PD D series	PD 2 R to PD 12 R and PD 2 D to PD 8 D	**1PAN.1**	1 unit(s)	72,80

Hose set for PD G series
Hose set consisting of hoses for water intake and drain (1.5 / 1 m each), distillate tap (0.5 m) as well as hose securing devices.

Designation	Suitable for	Art. No.	Pack Qty.	€
Hose set for PD G series	PD 2 G to PD 8 G	**1PAP.1**	1 unit(s)	56,20

Hose set for PD DG series
Hose set consisting of hoses for water intake and drain (1.5 / 1 m each), distillate tap (0.5 m) as well as hose securing devices.

Designation	Suitable for	Art. No.	Pack Qty.	€
Hose set for PD DG series	PD 2 DG, PD 4 DG	**1PAT.1**	1 unit(s)	65,70

Accessories for Puridest water still

Lauda.

Dechlorinating filter with first filling

For removing chlorine from tap water.

Delivery incl. connections for pressure hose ½″ (inside Ø 12.7 mm).

Designation	Art. No.	Pack Qty.	€
Dechlorinating filter with first filling	**1PA7.1**	1 unit(s)	509,00

Replacement filling for dechlorinating filter

Filling should be replaced approx. every 6 months.

Designation	Art. No.	Pack Qty.	€
Replacement filling for dechlorinating filter	**1PA8.1**	1 unit(s)	120,00

Phosphate sluice with first filling

Prevents hardness minerals crystallising in the condenser due to phosphating of tap water. Usable between 4-15 dGH.

Delivery incl. connections for pressure hose ½″ (inside Ø 12.7 mm).

Designation	Art. No.	Pack Qty.	€
Phosphate sluice with first filling	**1PA9.1**	1 unit(s)	551,00

Replacement filling for phosphate sluice

Filling should be supplemented depending on use.

Designation	Art. No.	Pack Qty.	€
Replacement filling for phosphate sluice	**1PAA.1**	1 unit(s)	80,40

1 µm pre-filter with fine filter cartridge

For pre-cleaning untreated water and protecting the device against premature contamination.

Suitable for use with foodstuffs according to FDA requirements.

Delivery incl. connections for pressure hose ½″ (inside Ø 12.7 mm).

Designation	Art. No.	Pack Qty.	€
1 µm pre-filter with fine filter cartridge	**1PAC.1**	1 unit(s)	442,00

Replacement cartridge for pre-filter

Cartridge should be replaced approx. every 6 months.

Designation	Art. No.	Pack Qty.	€
Replacement cartridge for pre-filter	**1PAE.1**	1 unit(s)	39,50

Filter system 3-set with wall mount

Delivery incl. dechlorinating filter, phosphate sluice and pre-filter (each incl. first filling).

Designation	Art. No.	Pack Qty.	€
Filter system 3-set with wall mount	**1PAH.1**	1 unit(s)	1.790,00

Wall mount for a filter

For mounting any filter; incl. screws for attaching the filter to the wall mount.

Delivery without filter cartridge.

Designation	Art. No.	Pack Qty.	€
Wall mount for a filter	**1PAK.1**	1 unit(s)	29,60

Water treatment

Made in Germany

Ultrapure water system OmniaPure xs[touch] Blueline series

stakpure.

The OmniaPure xs[touch] Blueline device series supplies ASTM type I ultrapure water with the highest quality for analytical and life sciences applications, with a compact design optimised for resource conservation. The OptiFill[touch] control and monitoring unit, supplied as standard, enables convenient and precise filling of laboratory vessels. The recirculation function prevents biofilm formation.

- Compact design
- Space-saving mounting on a laboratory bench or optionally on a wall
- Usable with fully demineralised water
- Digital OptiFill[touch] control and monitoring unit with colour-touch display
- Three language settings available: DE, EN, FR
- Dispenser has a swivel range of up to 170°
- Sampling volume individually adjustable
- Can be operated with laboratory gloves
- With real-time TOC monitoring
- Adjustable limit values for conductivity and TOC
- Password access and error memory
- Integrated pressure reducers
- Leak sensor
- Permanent data storage for all quality parameters
- Innovative monitoring and display of the cartridge capacity
- RS 232 port and USB port
- Automatic voltage adjustment
- Ready to use, ready to connect, incl. filter cartridges

Technical specifications:

Typical applications: molecular biology and microbiology as well as cell culture media.

Delivery incl. OmniaPure xs[touch] Blueline ultrapure water system, pretreatment cartridge, ultrapure water cartridge, UV lamp, ultrafiltration module (UF) and sterile filter capsule (0.2 µm). Bio end filter available as an option.

Type	Art. No.	Pack Qty.	€
OmniaPure xs[touch] UV-TOC/UF	**1TET.1**	1 unit(s)	7.976,50

Water treatment

Made in Germany

Pure and ultrapure water system OmniaTap xs^{touch} Blueline series

stakpure.

The OmniaTap xs^{touch} Blueline device series represents the ideal system for providing small quantities of pure and ultrapure water for analytical and life sciences laboratory applications, with a compact design optimised for resource conservation. These devices can be connected directly to the drinking water supply. The OptiFill^{touch} control and monitoring unit, supplied as standard, provides a supply of type I ultrapure water and enables convenient and precise filling of laboratory vessels. The integrated 7 l tank with recirculation maintains a consistent type II water quality level. Downstream end devices can be supplied with type II pure water via an optional pressure outlet.

- Compact design
- Space-saving mounting on a laboratory bench or optionally on a wall
- Usable with water from a drinking water supply
- Digital OptiFill^{touch} control and monitoring unit with colour-touch display
- Three language settings available: DE, EN, FR
- Dispenser has a swivel range of up to 170°
- Sampling volume individually adjustable
- Can be operated with laboratory gloves
- With real-time TOC monitoring
- Adjustable limit values for conductivity and TOC
- Password access and error memory
- Integrated pressure reducers
- Leak sensor
- Permanent data storage for all quality parameters
- Innovative monitoring and display of the cartridge capacity
- RS 232 port and USB port
- Automatic voltage adjustment
- Ready to use, ready to connect, incl. filter cartridges

Ear protection

Earmuffs M series

Moldex.

Acc. to EN 352-1. User-friendly earmuffs, ideal protection from varying levels of noise. Typical Moldex: high-quality materials and excellent production quality ensure a long service life.

- Secure fit: adjustable headband and easy on-head size adjustment
- High degree of wear comfort: cushion-ribbed headband is comfortably soft and allows good ventilation
- Comfortable: large ear cushions made from viscoelastic foam ensure optimal pressure distribution
- Durable: high-gloss finish prevents dirt from sticking and is easy to clean. Ear cushions and foam insert can be replaced

Hand cleansing Baktolin® foam soap

BODE Chemie.

Mild, skin-caring cleaning foam for use in CleanSafe dispensers. Extremely cost-effective dispensing, and easy to rinse.
Areas of application: with a pH value of 5.5, Baktolin® foam helps to preserve the natural acidic mantle of the skin, making it particularly well-suited to work environments that require frequent hand cleaning, such as the hospital and food sector and industrial and laboratory applications.

- Excellent skin tolerance
- Suitable for sensitive skin
- Good skincare properties with glycerine
- Skin-neutral pH value 5.5
- Free of soap and alkalis
- Fragrance-free and colourant-free

Hand-held eye shower for table mounting

B-Safety.

DIN-DVGW tested and approved. According to DIN EN 15154-2:2006 and ANSI Z358.1.

- With non-self-closing valve; the release lever locks by itself and the water is switched off again by simply unlocking the lever
- Made of plastic, media-carrying parts made of brass
- Stainless steel sheathed silicone hose, length 1.5 m
- Automatic flow regulation: Flow rate of 7 l/min per shower head with a minimum operating pressure of 1 bar
- Water connection ½″ internal thread, union nut
- Drinking water protection via integrated backflow preventer

Delivery incl. table duct made of brass, mounting kit, sealing ring and information sign for eye shower according to DIN EN ISO 7010 and ASR A1.3, self-adhesive PVC film, 100 x 100 mm.

Eye showers

Eye shower with collection basin and cover

B-Safety.

DIN-DVGW tested and approved. According to DIN EN 15154-2:2006 and ANSI Z358.1.

- For surface-type wall mounting
- Housing and collection basin made of impact-resistant and UV-resistant ABS plastic
- Integrated folding protective cover to prevent contamination
- Activated by folding down the cover
- Ball valve $^{3}/_{8}$″ made of stainless steel, with lever activation via folding protective cover
- Spray regulator made of brass with an extremely limited spray pattern, chrome plated, with plastic spray plate, limescale-resistant, with rubber protection and tightly closing dust cover with folding mechanism
- With integrated flow regulator valve $^{3}/_{8}$″ for adjusting the desired spray height and flow rate
- Water connection: $^{3}/_{8}$″ external thread
- Operating pressure: 3 to 5 bar
- Drain connection: 1 ½″ external thread
- Temperature resistance: 70 °C (short-term)
- Attachment height (bottom edge): 910 mm (±200 mm)
- Dimensions: H 245 mm x W 355 mm x D 305 mm

Delivery incl. information sign for eye shower according to DIN EN ISO 7010 and ASR A1.3, self-adhesive PVC film, 100 x 100 mm.

Emergency body shower

B-Safety.

DVGW-tested and approved. Acc. to DIN EN 15154-1:2006, DIN EN 15154-5:2019 and ANSI Z 358.1-2014.

- Application through wall flange, surface-mounted supply line
- Stable design due to robust brass body
- Chemical-resistant powder coating
- Large maintenance-free ball valve for high flow rates (50 l/min at 1.5 bar)
- 1.5 to 3 bar water pressure application range
- Triggered through non-self-closing pull rod valve
- Large, easy-to-operate pull rod
- Self-emptying high-power shower head (prevents build-up of bacteria and calcification)
- Length: 700 mm
- Projection: 630 mm
- Attachment height: 2345 mm (±100 mm)
- Pull rod length: 500 mm

Delivery incl. self-adhesive information sign for body shower according to DIN EN ISO 7010 and ASR A1.3, 150 x 150 mm.

Over-door-mounted with pull rod for redirection
Pull rod can be mounted either to right or left of the door.

Waste disposal

Waste disposal containers Multi-Safe twin

Sarstedt. Material: PP, yellow container, red lid.

Complies with the requirements of: TRBA 250, DIN EN ISO 23907. With UN approval number.

- Universal extractor for the disposal of needles, scalpels, disposable syringes, tubing, etc.
- All-round sealing rim and double lid
- Lid can always be reopened by closing the lid as far as the first locking position
- A secure final seal is obtained by pushing the lid through to the second locking position
- With a label in German and English
- QR code enables online access to operating instructions
- Clear marking for the maximum fill level
- Filling capacity: Max. 85%
- Oval opening

Plus, round

- Integrated piston in the lid for easy disconnection of insulin pens
- Oval 45 x 25 mm opening

Waste collectors

Waste disposal bin "Sort & Go"

Brabantia. Material: plastic.

- Compact and space-saving
- Colour-coded containers ideal for separating waste
- Easy to mount or set up
- The small 3-l and 6-l containers are ideal for disposing of waste directly from the worktop
- Not dishwasher safe
- The lid is not self-closing, ideal for longer work
- Sturdy handle and recessed grip on the base for emptying
- 100% recyclable after use

Chemical and oil binder UNI-SAFE

Öko-Tec Umweltschutzsysteme.

All-in-one binder!

Polymer-based all-purpose chemical and oil binding agent. Suitable for absorbing and containing liquids such as acids, alkalis, oils, fuels, brake fluid, etc., as well as battery acid, coolant, oil-water mixtures, paints and lacquers. Also safe to use with strongly oxidising media, such as fuming nitric acid and peroxides.

- High absorption capacity
- No hazardous reactions
- Dam-forming

Absorption capacity of aqueous media of up to 1:75
Oil binder type III/R (suitable for road surfaces),
1 kg binds 0.56 l of fuel oil.

Applications

Laboratories, chemical and commercial businesses, transportation of hazardous goods, emergency vehicles, etc.

Pack.	Art. No.	Pack Qty.	€
Laboratory pack	**EAA8.1**	500 g	42,90
Tub with handle	**EAA8.3**	1,750 g	80,10

Oil binders FLUISORB

Made of cotton (30%) and regenerated cellulose (70%). Fast and effective absorption of diesel, biodiesel, fuel oil, kerosene, transmission oil, lubricants, petrol, emulsions, cooking oils, alkalis, bases, bodily fluids, solvents, paints, hydraulic oil, etc. on solid surfaces. Works into cracks and indentations of road surfaces. Easy to pick back up.
Not suitable for absorbing acids.

- Oil binder type III/R (suitable for road surfaces)
- Based on renewable raw materials
- 1 kg binds approx. 5.6 l of fuel oil or 6.5 l of biodiesel
- Low weight makes it easy to handle
- Bulk weight: approx. 110 g/l
- Dimensions: 80 x 40 x 15 cm

Pack.	Art. No.	Pack Qty.	€
5 kg bag (approx. 45.5 l)	**1T73.1**	1 unit(s)	51,10

Laboratory organisation system SmartRack®

Made in Germany | A 121 °C | Bitte beachten: Abweichende Konditionen / Please note: Different conditions

Laboratory organisation system SmartRack®

Better Basics Laborbedarf. Material: aluminium powder-coated, aluminium anodized slotted rails, plastic (polyamide 12). Autoclavable: yes.

Modular organisation system for any laboratory accessories and laboratory glassware. The wide array of different modules of the organisation system can be set up in **any arrangement**, **combined** and used flexibly. Can adapt whenever and however the user requires.
Stable and robust metal frame (with feet) for holding multiple slotted rails and the collecting tray in place.
Plastic elements are temperature resistant, can be washed with mild cleaning agents or alcohol-based disinfectants. These are also resistant to chemicals and UV.

Advantages:

- The modular design means users can adapt the system to suit their needs
- All modules can be combined in any quantity and any position
- More efficient thanks to one-handed operation and allows for optimised work processes
- Increases safety when working thanks to tilt protection
- Significant space savings thanks to improved use of workspace at height
- Creates a neater working environment with more free workspace

Delivery incl. frame, feet (1 pair), 3 slotted rails with side handles, collecting tray.

Module sets for SmartRack®

Better Basics Laborbedarf. Material: aluminium powder-coated, plastic (polyamide 12). Autoclavable: yes.

Compatible with the SmartRack® laboratory organisation system.

Module set basic equipment for SmartRack®
The basic module set is a collection of basic equipment for organising essential accessories for day-to-day laboratory use, and comprises 6 modules.

- 1 x storage box (1PX6.1)
- 1 x storage box insert for small accessories (1PXK.1)
- 1 x holder for disposal bags (1PXL.1)
- 1 x holder for gloves/tissue boxes (1PXC.1)
- 1 x holder for wash bottles (1PXX.1)
- 1 x tripod adapter (1PX3.1)

Delivery incl. 6 modules.
Delivery without SmartRack®, please order separately and without small accessories, waste disposal bags, tissue box, wash bottles.

Accessories slotted rail with handles for SmartRack®

Better Basics Laborbedarf. Material: aluminium anodized, plastic (polyamide 12). Autoclavable: yes.

The slotted rail can be used in many positions on the SmartRack®. A wider range of slotted rails, which are optimally arranged vertically, provides more options for positioning modules and therefore greater scope for customising the rack and adapting the module arrangement to each user's individual requirements.

Suitable for	Length (mm)	Art. No.	Pack Qty.	€

Transmitted light microscope OBE series

Kern.

Educational Line. High-quality, fully equipped transmitted light microscope (bright-field) for training, laboratory and medical use.
For translucent and thin, high-contrast, less challenging specimens (e. g. plant tissues, stained cells/parasites). Particularly suitable for blood analysis and urine sediments.

- The **butterfly tube** allows optimal angular observation to be set
- Thanks to the practical **storage compartment** on the rear of the device, the power cable can be quickly stowed in a space-saving manner
- Power supply e. g. via an external power bank is possible thanks to the **USB connection technology**
- The four-slot lens revolver is fully equipped with four **achromatic standard lenses (4x/10x/40x/100x)**, which are ideally suited for all bright-field analysis applications
- **The 1.25 Abbe condenser with aperture cover, with its height-adjustable focus,** enables ideal light concentration and illumination of the specimen
- The **mechanical cross table** ensures fast working and positioning of the specimen. It features a **coaxial coarse and fine focus drive** fitted on both sides for adjusting the height and focussing on the specimen
- With strong, infinitely dimmable 3 W LED transmitted light illumination
- In comparison with the OBS series, this offers diverse **expansion options**

Optional accessories (please order separately):

- Dark-field use for 4x to 40x lenses; to increase contrast of small, unstained structures
- 100x lens (planachromatic, spring) with water immersion

Technical specifications:

Art. No.	**1L81.1**	**1L82.1**
Type	OBE 132	OBE 134
Tube	binocular	trinocular
Total magnification	40x, 100x, 400x, 1000x	
Magnification type	turret	
Ocular magnification	wide-field 10x	
Lenses	achromatic	
Lens arrangement	4-way, tilted forwards	
Lens magnification	- 4x/N.A. 0.10, W.D. 18.6 mm - 10x/N.A. 0.25, W.D. 6.5 mm - 40x (spring)/N.A. 0.65, W.D. 0.47 mm - 100x (spring, oil)/N.A. 1.25, W.D. 0.07 mm	
Field of view	18 mm	
Dioptre compensation	on one side	
Angular observation	30°	
Head	can be rotated 360°	
Distance between eyepieces	48–75 mm	
Condenser	Abbe N.A. 1.25 with aperture cover	
Köhler illumination	no	
Light source	LED	
Type of lighting	transmitted light	
Image focusing	coaxial coarse and fine focus with scale: 2 µm	
Optics	finite	
Microscope stage	125 x 115 mm area coaxial x/y travel range of 50 x 70 mm	
Power supply	mains-powered	
Mains connection	100–240 V, 50/60 Hz	

Delivery incl. eyecups and dust cover.

(1) OBE 132 binocular

Type	Art. No.	Pack Qty.	€
OBE 132	**1L81.1**	1 unit(s)	640,00

(2) OBE 134 trinocular

With trinocular head for mounting a microscope camera on the phototube using a C-mount adapter. Please order the C-mount adapter separately.

Type	Art. No.	Pack Qty.	€
OBE 134	**1L82.1**	1 unit(s)	760,00

Transmitted light microscope OBL series

Kern.

Lab Line. Flexible and versatile transmitted light microscope (bright-field) with infinitely corrected optics. Specially designed for laboratories that work with translucent, low-contrast, challenging specimens (e.g. living mammalian cells, bacteria, tissues).

- The **infinity corrected optics** ensure top-class image quality
- The 4-slot lens revolver is fully equipped with four **high-quality, infinitely corrected E-PLAN lenses (4x/10x/40x/100x)** with improved edge definition
- The 1.25 Abbe condenser with aperture cover, with its height-adjustable focus and fixed precentring, and the field diaphragm enable **easier Köhler illumination** and thereby provide simple and optimal illumination of the specimen, with no negative flare effects
- The mechanical cross table ensures fast working and positioning of the specimen. It features a coaxial coarse and fine focus drive fitted on both sides for adjusting the height and focussing on the specimen
- With strong, infinitely dimmable 3 W LED transmitted light illumination

Optional accessories (please order separately):

- Dark field condenser to increase contrast of small, unstained structures
- 100x lens (planachromatic, spring) with water immersion

OBL 127 binocular

Delivery incl. colour filter (blue, integrated), eyecups and dust cover.

Type	Version	Art. No.	Pack Qty.	€
OBL 127	Basic	**EYP7.1**	1 unit(s)	1.060,00

(1) OBL 137 trinocular

With trinocular head for mounting a microscope camera on the phototube using C-mount adapter. Please order C-mount adapter separately.

Delivery incl. colour filter (blue, integrated), eyecups and dust cover.

Type	Version	Art. No.	Pack Qty.	€
OBL 137	Basic	**EYP8.1**	1 unit(s)	1.200,00

(2) OBL 137 set with camera

The adapted ODC 825 microscope camera with USB 2.0 interface enables data transfer to a PC or laptop.

The free KERN VIS software for operating systems Windows XP to Windows 10 enables the live image of the specimen to be transferred to the computer.

The software includes a wide range of functions such as image and video recording, measuring functions and simple documentation. Connecting to a computer enables images including measurements to be saved and archived directly in the user-specific directory.

Delivery incl. ODC 825 microscope camera, colour filter (blue, integrated), eyecups and dust cover.

Type	Version	Art. No.	Pack Qty.	€
OBL 137C825	with ODC 825 camera	**1LC7.1**	1 unit(s)	1.770,00

(3) OBL 137 set with tablet

A 2-in-1 solution for easy, convenient and direct microscopic analysis of specimens on the large 9.7″ LCD touchscreen.

No PC workstation or software installation required.

Ideal for students undergoing training, or for demonstration purposes in the laboratory.

Delivery incl. ODC 241 tablet camera, colour filter (blue, integrated), eyecups and dust cover.

Type	Version	Art. No.	Pack Qty.	€
OBL 137T241	with ODC 241 tablet	**1LC8.1**	1 unit(s)	2.480,00

Transmitted light microscope OBN series

Kern.

Professional line. Professional, fully equipped transmitted light microscope (bright-field) with ergonomic design and unparalleled quality. For translucent, low-contrast, challenging specimens (e.g. living mammalian cells, bacteria, tissues).

- The **professional Köhler illumination** with adjustable field diaphragm and centerable and height-adjustable 1.25 Abbe condenser with adjustable aperture cover enables perfect illumination of the specimen, with no negative flare effects
- The **infinity corrected optics** ensure top-class image quality
- The 5-slot lens revolver is fully equipped with five **high-quality, infinitely corrected PLAN lenses (4x/10x/20x/40x/100x)** with maximum edge definition
- The mechanical cross table ensures fast working and positioning of the specimen. It features a coaxial coarse and fine focus drive fitted on both sides for adjusting the height and focussing on the specimen
- With strong, infinitely dimmable 3 W LED transmitted light illumination

Optional accessories (please order separately):

- 60x infinity lens (planachromatic, spring)
- 100x infinity lens (planachromatic, spring) with water immersion
- Darkfield condenser to increase contrast of small, unstained structures
- Polarisation unit for imaging polarised light

Fluorescence microscope OBN series

Kern.

Professional line. Professional, fully equipped transmitted fluorescence microscope with ergonomic design and unparalleled quality. For translucent, low-contrast, challenging specimens (e.g. immunofluorescence, FISH, DAPI staining).

- The powerful and dimmable **20 W halogen transmitted light illumination** and the **100 W EPI fluorescence toplight unit** incl. centring lens guarantee perfect illumination and excitation of fluorescence specimens
- The **professional Köhler illumination** with adjustable field diaphragm and centerable and height-adjustable 1.25 Abbe condenser with adjustable aperture cover enables perfect illumination of the specimen, with no negative flare effects
- The **infinity corrected optics** ensure top-class image quality
- The 5-slot lens revolver is fully equipped with **high-quality**, **infinitely corrected PLAN lenses (4x/10x/20x/40x/100x)** with maximum edge definition
- The mechanical cross table ensures fast working and positioning of the specimen. It features a coaxial coarse and fine focus drive fitted on both sides for adjusting the height and focussing on the specimen.

Technical specifications:

Art. No.	1PH5.1	1PH6.1
Type	OBN 147	OBN 148
Version	with B/G filter	with B/G/V/UV filter
Tube	trinocular	
Total magnification	40x, 100x, 200x, 400x, 1000x	
Magnification type	turret	
Ocular magnification	widefield (WF) 10x	super wide angle (HWF) 10x
Lenses	planachromatic

Field of view	20 mm	
Dioptre compensation	on both sides	
Angular observation	30°	
Head	can be rotated 360°	
Distance between eyepieces	50–75 mm	
Condenser	Abbe N.A. 1.25 centerable with aperture cover	
Köhler illumination	yes	
Type of lighting	incident light (fluorescence) and transmitted light	
Image focusing	coaxial coarse and fine focus with scale: 2 µm	
Optics	infinite	
Microscope stage	175 x 145 mm area coaxial x/y travel range 78 x 55 mm container for two slides	
Power supply	mains-powered	
Mains connection	100–240 V, 50/60 Hz	

OBN 147 trinocular
The 100 W EPI fluorescence toplight unit is equipped with a 2-filter slider. This slider is equipped with blue and green fluorescence excitation filters.

Delivery incl. B/G fluorescence excitation filter, colour filter (blue, integrated), eyecups and dust cover.

Type	Version	Art. No.	Pack Qty.	€
OBN 147	with B/G filter	**1PH5.1**	1 unit(s)	5.170,00

OBN 148 trinocular
The 100 W EPI fluorescence toplight unit is equipped with a filter wheel and can be loaded with up to 6 excitation filters. This enables users to quickly and conveniently switch filters. The supplied filter wheel is equipped with blue, green, violet and ultraviolet fluorescence excitation filters.

Delivery incl. B/G/V/UV fluorescence excitation filter, colour filter (blue, integrated), eyecups and dust cover.

Type	Version	Art. No.	Pack Qty.	€
OBN 148	with B/G/V/UV filter	**1PH6.1**	1 unit(s)	6.550,00

Accessories for OBN series

Kern.

Suitable for microscopes in the OBN series.

60x lens

Designation	Art. No.	Pack Qty.	€
60x infinity lens, planachromatic (spring) / N.A. 0.80, W.D. 0.33 mm	**1PH7.1**	1 unit(s)	390,00

C-mount adapter
For fitting a microscope camera to the phototube of a trinocular microscope.

Designation	Art. No.	Pack Qty.	€
0.57x C-mount adapter (adjustable focus)	**1PH8.1**	1 unit(s)	175,00

Darkfield condenser
For enhanced contrast with unstained specimens. This causes the background to appear dark, and the object to appear bright in contrast against it.

For use with lenses 4x – 40x.

Designation	Art. No.	Pack Qty.	€
Darkfield condenser / N.A. 0.85 – 0.91 (dry, paraboloid)	**1PH9.1**	1 unit(s)	290,00

Polarisation unit
For imaging polarised light in birefringent structures (e.g. crystals, minerals).

Designation	Art. No.	Pack Qty.	€
Polarisation unit including analyser and polariser	**1PHA.1**	1 unit(s)	290,00

Inverse fluorescence microscope OCM series

Kern.

Lab Line. Due to the inverse design and the very large working distance, specimens in culture vessels like dishes, bottles and microtiter plates can be viewed. Thanks to the 20x phase contrast lens in particular, primarily translucent and thin, low-contrast specimens can be examined. The installed lenses are specially coated, and therefore ideally suited to fluorescence microscopy analyses.

- The powerful and dimmable **5 W LED transmitted light illumination** and the **5 W EPI fluorescence toplight unit** guarantee perfect illumination and excitation of fluorescence specimens
- A special Abbe N.A. 0.3 condenser with an aperture cover and a large working distance guarantees optimal working in bright-field, phase contrast and fluorescence applications
- The **infinitely corrected optics** ensure top-class image quality
- The five-slot lens revolver is equipped with **three high-quality, infinitely corrected PLAN lenses (10x/20x/40x) and one PLAN lens (20x)**, all with maximum edge definition for the best possible image quality
- **Enables quicker and more effective switching between the bright-field and phase contrast method** via a phase contrast slider
- The mechanical cross table ensures fast working and positioning of the specimen. It features a coaxial coarse and fine focus drive fitted on both sides for adjusting the height and focussing on the specimen

Technical specifications:

Art. No.	**1T89.1**	**1T8A.1**
Type	OCM-167	OCM-168
Version	with B/G filter	with B/G/V/UV filter
Tube	trinocular	
Magnification type	turret	
Ocular magnification	super wide angle (HWF) 10x	
Lenses	planachromatic fluorine	
Lens arrangement	5x	
Lens magnification	Bright-field: - 10x/N.A. 0.25, W.D. 10.3 mm - 20x/N.A. 0.40, W.D. 5.8 mm - 40x/N.A. 0.60, W.D. 5.1 mm Phase contrast: - Ph 20x/N.A. 0.45, W.D. 5.8 mm	
Field of view	22 mm	
Dioptre compensation	±5 dpt at both ocular tubes	
Angular observation	45°	
Head	fixed	
Distance between eyepieces	48–76 mm	
Working distance	72 mm	
Condenser	Abbe N.A. 0.3 with aperture cover	
Light source	LED	
Type of lighting	incident light (fluorescence) and transmitted light	
Image focusing	coaxial coarse and fine focus with scale: 2 µm	
Optics	infinite	
Microscope stage	area 210 x 241 mm coaxial x/y travel range 128 x 80 mm holder for culture dish Ø 110 mm	
Power supply	mains-powered	

OCM-167 trinocular

Delivery incl. B/G fluorescence excitation filter, colour filter (blue, integrated), object holder for 54 mm culture dish, eyecups and dust cover.

Type	Version	Art. No.	Pack Qty.	€
OCM-167	with B/G filter	**1T89.1**	1 unit(s)	9.180,00

OCM-168 trinocular

Delivery incl. B/G/V/UV fluorescence excitation filter, colour filter (blue, integrated), object holder for 54 mm culture dish, eyecups and dust cover.

Type	Version	Art. No.	Pack Qty.	€
OCM-168	with B/G/V/UV filter	**1T8A.1**	1 unit(s)	10.790,00

Video microscope OIV series

Kern.

For monitoring, analysis and documentation in the industrial sector. Axial optics enable direct and straightforward display of samples on the screen.

- With dimmable LED ring light for optimum illumination of the sample
- Ideal for recording objects on the screen in conjunction with the large working area
- Excellent optics for consistently sharp image tracking throughout the entire zoom range
- Software-controlled image and video recording with additional measuring functions (particularly diameter, radius, distance and angle)
- Stand with mechanical height adjustment

Technical specifications:

Art. No.	1XY8.1	1XY9.1
Type	OIV 255	OIV 656
Version	complete set	with auto-focus, without monitor
Magnification type	zoom	
Lens magnification	0.75–x	0.7–4.5x
Field of view	29,82–4,18 mm	12,64–2,65 mm
Working distance	105 mm	91 mm
Light source	LED	
Type of lighting	incident light	
Image focusing	coarse focus	
Optics	axial	
Port	1x HDMI and 2x USB	
Sensor type	CMOS	
Sensor format	½″	⅓,₂₈″
Number of pixels	2 (MP)	
Images per second	60 fps @ 1920 x 1080 HD	30 fps
Data memory	external via USB stick (max. 128 GB)	
Power supply	mains-powered	
Mains connection	100–240 V, 50/60 Hz	

(1) OIV 255

Digital complete solution for increased working comfort. Tablet can be tilted backwards (angle of inclination -5° to -15°), but cannot be rotated.

Delivery incl. tablet, USB mouse, USB stick, calibration slides and dust cover.

Type	Version	Art. No.	Pack Qty.	€
OIV 255	complete set	**1XY8.1**	1 unit(s)	3.580,00

(2) OIV 656

The professional video microscope. The integrated auto-focus also enables the sharpness level to be optimised within a defined image section. This is particularly beneficial for analysis of a large number of samples.

Delivery incl. USB mouse, USB stick, calibration slides and dust cover.

Type	Version	Art. No.	Pack Qty.	€
OIV 656	with auto-focus, without monitor	**1XY9.1**	1 unit(s)	5.320,00

Stereo microscope OS series

Kern.

Practical and sterile stereo microscope for training and laboratory. With integrated handle and stable stand.

- Ergonomically designed working surface for high level of comfort
- Interchangeable lens with three pre-defined magnifications for fast and effective work
- Eyepiece fixed securely in the tube
- Reflected light and transmitted light can be controlled separately

Technical specifications:

Art. No.	1T88.1	HHC9.1
Type	OSE-421	OSF-439
Tube	binocular	
Total magnification	20x, 40x	10x, 20x, 40x
Magnification type	turret	
Ocular magnification	widefield 10x	
Lens magnification	2x, 4x	1x, 2x, 4x
Field of view	20 mm	
Dioptre compensation	±5 dpt at both ocular tubes	±5 dpt on the left eyepiece
Angular observation	45°	
Head	fixed	
Distance between eyepieces	55–75 mm	
Working distance	57 mm	
Light source	LED	
Type of lighting	incident light and transmitted light	
Image focusing	coarse focus	
Power supply	mains-powered and battery operation (3x battery Micro/AAA 1.5 V)	mains-powered
Mains connection	100–240 V, 50/60 Hz	

(1) OSE-421

Delivery incl. stage inserts (black/white and matte glass), eyecups and dust cover. Without batteries, please order separately.

Type	Art. No.	Pack Qty.	€
OSE-421	**1T88.1**	1 unit(s)	310,00

(2) OSF-439

Delivery incl. stage inserts (black/white and matte glass), eyecups and dust cover.

Type	Art. No.	Pack Qty.	€
OSF-439	**HHC9.1**	1 unit(s)	410,00

Stereo zoom microscope OZL-46 series

Kern.

All-round stereo microscope with zoom function for schools, training workshops and laboratories.

- With extra-wide field eyepieces for greater vision angle, thereby ideal for people who wear glasses
- Continuously variable magnification via zoom lens
- Reflected light and transmitted light can be controlled separately

Optional accessories (please order separately):

- Widefield eyepieces and attachment lenses for modulating the total magnification

Technical specifications:

Art. No.	HHE7.1	HHE8.1	1XYL.1	1XYN.1
Type	OZL-463	OZL 464	OZL 464C825	OZL 464T241
Version	Basic		with ODC 825 camera	with ODC 241 tablet
Tube	binocular	trinocular		
Total magnification	7x to 45x – can be expanded up to 180x as an option			
Magnification type	zoom			
Ocular magnification	super wide angle (HWF) 10x			
Lens magnification	0.7–4.5x			
Field of view	20 mm			
Dioptre compensation	±5 dpt on both ocular tubes			
Angular observation	45°			
Head	can be rotated 360°			
Distance between eyepieces	55–75 mm			
Working distance	105 mm			
Light source	LED			
Type of lighting	incident light and transmitted light			
Image focusing	coarse focus			
Power supply	mains-powered			
Mains connection	100–240 V, 50/60 Hz			

Total magnification when combining different eyepieces/lenses:

Eyepiece		Lens		
	Magnification	Standard 1x[1]	0.5x ancillary	2.0x ancillary
WF 10x[1]	Total magnification (x-fold)	7–45	3.5–22.5	14–90
	Visual field Ø (mm)	28.6–4.4	57.1–8.9	14.3–2.2
WF 20x	Total magnification (x-fold)	14–90	7–45	28–180
	Visual field Ø (mm)	14.3–2.2	28.6–4.4	7.1–1.1

[1] Included with delivery

OZL 463 binocular

Delivery incl. stage inserts (black/white and matte glass), eyecups and dust cover.

Type	Version	Art. No.	Pack Qty.	€
OZL-463	Basic	**HHE7.1**	1 unit(s)	600,00

(1) OZL 464 trinocular

With trinocular head for mounting a microscope camera on the phototube using a C-mount adapter. Please order the C-mount adapter separately.

Delivery incl. stage inserts (black/white and matte glass), eyecups and dust cover.

Type	Version	Art. No.	Pack Qty.	€
OZL 464	Basic	**HHE8.1**	1 unit(s)	670,00

(2) OZL 464 set with camera

The adapted ODC 825 microscope camera with USB 2.0 interface enables data transfer to a PC or laptop.

The free KERN VIS software for operating systems Windows XP to Windows 10 enables the live image of the specimen to be transferred to the computer.

The software includes a wide range of functions such as image and video recording, measuring functions and simple documentation. Connecting to a computer enables images including measurements to be saved and archived directly in the user-specific directory.

Delivery incl. ODC 825 microscope camera, stage inserts (black/white and matte glass), eyecups and dust cover.

Type	Version	Art. No.	Pack Qty.	€
OZL 464C825	with ODC 825 camera	**1XYL.1**	1 unit(s)	1.060,00

(3) OZL 464 set with tablet

A 2-in-1 solution for easy, convenient and direct microscopic analysis of specimens on the large 9.7″ LCD touchscreen.

No PC workstation or software installation required.

Ideal for students undergoing training, or for demonstration purposes in the laboratory.

Delivery incl. ODC 241 tablet camera, stage inserts (black/white and matte glass), eyecups and dust cover.

Type	Version	Art. No.	Pack Qty.	€
OZL 464T241	with ODC 241 tablet	**1XYN.1**	1 unit(s)	1.750,00

Cleaning set for microscopes

Kern.

For gentle cleaning of microscopes, cameras, binoculars and other optical surfaces.

Delivery incl. silicone hand bellows, dusting brush, 60 ml cleaning fluid, lint-free dusting cloth, optical cleaning cloths, cleaning swabs and storage bag.

Type	Art. No.	Pack Qty.	€
Cleaning set for microscopes	**1LYH.1**	1 set	35,00

Stereo zoom microscope OZL-96 series

Kern.

Ideal for training organisations, workshops and installation and repair workplaces, e. g. in the electronics industry.

- High level of flexibility thanks to universal telescopic arm stand. Particularly suited to large samples and free-hand working under the microscope
- With extra-wide field eyepieces for greater vision angle, thereby ideal for people who wear glasses
- Continuously variable magnification via zoom lens
- Ideal illumination of the sample via dimmable LED ring light (4.5 W, incident light)

Optional accessories (please order separately):

- Widefield eyepieces and ancillary lenses for modulating the total magnification

Technical specifications:

Art. No.	1XYP.1	1XYT.1
Type	OZL 961	OZL 963
Tube	binocular	trinocular
Total magnification	7x to 45x – can be expanded up to 180x as an option	
Magnification type	zoom	
Ocular magnification	super wide angle (HWF) 10x	
Lens magnification	0.7–4.5x	
Field of view	20 mm	
Dioptre compensation	±5 dpt at both ocular tubes	
Angular observation	45°	
Head	can be rotated 360°	
Distance between eyepieces	55–75 mm	
Working distance	105 mm	
Light source	LED	
Type of lighting	incident light	
Image focusing	coarse focus	
Power supply	mains-powered	
Mains connection	100–240 V, 50/60 Hz	

Delivery incl. eyecups and dust cover.

OZL 491 binocular

Type	Art. No.	Pack Qty.	€
OZL 961	**1XYP.1**	1 unit(s)	960,00

OZL 493 trinocular

With trinocular head for mounting a microscope camera on the phototube using a C-mount adapter. Please order the C-mount adapter separately.

Type	Art. No.	Pack Qty.	€
OZL 963	**1XYT.1**	1 unit(s)	1.040,00

Tablet camera ODC 241

Kern.

With integrated camera for all trinocular microscopes with C-mount adapter. For simple and direct observation of the sample, including digital documentation. Ideal for students undergoing training, or for demonstration purposes in the laboratory.

- Capable of live transmission as well as creating images and videos
- Can perform simple measurements such as distance, surface and angular measurements, as well as manual counting function
- Efficient operation thanks to automatic white balance and automatic contrast adjustment
- Integrated interfaces enable additional functions such as data storage on a USB stick or SD card, connecting a USB mouse, transmission of the live image to an external screen via HDMI and transmission of saved data to external recipients via WiFi
- Operating system: Android 5.1

Technical specifications:

Art. No.	1LEP.1
Type	ODC 241
Display	yes
Display type	9.7″ LCD touchscreen
Sensor type	CMOS
Sensor format	$^{1}/_{2,5}$″
Number of pixels	5 (MP)
Pixel Size	2.2 x 2.2 µm
Resolution	2048 x 1536 pixels (screen)
Images per second	30 fps @ 1024 x 768
Connection	C-mount
Port	WiFi, USB 2.0, micro SD, micro HDMI
W x D x H	238 x 51 x 206 mm
Power supply	mains-powered
Mains connection	100–240 V, 50/60 Hz

Delivery incl. software (pre-installed) and mains adapter.

Type	Art. No.	Pack Qty.	€
ODC 241	**1LEP.1**	1 unit(s)	1.110,00

Illuminated magnifiers, lamps

Desk lamp Study

ROTH SELECTION. Material: metal.

- Upper and lower arm length, approx. 35 cm each (height-adjustable)
- Movable reflector
- Lamp head-Ø 17 cm
- Turns by 360°

Technical specifications:

Art. No.	1T3P.1	1T3T.1	EP57.1	EP58.1
Type	Study			
Colour	silver	black	silver	black
Version	with base		with clamping base	
Arm length	700 mm			
Cable length	1.80 m		1.75 m	
Mains connection	230 V, 50/60 Hz			

Delivery without bulb, please order separately.

(1) With clamping base
Clamping base width: up to 55 mm.

Colour	Art. No.	Pack Qty.	€
black	**EP58.1**	1 unit(s)	38,70
silver	**EP57.1**	1 unit(s)	38,70

(2) With base
Base Ø 23 cm.

Colour	Art. No.	Pack Qty.	€
black	**1T3T.1**	1 unit(s)	77,95
silver	**1T3P.1**	1 unit(s)	77,95

Work light MAULintro

MAUL. Material: metal, plastic (head).

Ideal for all work environments, e.g. in workshops or laboratories.

- Colour temperature: daylight white
- Freely adjustable lamp head. With switch for convenient switching on and off. Diffusor for minimal shadowing
- Extremely economical thanks to modern LED technology and high energy efficiency
- Robust metal arm
- Arm length: Bottom 400 mm and top 440 mm
- Height in normal working position 400 mm
- Clamp base for clamping widths of up to 63 mm

Technical specifications:

Art. No.	1XT3.1
Colour	white
Version	with clamp base
Light source	LED
Service life	20,000 hours
Energy efficiency class	E
Luminosity	2,920 lx
Luminous flux	1,449 lm
Colour temperature	6500 K
Arm length	840 mm
Cable length	1.70 m
Mains connection	220–240 V, 50 Hz

Delivery incl. bulb.

Colour	Art. No.	Pack Qty.	€
white	**1XT3.1**	1 unit(s)	134,40

Pocket illuminated magnifying glass white-light LED

Eschenbach. Material: PXM®.

- Ergonomically shaped handle
- Large, easy-to-operate light switch
- Aspheric PXM® lightweight lens
- Lenses are hard coated on both sides
- Easy battery replacement

Technical specifications:

Art. No.	1HEN.1	1HEP.1	1HET.1	PT98.1	PT99.1
Magnification	3x	5x	7x	10x	12.5x
Dioptres	12 dpt	20 dpt	28 dpt	38 dpt	50 dpt
Field of view	Ø 58 mm		Ø 35 mm		
Working distance	49 mm	36 mm	29 mm	20 mm	15 mm
Light source	LED				
Weight	97 g	105 g	77 g	78 g	75 g
Power supply	2 x 1.5 V AA batteries				

With attachable filters for different light colours.

Delivery incl. batteries and dust cap (can be folded back).

Magnification	Art. No.	Pack Qty.	€
3x	**1HEN.1**	1 unit(s)	81,35
5x	**1HEP.1**	1 unit(s)	83,85
7x	**1HET.1**	1 unit(s)	74,35

12.5x	**PT99.1**	1 unit(s)	82,25

Refractometers

Handheld digital refractometer ORM series

Kern.

Digital refractive index measuring instrument for universal applications.

- Handy design with large, clearly readable display and integrated temperature display
- With automatic temperature compensation (ATC)
- Measuring temperature with ATC: 0 to +40 °C (accuracy ±0.5 °C)
- Better validity of measured values thanks to statistical average calculation of 15 measurements
- Sampling including prismatic diffuser cover for a more precise measuring process; intrusive light is excluded from the measurement process
- Quick and user-friendly calibration with distilled water
- Dust and splash-proof according to protection class IP 65
- Auto-off function after 60 seconds

Technical specifications:

Art. No.	1PCC.1	1PCE.1
Minimum sample volume	approx. 4 droplets	
Service life	battery: approx. 10,000 measurements	
W x D x H	121 x 58 x 25 mm	
Weight	289 g	
Power supply	1 x 1.5 V AAA battery	

Delivery incl. storage box, pipette, screwdriver and battery.

ORM 50BM

Type	Scale/measuring range	Resolution	Accuracy	Temp. compensation	Art. No.	Pack Qty.	€
ORM 50BM	Brix/0–50%, Refractive index/1.3330–1.4200 nD	0.1%, 0.0001 nD	±0.2%, ±0.0003 nD	Yes	**1PCC.1**	1 unit(s)	370,00

Tabletop refractometer digital ORL 94BS

Kern.

Digital refractive index measuring instrument for universal applications.

- Extra-wide measuring range with extremely high accuracy
- Large, clearly readable multi-function display with simultaneous display of refraction index, Brix and temperature
- With automatic temperature compensation (ATC)
- Measuring temperature with ATC: 0 to +40 °C (accuracy ±0.3 °C)
- Better validity of measured values thanks to statistical average calculation of 15 measurements
- Sampling including prismatic diffuser cover for a more precise measuring process; intrusive light is excluded from the measurement process
- Quick and user-friendly calibration with distilled water
- Auto-off function after 3 minutes

Technical specifications:

Art. No.	1PAY.1
Minimum sample volume	approx. 0.3–0.4 ml
W x D x H	180 x 100 x 55 mm
Weight	365 g

Delivery incl. storage box, USB cable, mains adapter, screwdriver and pipette.

Type	Scale/measuring range	Resolution	Accuracy	Temp. compensation	Art. No.	Pack Qty.	€
ORL 94BS	Brix/0–94%, Refractive index/1.3330–1.5290 nD	0.1%, 0.0001 nD	±0.1%, ±0.0002 nD	Yes	**1PAY.1**	1 unit(s)	920,00

Conductivity meters. 99
Test systems, timers 100
Temperature measurement 101
Balances 102

Benchtop pH meters

Benchtop pH meters SevenDirect™ SD20

Mettler-Toledo.

For determining pH/Redox.

- Large colour touchscreen (7″) for straightforward data input and direct measurements
- Simple and intuitive operation. On-screen instructions provide step-by-step guidance through the programs (e. g. sensor calibration)
- Screen display can be adjusted for specific requirements. Full-screen mode displays all information, while the details screen only shows the most important measurement information with large digits
- Calibration can be performed with predefined and user-specific buffers and buffer groups. Calibration memory with optional sensor lock setting available. Quality of the most recent sensor calibration shown directly via pH sensor symbol. Verification mode enables checking of the current sensor status
- Electrode arm can be operated easily with one hand. Simple and safe electrode handling via specific positions for cleaning and storage. Precise positioning via vertical and horizontal movements
- Traceable documentation. With each measurement, data such as the timestamp or sample and sensor ID is saved and automatically printed or exported
- Two-level user management (administrator, operator) prevents unwanted changes to device settings
- Internal measurement data memory: save by pressing a key or with time-controlled, measuring intervals
- Intelligent Sensor Management (ISM®) for automatic recognition of ISM® sensors and reading in calibration data

Basic

Delivery incl. electrode holder and protective casing.

Without pH single-rod measuring cell, please order separately.

Type	Art. No.	Pack Qty.	€
SD20 Basic	**1XX3.1**	1 unit(s)	1.040,00

Standard kit

Wide range of applications including emulsions, suspensions, wastewater and solutions containing proteins and sulphides.

InLab® Expert Pro-ISM® pH single-rod measuring cell with integrated temperature gauge. PEEK shaft with excellent chemical and mechanical resistance for extreme strain. The use of a solid polymer as a reference electrolyte means that there is no diaphragm which could become clogged.

Delivery incl. InLab® Expert Pro-ISM® pH single-rod measuring cell, buffer solutions (pH 4.01, 7.00, 9.21 and 10.00, 2x 20 ml of each), electrode holder and protective cover.

Type	Art. No.	Pack Qty.	€
SD20 Standard kit	**1XX5.1**	1 unit(s)	1.375,00

Benchtop pH meters

HA kit
For general aqueous solutions, high ionic strengths, hot samples, TRIS buffer.

InLab® Routine Pro-ISM® pH single-rod measuring cell with integrated temperature sensor, quick and extremely chemical-resistant.
Tough HA-diaphragm glass, specially designed for use at high pH values, reduces alkali errors to a minimum.

Delivery incl. InLab® Routine Pro-ISM® pH single-rod measuring cell, buffer solutions (pH 4.01, 7.00, 9.21 and 10.00, 2x 20 ml of each), electrode holder and protective cover.

Type	Art. No.	Pack Qty.	€
SD20 HA kit	**1XX7.1**	1 unit(s)	1.465,00

Organic kit
For difficult applications such as organic solvents, emulsions and samples containing protein.

InLab® Science Pro-ISM® pH single-rod measuring cell with integrated temperature gauge and movable ground-joint diaphragm.
Reinforced electrolyte outflow prevents contaminations that could clog the diaphragm and distort measured values.

Delivery incl. InLab® Science Pro-ISM®, buffer solutions (pH 4.01, 7.00, 9.21 and 10.00, 2 x 20 ml of each), electrode holder and protective cover.

Type	Art. No.	Pack Qty.	€
SD20 Organic kit	**1XX8.1**	1 unit(s)	1.590,00

Pure H2O kit
For samples with a low ion concentration such as ultrapure water and deionised water.

InLab® Pure Pro-ISM® pH single-rod measuring cell with integrated temperature gauge and fixed ground-joint diaphragm.
The high electrolyte outflow reduces the potential at the diaphragm and therefore ensures more stable measurements.

Delivery incl. InLab® Pure Pro-ISM®, buffer solutions (pH 4.01, 7.00, 9.21 and 10.00, 2 x 20 ml of each), electrode holder and protective cover.

Type	Art. No.	Pack Qty.	€
SD20 Pure H2O kit	**1XX2.1**	1 unit(s)	1.600,00

Solids kit
For semi-solid and solid samples such as creams, yoghurt, butter, dough, cheese, meat, fish, fruit and vegetables.

InLab® Solids Pro-ISM® pH single-rod measuring cell with integrated temperature gauge and robust, spear-shaped glass diaphragm tip for easier insertion into the sample. Non-clogging hole diaphragm eliminates the risk of protein deposits.

Delivery incl. InLab® Solids Pro-ISM®, buffer solutions (pH 4.01, 7.00, 9.21 and 10.00, 2 x 20 ml of each), electrode holder and protective cover.

Type	Art. No.	Pack Qty.	€
SD20 Solids kit	**1XX6.1**	1 unit(s)	1.545,00

Viscous kit
For emulsions and viscous samples such as cosmetics, paints and adhesives.

InLab® Viscous Pro-ISM® pH single-rod measuring cell with integrated temperature gauge and pressurised electrolytes (3 bar).
This ensures electrolyte outflow into the sample despite counterpressure and protects the diaphragm against clogging.

Delivery incl. InLab® Viscous Pro-ISM®, buffer solutions (pH 4.01, 7.00, 9.21 and 10.00, 2 x 20 ml of each), electrode holder and protective cover.

Type	Art. No.	Pack Qty.	€
SD20 Viscous kit	**1XX1.1**	1 unit(s)	1.680,00

LowVol kit
For measurements in small or narrow vessels (such as test tubes, vials and cells) or for small sample volumes.

InLab® Micro Pro-ISM® pH single-rod measuring cell with integrated temperature gauge and small shaft diameter.
Delivery incl. InLab® Micro Pro-ISM®, buffer solutions (pH 4.01, 7.00, 9.21 and 10.00, 2 x 20 ml of each), electrode holder and protective cover.

Type	Art. No.	Pack Qty.	€
SD20 LowVol kit	**1XX4.1**	1 unit(s)	1.635,00

Combi measuring devices

Combi table-top multimeter SevenDirect™ SD23

Mettler-Toledo.

For determining pH/Redox and conductivity/salinity/TDS.

- Single/dual mode: single measurement or simultaneous measurement of pH and conductivity is possible
- Large colour touchscreen (7″) for straightforward data input and direct measurements
- Simple and intuitive operation. On-screen instructions provide step-by-step guidance through the programs (e. g. sensor calibration)
- Screen display can be adjusted for specific requirements. Full-screen mode displays all information, while the details screen only shows the most important measurement information with large digits

Conductivity sensor InLab® Trace

Mettler-Toledo.

Digital two-pole conductivity sensor made of titanium with integrated temperature sensor. Ideal for samples with low conductivity such as pure water and ultrapure water.

Thanks to the Intelligent Sensor Management (ISM®) system, all important data is stored in the sensor and automatically sent to ISM®-compatible measuring devices.

Technical specifications:

Art. No.	1LYK.1
Type	InLab® Trace
Conductivity measuring range	0.0001 to 1000 µS/cm
Operating temperature	0 to +100 °C
Cell type	2 titanium poles
Cell constant	0,01 cm^{-1}
Shaft length	67 mm
Ø Shaft	12 mm
Shaft material	titanium
Temperature sensor	Pt1000
ISM Technology	yes
IP rating	67
Connection	Mini LTW (IP67)

Delivery incl. fixed cable (length 1.8 m).

Suitable for	Type	Art. No.	Pack Qty.	€
SevenDirect™, SevenExcellence™	InLab® Trace	**1LYK.1**	1 unit(s)	1.476,00

Accessories Flow cell for InLab® Trace

Mettler-Toledo.

High-quality flow cell, suitable for the InLab® Trace conductivity sensor. For measurements (≤10 µS/cm) with the complete exclusion of CO_2. Flow speeds >100 ml/min, connections for hose inner Ø 5 mm.

Type	Art. No.	Pack Qty.	€
InLab® Trace flow cell	**1LYL.1**	1 unit(s)	1.290,00

Conductivity sensor TetraCon® 325

WTW.

Four electrode conductivity sensors with integrated temperature sensor, for standard measurements in aqueous solutions. Low insertion depth and high measuring range. No measuring errors due to cable interference or electrode contamination.

Technical specifications:

Art. No.	**1HHL.1**
Type	TetraCon® 325
Conductivity measuring range	1 µS/cm to 2000 mS/cm
Operating temperature	-5 to +80 °C
Cell type	four graphite pins
Cell constant	0,475 cm^{-1}
Shaft length	120 mm
Ø Shaft	15.3 mm
Shaft material	epoxid
Temperature sensor	NTC 30 kΩ
IP rating	68
Connection	8-pin connector

Delivery incl. fixed cable (length 1.5 m).

Type	Art. No.	Pack Qty.	€
TetraCon® 325	**1HHL.1**	1 unit(s)	625,65

Test strips QUANTOFIX®

Macherey-Nagel.

For semi-quantitive determination of various substances. The test strips consist of a 0.2 mm-thick plastic strip with testing paper affixed to the lower end. After the test strip has been moistened, the colouration that appears is compared to a colour scale on the side of the can. The concentration value can be read or a concentration range can be estimated. Dimensions: W 6 x L 95 mm.

Arsenic sensitive PP
Test strips with additional reagent

Warning H315-H319-H361d-H410

Timer with count-down/count-up

Count-down/count-up. Maximum operating time 99 hrs, 59 min or 99 min, 59 s. **Timer memory function for 3 times.** Two different volumes or mute mode can be selected. After the countdown stops, an acoustic signal sounds for 1 min. If the alarm is not acknowledged, two alarm signals continue to sound every 10 seconds. With additional LED warning light. **Pre-alarm function (fully adjustable).** Includes stand, magnet for fixing to metal surfaces and hanging attachment. Dimensions: L 79 x D 21.5 x H 79 mm. Weight 70 g.

Delivery without batteries. Requires 2 x 1.5 V micro batteries.

Type	Colour	Art. No.	Pack Qty.	€
Signal timer 99 HOURS	white	**1T6Y.1**	1 unit(s)	19,30

Temperature measurement

Low temperature indicators irreversible

ROTH SELECTION.

Temperature monitoring and inspection of goods during transport and storage.
Usage: Food, pharmaceutical and cosmetics industries, as well as logistics and intralogistics.

- Activated by hand
- Irreversible colour change, white to blue
- Partial discolouration when the temperature has been reached briefly, then falls below the measured value again
- Full discolouration when the measured value has been reached in the long term or exceeded
- Self-adhesive
- Dimensions: Ø 32 mm x 6 mm
- 100 pieces per box

Thermal disinfection indicator irreversible

ROTH SELECTION.

Three-field temperature indicator for standard dishwashers (65 °C), thermal/chemical disinfection (71 °C) and thermal disinfection (82 °C).
Usage: Industrial automatic dishwashers, medical and hospital technology, industrial parts cleaning, research and development.

- Irreversible colour change from white to black, as soon as measured value is reached
- Part of the HACCP process (essential component of the national regulations regarding food hygiene (LMHV)) to prove due diligence
- Display in °C and °F
- Self-adhesive
- Dimensions: 35 mm x 25 mm
- 1000 pieces on a roll

Temperature (°C)	Temperature accuracy	Art. No.	Pack Qty.	€

Data loggers disposable TempLOG TS60

Dostmann.

For monitoring cooling chains. Temperature recording during storage and transportation of foodstuffs, medicines, chemicals and other products.
Following completion of recording, the logger is connected to a PC or laptop directly via USB. Saved data is output as PDF file. The output includes graphical depictions of temperature progression and statistical values, as well as a list of all individual values.
No additional hardware or software required.

- Easy to use, one button to start/stop
- Operating status via LED display
- Suitable for foodstuffs according to HACCP
- Compliant with EN 12830 S,T,C,D,1 and GDP

Technical specifications:

Art. No.	**1NEX.1**
Type	TempLOG TS60
Parameters	temperature
Temperature measuring range	-30 to +60 °C
Temperature accuracy	±0.5 °C (-20 to +40 °C), ±1.0 °C (outside)
Resolution	0,1 °C
Display	no
Data memory	10000 measured values
Measuring cycle	10 minutes
Port	USB
IP rating	67
L x W x D	69 x 33 x 5 mm
Weight	10 g
Power supply	CR 2032 button cell battery (3 V)

Delivery incl. ISO calibration certificate and battery.

Type	Art. No.	Pack Qty.	€
TempLOG TS60	**1NEX.1**	1 unit(s)	21,45

Platform balances IFB series

Kern.

Application:

- Item counter, weighing with tolerance range, animal weighing

Features:

- External adjustment
- IP65 dust and splash water protection
- Level indicator and levelling feet for levelling the balance
- Analysis device dimensions W 230 x D 230 x H 360 mm, cable length approx. 3 m
- RS 232 data port

Delivery incl. protective hood, base with wall mount for the analysis device and mains adapter.

Refrigerator MediLine type LK series

Liebherr.

General information for all models:

- Cooling temperature adjustable from +3 to +16 °C
- With convection cooling
- Exterior digital temperature display (resolution 0.1 °C)
- Acoustic and optical temperature alarm (adjustable limits) and door-opening alarm
- Saving the min./max. interior temperature that occurs
- Saving the last three temperature alarms and power outage with time, date and duration of the alarm
- With lockable door

Technical specifications:

MediLine explosion-proof fridge type LKexv series

Liebherr.

Explosion-proof acc. to ATEX Directive 2014/34/EU. With the classification II 3G Ex nA II T6, the devices are suitable for storing explosive and highly flammable substances in closed containers.

- Cooling temperature is continuously adjustable from +1 to +15 °C
- Temperature selection range:
  1 (= lowest cooling capacity) to 5 (= highest cooling capacity)
- Mechanical control unit
- Digital temperature display (resolution 1 °C)
- Dynamic cooling system (with forced air ventilation)
- Steel housing material
- With lockable door and height-adjustable glass shelves
- Automatic condensation drainage into inner catch tank

Deep freezer Versafreeze series

Lauda.

For organic substances and valuable samples, which have to be stored safely for long periods at low temperatures.

- 4.3″ touchscreen control panel with digital display for entering and retrieving all safety-relevant values
- Stainless steel interior
- Adjustable limit values for overheating and insufficient temperature alarm
- Preservation of display and alarm functions, even during power outages (battery buffering up to max. 35 hours)
- Integrated data logger incl. 1 GB SD card (sufficient for approx. 2 years) for storing temperature and alarm data. The temperature of the usable space is recorded every 120 s. Data can be transferred via USB stick (not supplied)
- Duct for inserting temperature gauges and pressure compensation opening ID 13 mm available
- With USB, RS 485 and Ethernet interfaces
- Lockable door
- Permissible ambient temperature range of 15 to 28 °C

Flake ice machines

Flake ice machines AF series SCOTSMAN® with ice storage tank

Scotsman.

Applications: laboratories, research institutes and industry.

- Stainless steel version, air-cooled
- With XSafe - integrated natural hygiene unit (UV light)

The ice flakes have a temperature of 0.5 °C; the irregular, large surface delivers a very good cooling effect.
Each flake is saturated and firm and they do not stick together.

Two versions are available:
Standard version for operation with drinking water. A laboratory version for operation with demineralised water (conductivity ≤30 µS) is also available.

Delivery incl. one scoop, 1 supply hose ¾″ (length 1.5 m), 1 drainage hose (Ø 20 mm, length 1.5 m).

Standard version

Flake ice machines

Flake ice machines EF series SCOTSMAN® with ice storage tank and waste water pump

Scotsman.

Applications: laboratories, research institutes and industry.

- Stainless steel version, air-cooled
- With XSafe – integrated natural hygiene unit (UV light)

The ice flakes have a temperature of 0.5 °C; the irregular, large surface delivers a very good cooling effect.
Each flake is saturated and firm and they do not stick together.

With additional **waste water pump** (waste water can be pumped up to a height of 1.7 m or up to a distance of 15 m).

Two versions are available:
Standard version for operation with drinking water. A laboratory version for operation with demineralised water (conductivity ≤30 µS) is also available.

Delivery incl. 1 scoop, 1 supply hose ¾″ (length 1.5 m), 1 drainage hose (Ø 20 mm, length 1.5 m).

Standard design

Peltier cooling incubator KB ECO series

Binder.

General features:

- **Operating temperature range: 0 to +70 °C (max. 26 °C below ambient temperature)**
- LCD display for displaying temperature, additional information and alarms
- Internal data logger, measured values in open format readable via USB (approx. 110,000 at a save interval of 1 min, interval can be set to between 1 and 60 minutes)
- **Cooling using Peltier technology with heat dissipation (protection against drying out and condensation)**
- Adjustable condensate protection
- With additional inner door of safety glass
- Access port with silicone stopper of Ø 30 mm

Technical specifications:

Art. No.	**1T16.1**	**1T17.1**	**1T18.1**
Type	KB ECO 240	KB ECO 720	KB ECO 1020
Operating temperature	from 0 to +70 °C (max. 26 °C below ambient temperature)

CO_2 incubator ICO series

Memmert.

For cell cultures.

- **Operating temperature range from +5 °C above room temperature to 50 °C (in 0.1 °C increments) and CO_2 concentrations up to 20% (in 0.1% increments)**
- Stainless steel interior (1.4301)
- Heated inner glass door with opening (8 mm Ø) for gas sampling
- Stored sterilisation program: 60 minutes at 180 °C
- To supply the incubator with CO_2, a separate gas cylinder or a central compressed-gas tank is required
- Demineralised/fully desalinated chlorine-free water with a conductivity of 5 to 10 µS/cm and pH value 5-7 is required for humidification
- With factory calibration certificate at +37 °C, 5% CO_2

Other features:

- With fan (non-adjustable)
- German, English, French and Spanish language options
- Digital timer (adjustable from 1 min to 99 d, 23 h) or continuous operation
- Two graphical TFT displays with touchscreen for operation and displaying temperature, program runtime and graphical display of the target and actual values
- Integrated data logger with 10-year memory
- **Display of recorded log data (max. 10,000 values correspond to approx. one week) directly on the device**
- With Ethernet communication port for reading out log data as well as for transmitting and launching programs and online logging
- **USB port for installing programs and reading out the data logger incl. software (to create ramp programs and weekly programs)**
- Definition of individual min./max. values for protection against excessive/insufficient temperatures

Technical specifications:

Standard version with water tray

Humidity limiting to 93% rF ±2.5% with filled water tray inserted in the interior.

Delivery incl. stainless steel perforated sheet (Model 50: one grate, Models 105 to 240: two grates) and water tray.
There are additional transport costs for delivery to the point of use. We are happy to provide you with these on request.

Type	Vol. (l)	Art. No.	Pack Qty.	€
ICO50	56	**1XYX.1**	1 unit(s)	4.751,00

Plus version with active humidification and dehumidification control

Active humidification and dehumidification control microprocessor (40 to 97% RH in 0.5% RH increments) with digital display to prevent condensation formation and enable the target humidity to be reached even more quickly with short recovery times. Humidity supply with water (from external 2.5 l container) via self-priming pump.

Delivery incl. stainless steel perforated sheet (Model 50: one grate, Models 105 to 240: two grates) and active humidification and dehumidification control. There are additional transport costs for delivery to the point of use. We are happy to provide you with these on request.

Constant climate chamber HPPeco series, Peltier-cooled

Memmert.

For stability and durability testing, quality testing and humidity exposure.

General features:

- **Operating temperature range from 5 to 70 °C (at least 20 below room temperature)**
  Set temperature of 5 to 70 °C
  Setting accuracy 0.1 K
- **Humidity adjustment range from 10 to 90% RH**
  Setting accuracy of 0.5% RH
  Humidity supply with distilled water from external container (2.5 l) via self-priming pump. Humidification via hot steam generator
- Peltier heating/cooling system
- Stainless steel interior (1.4301)
- Fully insulated stainless steel door
- **With additional inner glass door**
- Textured stainless steel housing
- **Incl.** factory calibration certificate for +25 °C/60% RH and +40 °C/75% RH

General properties:

- German, English, French and Spanish language options
- Digital timer (adjustable from 1 min to 99 days) or continuous operation
- “SetpointWAIT” function - process time does not start until the target temperature is reached

Other features:

- Two graphical TFT displays with touchscreen for operation and displaying temperature, relative air humidity, program runtime and graphical display of program flow
- Integrated data logger with up to ten-year memory
- **Display of recorded log data (max. 10,000 values correspond to approx. one week) directly on the device**
- With Ethernet communication port for reading out log data as well as for transmitting and launching programs and online logging
- **USB port for installing programs and reading out the data logger incl. software (to create ramp programs and weekly programs)**
- Definition of individual min./max. values for protection against excessive/insufficient temperatures

Water baths

Water bath

Phönix Instrument.

- Stainless steel inner tank
- LCD display for displaying setpoint/actual temperature values
- Integrated digital clock (1 min to 99 h, 59 mins or continuous operation)
- Overheating protection
- Heater exposed on floor
- Internal water drainage tube with integrated quick-release coupling

Technical specifications:

Art. No.	1T1E.1	EEA3.1	EEA4.1	EEA5.1
Type	WB-5	WB-12	WB-22	WB-22-P
Bath volume	5 l	12 l	22 l	
Inner length	270 mm	290 mm	470 mm

WB-22-P model with pump

Operating temperature range from 5 °C above room temperature to 85 °C (temperature adjustment range from 10 to 85 °C).

With built-in circulation pump for faster and more even heat distribution within the bath.

Type	Bath volume (l)	Art. No.	Pack Qty.	€
WB-22-P	22	**EEA5.1**	1 unit(s)	1.091,15

Thermostats

Refrigerating circulating thermostat ECO RE series

Lauda.

For controlling temperature of external loads. Option for simultaneous internal temperature control. With integrated cooling system.

- Monochrome graphical LCD display for simultaneous display of actual and target value
- Plain-text menu navigation
- Pump with six adjustable output levels
- USB port
- Integrated programmer, one program with max. 20 segments
- Bath tank made of stainless steel
- USB port
- Hose connectors for hoses with inner Ø 13 mm
- III (FL) = flammable liquids

Technical specifications:

Lighters

Stick lighter with electrical arc

TFA-Dostmann.

- Without an open flame, electrical with electrical arc
- With movable swan neck
- Charging via micro USB cable - on Notebook, PC or power bank
- Battery LED indicator lamp
- Charge time approx. 1.5 to 2 h
- With safety cover and automatic shutdown after 10 s of operation
- Dimensions L 219 x W 26 x D 18 mm
- Weight 58 g

Delivery incl. Micro USB cable.

Type	Art. No.	Pack Qty.	€
Stick lighter with electrical arc	**1T78.1**	1 unit(s)	18,30

Stick lighter Flex

ROTH SELECTION.

Refillable. Flame height adjustable. With safety device and flexible ignition tube. Piezo ignition. L 280 mm. Weight approx. 63 g.

Type	Art. No.	Pack Qty.	€
Stick lighter	**1TE2.1**	1 unit(s)	13,80

Microwave ovens

Microwave oven with grill

Severin.

- Brushed stainless steel housing
- Interior space approx. 20 l
- With LED display with clock function
- Microwave power approx. 800 W; can be set to 10 power levels
- Separate grill fitting approx. 1000 W
- Removable turntable (Ø 245 mm)
- Microwave and grill can be switched on separately or combined
- Be-silent function: beeping can be activated/deactivated
- Favourite function stores three combinations of power and time parameters
- External dimensions: W 452 x D 380 x H 262 mm
- Interior height approx. 175 mm
- Weight 13.6 kg
- Mains connection 230 V, 50 Hz

Type	Art. No.	Pack Qty.	€
Microwave with grill	**1PA6.1**	1 unit(s)	203,20

Hot plates

Induction hot plate CTS 2000/IN

Rommelsbacher.

- A magnetic coil generates the heat directly at the bottom of the pot. The cooking surface remains almost cold
- Glass ceramic cooking surface
- LED display for adjusting temperature, power levels and operating time setting
- Temperature selection from 40 to 220 °C (adjustable in 1 °C increments)
- Power selection in ten stages (75/150/300/400/500/700/900/1200/1500/1800 W)
- Timer can be set to between 0.01 min and 10 h
- An integrated temperature sensor in the middle of the induction area ensures effective temperature control, i.e. the temperature is measured directly from the bottom of the pot
- Regulation using touch-control sensors
- Pot detector
- Residual heat indicator and keypad lock prevent accidental operation

Technical specifications:

Art. No.	**1PL2.1**
Type	CTS 2000/IN
Heating output	2000 W
Temperature range	+40 to +220 °C
Heated zone	Ø 145–220 mm
Hotplate material	glass ceramic
W x D x H, total	390 x 308 x 45 mm
Weight	2,7 kg
Mains connection	230 V, 50 Hz

Can only be used with pots suitable for induction.

Type	Art. No.	Pack Qty.	€
CTS 2000/IN	**1PL2.1**	1 unit(s)	163,40

Digital hot plate HP-200D L/XL C-series

Stuart/Cole-Parmer.

With large surface for simultaneous heating of multiple samples.

Features:

- Temperature adjustment and display of the target/actual temperature via digital display
- Ceramic hot plate for good chemical resistance and high temperature
- Temperature fluctuations in the worktop area approx. ±10 °C
- Safety warning lamp for temperatures above 50 °C

Technical specifications:

Art. No.	**1Y3Y.1**	**1Y40.1**
Type	HP-200D-L-C	HP-200D-XL-C
Heating output	1200 W	2250 W
Temperature range	+50 to +450 °C	+50 to +375 °C
Display resolution	1 °C	
Heated zone	200 x 200 mm	450 x 250 mm
Hotplate material	glass ceramic	
Footprint	300 x 300 mm	300 x 500 mm
W x D x H, total	320 x 370 x 120 mm	560 x 360 x 130 mm
Mains connection	230 V, 50 Hz	

Pic.	Type	Art. No.	Pack Qty.	€
(1)	HP-200D-L-C	**1Y3Y.1**	1 unit(s)	886,00

Magnetic stirrers TWISTER series, can be expanded in a modular design

IKA.

For mixing up to 5 litres. Modular expandable stirring system and additional attachments available.

- By connecting additional TWISTER magnetic stirrers (available as an option), TWISTER can be expanded to become a multi-position magnetic stirrer with up to 30 stirring positions
- The stirring positions can be controlled either separately or simultaneously (leader-follower principle, at least 2 devices required, leader device synchronously controls follower device)
- LED glass display for showing the speed or power required for stirring
- Mixing can be started by pressing a button or by placing a vessel (beaker detection)
- Direction of rotation of the motor can be adjusted by turning to the right or left or using the automatic reverse function
- Protection class IP 66
- In addition, a shaker attachment (vortexer) or multi-position stirring attachment is available for small volumes (please order separately)

Technical specifications:

Art. No.	1T3H.1	1T3K.1	1T3L.1	1T3N.1
Type	TWISTER set 1	TWISTER set 2	TWISTER set 3	TWISTER set 4
Number of stirring points	1	2	3	4
Max. stirring capacity (H_2O)	5 l			
Speed range	100 to 3000 rpm			
Motor power input	10 W			
Motor power output	5 W			
Hotplate material	glass			
Setting accuracy	100 rpm			
Footprint	124 x 124 mm			
Clearance between stirring points		135 mm		
W x D x H, total	135 x 135 x 24 mm			
Operating temperature	5 to 40 °C at 80 % RH			
Weight	600 g			
Mains connection	100–240 V, 50/60 Hz			

TWISTER set 1

Delivery incl. 1 TWISTER magnetic stirrer, 1 magnetic bar and power supply.

Type	Art. No.	Pack Qty.	€
TWISTER set 1	**1T3H.1**	1 unit(s)	399,00

TWISTER set 2

Delivery incl. 2 TWISTER magnetic stirrers, 2 magnetic bars and power supply.

Type	Art. No.	Pack Qty.	€
TWISTER set 2	**1T3K.1**	1 unit(s)	749,00

TWISTER set 3

Delivery incl. 3 TWISTER magnetic stirrers, 3 magnetic bars and power supply.

Type	Art. No.	Pack Qty.	€
TWISTER set 3	**1T3L.1**	1 unit(s)	1.099,00

TWISTER set 4

Delivery incl. 4 TWISTER magnetic stirrers, 4 magnetic bars and power supply.

Type	Art. No.	Pack Qty.	€
TWISTER set 4	**1T3N.1**	1 unit(s)	1.449,00

Heating and magnetic stirrers

Accessories expansion device/attachments for TWISTER magnetic stirrers

IKA.

(1) TWISTER expansion device
Expansion device for existing TWISTER structures.
Please order the TW.PWR.2 power supply for expansion with up to 30 devices separately.

Delivery without power supply and without accessories.

Type	Art. No.	Pack Qty.	€
TWISTER expansion device	**1T3X.1**	1 unit(s)	359,00

(2) TW.IX stirring attachment
Attachment for mixing in small sample vessels with Ø 23 to 28 mm and volumes of 8 to 60 ml. Stirring positions increased from 1 to 9. Each of the nine stirring positions has its own magnetic drive.
To prevent sample vessels from falling over, vessel holders TW.IX.28 and TW.IX.23 are available (please order separately).

Delivery incl. adhesive pad for fastening to the basic device. This can be fitted and removed as often as required.

Type	Art. No.	Pack Qty.	€
TW.IX stirring attachment	**1T3Y.1**	1 unit(s)	279,00

(3) TW.VS shaker attachment
The shaker attachment is fixed to the basic device with an adhesive pad and can be fitted and removed as often as required.

Delivery incl. Vortex attachment for sample vessels up to Ø 50 mm and universal attachment incl. foam insert for one-handed shaking of bottles, etc.

Type	Art. No.	Pack Qty.	€
TW.VS shaker attachment	**1T40.1**	1 unit(s)	223,00

Accessories for TWISTER magnetic stirrer expansion device

IKA.

TW.PWR.2 power supply
Power supply for expansion of the TWISTER sets 1–4 to up to 30 devices.

Delivery incl. connector on the device.

Type	Art. No.	Pack Qty.	€
TW.PWR.2 power supply	**1T41.1**	1 unit(s)	119,00

TW.CABLE connection cable
The connection cable can be used to make an electrical connection between separate clusters of TWISTER devices if connecting the individual TWISTER devices is not required. To do this, the clusters require just one power supply. L 500 mm.

Type	Art. No.	Pack Qty.	€
TW.CABLE connection cable	**1T42.1**	1 unit(s)	35,00

Accessories for TW.IX stirring attachment

IKA.

Holder for nine sample vessels is placed on the TW.IX multi-position attachment in order to simplify sample handling and ensure that the sample vessels do not fall over during mixing.

Vessel holder for sample vessels Ø 28 mm

Suitable for	Art. No.	Pack Qty.	€
Ø 28 mm	**1T43.1**	1 unit(s)	55,00

Vessel holder for sample vessels Ø 23 mm

Suitable for	Art. No.	Pack Qty.	€
Ø 23 mm	**1T44.1**	1 unit(s)	55,00

Heating and magnetic stirrer Hei-PLATE Mix'n'Heat Core

Heidolph.

Features:

- Heating output 800 W
- Stirring capacities up to 20 l
- Hot plate made of silumin with ceramic coating
- Powder-coated die-cast aluminium housing
- Flattened edges carry liquids away from the device
- Visual residual heat warning at temperatures >50 °C
- From mid/end of 2022: EKT Hei-Con is available as an option for precise temperature monitoring and regulation of the medium and as an external display for target/actual indication of the temperature

Technical specifications:

Art. No.	**1NL7.1**
Type	Mix'n'Heat Core
Number of stirring points	1
Max. stirring capacity (H_2O)	20 l
Speed range	100 to 1400 rpm
Speed accuracy	±2 %
Operating temperature	room temperature to +300 °C
Control accuracy	±5 K
Heating output	800 W
Footprint	Ø 145 mm
W x D x H, total	168 x 299 x 101 mm
Weight	3 kg
Mains connection	230 V, 50/60 Hz

Type	Art. No.	Pack Qty.	€

Heating and magnetic stirrers

Heating and magnetic stirrer RCT basic

IKA.

- Temperature and speed adjustment via LED display
- Surface made of hardened, shatterproof glass
- **Can be directly connected to Pt 1000 medium measuring probe** (please order accessories for fastening the sensor separately)
- Integrated contact thermometer with full functionality
- The temperature control function automatically switches off if the externally connected temperature sensor is not immersed in the medium or is defective
- DIN socket 12878 for connection to an electronic contact thermometer, e.g. ETS-D5 for accurate temperature control (please order separately, see contact thermometer). Control accuracy with ETS-D5: ±0.5 K.
- Adjustable safety circuit for the hot plate temperature (50 to 360 °C)
- Warning of hot surface if residual heat on hot plate is >50 °C
- USB and RS 232 interfaces

Technical specifications:

Art. No.	1T4N.1	1XPK.1
Type	RCT basic	Complete RCT basic ready-to-go solution set
Number of stirring points	1	
Max. stirring capacity (H_2O)	20 l	
Speed range	50 to 1500 rpm	
Speed display	digital	
Motor power input	16 W	
Motor power output	9 W	
Hotplate material	aluminium alloy	
Operating temperature	13 °C above ambient temperature up to 310 °C	
Temperature display	digital	
Setting accuracy	±1 K	
Control accuracy without sensor	±5 K	
Control accuracy with sensor	Pt 1000: ±1 K ETS-D5: ±0,5 K	
Heating output	600 W	
Footprint	Ø 135 mm	
W x D x H, total	160 x 270 x 85 mm	
Weight	2.4 kg	4.3 kg
Mains connection	220–230 V, 50/60 Hz	

Standard version

Delivery incl. Pt 1000 temperature sensor and 2 magnetic bars.

Type	Art. No.	Pack Qty.	€
RCT basic	**1T4N.1**	1 unit(s)	927,00

Complete ready-to-go solution set

Delivery incl. Pt 1000 temperature sensor, H 16 V stand rod, H 38 holder rod, H 44 clamp, L 30/40 x Ø 8 mm magnetic stirring rods and BC 1000 silicone beaker cover for 600/1000 ml beakers.

Type	Art. No.	Pack Qty.	€
Complete RCT basic ready-to-go solution set	**1XPK.1**	1 unit(s)	954,00

Accessory silicone protective hood for RCT basic/digital

IKA.

Designation	Art. No.	Pack Qty.	€
H 105 protective hood	**1NP9.1**	1 unit(s)	21,00

Heating and magnetic stirrers

Heating and magnetic stirrer Hei-PLATE Mix'n'Heat Core+

Heidolph.

- Digital display of actual and set values for speed and hot plate temperature
- Heating output 800 W
- Stirring capacities up to 20 l
- Hot plate made of silumin with ceramic coating
- Powder-coated die-cast aluminium housing
- Flattened edges carry liquids away from the device
- Controlled heating output via FAST/PRECISE mode, depending on requirements
- **Direct connection facility for PT 1000 medium temperature sensor** (please order the desired temperature measuring sensor and the accessories for attaching the measuring probe separately)
- Integrated contact thermometer with full functionality
- Visual residual heat warning at temperatures >50 °C

Technical specifications:

Heating and magnetic stirrer RET basic safety control

IKA.

- Temperature and speed setting via digital display
- Electronic speed control, speed range 50-1700 rpm
- Safety magnetic stirrer with heater suitable for unsupervised operation
- **Can be directly connected to PT 1000 medium temperature sensor**
- Integrated contact thermometer with full functionality
- DIN socket 12878 for connection to an electronic contact thermometer, e.g. ETS-D5 for accurate temperature control (please order separately, see contact thermometer), control accuracy with ETS-D5: ±0.5 K
- The temperature control function automatically switches off if the externally connected temperature gauge is not immersed in the medium
- With adjustable safety circuit for the hot plate temperature, (50-380 °C)

Technical specifications:

Art. No.	1PK8.1
Type	RET basic safety control
Number of stirring points	1
Max. stirring capacity (H_2O)	20 l
Speed range	50 to 1700 rpm
Speed display	digital
Motor power input	16 W
Motor power output	9 W
Hotplate material	stainless steel
Operating temperature	room temperature to +340 °C
Temperature display	digital
Setting accuracy	±1 K
Control accuracy with sensor	PT 1000: ±1 K ETS-D5: ±0,5 K
Heating output	600 W
Footprint	Ø 135 mm
W x D x H, total	160 x 270 x 95 mm
Weight	2.5 kg
Mains connection	200–230 V, 50/60 Hz

Delivery incl. protective hood and PT 1000 temperature gauge (please order accessories for fastening the measuring probe separately if required).

Type	Art. No.	Pack Qty.	€
RET basic safety control	**1PK8.1**	1 unit(s)	1.397,00

Heating and magnetic stirrer with large hot plate SHP-200D-L-C/S-series

Stuart/Cole-Parmer.

Features:

- Temperature adjustment via digital display with display of the target/actual temperature
- Hot plate is available in chemical-resistant ceramic or robust aluminium
- Safety warning lamp for temperatures above 50 °C

Technical specifications:

Art. No.	1Y41.1	1Y42.1
Type	SHP-200D-L-C	SHP-200D-L-S
Number of stirring points	1	
Max. stirring capacity (H_2O)	15 l	
Speed range	100 to 1500 rpm	
Speed display	LED	
Hotplate material	ceramic	aluminium
Operating temperature	10 °C above room temperature up to +450 °C	10 °C above room temperature up to +300 °C
Heated zone	200 x 200 mm	300 x 300 mm
Heating output	1200 W	600 W
Resolution	1 °C	
Footprint	300 x 200 mm	300 x 300 mm
W x D x H, total	300 x 365 x 105 mm	
Mains connection	230 V, 50 Hz

Multi-position magnetic stirrer with heater HOTPLATE series with heatMIXcontrol

2mag.

Wear-free and maintenance-free induction motor. Homogeneous temperature distribution and mixing with synchronised stirring positions.

- Digital display for speed, power and temperature settings
- Separate control unit for protecting electronics from liquids and gases as well as thermal effects, housing made of stainless steel
- **With integrated temperature control plate** made of aluminium alloy with PTFE coating
- Ten-level stirrer power setting for high power when stirring viscous media, and reduced power for heat-free continuous operation, adjustable between 10% and 100%
- Soft start for reliable capture/centring and safe acceleration of the stirring rod
- Over-temperature cut-out

Technical specifications:

Art. No.	1TCH.1	1TCK.1
Type	HOTPLATE 6	HOTPLATE 15
Number of stirring points	6	15
Max. stirring capacity (H_2O)	1,500 ml	1,000 ml
Speed range	100 to 2000 rpm	
Speed display	digital	
Stirring power	40 W	
Operating temperature	40 to 200 °C (setting accuracy ±1 °C)	
Temperature range	to 200 °C	
Temperature display	digital	
Heating output	1200 W	
Footprint	250 x 430 mm	
Clearance between stirring points	130 mm	65 mm
W x D x H, total	250 x 430 x 75 mm	
Permissible ambient conditions	-10 °C to +40 °C at 80 % RH	
Weight	13 kg	
Mains connection	230 V, 50/60 Hz	

Delivery incl. heatMIXcontrol external control unit.

Dispersion units

Dispersion unit ULTRA-TURRAX® T 18 brushless digital

IKA.

High-speed dispenser. High circumferential speeds, even with small rotor diameters.

- Brushless motor for increased motor service life
- Digital speed display and adjustment
- 99 h 59 min or 99 min 59 s timer function
- USB port

Technical specifications:

Art. No.	1XPL.1
Type	T 18 brushless digital ULTRA-TURRAX®
Motor power input	400 W
Motor power output	300 W
Speed range	3000 to 25000 rpm
Speed display	LED
Speed adjustment	continuously variable
W x D x H	89 x 161 x 270 mm
Weight	3 kg
Mains connection	220–240 V, 50/60 Hz

Delivery incl. ULTRA-TURRAX® T18 brushless digital incl extension arm. Please order dispersion tool, sleeve and stand separately.

Type	Art. No.	Pack Qty.	€

Shaker RS-OS 6

Phönix Instrument.

Suitable for moving five Petri dishes, for gentle mixing of samples in different vessels, e.g. culture bottles, etc.

- Digital LED display of speed and operating time
- Maintenance-free, brushless motor

Technical specifications:

Art. No.	1T74.1
Type	RS-OS 6
Movement type	circular
Speed range	40 to 200 rpm
Shaking amplitude (stroke)	20 mm
Timer	1 min to 19 h, 59 min or continuous operation
Shaking surface area	268 x 268 mm
W x D x H	295 x 350 x 125 mm
Loading capacity	2 kg
Permissible ambient conditions	+4 to +40 °C at 80% RH
Weight	3.1 kg
Mains connection	100–240 V, 50/60 Hz

Delivery incl. tray top with four fixing bands. If silicon mats for tubes are required, please order separately.

Type	Art. No.	Pack Qty.	€
RS-OS 6	**1T74.1**	1 unit(s)	499,90

Rocker and 3D shakers RS-10 series

Phönix Instrument.

For the colouration, discolouration and washing of gels, DNA extractions, etc.

- Digital speed and timer display
- Illuminated display

Technical specifications:

Art. No.	1N41.1	1N42.1
Type	RS-RR 10	RS-RD 10
Movement type	see-saw	circular 3D rocking motion
Speed range	10 to 70 rpm	
Tilt angle	9 °	
Timer	1 to 1199 min or continuous operation	
Shaking surface area	320 x 320 mm	
W x D x H	420 x 370 x 106 mm	420 x 370 x 200 mm
Loading capacity	10 kg	5 kg
Permissible ambient conditions	5 to 40 °C at 80% rel. humidity	
Weight	12 kg	9 kg
Mains connection	100–240 V, 50/60 Hz	110–240 V, 50/60 Hz

Delivery incl. tray top with six fixing bands.

Pic.	Type	Art. No.	Pack Qty.	€
(1)	RS-RR 10	**1N41.1**	1 unit(s)	1.069,65
(2)	RS-RD 10	**1N42.1**	1 unit(s)	1.069,65

Silicon mat for RS-OS 6 tray top

Phönix Instrument.

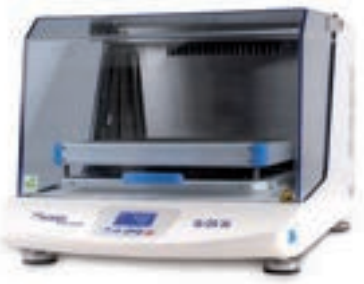
Max. two mats can be placed on the tray top of the RS-OS 6 shaker. Dimensions W 190 x D 120 mm.

Pic.	Suitable for	Art. No.	Pack Qty.	€
(1)	10 x 5-15 ml tubes (max. Ø 17 x 120 mm)	**1T75.1**	1 unit(s)	20,45
(2)	centrifuge tube type Falcon 4 x 50 ml (max. Ø 29 x 115 mm)	**1T76.1**	1 unit(s)	20,45

Incubation shaker IS-OS 20

Phönix Instrument.

For shaking, mixing and regulated temperature control of samples.



- With inbuilt fan for homogeneous heat distribution
- LCD display for actual/target speed and temperature as well as time setting
- Spring rack attachment for fastening different sizes of bottles, beakers and flasks included
- Loading option of spring rack attachment e.g. 9 x 250 ml Erlenmeyer flasks or 25 centrifuge tubes, 50 ml, type Falcon® (Ø 29 mm) or 2 ROTILABO® combi/cube racks for tubes (see accessories)
- Adjustable safety temperature
- Hood made of acrylic glass, working height in interior 250 mm
- A fixing clip attachment is optionally available for fastening spring clips (if desired, please order separately)

Technical specifications:

Art. No.	**1P1K.1**
Type	IS-OS 20
Movement type	circular
Operating temperature	+5 °C above room temperature up to +60 °C
Resolution	0,1 °C
Accuracy	±0.5 K (at 37 °C)
Speed range	40 to 300 rpm
Shaking amplitude (stroke)	20 mm
Timer	up to 99 h, 59 min or continuous operation
Shaking surface area	320 x 320 mm
W x D x H, external	500 x 610 x 470 mm
Heating output	500 W
Weight	40 kg
Mains connection	230 V, 50 Hz

Delivery incl. spring rack attachment.

Type	Art. No.	Pack Qty.	€
IS-OS 20	**1P1K.1**	1 unit(s)	3.456,15

Incubation shaker IS-OS 30 with cooling function

Phönix Instrument.

For shaking, mixing and regulated **heating and cooling** of samples.

- With inbuilt fan for homogeneous heat distribution
- With active cooling and heating function
- LCD display for actual/target speed and temperature as well as time setting
- Spring rack attachment for fastening different sizes of bottles, beakers and flasks
- Loading option of spring rack attachment e.g. 12 x 250 ml Erlenmeyer flasks or 37 centrifuge tubes, 50 ml, type Falcon® (Ø 29 mm) or 4 ROTILABO® combi/cube racks for tubes (see accessories)
- Adjustable safety temperature
- Hood made of acrylic glass, working height in interior 300 mm
- A fixing clip attachment is optionally available for fastening spring clips (if desired, please order separately)

Technical specifications:

Art. No.	**1P1N.1**
Type	IS-OS 30
Movement type	circular
Operating temperature	+4 to +60 °C
Resolution	0,1 °C
Accuracy	±0.5 K (at 37 °C)
Speed range	40 to 300 rpm
Shaking amplitude (stroke)	20 mm
Timer	up to 99 h, 59 min or continuous operation
Shaking surface area	450 x 450 mm
W x D x H, external	610 x 950 x 540 mm
Heating output	1300 W
Weight	95 kg
Mains connection	230 V, 50 Hz

Delivery incl. spring rack attachment.

Type	Art. No.	Pack Qty.	€
IS-OS 30	**1P1N.1**	1 unit(s)	7.213,25

Accessories ISS-E 205 fixing clip attachment for IS-OS 20 incubation shaker

Phönix Instrument.

For shaking Erlenmeyer flasks.
With a hole gird for fastening clips for Erlenmeyer flasks.

Max. number per board:
23 fixing clips for 100 ml flasks or
13 fixing clips for 250 ml flasks or
8 fixing clips for 500 ml flasks or
4 fixing clips for 1000 ml flasks or
1 fixing clip for 2000 ml flasks

Delivery without spring clips, please order separately.

Type	Art. No.	Pack Qty.	€
Fixing clip attachment for IS-OS 20	**1P1L.1**	1 unit(s)	160,20

Accessories ISS-E 305 fixing clip attachment for IS-OS 30 incubation shaker

Phönix Instrument.

For shaking Erlenmeyer flasks.
With a hole gird for fastening clips for Erlenmeyer flasks.

Max. number per board:
36 fixing clips for 100 ml flasks or
18 fixing clips for 250 ml flasks or
16 fixing clips for 500 ml flasks or
9 fixing clips for 1000 ml flasks or
4 fixing clips for 2000 ml flasks

Delivery without spring clips, please order separately.

Type	Art. No.	Pack Qty.	€
Fixing clip attachment for IS-OS 30	**1P1P.1**	1 unit(s)	299,95

Accessories fixing clips for ISS-E 205/305 fixing clip attachment

Phönix Instrument.

Type	Art. No.	Pack Qty.	€
Fixing clip for 100 ml flasks	**1P20.1**	1 unit(s)	27,95
Fixing clip for 250 ml flasks	**1P21.1**	1 unit(s)	37,65
Fixing clip for 500 ml flasks	**1P22.1**	1 unit(s)	40,85
Fixing clip for 1000 ml flasks	**1P23.1**	1 unit(s)	48,40
Fixing clip for 2000 ml flasks	**1P24.1**	1 unit(s)	69,90

Test tube shakers Vortex Mixer Multi-TX5 Digital

Velp.

For light or strong mixing of test tubes for applications with high sample throughput. Typical applications: Suspensions, genotyping, DNA and RNA tests.

- Quick and easy changing of test tube attachments
- Up to 44 samples processed at once
- LED display to set the speed and operating time
- With auto-reverse function - direction of rotation is reversed each time the set time interval is reached (5 s to 99 min, 59 s)
- Intermittent mode - for cyclical interruption of the shaking process (5 s to 99 min, 59 s)
- Pulse mode - shake at max speed for 2 s, followed by 1 s pause
- Timer function can be set individually or in combination with other functions
- Brushless motor

Technical specifications:

Art. No.	**1Y2X.1**
Type	Multi-TX5 Digital
Movement type	vircular, vibrating
Speed range	100 to 2500 rpm
Shaking amplitude (stroke)	3,6 mm
Timer	1 to 99 h 59 min in 1 min increments (max. use in continuous operation 2 h)
Shaking surface area	294 x 194 mm
W x D x H	245 x 490 x 380 mm
Weight	19 kg
Mains connection	100–240 V, 50/60 Hz

Delivery incl. test tube attachment for 44 test tubes Ø 12 mm.

Type	Art. No.	Pack Qty.	€
Multi-TX5 Digital	**1Y2X.1**	1 unit(s)	2.128,50

Ultrasonic disintegrators SONOPULS complete set HD 5000 series

Bandelin.

Applications: cell disruption, homogenising, deagglomerating, emulsifying, suspending, accelerating chemical reactions or disruption of cells, bacteria, fungi or spores are the main areas of application.

- Ultrasonic transducer with 7″ touch display for displaying actual and target values for amplitude, pulsation and time
- Amplitude adjustment in 1-% increments (from 10 to 100%)
- Power control in watts possible via slider or numerical indication
- Selectable time settings: Timer (up to 99 h, 59 mins, 59 s) or continuous operation. Timer operation for displaying the remaining time, continuous operation with display of elapsed time.
- Pulse interval is adjustable in 0.5 s increments. Sonication and pause can be specified independently from 0.5 to 600 s
- Storage for 8 programs for running through one after the other or can be combined in any order
- An optional temperature sensor for monitoring sampletemperature is available (please order separately), depending on the setting, a warning signal appears when the limit temperature is reached or the ultrasound is switched off
- USB A and B as well as Ethernet connection

Technical specifications:

Accessories LS 40 noise protection box for SONOPULS HD 5000 ultrasonic disintegrators

Bandelin.

For reducing the noise level during the sonification of liquids.

- Reduction in noise of approx. 30 dB
- LED interior lighting and acrylic glass window for processmonitoring
- Drip pan made of stainless steel, easy to remove
- Closable opening on the rear enables lines to be guided through (W 67 x H 37.5 mm)
- Ventilation system for reducing the process-related formation of moisture
- HG 40 holding rack can be flexibly positioned in the noise protection box (please order separately)

Technical specifications:

Art. No.	1T69.1
Type	LS 40 noise protection box
W x D x H, interior	3100 x 350 x 880 mm
W x D x H, external	515 x 445 x 1000 mm
Mains connection	100–240 V, 50/60 Hz

Type	Art. No.	Pack Qty.	€
LS 40 noise protection box	**1T69.1**	1 unit(s)	2.346,75

Benchtop centrifuge CD-0424

Phönix Instrument.

With 4-slot swing-out rotor (90°) for centrifuging of 15 or 50 ml Falcon® centrifuge tube or 5/15 ml tube.

- Displays centrifugation time, in rpm or x g
- Memory capacity for 3 programs
- Background-lit LCD display
- Three acceleration speeds and four braking speeds can be set
- Safety: cover lock and acoustic warnings
- Brushless motor

For use of the following types of vessel:

- 4 x 50 ml centrifuge tubes, Falcon® (Ø 29 x L 115 mm)
- 4 x 15 ml centrifuge tubes, Falcon® (Ø 17 x L 120 mm)
- 4 x 15 ml standard test tubes (Ø 17 x L 100 mm)
- 4 x 4.5-4.9 ml tubes (Ø 13 x L 66/75 mm)

Technical specifications:

Art. No.	1Y86.1
Type	CD-0424
Maximum speed	4,000 rpm
Additional data	speed can be adjusted in increments of 100 rpm
Maximum RCF	2500 x g
Minimum speed	500 rpm
Timer function	1 to 99 mins/continuous operation
W x D x H	370 x 440 x 270 mm
Weight	14,5 kg
Mains connection	100–240 V, 50/60 Hz

Delivery incl. 4-slot swing-out rotor (90°) for 4 x 50 ml Falcon® centrifuge tubes, and adapter set (sleeve inner Ø 17 mm, H 85 mm and sleeve inner Ø 13 mm, H 60 mm).

Not a medical device / Not an IVD product

Type	Art. No.	Pack Qty.	€
CD-0424	**1Y86.1**	1 unit(s)	1.171,75

Accessories fixed angle rotor (45°) type CD-A24-15P for CD-0424 benchtop centrifuge

Phönix Instrument.

- For 24 x 15 ml Falcon® centrifuge tubes (Ø 17 x L 120 mm) or 24 x 4.5/4.9 ml tubes (Ø 13 x L 66/75 mm)
- Max. speed 4000 rpm, max. RCF 1900 x g
- For 15 ml standard test tubes (Ø 17 x L 100 mm), additional optional spacers are required, please order separately if needed

Delivery incl. 24 adapters (inner Ø 17 mm, L 98 mm) and 24 adapters (inner Ø 13 mm, L 60 mm).

Type	Art. No.	Pack Qty.	€
CD-A24-15P fixed angle rotor	**1Y87.1**	1 unit(s)	385,95

Accessories spacers for type CD-A24-15P fixed angle rotor

Phönix Instrument.

For removing 15 ml standard test tubes with round bases (Ø 17 x L 100 mm) from the adapters of the CD-A24-15P fixed angle rotor. Dimensions: Ø 17 mm, H 21 mm).

Type	Art. No.	Pack Qty.	€
Spacers (Ø 17 mm, H 21 mm)	**1Y88.1**	12 unit(s)	20,45

Vacuum pumps

Diaphragm vacuum pump MZ 2C NT

Vacuubrand.

Two-stage diaphragm vacuum pump offering the ideal combination of high delivery rate and good end vacuum. For continuous, oil-free evacuation and conveying of aggressive and corrosive gases and vapours.

- High vapour and condensate resistance thanks to integrated gas ballast valve
- Materials in contact with media made of highly chemical-resistant fluoroplastics for an extremely wide range of possible applications in the chemical and pharmaceutical industries
- Robust design for excellent stability (even for rough chemical applications) and long maintenance intervals
- NT series: Particularly quiet, low-vibration operation, high gas-tightness and improved performance characteristics

Application:
Vacuum generation for rotary evaporators, vacuum concentrators, gel dryers and many other laboratory applications.

Technical specifications:

Art. No.	**1TCN.1**
Type	MZ 2C NT
Cylinder	2
Steps	2
Delivery rate	2 m³/h
End vacuum (abs.)	7 mbar
End vacuum abs. with gas ballast	12 mbar
Media temperature	+10 – +40 °C
Inlet connection	for hose inner Ø 8–10 mm
Outlet connection	for hose inner Ø 8–10 mm
Motor power	180 W
Ambient temperature	+10 – +40 °C
IP rating	40
Noise level	45 db
Materials in contact with media	ETFE pump head, carbon fibre-reinforced, diaphragms: PTFE, valves: FFKM
W x D x H	243 x 243 x 198 mm
Weight	11,1 kg
Mains connection	230 V, 50/60 Hz

Type	Art. No.	Pack Qty.	€
MZ 2C NT	**1TCN.1**	1 unit(s)	2.305,90

Diaphragm vacuum pump MD 4 series

Vacuubrand.

Three-stage, high-power diaphragm vacuum pump with extremely high delivery rate almost up to the end vacuum. Often used as a replacement for rotary pumps due to reaching a very low end vacuum. Ideal for continuous, oil-free evacuation and conveying of gases and vapours to meet eh high vacuum requirements of physics and analytical applications.

- NT series: Particularly quiet, low-vibration operation, high gas-tightness and improved performance characteristics
- Extremely high diaphragm service life

Technical specifications:

Art. No.	**1TCX.1**	**1TCY.1**
Type	MD 4 NT	MD 4C NT
Cylinder	4	
Steps	3	
Delivery rate	3,8 m³/h	3,4 m³/h
End vacuum (abs.)	1 mbar	1,5 mbar
End vacuum abs. with gas ballast		3 mbar
Overpressure	0,1 bar	
Media temperature	+10 – +40 °C	
Inlet connection	KF DN 16 small flange	for hose inner Ø 8 mm
Outlet connection	G¼″ silencer	for hose inner Ø 8 mm
Motor power	250 W	
Ambient temperature	+10 – +40 °C	
IP rating	40	
Materials in contact with media	pump head: aluminium alloy, diaphragms: FPM, valves: FPM	ETFE pump head, carbon fibre-reinforced, diaphragms: PTFE, valves: FFKM
Weight	16,4 kg	14,3 kg
Mains connection	230 V, 50/60 Hz	

(1) MD 4 NT
For non-aggressive gases and vapours.

Application: degassing viscous media and particularly as a booster pump for turbomolecular pumps.

Type	Art. No.	Pack Qty.	€
MD 4 NT	**1TCX.1**	1 unit(s)	3.144,40

(2) MD 4C NT
For aggressive and corrosive gases and vapours.

Application: vacuum generation for rotary evaporators/drying ovens, for pumping out large quantities of vapour from drying ovens/gel dryers and many other laboratory vacuum applications without solvent recovery.

- Excellent chemical resistance
- High vapour and condensate resistance thanks to integrated gas ballast valve - also suitable for high boilers thanks to the very high end vacuum (even with open gas ballast valve)

Type	Art. No.	Pack Qty.	€
MD 4C NT	**1TCY.1**	1 unit(s)	4.477,40

Screw pump

Vacuubrand.

Dry-running screw pump for coarse and fine vacuum applications. It offers three important benefits at once: 100% oil-free, no abrasion, and no wear parts.

- Spindles run contact-free, and are therefore free from abrasion and wear
- Designed specifically for processes up to 10^{-3} mbar
- Evacuation of large systems without needing to change vacuum pumps
- Highly resistant to condensation; designed so that no gas ballast is needed for applications that produce large amounts of vapour
- Quick-drying pump after the end of the process thanks to integrated regeneration mode, thereby substantially increasing sample throughput

Bitte beachten: Abweichende Konditionen / Please note: Different conditions

Technical specifications:

Art. No.	1TE3.1	1TE4.1
Type	VACUU PURE 10	VACUU PURE 10C
Delivery rate	10 m³/h	9 m³/h

VACUU PURE 10

For air and neutral gases and vapours.

Application: booster pump for turbomolecular pumps, analytics and mass spectrometers.

Type	Art. No.	Pack Qty.	€
VACUU PURE 10	**1TE3.1**	1 unit(s)	8.818,25

VACUU PURE 10C

High chemical resistance for transporting corrosive and aggressive gases and vapours. Ideally suited for clean processes and extracting pure products. Cold traps not required for common solvents.

Application: freeze drying, Schlenk technology, (residual) drying in vacuum drying ovens, fine vacuum distillation.

Type	Art. No.	Pack Qty.	€
VACUU PURE 10C	**1TE4.1**	1 unit(s)	10.497,40

Vacuum systems

Vacuum system MZ 2 series

Vacuubrand.

For evacuating, evaporating and pumping out gases and vapours in chemical, biological and pharmaceutical laboratories.

- Exceptional chemical and condensate resistance
- High delivery rate almost up to the achievable end vacuum
- Good end vacuum, even with open gas ballast valve
- Very quiet and low-vibration operation

Technical specifications:

(1) MZ 2C NT +2AK
For applications where pressure-side condensation of solvent vapours is not required.

Application: Vacuum concentrators, gel dryers and filtration

- Suction-side separator (AK, glass with protective coating) keeps back particles and liquid droplets.
- Pressure-side separator (AK, glass with protective coating) collects condensate, prevents condensate flowing back into the pump, softens exhaust noises and thereby enables pumps to operate extremely quietly.

Delivery incl. suction-side and pressure-side separator.

Type	Art. No.	Pack Qty.	€
MZ 2C NT +2AK	**1TCP.1**	1 unit(s)	3.272,30

(2) MZ 2C NT +AK+EC
Application: Rotary evaporators, vacuum concentrators and vacuum drying cabinets

- Suction-side separator (AK, glass with protective coating) keeps back particles and liquid droplets.
- The pressure-side emission condenser (EC) is particularly effective and compact. It ensures almost complete recovery of solvents, enabling cost-effective re-use and actively contributing to environmental protection.

Delivery incl. suction-side separator and pressure-side emission condenser.

Type	Art. No.	Pack Qty.	€
MZ 2C NT +AK+EC	**1TCT.1**	1 unit(s)	3.564,70

Vacuum system MD 4 series

Vacuubrand.

For evacuating, evaporating and pumping out gases and vapours.

- Exceptional chemical and condensate resistance
- Very high delivery rate almost up to the very low end vacuum
- Particularly low end vacuum, even with open gas ballast valve
- Very quiet and low-vibration operation

Application: vacuum concentrators, rotary evaporators and vacuum drying cabinets

Vacuum system LABOPORT®

KNF.

Available in various versions and therefore tailor-made for the individual requirements in the laboratory.
The core of the system is the LABOPORT® diaphragm vacuum pump (N 800 G-series): Compact, chemical-resistant and high-power.
Even more environmentally friendly thanks to newly developed system components such as separator, high-performance condenser and/or innovative vacuum controller.

- Integrated speed control for precise vacuum
- Integrated gas ballast valve for high vapour and condensate resistance
- Inner media-contact area ATEX-compliant according to "II 3/-G Ex h IIB+H2 T3 Gc internal atmosphere only"; for applications involving working with highly flammable solvents in closed systems. Not approved for ATEX zones

(1) SR series

Equipped with two coated glass separators (suction side and pressure side). For trapping and retaining particles and fluid droplets/condensate out of the flow. Prevents these from reaching the vacuum pump on the suction side and releases them into the ambient air on the pressure side.

Delivery incl. base plate, suction-side and pressure-side separator.

Type	Art. No.	Pack Qty.	€
SR 820 G	**1TAC.1**	1 unit(s)	2.592,90
SR 840 G	**1TAE.1**	1 unit(s)	2.998,20

(2) SH series

Equipped with coated glass separator (suction side) and high-power condenser (pressure-side).

Almost complete recovery of solvents that have very low boiling points possible thanks to cooling of the flow via the high-power condenser.
For active environmental protection and reuse of the recovered solvents.

Delivery incl. base plate, suction-side separator and pressure-side high-power condenser.

Type	Art. No.	Pack Qty.	€
SH 820 G	**1TAH.1**	1 unit(s)	3.004,65
SH 840 G	**1TAK.1**	1 unit(s)	3.394,85

(3) SC series

Equipped with vacuum controller, coated glass separator (suction side) and high-power condenser (pressure-side).

- Automatic, precise boiling point detection and boiling point tracking using integrated ramp function
- No solvent library required
- Radio remote control for safe operation outside of the enclosed vents
- Simple, intuitive operation via touch-screen display and precise rotary button control
- Four operating modes for nearly all common laboratory applications
- High recovery rates even with solvents that have very low boiling points

Delivery incl. base plate, suction-side separator, pressure-side high-power condenser and vacuum controller with control unit.

Type	Art. No.	Pack Qty.	€
SC 820 G	**1TAL.1**	1 unit(s)	5.667,40

Surface disinfectant Bacillol® 30 Sensitive Foam

BODE Chemie.

Ready-to-use, aldehyde-, colourant- and fragrance-free fast-acting alcoholbased disinfectant for sensitive surfaces. Particularly gentle on materials, also suitable for sensitive materials such as Plexiglas®, Makrolon® and Polysulfon. User-friendly application in a handy spray bottle with foam spray head for optimal wetting.
Spectrum of activity: bactericidal, levurocidal, tuberculocidal, mycobactericidal, partially virucidal (incl. HBV, HIV, HCV), partially virucidal PLUS and is effective against polyomaviruses.
Applications: for fast-acting disinfection of sensitive plastic surfaces, medical inventory and surfaces in hospitals, medical practices and laboratories. Also suitable for disinfection of displays, keyboards and control panels of mobile and stationary communication devices.
Listing: VAH, IHO.
Active substances: ethanol, propane-2-ol, propane-1-ol and other additives.
Use disinfectants with care. Always read the labelling and product information before use.

Technical specifications:

Art. No.	1PK9.1	1PK9.2
Delivery form	ready-to-use liquid	
Ingredients	ethanol, propane-1-ol, propane-2-ol, additives

Disinfection wipes Bacillol® 30 Sensitive

BODE Chemie.

Gentle disinfectant wipes for quick disinfection of sensitive surfaces in the food industry, in sensitive areas with direct product contact, in healthcare establishments and on medical equipment and inventory. Also suitable for disinfection of displays, keyboards and control panels on sensitive equipment.
Spectrum of activity: bactericidal, levurocidal, tuberculocidal, mycobactericidal, partially virucidal (incl. HBV, HIV, HCV), partially virucidal PLUS and is effective against polyomaviruses.
Use disinfectants with care. Always read the labelling and product information before use.

- With **Bacillol® 30 Sensitive Foam** pre-saturated ready-to-use disinfectant wipes
- Rapid and comprehensive action
- Aldehyde-, colourant- and fragrance-free
- Material compatibility tested for PC, PS, Plexiglas®, Latex and artificial leather (examination tables, etc.)
- Safe and easy removal of individual tissues from resealable flow pack thanks to practical tissuefolding system
- High-quality tear-resistant and absorbent PET fleece, wipe size 180 x 200 mm
- Good wetting and fast drying

Reusable wipes WYPALL® X60

Kimberly-Clark. Material: cellulose, plastic.

Made of HYDROKNIT® (cellulose fibres (83%) embedded in spunbond non-woven fabric (17% synthetic fibres)). 1-ply. High absorbency and tear resistance (wet and dry). Suitable for use in spray and wipe cleaning in conjunction with peracetic acid, hydrogen peroxide, bleaching agents (sodium hypochlorite), quaternary ammonium compounds, butanone, isopropanol and acetone.

- Suitable for cleaning, disinfection and general wiping applications
- Lightweight reusable wiping cloth for wet and dry cleaning
- Ideal for wiping down surfaces in industrial manufacturing environments and building cleaning applications
- For removing light oil, soot, adhesives and dirt deposits
- For cleaning glass and gloss surfaces
- Suitable for contact with foodstuffs

Note: always follow manufacturer instructions regarding dilution, use and exposure time for cleaning agents and disinfectants.
Compatibility tests with bleaching agents have been restricted to 24 hours to comply with the recommended usage instructions from the manufacturer.

Silicone-free laboratory grease glisseal N

Borer Chemie.

Vacuum-resistant, silicone-free laboratory grease for sealing and lubricating fixed and rotating glass joints and for lubricating plastic and metal connections.

- Vacuum-resistant
- Colour: transparent
- Excellent temperature stability, permanently smooth consistency between -40 and +200 °C, temporarily up to 300 °C (in the absence of air)
- No drop point
- Chemically resistant to most acids, bases and gases
- Insoluble in water and low molecular weight mono- or polyhydric alcohols

Technical specifications:

Art. No.	1L7T.2
Type	glisseal N
Application temperature from	-40 °C
Application temperature up to	+200 °C
Steam pressure	2.7 x 10^{-5} mbar

Made in Germany

One-component silicone rubber Scrintec®

For gluing, sealing, and coating. Highly chemical-resistant, UV/ozone-resistant. Polymerises at room temperature due to the air humidity to form a permanently elastic rubber.

650 neutral cross-linking
Paste-like, transparent. Temperature-resistant from -50 to +180 °C.

Spec. weight 1.03 g/cm³, Shore hardness 30°. Particularly suitable for substrates sensitive to corrosion. Odourless.

Decontamination system bondEX

For removal of ethidium bromide and other gel dyes from electrophoresis fluids.
The bondEX system works according to the HIC method (Hydrophobic Interaction Chromatography). Ethidium bromide or SYBR®Green residues are removed from buffer solutions by using a detoxification cartridge (bondEX 50) filled with a special resin and an indicator cartridge connected to it.

- High capacity – up to 50 mg EtBr or SYBR™ Green
- Safe handling – used cartridges are lockable
- Effective working – indicator cartridges display saturation
- No interference from other dyes – indicator cartridges interchangeable
- Time-saving process – no additional auxiliaries such as syringes, pumps, etc. required
- Convenient for large volumes – larger containers can be connected easily

Application

The pre-filtered dye solution is run over the bondEX 50 cartridge. This does not require any other auxiliary means such as syringes or pumps. The resin in the cartridge can hold up to 50 mg ethidium bromide or SYBR®Green. An indicator cartridge shows by red colouring or UV fluorescence when the saturation of the bondEX 50 cartridge is reached.

The bondEX system consists of
1LC9.1 bondEX Starter Kit
1LCA.1 bondEX 50 Set (refill set)
1LCC.1 bondEX Folded Filters XL (refill set).

ready-to-use

Decontamination system bondEX 50 set

Macherey-Nagel.

Components

Set for regular use of the bondEX system. For the first application please use the bondEX Starter Kit (1LC9.1).

The kit contains

- 5 bondEX 50 cartridges (with 2 end caps)
- 15 indicator cartridges
- 10 bondEX folded filters XL
- 5 supporting rings
- 5 hazard labels
- 1 protocol

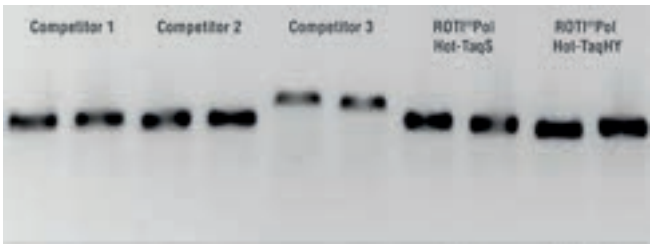
Molecular Biology

PCR
DNA Polymerases 144
Thermal Cyclers 146

ROTI®Pol TaqHY

For PCR. Recombinant, heat stable DNA polymerases from the thermophilic bacteria *Thermus aquaticus*.

ROTI®Pol, the series of DNA polymerases is the optimal choice for all PCR cycling protocols, as being performed in, for instance, analysis of cloning efficiency, for gene fishing, in routine screening processes, educational assays and much more. In combination with our specially designed buffers, the ROTI®Pol DNA polymerases deliver specific and reproducible PCR amplification with a wide range of PCR templates.



ROTI®Pol TaqHY

5 U/µl

For rapid high yield PCR amplifications.

DNA polymerase (thermostable) · Polymerase (thermostable) · Taq DNA polymerase, recombinant

Modified version of the recombinant heat stable Taq DNA polymerase from the thermophilic bacterium *Thermus aquaticus* in storage buffer, plus additional 10x concentrated PCR reaction buffer and 10x concentrated PCR reaction buffer with red gel loading dye. ROTI®Pol TaqHY is recommended for use in all PCR applications where very short cycle periods or particularly high yields are required.

This polymerase set ROTI®Pol TaqHY is perfectly suitable for all Taq-based cycling protocols with a) high yield, as being performed, for instance, prior to cloning, for amplicon elution, when using low-copy templates, or for educational purposes, or if b) particularly short cycle times are required.
ROTI®Pol TaqHY has been engineered for enhanced polymerase activity as well as for particularly speedy elongation, resulting in enhanced yields as well as in time-saving short elongation times. In combination with our unique buffers, the TaqHY polymerase delivers specific PCR amplification with a wide range of PCR templates. Using shorter cycle times, the amplicon amount resulting from this reaction is significantly higher as known from standard Taq polymerases.
ROTI®Pol TaqHY is able to amplify PCR products up to 3 kb with genomic DNA and is appropriate for use in the amplification of DNA from a wide range of even complex templates. The TaqHY DNA polymerase included in the set possesses a 5' → 3' polymerase- as well as a 5'-flap endonuclease activity, and generates a 3'dA (adenine)-overhang which may well be used for TA-cloning purposes.

Filled in colour coded tubes, the set contains the DNA polymerase and two 10x concentrated reaction buffers with 20 mM $MgCl_2$, one of which has been specially designed for direct gel loading following the PCR reaction. In 1 % agarose gels, the included red dye migrates approx. as fast as a 1 kb DNA fragment. During denaturation in Southern blotting, the dye turns yellow at an acidic pH. The use of the colourless PCR reaction buffer is adequate for all general PCR applications and is particularly recommended when direct fluorescence or absorbance readings are required.

The set contains

TaqHY polymerase (Art. No. 0528) in storage buffer containing 50 % glycerol, PCR buffer (10x) (Art. No. 0511) with 20 mM $MgCl_2$, PCR buffer red (10x) (Art. No. 0527) with 20 mM $MgCl_2$ and 0,1 % cresol red.
Colour coded tubes.
Contents of this set may not be bought separately.

Modified Taq polymerase in storage buffer, PCR buffer (10x), PCR buffer red (10x)

Storage temperature: –20 °C
Transport temperature: cooled

ready-to-use

ROTI®Pol TaqHY Mix (2x)

2x conc., ready-to-use

For rapid high yield PCR amplifications.

Master mix Taq DNA polymerase, recombinant · PCR master mix

Optimized, pre-mixed 2x PCR solution containing the recombinant TaqHY DNA polymerase from the thermophilic bacterium *Thermus aquaticus*, dNTPs, $MgCl_2$ and all other components required for PCR except primers and template DNA. ROTI®Pol TaqHY Mix (2x) is recommended for all PCR applications where very short cycles or high yield are required.

PCR assaying with ROTI®Pol TaqHY Mix (2x) master mix not only reduces contamination risks, but is also time-saving, highly reproducible and very easy to prepare. ROTI®Pol TaqHY Mix (2x) shows both an enhanced polymerase activity and an extremely time-saving, fast elongation rate.

Due to the optimized composition of the master mix, the TaqHY polymerase offers specific PCR amplification with good yield on a wide range of PCR templates. The yield achieved is significantly higher than that of conventional Taq polymerases, with shorter cycle times. ROTI®Pol TaqHY Mix (2x) is able to amplify PCR products up to 3 kb with genomic DNA, and is appropriate for use with pure DNA solutions, cDNA, and bacterial colonies as templates. The use of the colourless PCR Master mix is particularly recommended when direct fluorescence or absorbance readings are required. The TaqHY DNA polymerase included in the mastermix possesses a 5' →3' polymerase as well as a 5'-flap endonuclease activity and generates a 3'dA (adenine) overhang which can be used for TA cloning purposes.

The set contains

2 or 10 vials, respectively, with 1 ml each of ROTI®Pol TaqHY Mix (2x) containing TaqHY polymerase, 0.4 mM each dNTP, and 4 mM $MgCl_2$ in 2x reaction buffer

PCR premix w/o primers and template, optimized for reactions of 25 µl volume.

Storage temperature: –20 °C
Transport temperature: cooled

ready-to-use

ROTI®Pol TaqHY Red-Mix (2x)

2x conc., ready-to-use

For rapid high yield PCR amplifications followed by direct gel-loading.

Master mix Taq DNA polymerase, recombinant · PCR master mix

Optimised, premixed solution with recombinant TaqHY DNA polymerase from the thermophilic bacterium *Thermus aquaticus*, dNTPs, $MgCl_2$ and all other components required for PCR except primers and template DNA. ROTI®Pol TaqHY Mix (2x) is recommended for all PCR applications where very short cycles or high yield are required.

PCR preparations with ROTI®Pol TaqHY Mix (2x) Mastermix not only reduce the risk of contamination, but are also time-saving, highly reproducible and very easy to prepare. ROTI®Pol TaqHY Mix (2x) shows both an enhanced polymerase activity and an extremely time-saving, fast elongation rate.

Due to the optimally adjusted composition of the master mix, the TaqHY polymerase offers specific PCR amplification with good yield on a wide range of PCR templates. The yield achieved is significantly higher than that of conventional Taq polymerases, with shorter cycle times. With ROTI®Pol TaqHY Red-Mix (2x), PCR products of up to 3 kb can be amplified on genomic DNA as template, and the master mix can process pure DNA solutions, cDNA and bacterial colonies as template. In 1 % agarose gels, the contained red dye migrates approximately at the level of a 1 kb DNA fragment. During denaturation in the Southern blot, the dye turns yellow due to the acidic pH value. The TaqHY DNA polymerase contained in the master mix has a 5' → 3' polymerase as well as a 5'-flap endonuclease activity and generates a 3'dA (adenine) overhang on the PCR products, which can be used for TA cloning.

The set contains

2 or 10 vials, respectively, with 1 ml each of ROTI®Pol TaqHY Red-Mix (2x) containing TaqHY polymerase, 0.4 mM each dNTP, and 4 mM $MgCl_2$ in 2x reaction buffer with 0,02 % cresol red.

Prestained PCR premix w/o primers and template, optimized for reactions of 25 µl volume.

Thermal Cycler Alpha

Compact and easy-to-handle thermal cyclers for PCR

- Android controlled HD touchscreen
- Gradient function
- Fast heating and cooling rates
- High temperature homogeneity
- Automatic protocol optimisation with Program Wizard
- USB interface for secure user login

The compact PCR thermal cyclers are suitable for DNA amplification in high-throughput screening, genotyping or cloning. The thermal cyclers can be intuitively programmed with a touch screen and deliver repeatable results with every run.
Features include a clear, responsive touch screen, secure and user-specific programming, an adjustable heated lid and active sample cooling for stronger and more specific amplification.
A program wizard generates a protocol specific to your sequence in seconds, allowing you to quickly optimise amplification of new samples. The instrument stores up to 1000 reports for later viewing and offers an intuitive HD Android™ tablet user interface. Personal settings can be stored on a USB stick, which can then also be used to log in.

Biochemistry

Scintillation 148

Western Blot & ELISA
Antibodies 149

Scintillation Cocktails

Optimised for various standard applications

- NPE free - environmentally safe and non-carcinogenic
- High counting efficiency
- Low photo- and chemoluminescence
- Very good colour- and chemical quench resistance
- Virtually odor- and colourless
- High flash point
- No permeation through plastic vials

ROTISZINT®Filter

ROTISZINT® ready-to-use, NPE free, for scintillation

LSC cocktail, for filter assays

Special scintillation cocktail for measuring samples in filter plates. ROTISZINT®Filter can be used with practically all filter types as well as with dry, moist or wet filter plates; the wetting of the filters by the scintillation cocktail is fast and complete.
Biodegradable.

Application

The addition of an elution buffer is not necessary. Filter plates can be directly wetted with the scintillation cocktail and measured.

We recommend the use of ROTILABO®Dispensers.

Storage temperature: +15 to +25 °C

ROTISZINT®HighCapacity

ROTISZINT® ready-to-use, NPE free, for scintillation

LSC cocktail, for large sample volumes and highly concentrated samples

ROTISZINT®HighCapacity was developed to work with both dilute and more concentrated samples used in general LSC counting. This special scintillation cocktail will accept up to 10 ml of most dilute sample types and lesser volumes of concentrated samples.
ROTISZINT®HighCapacity thus offers the greatest possible flexibility with samples of high diversity.
Biodegradable.

The sample uptake capacity is up to 10 ml / 10 ml cocktail for many common solvents such as 0.5 M HNO_3, 1 M H_3PO_4, 0.1 M NaOH, 0.1 M NaCl, PBS and water. Only for some special and highly concentrated solutions (such as 0.1 M ammonium citrate, 0.1 M EDTA, 4 M H_3PO_4 or 4 M HNO_3) the maximum sample volume is 4 to 6 ml / 10 ml cocktail.

Application

Excellent for measuring solutions. For the measurement of filter samples we recommend the use of ROTISZINT®Filter.

We recommend the use of ROTILABO®Dispensers.

ROTISZINT®Routine

ROTISZINT® ready-to-use, NPE free, for scintillation

LSC cocktail, for scintillation assays in general

Safe and easy-to-use scintillation cocktail for a wide range of applications. ROTISZINT®Routine has a good sample uptake capacity for all aqueous samples and is suitable for solutions with high ionic strength.
Biodegradable.

For some solvents, such as 0.3 M HNO_3, the sample uptake capacity is up to 5 ml / 10 ml cocktail. For most common as well as for higher concentrated solutions (for example 0.1 M ammonium citrate, 0.1 M EDTA or 2 M HNO_3) the maximum sample volume is 2 to 3.5 ml / 10 ml cocktail.

Application

Excellent for measuring solutions. For the measurement of filter samples we recommend the use of ROTISZINT®Filter.

We recommend the use of ROTILABO®Dispensers.

anti-alpha-Smooth Muscle Actin mouse monoclonal, 1A4/ASM-1

100 µg/ml, monoclonal, affinity purified

PROGEN.

Cytoskeleton marker

1A4/ASM-1 represents an excellent marker for myogenic soft tissue tumors and smooth muscle differentiation. Polypeptide reacting: specific for alpha-smooth-muscle isoform of actin (43 kDa). Tumors specificallly detected: leiomyosarcoma, leiomyoma, certain stromal cells surrounding infiltrating ductal carcinoma of breast. Tested cultured cell lines: Stress fibers of smooth muscle-derived cells and some smooth muscle subtype fibroblasts.

Host: Mouse
Antibody Type: Monoclonal
Isotype: IgG2a
Clone: 1A4/ASM-1
Immunogen: Synthetic N-terminus decapeptide of alpha-smooth-muscle isoform of actin
UniprotID: P62739 (Bovine), P08023 (Chicken), P62736 (Human), P62737 (Mouse), P62738 (Rat)
Synonym: Actin, aortic smooth muscle, Alpha-actin-2, Cell growth-inhibiting gene 46 protein [Cleaved into: Actin, aortic smooth muscle, intermediate form], ACTA2, ACTSA, ACTVS, GIG46
Conjugate: Unconjugated
Purification Affinity chromatography
Intended use: Research use only
Application: ICC/IF, IHC, WB
Reactivity: Bovine, Chicken, Horse, Human, Mouse, Rat

Application

Immunocytochemistry (ICC): Assay dependent
Immunohistochemistry (IHC) – frozen: 1:200-1:1,000 (100-500 ng/ml)
Immunohistochemistry (IHC) – paraffin: 1:200-1:1,000 (100-500 ng/ml, protease treatment and/or microwave treatment recommended)
Western Blot (WB): 1:1,000 (100 ng/ml)

IHC analysis of human colon using anti-alpha-Smooth Muscle Actin antibody. IHC was performed on formalin fixed paraffin embedded sections. The samples were deparaffinized with xylol and ethanol followed by heat induced antigen retrieval with 10 mM citrate buffer. After preparation the tissue was blocked with normal serum for 20 min at RT. The primary antibody anti-alpha-Smooth Muscle Actin mouse monoclonal, 1A4/ASM-1 (Cat. No. 690001) was diluted in PBS (antibody concentration 400 ng/ml) and incubated at 4°C over-night. The secondary antibody ImmPRESS HRP anti-mouse IgG was incubated for 20 min at RT. Slides were incubated with DAB solution until a brown staining is visable and with Haemalaun for a few minutes. The 10x picture was acquired using microscopy (courtesy of J.Hess, University Hospital Heidelberg).

Storage temperature: +4 °C
Transport temperature: ambient temp.

PBS buffer, pH 7.4 with 0.09 % sodium azide and 0.5 % BSA.
Short term at 2–8 °C (+4 °C); long term storage in aliquots at –20 °C; avoid freeze/thaw cycles.

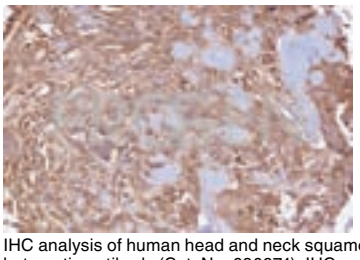
anti-beta-actin, clone AC-15, mouse monoclonal

100 µg/ml, monoclonal, affinity purified

PROGEN.



Cytoskeleton and cytoplasmic marker

Beta-Actin (42 kDa) is a highly conserved protein, which is able to polymerize to produce filaments. It is involved in cell motility, structure and integrity. Beta-Actin is a commonly used as a loading control for Western botting or as a housekeeping gene standard in qPCR.

Host: Mouse
Antibody Type: Monoclonal
Isotype: IgG1
Clone: AC-15
Immunogen: Synthetic b-cytoplasmic actin
UniprotID: P62739 (Bovine), P08023 (Chicken), P62736 (Human), P62737 (Mouse), P62738 (Rat)
Synonym: Actin, aortic smooth muscle, Alpha-actin-2, Cell growth-inhibiting gene 46 protein [Cleaved into: Actin, aortic smooth muscle, intermediate form], ACTA2, ACTSA, ACTVS, GIG46
Conjugate: Unconjugated
Purification: Affinity chromatography
Intended use: Research use only
Application: IHC, WB
Reactivity: Human

Application

Immunohistochemistry (IHC) – paraffin: 1:50-1:500 (0.2-2 µg/ml; microwave treatment recommended)
Western Blot (WB): 1:5,000 (20 ng/ml)

IHC analysis of human head and neck squamous cell carcinoma using anti-beta-actin antibody (Cat. No. 690974). IHC was performed on formalin fixed paraffin embedded sections. The samples were deparaffinized with xylol and ethanol followed by heat induced antigen retrieval with 10 mM citrate buffer. After preparation the tissue was blocked with normal serum for 20 min at RT. The primary antibody anti-beta-actin mouse monoclonal, clone AC-15 was diluted in PBS (antibody concentration 500 ng/ml) and incubated at 4°C over-night. The secondary antibody ImmPRESS HRP anti-mouse IgG was incubated for 20 min at RT. Slides were incubated with DAB solution until a brown staining is visable and with Haemalaun for a few minutes. The 20x picture was acquired using microscopy (courtesy of
J. Hess, University Hospital Heidelberg).

Western blot analysis of HeLa lysate with anti-beta-actin antibody. Western blot analysis was performed on 20 µg HeLa lysate. Cells were lysed with RIPA buffer. The PVDF membrane was blocked with 5% dry milk in PBST (PBS + 0.1% Tween 20) for 1 h at RT. The primary antibody anti-beta-actin antibody mouse monoclonal, clone AC-15 (Cat. No. 690974) was diluted in blocking buffer (antibody concentration 0.02 µg/ml) and incubated for 1 h at RT. The secondary antibody anti-mouse IgG goat polyclonal, HRP conjugate was also diluted in blocking buffer (antibody concentration 0.4 µg/ml) and incubated for 1 h at RT. The bands were visualized by chemiluminescent detection using PierceTM ECL Western Blotting Substrate.

Storage temperature: +4 °C
Transport temperature: ambient temp.

PBS buffer, pH 7.4 with 0.09 % sodium azide and 0.5 % BSA.
Storage at 2–8 °C (+4 °C).

anti-Cardiac Actin mouse monoclonal, AC1-20.4.2

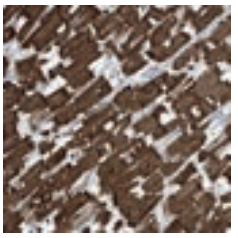
50 µg/ml, monoclonal, affinity purified

PROGEN.

Cytoskeleton marker

Ac1 represents an excellent marker for cardiac tissue; it discriminates fetal (cardiac) a-actin from all other actin isoforms. Fetal actin can be localized in regenerating skeletal muscle after injury (in satellite cells) and in veins of the umbelical cord. Mab Ac1-20.4.2 shows no cross reaction with other actin isoforms present in skeletal and smooth muscle, provided that stringent experimental conditions have been applied.

Polypeptide reacting: Specific for fetal (cardiac) isoform of actin.



Host: Mouse
Antibody Type: Monoclonal
Isotype: IgG1
Clone: AC1-20.4.2
Immunogen: Synthetic NH2 terminus decapeptide of cardiac isoform of actin
UniprotID: P68034 (Chicken), P68032 (Human), G1STB6 (Rabbit)
Synonym: Actin, alpha cardiac muscle 1, Alpha-cardiac actin [Cleaved into: Actin, alpha cardiac muscle 1, intermediate form], ACTC1, ACTC
Conjugate: Unconjugated
Purification: Affinity chromatography
Intended use: Research use only
Application: IHC, WB
Reactivity: Bovine, Chicken, Human, Mouse, Rabbit

Application

Immunohistochemistry (IHC) – frozen: 1:10 (5 µg/ml; include 0.5 M NaCl in all washing buffers to enhance specificity)
Immunohistochemistry (IHC) – paraffin: 1:10 (5 µg/ml; microwave treatment recommended)
Western Blot (WB): 1:1,000 (50 ng/ml; include 1 M NaCl in all washing buffers to enhance specificity)

Western blot analysis of human heart whole tissue lysate and with anti-Cardiac Actin antibody. Western blot analysis was performed on 20 µg human heart lysate. The PVDF membrane was blocked with 5% milk in PBST (PBS + 0.1% Tween 20) for 1 h at RT. The primary antibody anti-Cardiac Actin mouse monoclonal, AC1-20.4.2 (Cat. No. 690075) was diluted in blocking buffer (antibody concentration 0.05 µg/ml) and incubated for 1 h at RT. The secondary antibody anti-mouse IgG, HRP conjugate was also diluted in blocking buffer (antibody concentration 0.2 µg/ml) and incubated for 1 h at RT. The bands were visualized by chemiluminescent detection using Pierce™ ECL Western Blotting Substrate.

anti-Cardiac Actin mouse monoclonal, AC1-20.4.2, liquid, purified

Storage temperature: +4 °C
Transport temperature: ambient temp.

PBS buffer, pH 7.4 with 0.09 % sodium azide and 0.5 % BSA.

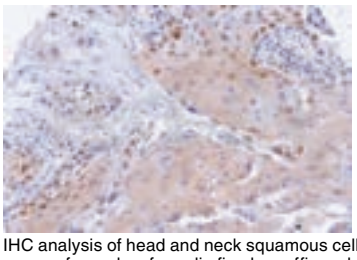
anti-Cyclin D1 mouse monoclonal, DCS-6

100 µg/ml, monoclonal, affinity purified

PROGEN.

Cell cycle marker

DCS-6 reacts specifically with cyclin D1 protein present predominantly in G1 phase of cell cycle; it does not cross-react with D2 or D3 cyclins (the closest relatives within the cyclin family); DCS-6 is especially useful in tumour diagnosis: it can be used as fast method to identify cases with 11q13 amplifications. Cyclin D1 gene is identical to the BCL-1 and the PRAD-1 oncogene and is part of the chromosome 11q13 amplicon which is amplified in several common tumour types like breast, lung, oesophagus, urinary bladder and head and neck carcinoma.



Polypeptide reacting: Mr 36 kDa polypeptide (cyclin D1 polypeptide of human cells).

Reactivity on cultured cell lines: MCF-7, MDA-MB-134 and MDA-MB-231 (breast cancer cell lines), UMSC22 (squamous cell carcinoma cell line), U-2-OS (osteosarcoma cell line), RT-112, A431, HT-29, 3T3-L1, Ins-1. The expression of Cyclin D1 is tissue specific and associated with tumour onset and progression.

Host: Mouse
Antibody Type: Monoclonal
Isotype: IgG2a
Clone: DCS-6
Immunogen: Human recombinant full-length cyclin D1 protein
UniprotID: Q64HP0 (Dog, Canis familiaris), P24385 (Human), P25322 (Mouse), P39948 (Rat)
Synonym: G1/S-specific cyclin-D1, B-cell lymphoma 1 protein, BCL-1, BCL-1 oncogene, PRAD1 oncogene, CCND1, BCL1, PRAD1
Conjugate: Unconjugated
Purification: Affinity chromatography
Intended use: Research use only
Application: ICC/IF, IHC, WB
Reactivity: Dog, Human, Monkey, Mouse, Rat

Application

Immunocytochemistry (ICC): Assay dependent
Immunohistochemistry (IHC) – frozen: 1:20-1:50 (2-5 µg/ml)
Immunohistochemistry (IHC) – paraffin: 1:20-1:50 (2-5 µg/ml, microwave treatment recommended)
Western Blot (WB): 1:50-1:100 (1-2 µg/ml)

IHC analysis of head and neck squamous cell carcinoma using anti-Cyclin D1. IHC was performed on formalin fixed paraffin embedded sections. The samples were deparaffinized with xylol and ethanol followed by heat induced antigen retrieval with 10 mM citrate buffer. After preparation the tissue was blocked with normal serum for 20 min at RT. The primary antibody anti-Cyclin D1 mouse monoclonal, DCS-6 (Cat. No. 690053) was diluted in PBS (antibody concentration 2 µg/ml) and incubated at 4°C over-night. The secondary antibody ImmPRESS HRP anti-mouse IgG was incubated for 20 min at RT. Slides were incubated with DAB solution until a brown staining is visable and with Haemalaun for a few minutes. The 20x picture was acquired using microscopy (courtesy of J. anti-Cyclin-Dependent Kinase 4 mouse monoclonal, DCS-156

50 µg/ml, monoclonal, affinity purified

PROGEN.

Cell cycle marker

DCS-156 reacts specifically with cdk4 protein present predominantly in G1 phase of cell cycle; it does not cross-react with cyclins. In immunohistochemical application on frozen sections of head and neck carcinoma (oropharynx and hypopharynx carcinoma) and cervix DCS-156 shows distinct nuclear staining, especially in tumor areas of enhanced proliferation.

Epitope recognized: aa 270-290.

Host: Mouse
Antibody Type: Monoclonal
Isotype: IgG1
Clone: DCS-156
Immunogen: Human recombinant full-length cdk4 polypeptide
UniprotID: P11802 (Human),P30285 (Mouse),P35426 (Rat)
Synonym: Cyclin-dependent kinase 4, EC 2.7.11.22, Cell division protein kinase 4, PSK-J3,
DK4
Conjugate: Unconjugated
Purification: Affinity chromatography
Intended use: Research use only
Application: WB
Reactivity: Human, Mouse, Rat

Application

Western Blot (WB): 1:50-1:500 (0.1-1 µg/ml)

Western blot analysis of human HeLa cell lysate with anti-Cyclin-Dependent Kinase 4 antibody. Western blot analysis was performed on either 5 µg or 10 µg of HeLa lysate. Cells were lysed in PBS by homogenization. The PVDF membrane was blocked with 5% dry milk in PBST for 1 h at RT. The primary antibody anti-Cyclin-Dependent Kinase 4 mouse monoclonal, DCS-156 (Cat. No. 690096) was diluted in blocking buffer (antibody concentration 0.5 µg/ml) and incubated for 1 h at RT. The secondary antibody goat anti-mouse IgG polyclonal, HRP conjugate was also diluted in blocking buffer (antibody concentration 0.2 µg/ml) and incubated for 1 h at RT. The bands were visualized by chemiluminescent detection using Pierce™ ECL Western Blotting Substrate.

Storage temperature: +4 °C
Transport temperature: ambient temp.

PBS buffer, pH 7.4 with 0.09 % sodium azide and 0.5 % BSA.

anti-Desmocollin 1 mouse monoclonal, Dsc1-U100

50 µg/ml, monoclonal, affinity purified

PROGEN.

Cell to cell contact marker

Mouse monoclonal antibody localizes Dsc1 present in suprabasal layers of interfollicular epidermis, in specific cell layers (e.g. in hair follicle root sheath) and in hassall bodies (spheroidal formations of densely packed reticulum-derived cells in the thymus).

Reacts with 111 kDa (form 'a') and 103 kDa (form 'b') polypeptides (desmocollin 1 splice forms, both at pI 5.2) from human epidermal desmosomes.

Reactivity on cultured cell lines: positive on primary keratinocytes, however, restricted to local piles of differentiated cells. All simple epithelia are negative.

Host: Mouse
Antibody Type: Monoclonal
Isotype: IgG1
Clone: Dsc1-U100
Immunogen: Synthetic peptide corresponding to sequence present within the intracellular part of human desmocollin 1 (HQTLESVKGVG-QGDTGRYATDWQC)
UniprotID: Q08554 (Human)
Synonym: Desmocollin-1, DSC1, Cadherin family member 1, Desmosomal glycoprotein 2/3, DG2/DG3, CDHF1
Conjugate: Unconjugated
Purification: Affinity chromatography
Intended use: Research use only
Application: IHC, WB
Reactivity: Human, Mouse, Rat

Application

Immunohistochemistry (IHC) – frozen. 1:50-1:100 (0.5-1 µg/ml, preincubation (directly after fixation) with 0.05-0.2% Triton X-100, for 5-10 min, depending on tissue type, is recommended; without detergent pretreatment a cytoplasmic component might cross-react)
Immunohistochemistry (IHC) – paraffin. 1:50-1:100 (0.5-1 µg/ml, microwave treatment recommended; a slight crossreactivity with a lymphocyte subpopulation is abolished by mild trypsinization after the microwave step)
Western Blot (WB): Assay dependent

IHC of rat skin with anti-desmocollin 1 (1:50, courtesy of J.Heß, University Hospital Heidelberg)

IHC of mouse skin with anti-desmocollin 1 (1:50, courtesy of J.Heß, University Hospital Heidelberg)

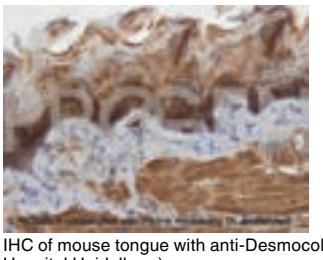
anti-Desmocollin 3 mouse monoclonal, Dsc3-U114

50 µg/ml, monoclonal, affinity purified

PROGEN.

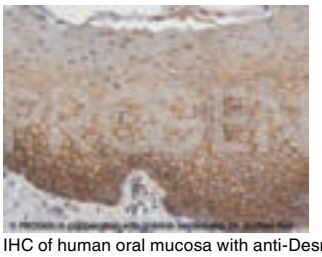
Cell to cell contact marker

The mouse monoclonal antibody localizes Dsc3 present in all living epidermal layers, in glandular duct cells, in basal matrix cells and outer root sheath of hair follicles, in basal and suprabasal cell layers of stratified epithelia (e.g. vagina, tongue, esophagus), in basal layer of bladder urothelium and complex epithelium of trachea, in thymic reticulum cellsAll simple epithelia are negative. Intercalated disks of myocardium are negative.



Polypeptide reacting: 109 kDa and 100 kDa polypeptides (desmocollin 3 splice isoforms at pI 5.2) from human epidermal desmosomes.

Reactivity on cultured cell lines: most cultured cell lines derived from stratified squamous epithelia or squamous cell carcinomas are positive (e.g. A-431, HaCaT).



Host: Mouse
Antibody Type: Monoclonal
Isotype: IgG1
Clone: Dsc3-U114
Immunogen: Synthetic peptide corresponding to a sequence present on the extracellular anchor domain of human desmocollin 3 (VHGAPFYFS-LPNTSPEISRLWSLTKVC)
UniprotID: Q14574 (Human), P55292 (Mouse), D3ZZI6 (Rat)
Synonym: Desmocollin-3, Cadherin family member 3, Desmocollin-4, HT-CP, DSC3, CDHF3, DSC4
Conjugate: Unconjugated
Purification: Affinity chromatography
Intended use: Research use only
Application: IHC, WB
Reactivity: Human, Mouse, Rat
No reactivity: Bovine

Application

Immunohistochemistry (IHC) – frozen: 1:10-1:100 (0.5-5 µg/ml, for better resolution preincubation (directly after fixation) with 0.05-0.2% Triton X-100, for 5-10 min, depending on tissue type, is recommended)

anti-Desmoglein 1/2 mouse monoclonal, DG 3.10

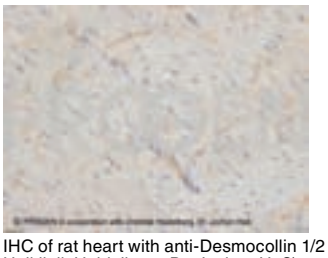
50 µg/ml, monoclonal, affinity purified

PROGEN.

Cell to cell contact marker

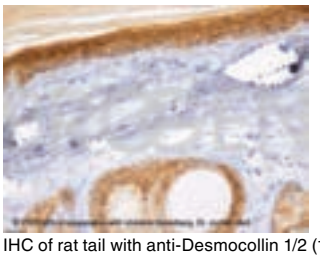
DG 3.10 recognizes desmoglein 1 + 2 (desmosome-specific cadherins) in desmosome-bearing cells; does not react with cells containing plaque-bearing junctions of non-desmosomal type.

Tumors specifically detected: all epithelium-derived tumors, notably carcinomas, and meningiomas.



Polypeptide reacting: Mr 165 000 Desmoglein, 'band 3' polypeptide of the desmosomal complex. Epitope recognized has been localized at the repeating unit domain ('RUD') of the cytoplasmic C-terminal part of the polypeptide.

Reactivity on cultured cell lines: A-431, MDBK.



Host: Mouse
Antibody Type: Monoclonal
Isotype: IgG1
Clone: DG 3.10
Immunogen: 'Band 3' polypeptide of isolated desmosomes from bovine muzzle epidermis
UniprotID: Q02413 (Human), D3ZM39 (Rat), Q03763 (Bovine)
Synonym: Desmoglein-1, Cadherin family member 4, Desmosomal glycoprotein 1, DG1, DGI, Pemphigus foliaceus antigen, DSG1, CDHF4
Conjugate: Unconjugated
Purification: Affinity chromatography
Intended use. Research use only
Application: ICC/IF, IHC, WB
Reactivity: Bovine, Human, Rat

Application

anti-Desmoglein 2 mouse monoclonal, 10G11

500 µg/ml, monoclonal, affinity purified

PROGEN.

Cell to cell contact marker

Antibody recognizes desmoglein 2 present in low concentrations in all epithelia and in tumors derived therefrom as well as in heart muscle and dendritic reticulum cells of lymphatic follicles. In basal epithelial cells desmoglein 2 expression is generally very low.

Polypeptide reacting: desmoglein 2 (1069aa; calculated mol. wt. 116,760)

Reactivity on cultured cell lines: Many, including CaCo-2, HaCaT, MCF-7

Host: Mouse
Antibody Type: Monoclonal
Isotype: IgG1
Clone: 10G11
Immunogen: Recombinant peptide (220aa of 2nd and 3rd extracellular repeat domain)
UniprotID: Q14126 (Human)
Synonym: Desmoglein-2, Cadherin family member 5, HDGC, DSG2, CDHF5
Conjugate: Unconjugated
Purification: Affinity chromatography
Intended use: Research use only
Application: IHC, WB
Reactivity: Human
No reactivity: Mouse, Rat

Application

Immunohistochemistry (IHC) – frozen: 1:100 (5 µg/ml, for better resolution preincubation (directly after fixation) with 0.05–0.2 % Triton X-100 for 5–10 min, depending on tissue type, is recommended (Schäfer S. et al., 1996))

anti-Desmoplakin 1/2 mouse monoclonal, DP 1 + 2-2.15

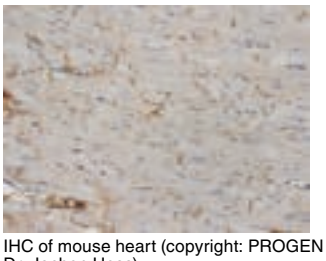
50 µg/ml, monoclonal, affinity purified

PROGEN.

Epithelium marker

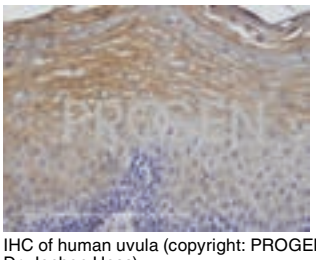
DP1 + 2-2.15 shows distinct punctate membrane staining of different epithelia.

Tumors specifically detected: primary and metastatic carcinoma and meningioma.



Polypeptides reacting: Desmoplakin 1 and 2 (Mr 250,000 and 215,000). The epitope recognized by clone DP1 + 2-2.15 is mapped to the N-terminus of the rod domain (Bornslaeger, E. A., 1996).

Bornslaeger, E. A. Breaking the connection: displacement of the desmosomal plaque protein desmoplakin from cell-cell interfaces disrupts anchorage of intermediate filament bundles and alters intercellular junction assembly. *J. Cell Biol.* 134, 9851001 (1996).



Host: Mouse
Antibody Type: Monoclonal
Isotype: IgG1
Clone: DP1 + 2-2.15
Immunogen: Bovine desmoplakin 1 + 2
UniprotID: A0A3Q1MR22 (Bovine), E1BWI0 (Chicken), P15924 (Human), E9Q557 (Mouse), Q8VBY1 (Rat)
Synonym: Desmoplakin, DP, 250/210 kDa paraneoplastic pemphigus antigen, DSP
Conjugate: Unconjugated

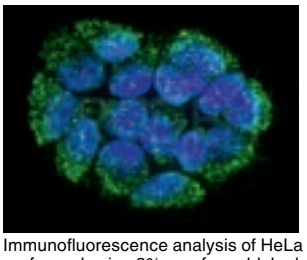
anti-DNA mouse monoclonal, AC-30-10

100 µg/ml, monoclonal, chromatographically purified

PROGEN.

Cell core marker (nucleus)

AC-30-10 stains DNA present in the nuclei and the mitochondria of cells and tissues. It is also a reliable positive control in assays for detection of DNA antibodies, especially for the detection of autoantibodies in autoimmune diseases. Due to the high sensitivity it can also be used for the detection of mycoplasma contamination in cell cultures.



Binding characteristics: reacts with all forms of native and denatured DNA; reactive also with lambda DNA and synthetic DNA.

Tested cultured cell lines: XLKE-A6 (Xenopus), RVF-SMC, PTK-2, HeLa.

Host: Mouse
Antibody Type: Monoclonal
Isotype: IgM
Clone: AC-30-10
Immunogen: Double- and single-stranded DNA
Conjugate: Unconjugated
Purification: Size exclusion chromatography
Intended use: Research use only
Application: Dot blot, ICC/IF, IHC
Reactivity: All species

Application

Dot Blot: Assay dependent (on nitrocellulose membrane, after baking at 70°C)
Immunocytochemistry (ICC): 1:200 (0.5 µg/ml)
Immunohistochemistry (IHC) – frozen: 1:10 (10 µg/ml)
Immunohistochemistry (IHC) – paraffin: 1:10 (10 µg/ml, microwave treatment recommended)

Immunofluorescence analysis of HeLa cells with anti-DNA antibody. Fixation was performed using 3% paraformaldehyde for 10 min at RT. Cells were blocked with 5% BSA in PBST (PBS + 0.1% Tween 20) for 1 h at RT and permeabilized with 0.3% Triton-X 100 in PBS for 10 min at RT. The primary antibody anti-DNA mouse monoclonal, AC-30-10 (Cat. No. 690014) was diluted in blocking buffer (antibody concentration 0.5 µg/ml) and incubated over-night at 4°C. The secondary antibody goat anti-mouse IgM Alexa488 was also diluted in blocking buffer (antibody concentration 2.5 µg/ml) and incubated for 30 min at 37°C and 30 min at RT. Nuclear DNA was stained with DAPI in blue.

Storage temperature: +4 °C
Transport temperature: ambient temp.

PBS buffer, pH 7.4 with 0.09 % sodium azide and 0.5 % BSA.
Storage at 2–8 °C (+4 °C).

anti-EP-CAM mouse monoclonal, HEA125

50 µg/ml, monoclonal, affinity purified

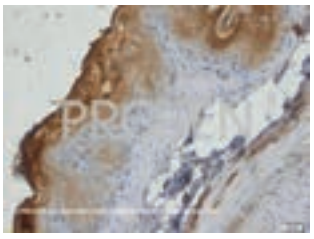
PROGEN.

Epithelium marker

The Ep-CAM (HEA125) antibody recognizes the epithelial cell adhesion molecule Ep-CAM (also described as 17-1A antigen, EPG34, CD326, and TACSTD1). This antigen is widely expressed on cells of epithelial origin and tumors derived therefrom. HEA125 represents an excellent marker to discriminate epithelial from mesothelial structures. The antigen has been detected in all carcinoma types tested (18 different origins). A subset of squamous cell carcinoma is negative. The antibody can be used as alternative to the anti-EpCAM antibody clone BerEp4.

Polypeptide reacting: Mr 40,000 human epithelium-specific cell surface glycoprotein (Ep-CAM).

Reactivity on cultured cell lines: all carcinoma cell lines tested so far; particularly strong reaction with colon carcinoma cell lines.



Host: Mouse
Antibody Type: Monoclonal
Isotype: IgG1
Clone: HEA125
Immunogen: HT-29 colon carcinoma cell line
Synonym: Human Epithelium Antigen, HEA, 17-1A, EPG34, CD326, TACSTD1
Conjugate: Unconjugated
Purification: Affinity chromatography
Intended use: Research use only
Application: ICC/IF, IHC, WB
Reactivity: Human
No reactivity: Mouse

Application

Immunocytochemistry (ICC): Assay dependent
Immunohistochemistry (IHC) – frozen: 1:10-1:50 (1-5 µg/ml)
Immunohistochemistry (IHC) – paraffin: 1:10-1:50 (1-5 µg/ml; protease treatment recommended)
Western Blot (WB): 1:200-1:3.000 (0.02-0.25 µg/ml)

Human head and neck squamous-cell carcinoma (HNSCC)(courtesy of J. Heß, University Hospital Heidelberg)

Mouse stomach (courtesy of J.Heß, University Hospital Heidelberg)

Storage temperature: +4 °C
Transport temperature: ambient temp.

PBS buffer, pH 7.4 with 0.09 % sodium azide and 0.5 % BSA.
Short term at 2–8 °C (+4 °C); long term storage in aliquots at –20 °C; avoid freeze/thaw cycles.

anti-GAPDH mouse monoclonal, clone 6C5

100 µg/ml, monoclonal, affinity purified

PROGEN.

GAPDH labelling (Western blot)

GAPDH (Glyceraldehyde 3-phosphate dehydrogenase) is a 37 kDa enyzme that catalizes the conversion from glyceraldehyde 3-phosphate (G3P) to 1,3-bisphosphoglycerate. Thereby, NADH is built. GAPDH is a commonly used as a loading control for Western botting or as a housekeeping gene standard in qPCR.

Host: Mouse
Antibody Type: Monoclonal
Isotype: IgG1
Clone: 6C5
Immunogen: GAPDH purified from rabbit muscle
UniprotID: P62739 (Bovine), P08023 (Chicken), P62736 (Human), P62737 (Mouse), P62738 (Rat)
Synonym: Actin, aortic smooth muscle, Alpha-actin-2, Cell growth-inhibiting gene 46 protein [Cleaved into:Actin, aortic smooth muscle, intermediate form], ACTA2, ACTSA, ACTVS, GIG46
Conjugate: Unconjugated
Purification: Affinity chromatography
Intended use: Research use only
Application: WB
Reactivity: Human

Application

Western Blot (WB): 1:5,000 (20 ng/ml)

Western blot analysis of HeLa lysate with anti-GAPDH antibody. Western blot analysis was performed on 20 µg HeLa lysate. Cells were lysed with RIPA buffer. The PVDF membrane was blocked with 5% dry milk in PBST (PBS + 0.1% Tween 20) for 1 h at RT. The primary antibody anti-GAPDH antibody mouse monoclonal, clone 6C5 (Cat. No. 690975) was diluted in blocking buffer (antibody concentration 0.02 µg/ml) and incubated for 1 h at RT. The secondary antibody anti-mouse IgG goat polyclonal, HRP conjugate was also diluted in blocking buffer (antibody concentration 0.4 µg/ml) and incubated for 1 h at RT. The bands were visualized by chemiluminescent detection using Pierce™ ECL Western Blotting Substrate.

Storage temperature: +4 °C
Transport temperature: ambient temp.

PBS buffer, pH 7.4 with 0.09 % sodium azide and 0.5 % BSA.
Short term at 2–8 °C (+4 °C); long term storage in aliquots at –20 °C; avoid freeze/thaw cycles.

anti-Glial Fibrillary Acidic Protein mouse monoclonal, GF 12.24

50 µg/ml, monoclonal, affinity purified

PROGEN.

Glial cell marker

GF 12.24 represents an excellent marker for cell typing. Suitable for prenatal diagnosis of neural tube defects.

Polypeptide reacting: Mr 50,000 glial filament protein GFAP (Glial Fibrillary Acidic Protein, Glial Filament Protein).

Tumors specifically reacting: astrocytomas, gangliomas, medullo-blastomas, mixed gliomas, certain ependymomas, certain teratomas.

Reactivity on cultured cell lines: human U 333CG/343MG

Host: Mouse
Antibody Type: Monoclonal
Isotype: IgG2a
Clone: GF 12.24
Immunogen: Intermediate filament cytoskeleton from cultured human glioma cells
UniprotID: Q28115 (Bovine),P14136 (Human),P03995 (Mouse),P47819 (Rat)
Synonym. Glial fibrillary acidic protein, GFAP, Glial Filament Protein, GFP
Conjugate: Unconjugated
Purification: Affinity chromatography
Intended use: Research use only
Application: ICC/IF, IHC, WB
Reactivity: Bovine, Human, Mouse, Rat

Application

Immunocytochemistry (ICC): Assay dependent
Immunohistochemistry (IHC) – frozen: 1:100-1:200 (250-500 ng/ml)
Immunohistochemistry (IHC) – paraffin: 1:100-1:200 (250-500 ng/ml; microwave treatment recommended)
Western Blot (WB): Assay dependent

IHC analysis of mous brain using anti-GFAP antibody. IHC was performed on formalin fixed paraffin embedded sections. The samples were deparaffinized with xylol and ethanol followed by heat induced antigen retrieval with 10 mM citrate buffer. After preparation the tissue was blocked with normal serum for 20 min at RT. The primary antibody anti-Glial Fibrillary Acidic Protein mouse monoclonal, GF 12.24 (Cat. No. 690011) was diluted in PBS (antibody concentration 250 ng/ml) and incubated at 4°C over-night. The secondary antibody ImmPRESS HRP anti-mouse IgG was incubated for 20 min at RT. Slides were incubated with DAB solution until a brown staining is visable and with Haemalaun for a few minutes. The 20x picture was acquired using microscopy (courtesy of J. Hess, University Hospital Heidelberg).

Storage temperature: +4 °C
Transport temperature: ambient temp.

PBS buffer, pH 7.4 with 0.09 % sodium azide and 0.5 % BSA.
Short term at 2–8 °C (+4 °C); long term storage in aliquots at –20 °C; avoid freeze/thaw cycles.

anti-Keratin K5/K8 (Pan Epithelial) mouse monoclonal, C22

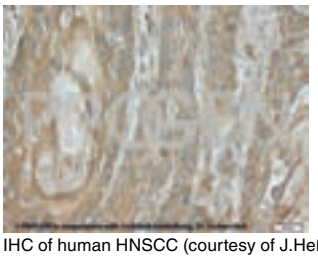
50 µg/ml, monoclonal, affinity purified

PROGEN.

Epithelium marker

C22 represents an excellent marker for distinguishing carcinomas from all non-epithelial tumors. The antibody specifically reacts with keratins K5 and K8 present in nearly all epithelia.

Polypeptide reacting: Mr 52,500, Mr 58,000 keratins (type II keratins K5 and K8; formerly also designated cytokeratins 5 and 8) of human epithelial cells. Epitope has been mapped to aa 353-367 on alpha helical rod domain of Keratin K8 (Waseem *et al.*, 2004).



Reactivity on cultured cell lines: MCF-7, RT 112, HT-29, HaCaT, Detroit 562, RPMI 2650, SSC-12, bovine BMGE+H, BMGE-H, MDBK.

Waseem A, Karsten U, Leigh IM, Purkis P, Waseem NH, Lane BE: Conformational changes in the rod domain of human keratin 8 following heterotypic association with keratin 18 and its implication for filament stability. *Biochemistry* 43, 1283-1295 (2004).

Host: Mouse
Antibody Type: Monoclonal
Isotype: IgG1
Clone: Ks 5+8.22/C22
Immunogen: Human keratin K8, purified from SDS PAGE gel
UniprotID: Q5XQN5 (Bovine), Q7RTS7 (Human), Q922U2 (Mouse), P05786 (Bovine), P05787 (Human), P11679 (Mouse)
Synonym: Keratin, type II cytoskeletal 74, Cytokeratin-74, CK-74, Keratin-5c, K5C, Keratin-74, K74, Type II inner root sheath-specific keratin-K6irs4, Type-II keratin Kb37, KRT74, K6IRS4, KB37, KRT5C, KRT6IRS4, Keratin, type II cytoskeletal 8, Cytokeratin-8, CK-8, Keratin-8, K8, Type-II keratin Kb8, KRT8, CYK8

anti-Keratin K6 mouse monoclonal, KA12

50 µg/ml, monoclonal, affinity purified

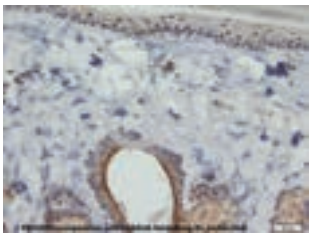
PROGEN.

Epithelium marker

Ks6.KA12 represents an excellent marker for non-keratinized squamous epithelia and proliferating cells of epidermis (e.g. within psoriatic lesions).

Polypeptide reacting: Mr 56,000 polypeptide (keratin K6; formerly also designated cytokeratin 6) of human squamous epithelia.

Tissues and tumors specifically detected: the antibody is suitable for discrimination of keratinizing and non-keratinizing squamous cell carcinoma versus e.g. poorly differentiated adenocarcinoma.



Host: Mouse
Antibody Type: Monoclonal
Isotype: IgG1
Clone: Ks6.KA12
Immunogen: Keratin K6 of human callus cytoskeletal preparation
UniprotID: P02538 (Human), P50446 (Mouse), Q4FZU2 (Rat)
Synonym: Keratin, type II cytoskeletal 6A, Cytokeratin-6A, CK-6A, Cytokeratin-6D, CK-6D, Keratin-6A, K6A, Type-II keratin Kb6, allergen Hom s 5, KRT6A, K6A, KRT6D
Conjugate: Unconjugated
Purificatio:n Affinity chromatography
Intended use: Research use only
Application: IHC, WB
Reactivity: Human, Mouse, Rat

Application

Immunohistochemistry (IHC) – frozen: 1:5-1:50 (1-10 µg/ml)

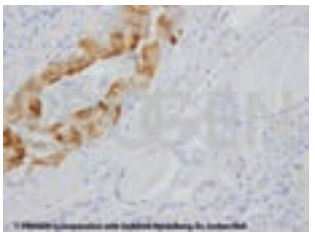
anti-Keratin K7 mouse monoclonal, Ks7.18

50 µg/ml, monoclonal, affinity purified

PROGEN.

Epithelium marker

Ks7.18 represents an excellent marker for the discrimination of specific subtypes of adenocarcinoma: e.g. adenocarcinoma of pancreas, bile duct carcinoma and transitional carcinoma of bladder are stained, whereas hepatocellular and prostate carcinomas are negative.



Detects specific subtypes of adenocarcinomas: adenocarcimona of pancreas, gallbladder, lung, cervix; cholangio carcinoma of liver; ductal and lobular carcinoma of breast; carcinomas of ovary ; transitional cell carcinoma of bladder; mesothelioma; negative with most cases of hepatocellular carcinoma. In colorectal carcinoma early stages are reported to be negative but advanced stages of tumor development are positive for keratin K7 expression. Occasionally, staining of blood vessel walls, particularly of endothelial cells may be observed.

Reacts with Mr 54,000 polypeptide (keratin K7; formerly also designated cytokeratin 7) of human glandular epithelia. Reactivity on cultured cell lines: HeLa, RT 112, T24, BT-20, CAMA-1, Detroit 562, (MCF-7 and HT-29 are negative).

Host: Mouse
Antibody Type: Monoclonal
Isotype: IgG1
Clone: Ks7.18
Immunogen: Cytoskeletal proteins from cultured HeLa cells
UniprotID: Q29S21 (Bovine), P08729 (Human), A0A287ASI0 (Pig), H0VIA2 (Guinea pig), A0A6P7DW90 (Sheep)
Synonym: Keratin, type II cytoskeletal 7, Cytokeratin-7, CK-7, Keratin-7, K7, Sarcolectin, Type-II keratin Kb7, KRT7, SCL
Conjugate: Unconjugated
Purification: Affinity chromatography
Intended use: Research use only

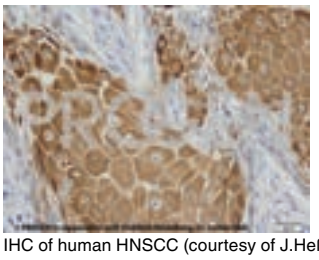
anti-Keratin K17 mouse monoclonal, Ks17.E3

50 µg/ml, monoclonal, affinity purified

PROGEN.

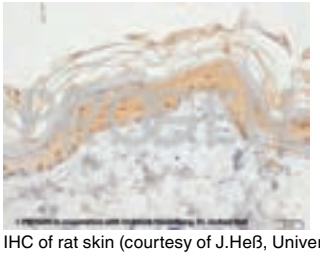
Epithelium marker

Ks 17.E3 represents an excellent marker to distinguish myoepithelial cells (positive for K17) from luminal epithelium of various glands (mammary, sweat, salivary, bronchial, tracheal, laryngeal, esophageal) and benign from malignant forms of e.g. mammary gland tumors. In the epidermis suprabasal staining is found only in cornifying regions and in the outer root sheath of hair follicles.



Tested reactivity on cultured cell lines: HeLa, A-431.

Tumors specifically detected: benign tumors of mammary gland; most malignant forms of mammary tumors are negative for keratin K17.



Host: Mouse
Antibody Type: Monoclonal
Isotype: IgG2b
Clone: Ks17.E3
Immunogen: Human keratin K17 of 46 kDa
UniprotID: Q04695 (Human),Q6IFU8 (Rat)
Synonym: Keratin, type I cytoskeletal 17, 39.1, Cytokeratin-17, CK-17, Keratin-17, K17, KRT17
Conjugate: Unconjugated

anti-Keratin K19 mouse monoclonal, Ks19.2 (Z105.6)

50 µg/ml, monoclonal, affinity purified

PROGEN.

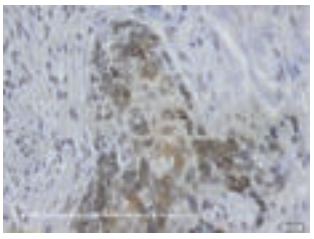
Epithelium marker

Ks 19.2 represents an excellent marker to discriminate glandular epithelial carcinoma from those of different origin. No reaction with hepatocellular carcinoma!

Polypeptide Reacting: Mr 40,000 polypeptide (keratin K19; formerly also designated cytokeratin 19) of human glandular epithelia. The epitope has been localized on aa. 352-368 (VRADSERQNQEYQRLMD) of the alpha-helical fragment.

Tumors specifically detected: all tested adenocarcinoma; cholangio carcinoma of liver; renal cell carcinoma; transitional cell carcinoma of the bladder; ovary carcinoma; squamous cell carcinoma of cervix, bronchus and lung (intermediate type); mesothelioma; carcinoid tumor of bronchus; breast carcinoma; thymoma.

Reactivity on cultured cell lines: MCF-7



Host: Mouse
Antibody Type: Monoclonal
Isotype: IgG2b
Clone: Ks19.2 (Z105.6)(also published as BM 19.21, MAK 19.21)
Immunogen: Keratin K19 of Mr 40 000; from cultured human MCF-7 cells
UniprotID: P08728 (Bovine), P08727 (Human), Q63279 (Rat)
Synonym: Keratin, type I cytoskeletal 19, Cytokeratin-19, CK-19, Keratin-19, K19, KRT19
Conjugate: Unconjugated
Purification: Affinity chromatography
Intended use: Research use only
Application: ELISA, ICC/IF, IHC, WB
Reactivity: Bovine, Human, Rabbit, Rat
No reactivity: Chicken, Mouse, Woodchuck, Xenopus

Application

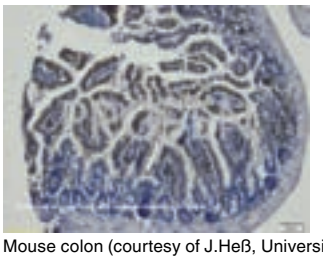
anti-Keratin K20 mouse monoclonal, IT-Ks20.8

50 µg/ml, monoclonal, affinity purified

PROGEN.

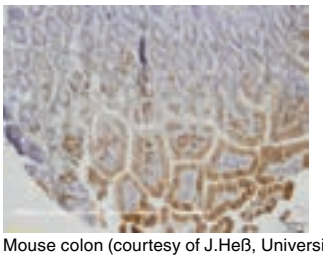
Epithelial marker

IT-Ks20.8 represents an excellent marker for certain types of carcinomas such as adenocarcinomas of the colon, transitional cell carcinomas of the bladder and Merkel cell tumors of the skin. Very sensitive detection of intestinal and gastric foveolar epithelium, urothelial umbrella cells, Merkel cells of epidermis as well as tumors originating therefrom (e.g. primary and metastatic colorectal carcinoma). Adenocarcinomas of breast, lung, endometrium and ovary (non-mucinous) as well as neuroendocrine tumors of the lung are essentially negative.



Polypeptide recognized: protein IT (keratin K20; Mr 46,000; formerly also designated cytokeratin 20).

Tested cultured cell lines: RT-4



Host: Mouse
Antibody Type: Monoclonal
Isotype: IgG2a
Clone: IT-Ks20.8
Immunogen: Electrophoretically purified keratin K20 from human intestinal mucosa
UniprotID: P35900 (Human), Q9D312 (Mouse)
Synonym: Keratin, type I cytoskeletal 20, Cytokeratin-20, CK-20, Keratin-20, K20, Protein IT, KRT20
Conjugate: Unconjugated

anti-Keratin Type II mouse monoclonal, Ks pan1-8

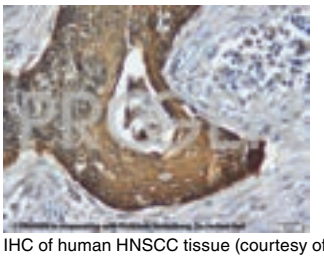
50 µg/ml, monoclonal, affinity purified

PROGEN.

Epithelium marker

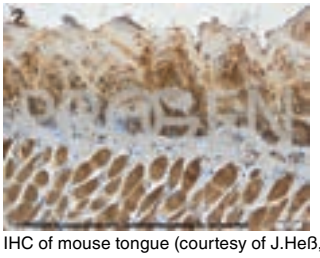
Ks pan1-8 represents an excellent marker for distinguishing carcinomas from non-epithelial tumors.

Polypeptides reacting: Mr 52,500-Mr 68,000 keratins (type II keratins K1-K8; formerly also designated cytokeratins 1-8) of human epithelial cells.



Tumors specifically detected: all epithelium-derived neoplasms.

Reactivity on cultured cell lines MCF-7, RT 112, HT-29, Detroit 562, RPMI 2650, SSC-12.



Host: Mouse
Antibody Type: Monoclonal
Isotype: IgG2a
Clone: Ks pan1-8
Immunogen: Cytoskeletal proteins from cultured human MCF-7 cells
Conjugate: Unconjugated
Purification: Affinity chromatography
Intended use. Research use only
Application: ICC/IF, IHC, WB
Reactivity: Amphibia, Bovine, Human, Mouse, Rat

Application

Immunocytochemistry (ICC): Assay dependent
Immunohistochemistry (IHC) – frozen: 1:10-1:100 (0.5-5 µg/ml)

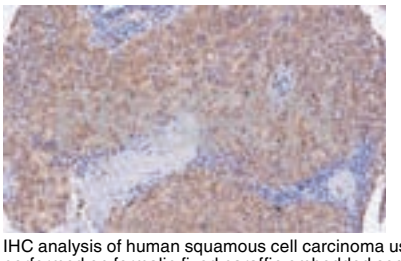
anti-p16 Protein mouse monoclonal, DCS-50

100 µg/ml, monoclonal, affinity purified

PROGEN.

Cell cycle marker



p16 (CDKN2A, p16Ink4A), is key regulator of the cell cycle and involved in cell cycle control and cellular senescence. It is a specific inhibitor for Cdk4 and Cdk6 and binds to the phosphorylated Cdk-cyclin complex. A disruption of this pathway is commonly observed in cancer. p16 is lost in the majority of tumor cell lines and in most primary tumors. It is not expressed in melanoma. In carcinoma driven by an HPV (human papilloma virus) infection, p16 is often overexpressed.

The antibody is especially useful for immunoprecipitation. The epitope was localized within the 15 aa residues of the C-terminus of p16 protein.

Host: Mouse
Antibody Type: Monoclonal
Isotype: IgG1
Clone: DCS-50
Immunogen: Recombinant human p16 protein
UniprotID: Q9UH64 (Human)
Synonym: Putative protein CDKN2A-DT, CDKN2A antisense RNA 1, CDKN2A antisense gene protein 1, Protein CDKN2A-AS1, Susceptibility protein NSG-x, CDKN2A-DT, C9orf53, CDKN2A-AS1
Conjugate: Unconjugated
Purification: Affinity chromatography
Intended use: Research use only
Application: ICC/IF, IHC, WB
Reactivity: Human

Application

Immunocytochemistry (ICC): Assay dependent
Immunohistochemistry (IHC) – paraffin: 1:20-1:100 (1-5 µg/ml; microwave treatment recommended)
Western Blot (WB). 1:100-1:400 (0.25-1 µg/ml)

IHC analysis of human squamous cell carcinoma using anti-p16 antibody. IHC was performed on formalin fixed paraffin embedded sections. The samples were deparaffinized with xylol and ethanol followed by heat induced antigen retrieval with 10 mM citrate buffer. After preparation the tissue was blocked with normal serum for 20 min at RT. The primary antibody anti-p16 mouse monoclonal, DCS-50 (Cat. No. 690074) was diluted in PBS (antibody concentration 2.5 µg/ml) and incubated at 4°C over-night. The secondary antibody ImmPRESS HRP anti-mouse IgG was incubated for 20 min at RT. Slides were incubated with DAB solution until a brown staining is visable and with Haemalaun for a few minutes. The 20x picture was acquired using microscopy (courtesy of J.Hess, University Hospital Heidelberg).

Storage temperature: +4 °C
Transport temperature: ambient temp.

PBS buffer, pH 7.4 with 0.09 % sodium azide and 0.5 % BSA.
Short term at 2–8 °C (+4 °C); long term storage in aliquots at –20 °C; avoid freeze/thaw cycles.

anti-p53 Protein mouse monoclonal, Bp53.11

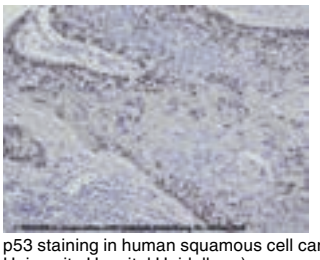
50 µg/ml, monoclonal, affinity purified

PROGEN.

Cell cycle marker

Excellent marker for wild-type and mutant forms of human p53 antigen.

Epitope recognized by Bp53.11: 20-SDLWKLLPENNV-31.



The antibody stains positively approx. 60% of investigated carcinoma of lung, breast, colon, stomach, esophagus, pancreas, urinary bladder and testis, head and neck tumors; T-cell Leukemia, non-Hodgkin-Lymphoma, melanoma, sarcoma.

Reactivity on cultured cell lines: Hela, MCF-7.

Host: Mouse
Antibody Type: Monoclonal
Isotype: IgG2a
Clone: Bp53.11
Immunogen: Recombinant human p53 (transcription domain within the NH2 terminus)
UniprotID: Q96A56 (Human)
Synonym: Tumor protein p53-inducible nuclear protein 1, Stress-induced protein, p53-dependent damage-inducible nuclear protein 1, p53DINP1, TP53INP1, P53DINP1, SIP
Conjugate: Unconjugated
Purification: Affinity chromatography
Intended use: Research use only
Application: ICC/IF, IHC, WB
Reactivity: Human

Application

Immunocytochemistry (ICC): Assay dependent
Immunohistochemistry (IHC) – frozen: 1:1,000-1:3,000 (17-50 ng/ml)
Immunohistochemistry (IHC) – paraffin: 1:1,000-1:3,000 (17-50 ng/ml, microwave treatment recommended)
Western Blot (WB): 1:2,000-1:10,000 (5-25 ng/ml)

p53 staining in human squamous cell carcinoma (image courtesy of J. Heß, University Hospital Heidelberg)

Western blot analysis of HEK lysate with anti-p53 antibody. Western blot analysis was performed on 20 µg HEK lysate. The PVDF membrane was blocked with 5% milk in PBST (PBS + 0.1% Tween 20) for 1 h at RT. The primary antibody anti-p53, mouse monoclonal, Bp53.11 (Cat. No. 690039) was diluted in blocking buffer (antibody concentration 25 ng/ml) and incubated for 1 h at RT. The secondary antibody anti-mouse IgG goat polyclonal, HRP conjugate was also diluted in blocking buffer (antibody concentration 200 ng/ml) and incubated for 1 h at RT. The bands were visualized by chemiluminescent detection using Pierce™ ECL Western Blotting Substrate.

Storage temperature: +4 °C
Transport temperature: ambient temp.

PBS buffer, pH 7.4 with 0.09 % sodium azide and 0.5 % BSA.
Short term at 2–8 °C (+4 °C); long term storage in aliquots at –20 °C; avoid freeze/thaw cycles.

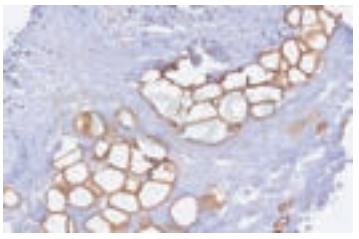
anti-Perilipin 1 (N-terminus) mouse monoclonal, PERI 112.17

100 µg/ml, monoclonal, affinity purified

PROGEN.

Lipid marker

Perilipins build a family of phosphoproteins. The predominant forms in adipocytes, PLIN1 A and B arise by alternative RNA splicing from a single gene, generating polypeptides of 57 kDa and 46 kDa, respectively. The N-terminus, however, remains unchanged.



The antibody reacts specifically with all PLIN1 variants located at the surface of intracellular storage lipid droplets present e.g. in the adrenal gland, sebaceous gland, adipocytes of white and brown adipose tissue and cultured cells such as 3T3-L1 adipocytes and cultured steroidogenic adrenal cortical and Leydig cells. It is also a useful pathological marker for steatogenesis e.g. in liver. It does not cross-react with adipophilin (ADRP, also named PLIN2) or TIP47 (also named PLIN3) proteins (or additional members of the PLIN/PAT-family, e.g. MLDP or OXPAT/PAT-1, also named PLIN5 or LSDP5).

Tested reactivity on cultured cell lines: several human carcinoma cell lines; 3T3-L1 adipocytes.

Host: Mouse
Antibody Type: Monoclonal
Isotype: IgG1
Clone: PERI 112.17
Immunogen: Synthetic peptide of perilipin / PLIN1 (duplicated N-terminus of perilipin; aa 1-20)
UniprotID: O60240 (Human), Q8CGN5 (Mouse)
Synonym: Perilipin-1, Lipid droplet-associated protein, PLIN1, PERI, PLIN
Conjugate: Unconjugated
Purification: Affinity chromatography
Intended use: Research use only
Application: ICC/IF, IHC
Reactivity: Human, Mouse

Application

Immunocytochemistry (ICC): Assay dependent
Immunohistochemistry (IHC) – frozen: 1:200 (0.5 µg/ml)
Immunohistochemistry (IHC) – paraffin: 1:200 (0.5 µg/ml, microwave treatment recommended)

IHC analysis of human adipocytes in white adipose tissue of tumor microenvironment using anti-Perilipin 1 (N-terminus) antibody. IHC was performed on formalin fixed paraffin embedded sections. The samples were deparaffinized with xylol and ethanol followed by heat induced antigen retrieval with 10 mM citrate buffer. After preparation the tissue was blocked with normal serum for 20 min at RT. The primary antibody anti-Perilipin 1 (N-terminus), PERI 112.17 (Cat. No. 690156) was diluted in PBS (antibody concentration 500 ng/ml) and incubated at 4 °C overnight. The secondary antibody ImmPRESS HRP anti-mouse IgG was incubated for 20 min at RT. Slides were incubated with DAB solution until a brown staining is visable and with Haemalaun for a few minutes. The 10x picture was acquired using microscopy (courtesy of J. Hess, University Hospital Heidelberg).

Storage temperature: +4 °C
Transport temperature: ambient temp.

PBS buffer, pH 7.4 with 0.09 % sodium azide and 0.5 % BSA.
Short term at 2–8 °C (+4 °C); long term storage in aliquots at –20 °C; avoid freeze/thaw cycles.

anti-Perilipin 2 (N-terminus) mouse monoclonal, AP125

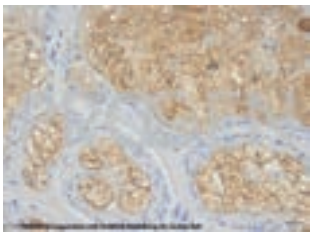
50 µg/ml, monoclonal, affinity purified

PROGEN.

Lipid marker

Perilipin 2/Adipophilin/ADRP/PLIN2 is a ubiquitous component of lipid droplets. It has been found in milk fat globule membranes and on the surface of lipid droplets in various cultured cell lines; inducible by etomoxir. Enhanced expression of Perilipin 2/Adipophilin/ADRP/PLIN2 is a useful marker for pathologies characterized by increased lipid droplet accumulation. Such diseases include atheroma, steatosis, obesity and certain cases of liposarcoma. It also seems to be a potent marker for atherosclerosis. ADRP can also be used to study virus entry via lipid droplets.

Polypeptide reacting: Perilipin 2/Adipophilin/ADRP/PLIN2, MW 48,100 (calculated from aa sequence data); apparent Mr 52,000 (after SDS-PAGE); pI 6.72.



Immunolocalization: Perilipin 2/Adipophilin/ADRP/PLIN2 is positively detected in the glandular cells of lactating mammary gland (ductal cells are negative), zona fasciculata of the adrenal gland, Sertoli cells of the testis, and in fat-accumulating hepatocytes of alcoholic cirrhotic fatty liver; adipocytes are negative. Also positively stained are lipid-storing CD 68-positive macrophages.

Tested cultured cell lines: PLC, MDCK.

Host: Mouse
Antibody Type: Monoclonal
Isotype: IgG1
Clone: AP125
Immunogen: Synthetic peptide (aa 5-27 from N-terminus of human adipophilin/PLIN2)
UniprotID: A0A5F4CRI5 (Dog, Canis familiaris), Q99541 (Human), Q5U2U5 (Rat)
Synonym: Perilipin-2, Adipophilin, Adipose differentiation-related protein, ADRP, PLIN2, ADFP
Conjugate: Unconjugated
Purification: Affinity chromatography
Intended use: Research use only
Application: IHC, WB
Reactivity: Dog, Human, Rat
No reactivity: Bovine

Application

Immunohistochemistry (IHC) – frozen: 1:10-1:100 (0.5-5 µg/ml)
Immunohistochemistry (IHC) – paraffin: 1:10-1:100 (0,5-5 µg/ml; microwave treatment recommended)
Western Blot (WB): 1:50-1:100 (0.5-1 µg/ml)

IHC of human skin (courtesy of J.Heß, University Hospital Heidelberg)

Storage temperature: +4 °C
Transport temperature: ambient temp.

PBS buffer, pH 7.4 with 0.09 % sodium azide and 0.5 % BSA.

anti-Plakoglobin mouse monoclonal, PG 5.1

50 µg/ml, monoclonal, affinity purified

PROGEN.

Cell to cell contact marker

PG 5.1 represents an excellent marker for all forms of intercellular adhering junctions, such as: desmosomes of epithelial and myocardial cells (incl. cultured cells); zonulae and fasciae adherentes of epithelia, endothelia of blood vessels and myocardial cells; adherens-type junctions (e.g. lens tissue, pigmented retinal cells, Sertoli cells of testis). The PG 5.1 epitope maps within the C-terminus at the extreme end of repeat 13 (aa 632-687) of plakoglobin.

Polypeptide reacting: Mr 83,000 Plakoglobin, 'band 5' polypeptide of intercellular adhering junctions (identical to gamma-catenin).

Reactivity on cultured cell lines: cell cultures forming monolayers.

Host: Mouse
Antibody Type: Monoclonal
Isotype: IgG2b
Clone: PG 5.1
Immunogen: Plakoglobin, 'band 5' protein from bovine snout epidermis
Conjugate: Unconjugated
Purification: Affinity chromatography
Intended use: Research use only
Application: ICC/IF, IHC, WB
Reactivity: Bovine, Dog, Human, Mouse, Rat, Zebrafish

Application

Immunocytochemistry (ICC): 1:5 (10 µg/ml)
Immunohistochemistry (IHC) – frozen: 1:25-1:100 (0.5-2 µg/ml)
Immunohistochemistry (IHC) – paraffin: 1:25-1:100 (0.5-2 µg/ml, microwave treatment recommended)
Western Blot (WB): 1:500-1:2,000 (0.025-0.1 µg/ml)

IHC of human oral mucosa (courtesy of J.Heß, University Hospital Heidelberg)

IHC of rat tongue (courtesy of J.Heß, University Hospital Heidelberg)

Storage temperature: +4 °C
Transport temperature: ambient temp.

PBS buffer, pH 7.4 with 0.09 % sodium azide and 0.5 % BSA.

anti-Synaptophysin mouse monoclonal, SY38

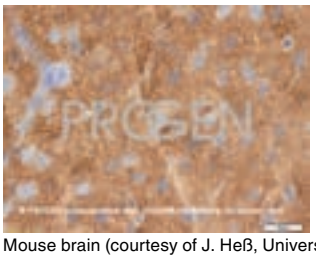
50 µg/ml, monoclonal, affinity purified

PROGEN.

Tumour marker neuronal/adrenal

SY 38 represents an excellent marker for several neuroendocrine, neuronal and adrenal tumors. Neuronal and adrenal tumors such as pheochromocytomas, paragangliomas, neuroblastomas, ganglioneuroblastomas.

Neuroendocrine tumors of epithelial origin: Pancreatic islet cell carcinoma, bronchial and gastrointestinal carcinoids, medullary carcinoma of thyroid.



Polypeptide reacting: 38 kDa transmembrane glycoprotein of presynaptic vesicles.

Tested cultured cell lines: rat PC-12 cell line.

Host: Mouse
Antibody Type: Monoclonal
Isotype: IgG1
Clone: SY38
Immunogen: Synaptophysin from presynaptic vesicles, prepared from bovine brain
UniprotID: P20488 (Bovine), P08247 (Human), Q62277 (Mouse), P07825 (Rat)
Synonym: Synaptophysin, Major synaptic vesicle protein p38, SYP
Conjugate: Unconjugated
Purification: Affinity chromatography
Intended use: Research use only
Application: ICC/IF, IHC, WB
Reactivity: Bovine, Human, Mouse, Rat

Application

Immunocytochemistry (ICC): Assay dependent
Immunohistochemistry (IHC) – frozen: 1:50-1:200 (0.25-1 µg/ml, no protease treatment)
Immunohistochemistry (IHC) – paraffin: 1:50-1:200 (0.25-1 µg/ml, microwave treatment recommended, no protease treatment)
Western Blot (WB): 1:500-1:1,000 (0.05-0.1 µg/ml)

Mouse brain (courtesy of J. Heß, University Hospital Heidelberg)

Western blot analysis of mouse brain lysate with anti-Synaptophysin antibody. Western blot analysis was performed on 20 µg mouse brain lysate. The PVDF membrane was blocked with 5% dry milk in PBST (PBS + 0.1% Tween 20) for 1 h at RT. The primary antibody anti-Synaptophysin mouse monoclonal, SY38 (Cat. No. 690012) was diluted in blocking buffer (antibody concentration 0.05 µg/ml) and incubated for 1 h at RT. The secondary antibody anti-mouse, HRP conjugate was also diluted in blocking buffer (antibody concentration 0.2 µg/ml) and incubated for 1 h at RT. The bands were visualized by chemiluminescent detection using Pierce™ ECL Western Blotting Substrate.

Storage temperature: +4 °C
Transport temperature: ambient temp.

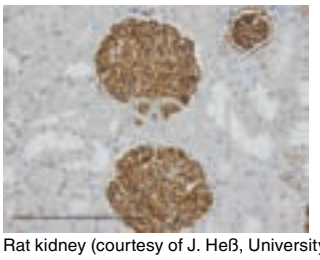
anti-Synaptopodin/SYNPO mouse monoclonal, G1D4

50 µg/ml, monoclonal, affinity purified

PROGEN.

Cytplasma marker podocytes/cerebrum

The antibody recognizes differentiated podocytes (glomerular visceral epithelial cells) in vivo and in vitro (weaker additional reaction with arterial endothelial cells), co-localization with alpha-actinin. Does not react with parietal cells. Reacts with a subset of exclusively telencephalic synapses. Differentiation-dependent expression during postnatal maturation of rat brain. Differentiation-dependent expression in cultured hippocampal neurons.



The antibody reacts specifically with synaptopodin, a prolin-rich actin-binding protein with 2 binding sites for actin. Synaptopodin represents a new class of actin-binding proteins which has first been localized in podocytes and a subset of telencephalic postsynaptic densities.

In human tissue synaptopodin has a molecular weight of 73.7 kDa and pI of 9.38 (calculated from sequence data); in mouse the corresponding data are 74 kDa, pI 9.27. In SDS-PAGE the antigen appears as 100 kDa polypeptide in brain and 110 kDa polypeptide in kidney (the difference might be attributed to posttranslational modifications). In Western blot analysis the antibody also reacts with a 44 kDa degradation fragment of synaptopodin.

Host: Mouse
Antibody Type: Monoclonal
Isotype: IgG1
Clone: G1D4
Immunogen: Isolated rat kidney glomeruli
UniprotID: A4IFK4 (Bovine), A0A286XK19 (Guinea pig), Q8N3V7 (Human), Q91YE8 (Mouse), D4A702 (Rat)
Synonym: Synaptopodin, SYNPO, KIAA1029
Conjugate: Unconjugated
Purification: Affinity chromatography
Intended use: Research use only
Application: ICC/IF, IHC, WB
Reactivity: Human, Mouse, Rat
No reactivity: Chicken, Frog, Rabbit

Application

Immunocytochemistry (ICC): Assay dependent
Immunohistochemistry (IHC) – frozen: 1:50-1:200 (0.25-1 µg/ml)
Immunohistochemistry (IHC) – paraffin: 1:50-1:200 (0.25-1 µg/ml, microwave treatment recommended)

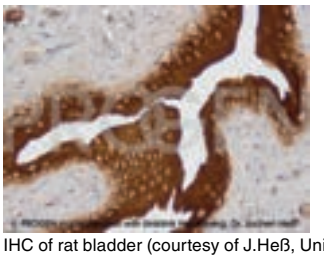
anti-Uroplakin III mouse monoclonal, AU1

100 µg/ml, monoclonal, affinity purified

PROGEN.

Epithelium-/cell membrane marker



Mab AU1 reacts specifically with uroplakin III present in the superficial cell layer of the urothelium. The binding region has been localized on the extracellular part of the antigen. Together with the uroplakins UP Ia, UP Ib and UP II, uroplakin III contributes in constituting the asymmetrical unit membrane of the plaques of urothelial superficial (umbrella) cells. Uroplakin is a membrane glycoprotein (47 kDa) and has been shown to be a specific marker of terminal urothelial differentia-tion (Wu *et al.* 1993 & 1194).

Antibody AU1 strongly stains the urothelial surface membrane in paraffin sections of human renal pelvis, ureter, bladder, and urethra. About 60% of human transitional cell carcinomas (including metastases) maintain focal (sometimes very limited) expression of uroplakin III. Until now, no uroplakin staining was found in any non-urothelial carcinoma (Moll *et al.* 1995). Uroplakin III may thus serve as a specific urothelial differentiation marker in cases of metastatic carcinomas with unclear primary tumor.

Host: Mouse
Antibody Type: Monoclonal
Isotype: IgG1
Clone: AU1
Immunogen: Asymmetric unit membrane (AUM) preparation from bovine urinary bladder
UniprotID: P38574 (Bovine), O75631 (Human), A0A4X1W3H8 (Pig), D3ZZ76 (Rat)
Synonym: Uroplakin-3a, UP3a, Uroplakin III, UPIII, UPK3, UPK3A
Conjugate: Unconjugated
Purification: Affinity chromatography
Intended use: Research use only
Application: IHC, WB
Reactivity: Bovine, Human, Pig, Rat

Application

Immunohistochemistry (IHC) – paraffin: 1:20-1:60 (1.6-5 µg/ml; microwave treatment recommended)
Western Blot (WB): 1:4,000-1:20,000 (0.005-0.025 µg/ml)

anti-Vimentin mouse monoclonal, VIM 3B4

50 µg/ml, monoclonal, affinity purified

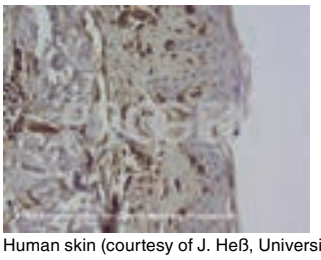
PROGEN.

Cytoskeleton marker

The antibody is highly specific for the intermediate filament protein vimentin which is present in all cells of mesenchymal origin. VIM 3B4 has turned out to be the most avid mab to vimentin.

Polypeptide reacting: 57 kDa intermediate filament protein (vimentin) of mesenchymal cells.

Tumors specifically detected: sarcoma (including myosarcoma), lymphoma, melanoma.



The binding region of monoclonal antibody VIM3B4 has been characterized by Bohn et al.(1992). According to these authors, the epitope has been localized on the alpha-helical part of vimentin (rod domain coil 2). Due to an aa substitution at position of aa 353 in murine vimentin (that could explain for the weak cross-reaction of the antibody with murine vimentin) they were able to narrow down the binding region around position 353. These findings were confirmed by truncation mutagenesis experiments using human vimentin (Rogers et al., 1995).

Tested cultured cell lines: fibroblasts (SV-80).

Host: Mouse
Antibody Type: Monoclonal
Isotype: IgG2a kappa
Clone: VIM 3B4
Immunoge: Vimentin purified from bovine lens
UniprotID: P48616 (Bovine), P09654 (Chicken), P08670 (Human)
Synonym: Vimentin, VIM
Conjugate: Unconjugated
Purification: Affinity chromatography
Intended use: Research use only
Application: ICC/IF, IHC, WB
Reactivity: Amphibia, Bovine, Chicken, Human, Monkey, Mouse

Application

Immunocytochemistry (ICC): Assay dependent
Immunohistochemistry (IHC) – frozen: 1:100-1:200 (250-500 ng/ml)
Immunohistochemistry (IHC) – paraffin: 1:100-1:200 (250-500 ng/ml, protease treatment and/or microwave treatment recommended)

Antibody, primary, anti-tag

Primary antibodies

Specific primary antibodies that recognise the most commonly used protein tags. The antibodies can be excellently used in cell or tissue biology studies, protein-protein interaction assays, post-translational modifications, expression dynamics or localisation studies, up to the production of analytical kits in laboratory or large scale.

- Available for most commonly used protein tags (His, DDDDK, GST, HA, myc, GFP & Strep)
- High affinity to the respective protein tag
- Robust & highly specific detection of the fusion protein
- Unconjugated
- Suitable for e.g. western blot, immunoprecipitation, ELISA & immunofluorescence

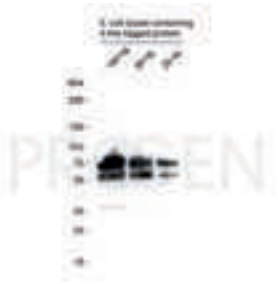
anti-6-His-tag mouse monoclonal, 6His

lyophilized, monoclonal, affinity purified

PROGEN.

Binding of His-tag proteins



Primary antibodies

The monoclonal 6-His antibody recognizes polyhistidine (6-His). The 6-His tag is commonly added to recombinant proteins and can be used for detection or purification of the tagged protein.

Host: Mouse
Antibody Type: Monoclonal
Isotype: IgG1
Clone: 6His
Immunogen: Recombinant protein containing the sequence HHHHHH
Conjugate: Unconjugated
Purification: Affinity chromatography
Intended use: Research use only
Application: ICC/IF, IP, WB
Reactivity: 6-His

Application

Immunocytochemistry (ICC): Assay dependent
Immunoprecipitation (IP): Assay dependent
Western Blot (WB): 1:2,000-1:5,000 (0.125-0.05 µg/ml)

Western blot analysis of E. coli lysate containing 6-His-tagged protein with anti-6-His-tag antibody. Western blot analysis was performed on 160 ng, 80 ng or 20 ng of E. coli lysate containing 6-His-tagged protein. Cells were lysed with SDS sample buffer. The PVDF membrane was blocked with 5% dry milk in PBST for 1 h at RT. The primary antibody anti-6-His-tag mouse monoclonal, 6His (Cat. No. 910HISL) was diluted in blocking buffer (antibody concentration 0.125 µg/ml) and incubated for 1 h at RT. The secondary antibody goat anti-mouse IgG polyclonal, HRP conjugate was also diluted in blocking buffer (antibody concentration 0.2 µg/ml) and incubated for 1 h at RT. The bands were visualized by chemiluminescent detection using Pierce™ ECL Western Blotting Substrate.

Western blot analysis of E. coli lysate containing 6-His-tagged protein with anti-6-His-tag antibody. Western blot analysis was performed on 50 ng or 25 ng of E. coli lysate containing 6-His-tagged protein. Cells were lysed with SDS sample buffer. The PVDF membrane was blocked with 5% dry milk in PBST for 1 h at RT. The primary antibody anti-6-His-tag mouse monoclonal, 6His (Cat. No. 910HISL) was diluted in blocking buffer (antibody concentration 0.05 µg/ml) and incubated for 1 h at RT. The secondary antibody goat anti-mouse IgG polyclonal, HRP conjugate was also diluted in blocking buffer (antibody concentration 0.2 µg/ml) and incubated for 1 h at RT. The bands were visualized by chemiluminescent detection using Pierce™ ECL Western Blotting Substrate.

0.25 mg/ml after reconstitution with 100 µl / 400 µl PBS

Storage temperature: +4 °C
Transport temperature: ambient temp.

Storage before reconstitution at 2–8 °C until indicated expiry date.
Storage after reconstitution at –20 °C (avoid freeze/thaw cycles).

anti-c-myc-tag mouse monoclonal, 9E10

lyophilized, monoclonal, affinity purified

PROGEN.

Binding of c-myc-tag proteins

Primary antibodies

The monoclonal 9E10 antibody recognizes human c-myc, a 62 kDa transcription factor. A c-myc tag is commonly added to recombinant proteins and can be used for detection or purification of the tagged protein.

Host: Mouse
Antibody Type: Monoclonal
Isotype: IgG1
Clone: 9E10
Immunogen: C-terminal peptide of human c-myc (aa 408-439)
Conjugate: Unconjugated
Purification: Affinity chromatography
Intended use: Research use only
Application: IP, WB
Reactivity: c-myc

Application

Immunoprecipitation (IP): Assay dependent
Western Blot (WB): 1:50,000-1:100,000 (0.005-0.0025 µg/ml)

Western blot analysis of E. coli lysate containing c-myc-tagged protein with anti-c-myc-tag antibody. Western blot analysis was performed on 80 ng, 40 ng, 10 ng or 5 ng of E. coli lysate containing c-myc-tagged protein. Cells were lysed with SDS sample buffer. The PVDF membrane was blocked with 5% dry milk in PBST for 1 h at RT. The primary antibody anti-c-myc-tag mouse monoclonal, 9E10 (Cat. No. 910MYCL) was diluted in blocking buffer (antibody concentration 0.005 µg/ml) and incubated for 1 h at RT. The secondary antibody goat anti-mouse IgG polyclonal, HRP conjugate was also diluted in blocking buffer (antibody concentration 0.2 µg/ml) and incubated for 1 h at RT. The bands were visualized by chemiluminescent detection using Pierce™ ECL Western Blotting Substrate.

0.25 mg/ml after reconstitution with 100 µl / 400 µl PBS

Storage temperature: +4 °C
Transport temperature: ambient temp.

Storage before reconstitution at 2–8 °C until indicated expiry date.

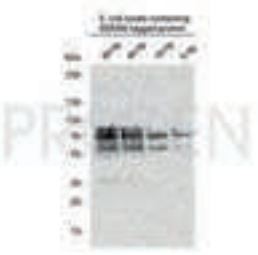
anti-DDDDK-tag mouse monoclonal, AP1501

lyophilized, monoclonal, affinity purified

PROGEN.

Binding of DDDDK-tag proteins



Primary antibodies

The monoclonal AP1501 antibody recognizes the amino acid sequence DDDDK (Flag). The DDDDK-tag is commonly added to recombinant proteins and can be used for detection or purification of the tagged protein.

Host: Mouse
Antibody Type: Monoclonal
Isotype: IgG2b
Clone: AP1501
Immunogen: Recombinant protein containing the sequence DDDDK
Conjugate: Unconjugated
Purification: Affinity chromatography
Intended use: Research use only
Application: ICC/IF, IP, WB
Reactivity: DDDDK

Application

Immunocytochemistry (ICC): Assay dependent
Immunoprecipitation (IP): Assay dependent
Western Blot (WB): 1:50,000-1:100,000 (0.005-0.0025 µg/ml)

Western blot analysis of E. coli lysate containing DDDDK-tagged protein with anti-DDDDK-tag antibody. Western blot analysis was performed on 80 ng, 40 ng or 10 ng of E. coli lysate containing DDDDK-tagged protein. Cells were lysed with SDS sample buffer. The PVDF membrane was blocked with 5 % dry milk in PBST for 1 h at RT. The primary antibody anti-DDDDK-tag mouse monoclonal, AP1501 (Cat. No. 910DDKL) was diluted in blocking buffer (antibody concentration 0.005 µg/ml) and incubated for 1 h at RT. The secondary antibody goat anti-mouse IgG polyclonal, HRP conjugate was also diluted in blocking buffer (antibody concentration 0.2 µg/ml) and incubated for 1 h at RT. The bands were visualized by chemiluminescent detection using Pierce™ ECL Western Blotting Substrate.

0.25 mg/ml after reconstitution with 100 µl / 400 µl PBS

Storage temperature: +4 °C
Transport temperature: ambient temp.

Storage before reconstitution at 2–8 °C until indicated expiry date.
Storage after reconstitution at –20 °C (avoid freeze/thaw cycles).
Lyophilized; reconstitute in sterile PBS, pH 7.4.

Not a medical device / Not an IVD product

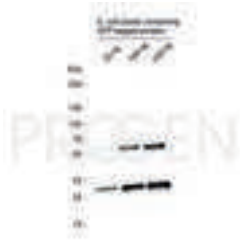
anti-GFP-tag mouse monoclonal, F56-6A1.2.3

lyophilized, monoclonal, affinity purified

PROGEN.

Binding of GFP-tag proteins



Primary antibodies

The monoclonal F56-6A1.2.3 antibody recognizes the GFP-tag (green fluorescent tag). The GFP-tag is commonly added to recombinant proteins and can be used for detection or purification of the tagged protein.

Host: Mouse
Antibody Type: Monoclonal
Isotype: IgG2b
Clone: F56-6A1.2.3
Immunogen: Full length enhanced GFP
Conjugate: Unconjugated
Purification: Affinity chromatography
Intended use: Research use only
Application: ICC/IF, WB
Reactivity: GFP

Application

Immunocytochemistry (ICC): Assay dependent
Western Blot (WB): 1:500 (0.5 µg/ml)

Western blot analysis of E. coli lysate containing GFP-tagged protein with anti-GFP-tag antibody. Western blot analysis was performed on 250 ng, 100 ng or 25 ng of E. coli lysate containing GFP-tagged protein. Cells were lysed with SDS sample buffer. The PVDF membrane was blocked with 5% dry milk in PBST for 1 h at RT. The primary antibody anti-GFP-tag mouse monoclonal, F56-6A1.2.3 (Cat. No. 910GFPL) was diluted in blocking buffer (antibody concentration 0.5 µg/ml) and incubated for 1 h at RT. The secondary antibody goat anti-mouse IgG polyclonal, HRP conjugate was also diluted in blocking buffer (antibody concentration 0.2 µg/ml) and incubated for 1 h at RT. anti-GST-tag mouse monoclonal, F50-3D12.2

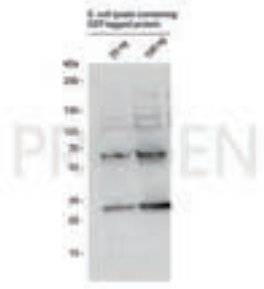
lyophilized, monoclonal, affinity purified

PROGEN.

Binding of GST-tag proteins

Primary antibodies



The monoclonal F50-3D12.2 antibody recognizes the GST-tag (Glutathione S-transferase). The GST-tag is commonly added to recombinant proteins and can be used for detection or purification of the tagged protein.

Host: Mouse
Antibody Type: Monoclonal
Isotype: IgG1
Clone: F50-3D12.2

Immunogen: Not available or unknown
Conjugate: Unconjugated
Purification: Affinity chromatography
Intended use: Research use only
Application: WB
Reactivity: GST

Application

Western Blot (WB): 1:500 (0.5 µg/ml)

Western blot analysis of E. coli lysate containing GST-tagged protein with anti-GST-tag antibody. Western blot analysis was performed on 100 ng or 25 ng of E. coli lysate containing GST-tagged protein. Cells were lysed with SDS sample buffer. The PVDF membrane was blocked with 5% dry milk in PBST for 1 h at RT. The primary antibody anti-GST-tag mouse monoclonal, F50-3D12.2 (Cat. Cell Culture Media & Solutions 170

S ready-to-use

ROTI®Cell DMEM : F12

Dulbecco's Modified Eagle Medium, Dulbecco's Modified Eagle Medium + Ham's F12 medium (1:1), Ham's F12 cell culture medium

DMEM : F12 is a widely used basal medium for a variety of mammalian cells. It is a 1:1 mixture of Ham's F12 and DMEM. In this way, the richness of Ham's F12 in vitamins and trace elements has been combined with the high nutrient concentration of DMEM.
DMEM : F12 is now the basis of many serum-free media.

When working without FBS, growth factors, hormones and lipids, which are essential for cell growth, must also be added to the medium.

ROTI®Cell DMEM : F12

CELLPURE® ready-to-use, sterile, w/o glutamine, with pyruvate, with HEPES

Medium for a wide range of mammalian cell culture applications.
Basic medium for serum-free or serum-reduced applications.

This modification of DMEM : F12 contains pyruvate and 15 mM HEPES, but no L-glutamine.

Storage temperature: +4 °C
Transport temperature: ambient temp.

S ready-to-use

ROTI®Cell DMEM Low Glucose

DMEM cell culture medium

Dulbecco's Modified Eagle Medium is the most commonly used modification of the Basal Medium acc. to Eagle. DMEM contains higher concentration of amino acids and vitamins, and additionally iron (ferric nitrate). The basic composition of ROTI®Cell DMEM media corresponds to the original formulation according to Dulbecco.
The formulation with low glucose content is well suited for culturing of a variety of mammalian adherent cell lines.
Generally, FBS is added to DMEM basal media.

ROTI®Cell DMEM Low Glucose

CELLPURE® ready-to-use, sterile, with stable glutamine, with pyruvate

Medium for a wide range of mammalian cell culture applications.

Storage temperature: +4 °C
Transport temperature: ambient temp.

ROTI®Cell DMEM High Glucose

DMEM cell culture medium, Dulbecco's Modified Eagle Medium

Dulbecco's Modified Eagle Medium is the most commonly used modification of the Basal Medium acc. to Eagle. DMEM contains higher concentration of amino acids and vitamins, and additionally iron (ferric nitrate). The basic composition of ROTI®Cell DMEM media corresponds to the original formulation according to Dulbecco.
The formulation with high glucose content is well suited for culturing of a wide range of mammalian cell lines and primary cells.

Generally, FBS is added to DMEM basal media.

ROTI®Cell DMEM High Glucose

CELLPURE® ready-to-use, sterile, w/o glutamine, w/o phenol red

Medium for a wide range of mammalian cell culture applications.

This modification of DMEM does not contain glutamine, pyruvate and phenol red.

Storage temperature: +4 °C
Transport temperature: ambient temp.

ROTI®Cell DMEM High Glucose

CELLPURE® ready-to-use, sterile, with stable glutamine, w/o pyruvate, with HEPES

Medium for a wide range of mammalian cell culture applications.

This modification of DMEM contains stable glutamine and 25 mM HEPES, but no pyruvate.

Storage temperature: +4 °C
Transport temperature: ambient temp.
WGK 1

Art. No.	Pack Qty.	Pack.	€
1TE9.1	500 ml	plastic	19,25

Stable Glutamine

Stable glutamine is present as the dipeptide L-alanyl-L-glutamine. Due to its reinforced structure, this form of glutamine is not temperature sensitive, unlike normal L-glutamine, and therefore does not spontaneously decompose to toxic ammonia. Cells are able to break down this dipeptide bond and release L-glutamine as needed. Thus, the low ammonia concentration improves cell viability and growth. In addition, the concentration of L-glutamine is kept constant.
Stable gluatmine has already been added to some cell culture media, but can also be purchased as a separate additive solution, the ROTI®Cell Glutamine Solution.

S ready-to-use

ROTI®Cell Eagle's MEM-Alpha

EMEM cell culture medium, Eagle's MEM, Minimum Essential Medium acc. to Eagle, Alpha modification

Alpha-Eagle's Minimum Essential Medium is based on EMEM, containing the following unique components: Vitamin B_{12}, ascorbic acid, non-essential amino acids, sodium pyruvate, lipoic acid, and D-biotin. MEM-Alpha media can be used with a variety of suspension and adherent mammalian cells, including keratinocytes, primary rat astrocytes, and human melanoma cells.

Generally, FBS is added to MEM-Alpha media.

ROTI®Cell Eagle's MEM-Alpha

CELLPURE® ready-to-use, sterile, w/o glutamine, with pyruvate, with nucleosides

Medium for the cultivation of a variety of suspension and adherent mammalian cells, including keratinocytes, primary rat astrocytes, and human melanoma cells.

This modification of DMEM contains nucleosides, pyruvate and Earle's salts but no glutamine.

Storage temperature: +4 °C
Transport temperature: ambient temp.

S ready-to-use

ROTI®Cell Eagle's MEM / Earle's

EMEM cell culture medium, Eagle's MEM, Minimum Essential Medium acc. to Eagle with Earle's salts

Minimum Essential Medium is a commonly used modification of the Basal Medium acc. to Eagle, having been developed in 1959 for culturing of HeLa cells. MEM contains high concentration of amino acids, which conform closely to the protein composition of human cells. Concentration of vitamins, and other essential nutrients, is enhanced, allowing longer cultivation periods between feedings.
MEM is one of the most widely used cell culture media and can be used for a variety of suspension cell cultures and adherent cells.

Generally, FBS is added to MEM basal media.

ROTI®Cell Eagle's MEM / Earle's

CELLPURE® ready-to-use, sterile, with stable glutamine, w/o pyruvate

Medium for a variety of suspension cell cultures and adherent cells.

This modification of MEM contains stable glutamine and Earle's salts, but no pyruvate.

Storage temperature: +4 °C
Transport temperature: ambient temp.

Anhydrous Nutrient Media for Microbiology 182

Basic Reagents for Nutrient Media 183

ROTI®Aquatest Plates

Sterile culture medium plates for the microbiological analysis of liquid samples.

S ready-to-use

ROTI®Aquatest Plates

Sterile culture medium plates for the microbiological analysis of liquid samples.

- Diameter 55 mm
- Surface 24 cm^2
- Easy to use
- Optimal for the membrane filtration method
- Also well applicable for microbiological analysis of samples in general
- Prepared with our proven dehydrated nutrient media mixtures
- With detailed instructions-for-use

ROTI®Aquatest Plates are prepared culture media plates with a diameter of 55 mm. They are thus adapted to the size of membrane filters for assaying of low-germ fluids by membrane filtration method. They are also applicable for the microbiological analysis of samples in general. The germs of expected low-germ liquid samples are concentrated by membrane filtration. Afterwards, the membrane is placed on top of the medium and incubated. Using a membrane with a grid helps counting the resulting colonies.

Samples which are expected to have a higher microbiological burden are prepared in a serial dilution. Afterwards, every dilution step is plated and incubated. The number of grown colonies is noted as result.

Art. No.	Abbreviation	Agar	Application
1N13	BEA	Bile Esculin Azide Agar	enterococci
1N14	TSC	Tryptose Sulfite Cycloserine Agar	*Clostridium perfringens*

ROTI®Aquatest Plate BEA

ISO 7899-2, ISO 11133, ready-to-use, sterile, for microbiology

Selective medium for isolation and identification of enterococci.

Bile Esculin Azide Agar is a modification of Bile Esculin Agar with a reduction of the bile concentration and the addition of sodium azide. This medium is more selective but still provides rapid growth and efficient recovery of enterococci.
The ability to hydrolyze esculin in the presence of bile is characteristic of enterococci.
Ox bile does not inhibit enterococci while other gram-positive bacteria are inhibted. Gram-negative bacteria are inhibited by sodium azide.

Storage temperature: +4 to +15 °C
Transport temperature: cooled

WGK 1

Composition

Tryptone	17 g/l
Peptone	3 g/l
Yeast extract	5 g/l
Ox bile, bacteriological	10 g/l
Sodium chloride (NaCl)	5 g/l
Esculin	1 g/l
Ammonium iron(III) citrate	0,5 g/l
Sodium azide	0,15 g/l
Agar-Agar	15 g/l
pH value (25 °C)	7,0-7,2

ROTI®Aquatest Plate TSC

ISO 7937, ISO 11133, ISO 14189, ready-to-use, sterile, for microbiology

Selective medium for isolation and identification of *Clostridium perfringens*.

Ready-made plate *Clostridium perfringens*

This agar is a modification of the classical TSN Agar in which the traditional antibiotics, polymyxin and neomycin have been replaced by cycloserine. Cycloserine has been found more selective for *Clostridium perfringens*, and reduces the production of diffuse blackening.

Storage temperature: +4 to +15 °C
Transport temperature: cooled

WGK 1

ROTI®Plate90

Our proven dry nutrient media as 90 mm ready-to-use nutrient media plates!

ready-to-use

ROTI®Plate90

Ready-made media

Sterile ready-to-use culture media plates for microbiological analysis.

- Diameter 90 mm
- Surface 63,6 cm^2
- Ready-to-use and sterile
- Easy to use, reliable detection and simple evaluation
- Well applicable for microbiological analysis of samples
- With detailed instructions for use

ROTI®Plate90 are prepared culture media plates with a diameter of 90 mm. They are thus adapted to the size of membrane filters for assaying of low-germ fluids by membrane filtration method. They are also applicable for the microbiological analysis of samples in general. The germs of expected low-germ liquid samples are concentrated by membrane filtration. Afterwards, the membrane is placed on top of the medium and incubated. Using a membrane with a grid helps counting the resulting colonies.
Our products are tested and approved exclusively for research and development.

Samples which are expected to have a higher microbiological burden are prepared in a serial dilution. Afterwards, every dilution step is plated and incubated. The number of grown colonies is noted as result.

ROTI®Plate90 BEA

ISO 11133, ready-to-use, sterile, for microbiology

For isolation and identification of intestinal enterococci from water samples.

Bile Esculin Azide Agar is a modification of Bile Esculin Agar with a reduced bile concentration and the addition of sodium azide.
The formulation complies with ISO standard 7899-2 for the second step of confirmation and enumeration of enterococci in water by the membrane filtration method.
Colonies selected on Slanetz-Bartley agar (1NA6.1) must be confirmed by a short incubation on the BEA, by esculin hydrolysis.

Storage temperature: +4 °C
Transport temperature: cooled

ROTI®Plate90 CN

ISO 11133, ready-to-use, sterile, for microbiology

For the determination and enumeration of *Pseudomonas aeruginosa* from water samples by the membrane filter method.

Pseudomonas CN Agar is a selective medium for the isolation and enumeration of *Pseudomonas aeruginosa* by membrane filtration.
It is recommended by ISO Standard 16266:2008 for testing water samples for the presence of *Pseudomonas aeruginosa*.

Cetrimide is included in the formulation of the medium as a selective agent, nalidixic acid suppresses species such as *Klebsiella*, *Proteus* and *Providencia*. Potassium sulphate and magnesium chloride provide the cations needed to activate pyocyanin production.

Storage temperature: +4 °C
Transport temperature: cooled

WGK 2

Composition

Gelatin Peptone	16 g/l
Casein, enzymatically digested	10 g/l
Potassium sulphate (K_2SO_4)	10 g/l
Glycerol	10 ml

ROTI®Plate90 ESB

ISO 11133, ready-to-use, sterile, for microbiology

For the detection and determination of the number of faecal streptococci by membrane filtration.

Selective medium for the detection and quantitative determination of *Enterococcus spp.*.

The TTC contained in the medium is reduced by *Enterococcus* to the water-insoluble dye formazan. The resulting formazan is taken up by *Enterococcus spp.*, which gives the colonies a red to dark brown colour.

Storage temperature: +4 °C
Transport temperature: cooled

WGK 1

Composition

Casein, tryptic digest	20 g/l
Yeast extract	5 g/l
Glucose	2 g/l
Dikaliumhydrogenphosphat	4 g/l
Sodium azide	0,4 g/l
Tetrazolium chloride (TTC)	0,1 g/l

ROTI®Plate90 TSC

ISO 11133 , ready-to-use, sterile, for microbiology

For the detection and enumeration of *Clostridium perfringens*.

TSC agar is a selective medium for the isolation and enumeration of *Clostridium perfringens*.

Tryptose, yeast extract and soy peptone provide the basic nutrients nitrogen, vitamins, minerals and amino acids. Ammonium iron (III) citrate and sodium bisulphite contained are H_2S indicators.
D-cycloserine inhibits the surrounding bacterial flora and causes the colonies that form to remain smaller.

Storage temperature: +4 °C
Transport temperature: cooled

WGK 1

ROTI®Plate90 R2A

Ph. Eur., USP, JP, ISO 11133, ready-to-use, sterile, for microbiology

For counting heterotrophic bacteria from water samples.

R2A agar is recommended by Ph. Eur. as an alternative medium for testing water samples for the presence of heterotrophic bacteria.

The low nutrient concentration together with the starch and sodium pyruvate content prevent fast-growing bacteria from overgrowing slower-growing or damaged cells. The agar medium is particularly good for counting stressed and damaged bacteria.

Storage temperature: +4 °C
Transport temperature: cooled

Composition

Yeast extract	0,5 g/l
Casein peptone	0,5 g/l
Proteose peptone	0,5 g/l
Starch	0,5 g/l
Glucose	0,5 g/l
Dikaliumhydrogenphosphat	0,3 g/l
Sodium pyruvate	0,3 g/l
Magnesium sulphate ($MgSO_4$)	0,024 g/l
Agar-Agar	15 g/l
pH value (25 °C)	7,0-7,4

Art. No.	Pack Qty.	Pack.	€
1NAC.1	10 unit(s)	box	23,15

ROTI®Plate90 YE

ISO 6222, ISO 11133, ready-to-use, sterile, for microbiology

For isolation and counting of bacteria, yeasts and moulds from water samples.

Yeast extract agar is recommended by the European ISO standard 6222 for testing water samples for the presence of culturable microorganisms and for counting them.

Yeast extract and tryptone are the basic nutrients of this medium. The yeast extract contained is the water-soluble part of the hydrolysed yeast and the source of vitamins, especially of the B group, and growth nutrients that stimulate the development of the microorganisms. Pancreatically digested casein is a major milk protein and a rich source of nitrogen and amino acids, especially tryptophan, which is valuable for detecting indole production.

Storage temperature: +4 °C
Transport temperature: cooled

ROTI®Plate90 XLD

ISO 11133, ready-to-use, sterile, for microbiology

For the isolation of enteropathogenic bacteria, in particular shigella and salmonella.

ISO 6579 recommends XLD agar for the identification and presumptive identification of Salmonella after pre-enrichment in a non-selective liquid medium.

The degradation of the three fermentable carbohydrates xylose, lactose and sucrose, with the production of acid, is shown by the colour change from red to yellow.
Sodium thiosulphate serves as a reactive substance with ammonium iron(III) citrate as an indicator for the production of H_2S under alkaline conditions. Phenol red serves as a pH indicator.

Storage temperature: +4 °C
Transport temperature: cooled

ROTI®Plate90 MacCon

ISO 11133, ready-to-use, sterile, for microbiology

For the selective isolation and identification of enterobacteria.

MacConkey agar is used for the subcultivation of Gram-negative enterobacterial colonies and for the determination of *Escherichia coli*.

Bile salts and crystal violet are the selective agents and inhibit Gram-positive bacteria.
Neutral red is the pH indicator that, when lactose is fermented and the pH drops, shows a colour change from neutral red to pink.

Storage temperature: +4 °C
Transport temperature: cooled

WGK 1

Composition

Casein peptone	17 g/l
Lactose	10 g/l
Sodium chloride (NaCl)	5 g/l

Candida chromogenic Agar plus

for microbiology

Selective medium for isolation and quick identification of pathogeneous *Candida* species.

Candida chromogenic Agar plus is an alternative chromogenic formulation to the traditional media for the detection and isolation of *Candida spp.*.

Candida spp. are present in clinical specimens due to environmental contamination, colonization, or a disease process. *Candida albicans* is the most common and is usually susceptible to the antigfungal agents' azole group.

This dehydrated nutrient medium allows the detection of *Candida auris*.

Storage temperature: +4 °C
Transport temperature: ambient temp.

WL broth

for microbiology

For the determination of microbial flora in beer fermentation processes and manufacturing

WL Broth, based on the Green and Grey formulation, is recommended for the control of industrial fermentations, particularly the manufacturing of beer. With a pH of 5,5 true counts of beer yeasts can be made. With a pH of 6,5 the medium is ideal for bakery and distilled spirit yeasts.

Storage temperature: +15 to +25 °C

WGK 3

WL Differential Agar

for microbiology

Selective medium used in the control of industrial fermention processes, especially in brewery.

WL Differential Agar is a selective medium for the isolation and enumeration of microbial flora used together with WL Broth (Cat. 1T94) for the control of the manufacture of beer and other fermentation processes by yeasts. Both media are widely used in the industries of vinegar, bread yeasts, grape and wine-growing and distilled spirits.

The medium allows the selective multiplication of yeasts in fermentation liquids, which contain a microflora mix consisting of fungi and bacteria. When the number of yeasts present is relatively small, certain bacteria can also be detected.

Storage temperature: +15 to +25 °C

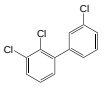
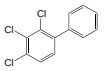
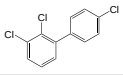
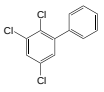
PCB neats

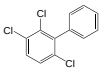
ROTI®Star

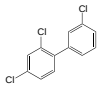


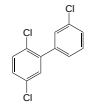


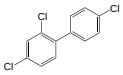


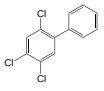


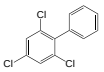


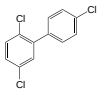


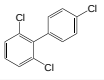


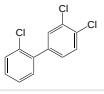


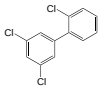


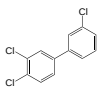


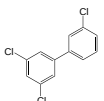


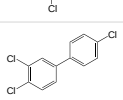




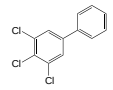


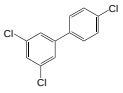


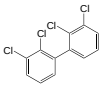


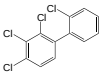


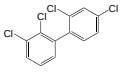
Polychlorinated biphenyls (PCBs) belong to the class of substances known as chlorinated hydrocarbons and are harmful substances with low biodegradability. Carl ROTH offers you various compounds (congeners) for your environmental analysis.

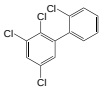


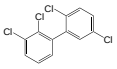


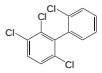


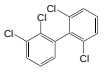


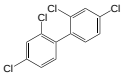


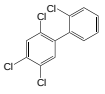


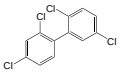


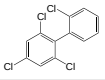


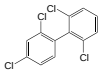


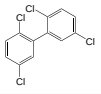


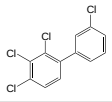


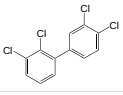


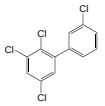


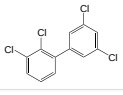












PCB neats are produced according to **ISO 17034** in an accredited environment.
They come with certificates of analysis and an GC chromatogram.

► **PCB standard solutions** in **isooctane** can be found in our webshop.

HPLC

HPLC column NUCLEODUR® C_{18} Gravity

Properties:

- Octadecyl phase, multi-endcapped
- Carbon content: 18.0 %
- Pore size: 110 Å
- pH stability: 1–11
- Eluent on column: acetonitrile/water

Applications:
Pharmaceuticals, e.g. analgesics, antiinflammatory drugs, antidepressants, herbicides, immunosuppressants, USP L1, suitable for LC-MS.

Similar phases:
Zorbax® Extend C_{18}, Synergi™ Max RP, Phenomenex Luna® C_{18} (2), Waters Xterra® RP_{18} / MS C_{18}, Inertsil® ODS III, Purospher® RP-18, Star RP-18.

HPLC column NUCLEODUR® C_{18} Gravity 1.8 µm

Macherey-Nagel.

1.8 µm particles for improved separation performance

This high density C_{18} phase based on high purity NUCLEODUR® silica gel with its endcapping suppresses any unwanted polar interactions between the silica surface and the sample, which makes “Gravity” particularly suitable for the separation of basic and other ionizable analytes. Due to the enhanced pH stability, LC/MS suitability and superior base deactivation (BDS) it is a perfect choice for method development and valuable for RP applications.

Particle size (µm)	Column length (mm)	Column inner diameter (mm)	Art. No.	Pack Qty.	€
1.8	50	2	**1XTY.1**	1 unit(s)	677,25

Further HPLC columns from Macherey-Nagel available on request.

HPLC column NUCLEODUR® NH_2/NH_2-RP

This HPLC column is packed with polar aminopropyl modification, based on high purity NUCLEODUR® silica gel. This HPLC phase is able to generate a clearly recognizable different retention behavior compared to purely alkyl-functionalized surface modifications. Besides cyano modifications, amino modifications belong to the most frequently used polar silica phases. Amino phases can be run in the RP mode using aqueous-organic eluent mixtures as well as in the NP mode,
e.g., with hexane as mobile phase. Also anion exchange chromatography of anions and organic acids using common buffers (e.g., acetate or phosphate) in conjunction with organic modifiers (e.g., acetonitrile) is possible. Separation mechanism based on polar interactions, hydrophobic interactions and weak ion exchange interactions.

Applications:
Hydrocarbons under NP conditions, Polar compounds under RP conditions (sugars, DNA bases), USP L8, suitable for LC/MS.

Similar phases:
NUCLEOSIL® NH_2 / NH_2-RP

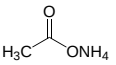
Guard Columns Systems



HPLC Guard Columns (analytical)

For protection of your main HPLC column from contamination, it is recommended to use guard columns. These short columns are placed into a guard column holder. The guard column holder in combination with a guard column inside is installed between the injector and the HPLC column. This installation prevents chemical impurities to reach the main column. Because a contamination could form an irreversible bond with the column packing material (stationary phase) and this can result in shorter column life. If you want to prolong the lifetime of your main column, then these short columns can help you.

Flash Chromatography

Flash chromatography is, on account of its superior properties, replacing column chromatography in many laboratories for chemical synthesis, pharmacokinetics and combinatorial chemistry. Flash chromatography can be used to clean samples inexpensively and quickly on a preparative scale up to approximately 100 g. A key factor here is the automation capacity of flash chromatography and the reduced solvent consumption compared to column chromatography.
Thin-layer chromatography is often used for the development of a selective and reproducible method. This way, it is possible to determine the optimal combination of various eluents and sorbents within a short space of time. The quality of the Carl ROTH product range is reflected in the fact that our TLC plates and foils are coated with the same basic silica gel as that used in CHROMABOND® flash columns. This enables the developed method to be perfectly applied to flash chromatography.

CHROMABOND® Flash RS SiOH Cartridges

Macherey-Nagel.

CHROMABOND Flash RS SiOH are known for fast and economical chromatographic purifications in industry.
The ready-to-use Flash columns (cartridges) are packed with highly pure silica (acid washed).

- Female Luer lock inlet and male Luer outlet
- Adsorbent: standard silica, unmodified (SiOH)
- Particle size: 40–63 µm, specific surface 500 m²/g
- pH stability: 2–8

Technical specifications:

SPE Adsorbents NEW

SPE (Solid Phase Extraction)

A fast, effective and inexpensive system for sample preparation. SPE columns enable samples to be processed for HPLC, GC, TLC, UV/IR spectroscopy, etc.

Applications:

- Food analysis
- Environmental analysis
- Organic chemistry
- Pharmaceutical analysis
- Biochemical analysis

Many common high-quality SPE phases are now also available for self-made packing of flash or SPE cartridges and columns for solid phase extraction as SPE sorbents of Carl ROTH's own brand **ROTI®XBond**.

SPE Columns CHROMABOND®

RP Phases

SPE polypropylene column CHROMABOND® C18

Macherey-Nagel. Material: PP columns with PE filter elements.

Octadecyl-silica gel, not endcapped

Please note: Extremely non-polar, hydrophobic interaction with many organic compounds

Similar phases: Strata™ C18-U, AccuBond® C18, Bakerbond™ PolarPlus, Isolute® C18, LiChrolut® RP-18

Column volume (ml)	Filling quantity (mg)	Pack.	Art. No.	Pack Qty.	€
1	100	20 x 5 units	**1LT9.1**	100 unit(s)	204,25
3	200	10 x 5 units	**1LTA.1**	50 unit(s)	156,95
3	500	10 x 5 units	**1LTC.1**	50 unit(s)	174,15
6	500	6 x 5 units	**1LTE.1**	30 unit(s)	117,20
6	500	6 x 5 units	**1LTH.1**	30 unit(s)	151,60

SPE polypropylene column CHROMABOND® C18 f

Macherey-Nagel. Material: PP columns with PE filter elements.

Octadecyl phase on silica gel basis, not endcapped
Similar to C_{18} ec, however possesses more free silanols (SiOH), which allow secondary interactions with polar groups of the analytes. Larger particles for fast flow.

Please note: Extremely non-polar, hydrophobic interaction with many organic compounds

Column volume (ml)	Filling quantity (mg)	Pack.	Art. No.	Pack Qty.	€
3	200	10 x 5 units	**1P95.1**	50 unit(s)	174,15

SPE polypropylene column CHROMABOND® C18 ec f

Macherey-Nagel. Material: PP columns with PE filter elements.

Octadecyl-silica gel, endcapped

Please note: This is a classic and widely used nonpolar material for hydrophobic interactions with a variety of organic compounds.

Column volume (ml)	Filling quantity (mg)	Pack.	Art. No.	Pack Qty.	€
3	200	10 x 5 units	**1P8L.1**	50 unit(s)	156,95

6	500	6 x 5 units	**1NK1.1**	30 unit(s)	151,60

SPE Columns CHROMABOND® C4

Macherey-Nagel.

Butyl phase based on silica gel, not endcapped similar to C_8 phase. Secondary interactions with polar compounds are more pronounced due to shorter alkyl chains. For compounds that are too strongly retraded to C_{18} or C_8.

Column volume (ml)	Filling quantity (mg)	Pack.	Art. No.	Pack Qty.	€
1	100	20 x 5 units	**1P8C.1**	100 unit(s)	204,25
3	500	10 x 5 units	**1P8E.1**	50 unit(s)	174,15

SPE Columns CHROMABOND® C2

Macherey-Nagel.

Dimethyl phase based on silica gel, not endcapped, similar to C_4 phase. Secondary interactions with polar compounds are more pronounced due to shorter alkyl chains. For compounds that are too strongly retraded to C_{18} or C_8.

Similar phases: Bond Elut® C2

Column volume (ml)	Filling quantity (mg)	Pack.	Art. No.	Pack Qty.	€
3	500	10 x 5 units	**1P9K.1**	50 unit(s)	174,15

SPE Columns CHROMABOND® C6H5

Macherey-Nagel.

Phenyl phase, polarity similar to C_8.

In addition to hydrophobic interactions more selective adsorption is possible by π-π interactions due to the electron density of the phenyl ring.

Similar phases: Strata™ PH · Bond Elut® PH · DSC-Ph · CLEAN-UP® Phenyl · AccuBond® Phenyl · Bakerbond™ Phenyl · Isolute PH(EC)

Column volume (ml)	Filling quantity (mg)	Pack.	Art. No.	Pack Qty.	€
3	500	10 x 5 units	**1P80.1**	50 unit(s)	174,15

SPE Columns CHROMABOND® PFAS

Macherey-Nagel.

Special phase for PFAS analysis.

For SPE enrichment of PFAS from water, textiles and sediments (contaminated soils). Polymeric combination phase with weak anion exchanger, highly porous, spherical particles.

Column volume (ml)	Filling quantity (mg)	Pack.	Art. No.	Pack Qty.	€
6	300	6 x 5 units	**1P9H.1**	30 unit(s)	288,10

Normal Phases

SPE polypropylene column CHROMABOND® HILIC

Macherey-Nagel. Material: PP columns with PE filter elements.

Base material silica gel, zwitterionic polar phase with ammonium-sulfonic acid modification. Polar analytes are bound more strongly than non-polar compounds. This behavior is reversed (orthogonal) to RP materials such as C_{18} or C_8.

Similar phases: ZIC® HILIC

Column volume (ml)	Filling quantity (mg)	Pack.	Art. No.	Pack Qty.	€
3	500	10 x 5 units	**1P99.1**	50 unit(s)	219,30
6	500	6 x 5 units	**1P9A.1**	30 unit(s)	146,20

SPE polypropylene column CHROMABOND® OH

Macherey-Nagel. Material: PP columns with PE filter elements.

Diol phase, polar. Similar properties to SiOH (unmodified silica gel).

Similar phases: DSC-Diol, LC-Diol · AccuBond® Diol (OH)

Column volume (ml)	Filling quantity (mg)	Pack.	Art. No.	Pack Qty.	€
3	500	10 x 5 units	**1P9C.1**	50 unit(s)	219,30
6	500	6 x 5 units	**1P9E.1**	30 unit(s)	146,20

SPE polypropylene column CHROMABOND® PA

Macherey-Nagel. Material: PP columns with PE filter elements.

Polyamide 6 as SPE phase for solid phase extraction is a good choice, e.g. for sample preparation of flavonoids.

Similar phases: DPA-6S

Column volume (ml)	Filling quantity (mg)	Pack.	Art. No.	Pack Qty.	€
3	500	10 x 5 units	**1P92.1**	50 unit(s)	219,30
6	1000	6 x 5 units	**1P93.1**	30 unit(s)	213,95
6	500	6 x 5 units	**1P94.1**	30 unit(s)	146,20

SPE polypropylene column CHROMABOND® Alox A

Macherey-Nagel. Material: PP columns with PE filter elements.

Similar phases: Bond Elut Alumina A · LC-Alumina-A · AccuBond® aluminium oxide A

Column volume (ml)	Filling quantity (mg)	Pack.	Art. No.	Pack Qty.	€
6	500	6 x 5 units	**1NHC.1**	30 unit(s)	119,35
6	1000	6 x 5 units	**1NHE.1**	30 unit(s)	177,40

SPE polypropylene column CHROMABOND® Alox B

Macherey-Nagel. Material: PP columns with PE filter elements.

Similar phases: Bond Elut Alumina B · LC-Alumina-B · AccuBond® aluminium oxide B

Column volume (ml)	Filling quantity (mg)	Pack.	Art. No.	Pack Qty.	€
6	1000	6 x 5 units	**1NHL.1**	30 unit(s)	177,40

SPE polypropylene column CHROMABOND® Alox N

Macherey-Nagel. Material: PP columns with PE filter elements.

Similar phases: Bond Elut Alumina N · LC-Alumina-N · AccuBond® aluminium oxide N

Column volume (ml)	Filling quantity (mg)	Pack.	Art. No.	Pack Qty.	€
3	500	10 x 5 units	**1NHH.1**	50 unit(s)	178,45
6	1000	6 x 5 units	**1NHK.1**	30 unit(s)	177,40

Ion Exchangers

SPE polypropylene column CHROMABOND® PCA

Macherey-Nagel. Material: PP columns with PE filter elements.

Silica gel modified with propylcarboxylic acid, weakly acidic cation exchanger (WCX).

Similar phases: Strata™ WCX · Bond Elut® CBA · DSC-WCX, LC-WCX · CLEAN-UP® Carboxylic Acid · Bakerbond™ Carboxylic Acid · Isolute® CBA

Column volume (ml)	Filling quantity (mg)	Pack.	Art. No.	Pack Qty.	€
3	500	10 x 5 units	**1P8T.1**	50 unit(s)	219,30
6	500	6 x 5 units	**1P8X.1**	30 unit(s)	146,20

SPE polypropylene column CHROMABOND® PSA

Macherey-Nagel. Material: PP columns with PE filter elements.

Silica gel modified with propylsulfonic acid, very strong cation exchanger (SCX).

Contrary to the SA phase no π-π interactions.

Similar phases: Isolute® SCX-2 · Bond Elut® PRS

Column volume (ml)	Filling quantity (mg)	Pack.	Art. No.	Pack Qty.	€
3	500	10 x 5 units	**1NK2.1**	50 unit(s)	219,30
6	1000	6 x 5 units	**1NK3.1**	30 unit(s)	213,95

SPE polypropylene column CHROMABOND® PS-H^+

Macherey-Nagel. Material: PP columns with PE filter elements.

High purity polystyrene-divinylbenzene copolymer (PS/DVB) with strong cation exchanger, H^+ form.

For removal or concentration of cations from water. Decreasing the pH value of basic samples.

Column volume (ml)	Filling quantity (mg)	Pack.	Art. No.	Pack Qty.	€
3	200	6 x 5 units	**1P8Y.1**	30 unit(s)	126,85
3	500	6 x 5 units	**1P90.1**	30 unit(s)	186,00
6	500	6 x 5 units	**1P91.1**	30 unit(s)	264,45

SPE polypropylene column CHROMABOND® PS-OH^-

Macherey-Nagel. Material: PP columns with PE filter elements.

High purity polystyrene-divinylbenzene copolymer (PS/DVB) with strong anion exchanger, OH^- form.

For removal or concentration of anions from water. Increasing the pH value in acidic samples.

Column volume (ml)	Filling quantity (mg)	Pack.	Art. No.	Pack Qty.	€
6	500	6 x 5 units	**1PA0.1**	30 unit(s)	264,45

SPE polypropylene column CHROMABOND® PS-Mix (PS-H^+ + PS-OH^-)

Macherey-Nagel. Material: PP columns with PE filter elements.

Mixture of high purity polystyrene-divinylbenzene copolymer (PS/DVB) with strong cation exchanger, H^+ form and with strong anion exchanger, OH^- form.

For desalting of water.

Column volume (ml)	Filling quantity (mg)	Pack.	Art. No.	Pack Qty.	€
3	200	6 x 5 units	**1P9L.1**	30 unit(s)	256,95
6	900	6 x 5 units	**1P9N.1**	30 unit(s)	379,50

Special Phases

SPE polypropylene column CHROMABOND® Carbon A

Macherey-Nagel. Material: PP columns with PE filter elements.

Highly porous activated carbon for SPE enrichment of acrylamide from water (DIN 38413-6).

Similar phases: Bakerbond™ Carbon, BEKOlut® Carbon SAC

Column volume (ml)	Filling quantity (mg)	Pack.	Art. No.	Pack Qty.	€
6	500	6 x 5 units	**1NHN.1**	30 unit(s)	146,20
6	1000	6 x 5 units	**1NHP.1**	30 unit(s)	213,95

SPE polypropylene column CHROMABOND® CN

Macherey-Nagel. Material: PP columns with PE filter elements.

Cyanopropyl phase, polar to medium polar. In addition to weak hydrophobic interactions, selective interactions are possible due to the high electron density of the CN group.

Similar phases: Strata™ CN · Sep-Pak® CN · Bond Elu® CN-U · DSC-CN, LC-CN · CLEAN-UP® CN · AccuBond® CN · Bakerbond™ cyano · Isolute® CN · LiChrolut® CN

Column volume (ml)	Filling quantity (mg)	Pack.	Art. No.	Pack Qty.	€
1	100	20 x 5 units	**1P8H.1**	100 unit(s)	255,85
3	500	10 x 5 units	**1P8K.1**	50 unit(s)	219,30

SPE Accessories

SPE Reservoir Columns CHROMABOND®

Macherey-Nagel. Material: PP.

Delivery incl. 1 adaptor.

Version	Art. No.	Pack Qty.	€
30 ml with adaptor for 1, 3, 6 ml CHROMABOND® SPE PP columns	**1LX3.1**	10 unit(s)	111,80
70 ml with adaptor for 1, 3, 6 ml CHROMABOND® SPE PP columns	**1LX4.1**	10 unit(s)	119,35
70 ml with adaptor for 15, 45, 70 ml CHROMABOND® SPE PP columns	**1LX5.1**	10 unit(s)	164,50

Karl Fischer Reagents

Single-component Reagents

Single-component reagents contain all the substances required for the Karl Fischer reaction in a single solution. They are easy to use and provide for a high level of flexibility when choosing a solvent for the sample type. The high reactivity of the components means that the titre for single-component reagents must always be determined before titration is carried out. Reactions with standard reagents containing methanol are not possible for samples that contain aldehydes or ketones, as the methanol will react with them to produce extra water in a secondary reaction.
Carl ROTH offers methanol-free reagents that are suitable for substances containing aldehydes and ketones.

Karl Fischer ROTI®Hydroquant Methanol quick

for KF titration

Solvent component for accelerated KF reaction.
For use with article number T194 or T190.

UN no. 1992 · ADR 3 (6.1) II · WGK 2

Danger H225-H301+H311+H331-H314-H360D-H370

Determination of the Hydrocarbon Index

NEW/+

The hydrocarbon index is defined as the total of all organic substances that can be extracted with hexane, but cannot be adsorbed in Florisil® (magnesium silicate). On a covalent GC column, these elute between *n*-decane and *n*-tetracontane and have a boiling range of 175–525 °C. These include heating oils, diesel fuels, kerosene, lubricants and transmission fluids. Petrols are not detected using this method. Carl ROTH offers an extensive range of products for the determination of the hydrocarbon index in accordance with **EN ISO 9377-2-Mod. (DIN H53).**

Standards
According to **EN ISO 9377-2-Mod. (DIN H53)**

- Manufactured in accordance with **ISO 17034** in an accredited environment
- Tested in a laboratory accredited to **ISO/IEC 17025**
- Ideal for calibration of GC-FID, GC-TCD, GC-ECD, GC-MS, GC-MS/MS, LC-UV, LC-MS and LC-MS/MS
- With an detailed, batch-related certificate of analysis

Acids and Bases for Analysis (p.a.)

Carl ROTH provides suitable acids and bases for different requirements!

- High purity
- High batch consistency
- Detailed specifications
- Good price-performance ratio

Hydrochloric acid

37 % fuming, p.a.

Solvent and dissolving agent. For acidifying, neutralisation and regeneration of ion exchangers.

Products in VLSI quality

Carl ROTH's VLSI (Very Large Scale Integration) product line offers solvents and acids for cleaning and etching wafers for the semi-conductor industry. Both processes are essential for chip manufacture. Carl ROTH offers a selected range of products.

Solvents

Properties:

- High purity
- Trace metal content usually below 100 ppb
- Particle-filtered, maximal 250 particles/ml

pH-Buffer Solutions, ROTI®Calipure, ready-to-use

Properties:

- Manufactured from high purity buffer substances
- No need for time-consuming drying and weighing of reagents
- The buffer solutions are adjusted to their respective pH values by comparison with standard buffer solutions (according to DIN 19266 and based on primary reference materials of the NIST)
- Quick and precise calibration of measuring equipment
- Stabilised against algae and bacterial action
- The batch specific Certificates of Analysis are available online

Buffer solution pH 9.00 ±0.02 (20 °C)

ROTI®Calipure standards for your calibration needs

Carl ROTH offers an extensive range of calibration and control standards. These products are manufactured from highly pure starting material and are specially tested for each application.
The corresponding batch-specific certificate of analysis is available online.
Each product series offers excellent value for money.

Refractive index standards BRIX ROTI®Calipure

Our refractive index standards BRIX are gravimetrically manufactured from high-quality materials and achieve a longer shelf life through stabilisation. They can be used with all refractometers.
They are based on sucrose and are supplied in practical dropper bottles.
The batch-specific certificates of analysis are available online.

Properties:

- Calibration and control standard
- Stabilised, non ICUMSA (International Commission for Uniform Methods of Sugar Analysis)
- Usable with all refractometers

For additional product data and safety information, see chapter Chemicals A-Z.

Standards for Cryoscopy ROTI®Calipure

The concentration of a solute in a liquid, has an influence on some colligative properties of the mixed solution, one of the properties is the freezing point. The freezing point of milk is also based on this phenomenon and is below 0 °C for unaltered milk. If the milk is diluted with water, the freezing point moves closer to that of pure water (0 °C). The increase in freezing point is due to the dilution of lactose and inorganic salts, the other components such as fat, proteins and other ingredients probably have no influence on the freezing point. The freezing point standards are produced gravimetrically (w/w) from high-quality raw materials. The certificates of analysis are available online.

Properties:

- Used to calibrate and control
- Suitable for all cryoscopes
- For the determination of freezing point in milk
- Manufactured according to ISO 5764

Viscosity Standards ROTI®Calipure NEW/+

Our viscosity standards are manufactured from high-quality reagents and tested using Ubbelohde Master Viscometers. All standards are tested for kinematic viscosity (mm²/s, cSt) as well as dynamic viscosity (mPa·s, cP) and density (g/ml) at different temperatures up to 100 °C. They can be used for calibration, control, verification, qualification or method validation of kinematic and dynamic viscosity.
All viscosity standards behave like a Newtonian fluid. The batch specific Certificates of Analysis are available online.

For additional product data and safety information, see chapter Chemicals A-Z.

Standards for Total Acid Number and Total Base Number

Total Acid Number

The Total Acid Number (TAN), acid number (AN) or neutralisation number (NN) is determined primarily in mineral oils, lubricants and biodiesel and indicates how many mg of potassium hydroxide are required per g of sample to neutralise the acidic components and free acids. It depends, among other things, on the solubility of the sample in the solvent and on the nature of the sample. The total acid number shows changes in the oil or lubricant under oxidising conditions and serves as a quality control.
In this method, the total acid number in the sample is determined potentiometrically by acid/base titration with potassium hydroxide solution in 2-propanol.
Our TAN standards are produced in a synthetic oil matrix and tested according to ASTM D664.

Total Base Number

The Total Base Number (TBN) or base number (BN) is determined in oils or lubricants. It indicates the ability of the oil to neutralise acidic compounds formed during use; the unit of measurement is mg KOH/g. The determination is carried out on both new and used oils.
In the method according to ASTM D2896, the total base number of the sample is determined by dissolving the sample in a mixture of chlorobenzene and acetic acid and then titrating it potentiometrically with perchloric acid in acetic acid.
For the determination according to ASTM D4739, the sample is dissolved in a mixture of toluene, 2-propanol, chloroform with 0.5 % water and titrated with hydrochloric acid in 2-propanol.
Our TBN standards are produced in a synthetic oil matrix and tested according to ASTM D2896.

Multi Element Standards for ICP-OES

(Inductively Coupled Plasma – Optical Emission Spectrometry)

All solutions are certified and can be traced to NIST standard reference solutions. Solutions are produced according to **ISO 17034** in an accredited environment. The solutions are tested in a laboratory accredited to **ISO/IEC 17025** and supplied with a detailed, batch-specific certificate of analysis. A series of mixtures of different element combinations and concentrations for standard environmental analyses.

Properties:

- Quality control standards
- 12 months shelf life for unopened bottle & 6 months after the bottle has been opened

► We would also like to offer you our **ROTI®Star multi-element standard solutions** which are manufactured with your special requirements.

Multi Element Standards for ICP-MS

(Inductively Coupled Plasma – Mass spectrometry)

The standard solutions are manufactured from high-purity starting material (usually ≥99,999 %) under clean room conditions.
Acids (purified by means of sub-boiling distillation) and water of highest quality are used to manufacture the solutions.
The solutions are certified and can be traced to NIST standard reference solutions. Solutions are produced according to **ISO 17034** in an accredited environment. The solutions are tested in a laboratory accredited to **ISO/IEC 17025** and supplied with a detailed, batch-specific certificate of analysis.
The range encompasses different multi-element standards in various compositions for tuning, calibration and interference tests.

Metallo-organic single element standards

ROTI®Star

- Certified and traceable to NIST standard reference materials
- Manufactured in accordance with **ISO 17034** in an accredited environment
- Tested in a laboratory accredited to **ISO/IEC 17025**
- Detailed, batch-specific certificate of analysis is available online

Properties:

- Metallo-organic compounds in 75 cSt hydrocarbon oil
- Trace metal concentrations determined by ICP-OES
- Suitable for use with ASTM D4927, D4951, D5185, D5708, D6443, D6481, D6595 and other standard test methods for elemental analysis
- Many of these standards are sulfonate-based and thus contain high levels of sulfur
- Excellent for AAS, ICP, RDE, XRF and other elemental analysis techniques
- 12 months shelf life for unopened bottle

Preliminary tests for qualitative determination

Flame Test Kits

Set for the identification of minerals in the Bunsen burner flame through the characteristic flame colouring of the salts in the “flame test”.

Our flame test kits also contain 10 magnesia rods and a wooden clamp for better handling. This provides the materials needed to demonstrate the flame colours of six different metals. During combustion, the metal or semi-metal ion contained in each chemical gives the flame a characteristic colour.

Application:

- Dip the magnesia rod into diluted hydrochloric acid (not included in the scope of delivery)
- Pick up some of the salt with the moistened magnesia rod
- Hold the end of the rod with the salt in the swooshing burner flame

Directions for use

If necessary, burn out the magnesia rods in the burner flame. The flame must be colourless. Otherwise there will still be residues of chemicals from previous experiments.

Flame Test Kit 1

Salts for flame colouration.

The kit contains

- 10 g barium chloride dihydrate Art. No. 4453.7
- 10 g calcium chloride dihydrate Art. No. 5239.5
- 10 g lithium chloride Art. No. 6698.5
- 10 g potassium chloride Art. No. 6781.4
- 10 g sodium chloride Art. No. 3957.6
- 10 g strontium chloride hexahydrate Art. No. 4473.4

The magnesia rods (10 pcs.) and a wooden clip are included in the kit.

ROTI®Cell DMEM High Glucose

DMEM cell culture medium · Dulbecco's Modified Eagle Medium
D ~1 g/cm³ · bp ~100 °C
WGK 1

ROTI®Cell DMEM High Glucose
CELLPURE® ready-to-use, sterile, w/o glutamine, w/o phenol red

Medium for a wide range of mammalian cell culture applications.

Store at +2 °C to +8 °C protected from light. Once opened, use within 6-8 weeks.

Storage temperature: +2 to +8 °C
Transport temperature: ambient temp.

Type analysis
Glucose ..... 4,5 g/l
pH value 7,0-7,6
Osmolality ..... 320-360 mOsm/kg
Endotoxins ..... ≤1,0 EU/ml
Sterility ..... complies

Art. No.	Pack Qty.	Pack.	€
1TE8.1	500 ml	plastic	16,05

For further information see www.carlroth.com

ROTI®Cell DMEM High Glucose
CELLPURE® ready-to-use, sterile, with stable glutamine, w/o pyruvate, with HEPES

Medium for a wide range of mammalian cell culture applications.

Store at +2 °C to +8 °C protected from light. Once opened, use within 6-8 weeks.

Storage temperature: +2 to +8 °C
Transport temperature: ambient temp.

Type analysis
Glucose ..... 4,5 g/l
L-Glutamine, stable ..... complies
HEPES ..... 25 mM
pH value 6,9-7,7
Osmolality ..... 270-360 mOsm/kg
Endotoxins ..... ≤1,0 EU/ml
Sterility ..... complies

Art. No.	Pack Qty.	Pack.	€
1TE9.1	500 ml	plastic	19,25

For further information see www.carlroth.com

ROTI®Cell DMEM Low Glucose

DMEM cell culture medium
D ~1 g/cm³ · bp ~100 °C
WGK 1

ROTI®Cell DMEM Low Glucose
CELLPURE® ready-to-use, sterile, with stable glutamine, with pyruvate

Medium for a wide range of mammalian cell culture applications.

Store at +2 °C to +8 °C protected from light. Once opened, use within 6-8 weeks.

Storage temperature: +2 to +8 °C
Transport temperature: ambient temp.

Type analysis
Glucose ..... 1,0 g/l
L-Glutamine, stable ..... complies
pH value 7,0-7,6
Osmolality ..... 280-350 mOsm/kg
Endotoxins ..... ≤1,0 EU/ml
Sterility ..... complies

WL broth

WGK 3

WL broth
for microbiology

For the determination of microbial flora in beer fermentation processes and manufacturing

Storage temperature: +15 to +25 °C

Composition
Bromcresol green ..... 0,022 g/l
Calcium chloride ..... 0,125 g/l
Dextrose ..... 50 g/l
Iron chloride ..... 0,0025 g/l
Yeast extract ..... 4 g/l
Potassium chloride (KCl) ..... 0,425 g/l
Potassium dihydrogen phosphate ..... 0,55 g/l
Manganese sulphate ..... 0,0025 g/l
$MgSO_4$ ..... 0,125 g/l
pH value (25 °C) 5,3-5,7
Tryptone ..... 5 g/l

Art. No.	Pack Qty.	Pack.	€
1T94.1	500 g	plastic	102,15
1T94.2	1 kg	plastic	192,45

WL Differential Agar

WGK 1

WL Differential Agar
for microbiology

Selective medium used in the control of industrial fermention processes, especially in brewery.

Storage temperature: +15 to +25 °C

Agar-Agar ..... 20 g/l
Bromcresol green ..... 0,022 g/l
Calcium chloride ..... 0,125 g/l
Cycloheximide ..... 0,004 g/l
Dextrose ..... 50 g/l
Iron chloride ..... 0,0025 g/l
Yeast extract ..... 4 g/l

n_D	refractive index
nwg	non-hazardous to water (see WGK)

Abbreviations & Symbols

P	Precautionary statement acc. to regulation (EC) No 1272/2008 (CLP, GHS)
Pa s	Pascal second
p.a.	pro analysi = for analytical purposes
PEPTIPURE®	suitable for peptide synthesis
Pestilyse®	solvent, suitable for residue analysis (environmental, water and food analysis)
pH	pH value
pK_a	pK_a value
pharma.	pharmaceutical quality, for pharmaceutical purposes
Ph.Eur.	European Pharmacopoeia
ppb	parts per billion = 1 µg per kg
ppm	parts per million = 0,0001 %, 1 mg per kg
ppt	parts per trillion = 1 ng per kg
prim.	primary
PUFFERAN®	can be used as buffer
pulv.	pulverised
pure	suitable for synthesis and laboratory use
rect.	rectification
redist.	redistilled
resubl.	resublimated
ROTICHROM®	suitable as reference substance in chromatography
ROTICHROM® CHR	chromatographically pure reference substances that are chromatographically (HPLC, GC, etc.) tested for their purity and are supplied without a chromatogram
ROTICHROM® CHR_{TLC}	compound in this catalogue is designated asbeing thin-layer chromatographically pure (CHR_{TLC}) if no impurities can be detected under experimental conditions with 20 µg sample
ROTICHROM® ~CHR_{TLC}	for products with impurities which under our conditions, (see CHR_{TLC}), allow the main compound to be designated; such products can be identified as being „approximately thin-layer chromatographically pure“ (~CHR_{TLC})
ROTICHROM® GC	reference substance for gas chromatography, delivered with GC chromatogram
ROTICHROM® HPLC	reference substance for HPLC, delivered with HPLC chromatogram
ROTICHROM® TLC	reference substance for thin-layer chromatography, delivered with thin-layer chromatogram
ROTICUBE®	combi-box of 5 litre or 10 litre, consisting of a stable outer card box with inner bag made of PE; comes with stopcock
ROTIDRY®	dried solvents, filled under protective gas
ROTIPHORESE®	product is suitable for electrophoresis
ROTIPURAN®	highly pure product, suitable for analysis
ROTISOLV®	solvent tested for specific applications (e.g. HPLC, LC-MS, GC, Head-Space)
ROTITAINER®	stackable containers that are convenient to handle. Matching safety pumps are available
sec.	secondary
SOLVAGREEN®	solvents and products that comply with the principles of green chemistry and are either obtained from renewable resources or are considered to be less environmentally hazardous than traditional solvents
stab.	stabilised
subl.	sublimated
sym.	symmetrical
synth.	synthetic
techn.	technical quality. Products with the purity designation *„technicum“* feature a different content. They are generally mass produced and may have a slightly foreign odour and colour. They are used for general technical purposes.
tert.	tertiary; standard for thin-layer chromatograhy (TLC)
TLC	thin layer chromatography
U	unit
USP	United States Pharmacopoeia
WGK	Wassergefährdungsklasse, German Water Hazard Class (on the basis of the Ordinance on facilities for handling substances that are hazardous to water, AwSV)
WGK 1	generally hazardous to waters
WGK 2	clearly hazardous to waters
WGK 3	severe hazardous to waters
wt.% or wt%	percentage by weight

Hazard Pictograms

The hazard pictogram on the designation label indicates the main hazard arising from a substance. If there are several hazardous qualitiies, several symbols are necessary.

Each pictogram is allocated a hazard designation and coding that do **not** appear on the designation label.

GHS01
exploding bomb

GHS02
flame

GHS03
flame over circle

GHS04
gas cylinder

GHS05
corrosion

GHS06
skull and crossbones

GHS07
exclamation mark

GHS08
health hazard

GHS09
environment

Hazard Statements H Codes

Hazard statements for physical hazards

H200	Unstable explosives.
H201	Explosive; mass explosion hazard.
H202	Explosive, severe projection hazard.
H203	Explosive; fire, blast or projection hazard.
H204	Fire or projection hazard.
H205	May mass explode in fire.
H206	Fire, blast or projection hazard; increased risk of explosion if desensitising agent is reduced.
H207	Fire or projection hazard; increased risk of explosion if desensitising agent is reduced.
H208	Fire hazard; increased risk of explosion if desensitising agent is reduced.
H220	Extremely flammable gas.
H221	Flammable gas.
H222	Extremely flammable aerosol.
H223	Flammable aerosol.
H224	Extremely flammable liquid and vapour.
H225	Highly flammable liquid and vapour.
H226	Flammable liquid and vapour.
H228	Flammable solid.
H229	Pressurised container: May burst if heated.
H230	May react explosively even in the absence of air.
H231	May react explosively even in the absence of air at elevated pressure and/or temperature.
H232	May ignite spontaneously if exposed to air.
H240	Heating may cause an explosion.
H241	Heating may cause a fire or explosion.
H242	Heating may cause a fire.
H250	Catches fire spontaneously if exposed to air.
H251	Self-heating; may catch fire.
H252	Self-heating in large quantities; may catch fire.
H260	In contact with water releases flammable gases which may ignite spontaneously.
H261	In contact with water releases flammable gases.
H270	May cause or intensify fire; oxidiser.
H271	May cause fire or explosion; strong oxidiser.
H272	May intensify fire; oxidiser.
H280	Contains gas under pressure; may explode if heated.
H281	Contains refrigerated gas; may cause cryogenic burns or injury.
H290	May be corrosive to metals.

Hazard statements for health hazards

H300	Fatal if swallowed.
H301	Toxic if swallowed.
H302	Harmful if swallowed.
H304	May be fatal if swallowed and enters airways.
H310	Fatal in contact with skin.
H311	Toxic in contact with skin.

H312	Harmful in contact with skin.
H314	Causes severe skin burns and eye damage.
H315	Causes skin irritation.
H317	May cause an allergic skin reaction.
H318	Causes serious eye damage.
H319	Causes serious eye irritation.
H330	Fatal if inhaled.
H331	Toxic if inhaled.
H332	Harmful if inhaled.
H334	May cause allergy or asthma symptoms or breathing difficulties if inhaled.
H335	May cause respiratory irritation.
H336	May cause drowsiness or dizziness.
H340	May cause genetic defects.
H341	Suspected of causing genetic defects.
H350	May cause cancer.
H350i	May cause cancer by inhalation.
H351	Suspected of causing cancer.
H360	May damage fertility or the unborn child.
H360F	May damage fertility.
H360D	May damage the unborn child.
H360FD	May damage fertility. May damage the unborn child.
H360Fd	May damage fertility. Suspected of damaging the unborn child.
H360Df	May damage the unborn child. Suspected of damaging fertility.
H361	Suspected of damaging fertility or the unborn child.
H361f	Suspected of damaging fertility.
H361d	Suspected of damaging the unborn child.
H361fd	Suspected of damaging fertility. Suspected of damaging the unborn child.
H362	May cause harm to breast-fed children.
H370	Causes damage to organs.
H371	May cause damage to organs.
H372	Causes damage to organs through prolonged or repeated exposure.
H373	May cause damage to organs through prolonged or repeated exposure.
H300+H310	Fatal if swallowed or in contact with skin.
H300+H330	Fatal if swallowed or if inhaled.
H310+H330	Fatal in contact with skin or if inhaled.
H300+H310 +H330	Fatal if swallowed, in contact with skin or if inhaled.
H301+H311	Toxic if swallowed or in contact with skin.
H301+H331	Toxic if swallowed or if inhaled.
H311+H331	Toxic in contact with skin or if inhaled.
H301+H311 +H331	Toxic if swallowed, in contact with skin or if inhaled.
H302+H312	Harmful if swallowed or in contact with skin.
H302+H332	Harmful if swallowed or if inhaled.
H312+H332	Harmful in contact with skin or if inhaled.
H302+H312+ H332	Harmful if swallowed, in contact with skin or if inhaled.

Hazard statements for environmental hazards

H400	Very toxic to aquatic life.
H410	Very toxic to aquatic life with long lasting effects.
H411	Toxic to aquatic life with long lasting effects.
H412	Harmful to aquatic life with long lasting effects.
H413	May cause long lasting harmful effects to aquatic life.
H420	Harms public health and the environment by destroying ozone in the upper atmosphere.

Supplemental Hazard Information EUH Codes

EUH014	Reacts violently with water.
EUH018	In use may form flammable/explosive vapour-air mixture.
EUH019	May form explosive peroxides.
EUH029	Contact with water liberates toxic gas.
EUH031	Contact with acids liberates toxic gas.
EUH032	Contact with acids liberates very toxic gas.
EUH044	Risk of explosion if heated under confinement.
EUH066	Repeated exposure may cause skin dryness or cracking.
EUH070	Toxic by eye contact.
EUH071	Corrosive to the respiratory tract.
EUH201	Contains lead. Should not be used on surfaces liable to be chewed or sucked by children.
EUH201A	Warning! Contains lead.
EUH202	Cyanoacrylate. Danger. Bonds skin and eyes in seconds. Keep out of the reach of children.
EUH203	Contains chromium (VI). May produce an allergic reaction.
EUH204	Contains isocyanates. May produce an allergic reaction.
EUH205	Contains epoxy constituents. May produce an allergic reaction.
EUH206	Warning! Do not use together with other products. May release dangerous gases (chlorine).
EUH207	Warning! Contains cadmium. Dangerous fumes are formed during use. See information supplied by the manufacturer. Comply with the safety instructions.
EUH208	Contains (name of sensitising substance). May produce an allergic reaction.
EUH209	Can become highly flammable in use.
EUH209A	Can become flammable in use.
EUH210	Safety data sheet available on request.
EUH401	To avoid risks to human health and the environment, comply with the instructions for use.

Hazard classes and categories

Classification				Labelling		
Hazard class	**Category codes**		**Pictogram, code**	**Signal word**	**Hazard statements**	
Explosive	Unstable explosives	Unst. Expl.	 GHS01	Danger	H200	Unstable explosives.
	Divisions 1.1	Expl. 1.1			H201	Explosive; mass explosion hazard.
	Divisions 1.2	Expl. 1.2			H202	Explosive, severe projection hazard.
	Divisions 1.3	Expl. 1.3			H203	Explosive; fire, blast or projection hazard.
	Divisions 1.4	Expl. 1.4		Warning	H204	Fire or projection hazard.
	Divisions 1.5	Expl. 1.5	No pictogram	Danger	H205	May mass explode in fire.
	Divisions 1.6	Expl. 1.6	No pictogram, no signal word, no hazard statement			
Flammable gas	Category 1	Flam. gas 1	 GHS02	Danger	H220	Extremely flammable gas.
	Category 2	Flam. gas 2	No pictogram	Warning	H221	Flammable gas.
Flammable aerosol	Category 1	Flam. aerosol 1	 GHS02	Danger	H222	Extremely flammable aerosol.
	Category 2	Flam. aerosol 2		Warning	H223	Flammable aerosol.
Oxidising gas	Category 1	Ox. gas 1	 GHS03	Danger	H270	May cause or intensify fire; oxidiser
Gas under pressure	Compressed gas	Press. gas	 GHS04	Warning	H280	Contains gas under pressure; may explode if heated.
	Dissolved gas					
	Liquefied gas				H281	Contains refrigerated gas; may cause cryogenic burns or injury.
	Refrigerated liquefied gas					
Flammable liquid	Category 1	Flam. Liq. 1	 GHS02	Danger	H224	Extremely flammable liquid and vapour.
	Category 2	Flam. Liq. 2			H225	Highly flammable liquid and vapour.
	Category 3	Flam. Liq. 3		Warning	H226	Flammable liquid and vapour.
Flammable solid	Category 1	Flam. Sol. 1		Danger	H228	Flammable solid.
	Category 2	Flam. Sol. 2		Warning		

Classification & Labelling acc. to (EC) 1272/2008

Classification				Labelling		
Hazard class	**Category codes**		**Pictogram, code**	**Signal word**	**Hazard statements**	
Self-reactive substance or mixture **Organic peroxide**	Type A	Self-react. A Org. Perox. A	 GHS01	Danger	H240	Heating may cause an explosion.
	Type B	Self-react. B Org. Perox. B	 GHS01 + GHS02		H241	Heating may cause a fire or explosion.
	Type C and D	Self-react. CD Org. Perox. CD	 GHS02	Danger	H242	Heating may cause a fire.
	Type E and F	Self-react. EF Org. Perox. EF		Warning		
	Type G	Self-react. G Org. Perox. G	No pictogram, no signal word, no hazard statement			
Pyrophoric liquid	Category 1	Pyr. Liq. 1	 GHS02	Danger	H250	Catches fire spontaneously if exposed to air.
Pyrophoric solid	Category 1	Pyr. Sol. 1				
Self-heating substance or mixture	Category 1	Self-heat. 1		Danger	H251	Self-heating; may catch fire.
	Category 2	Self-heat. 2		Warning	H252	Self-heating in large quantities; may catch fire.
Substance or mixture which in contact with water emits flammable gas	Category 1	Water-react. 1		Danger	H260	In contact with water releases flammable gases which may ignite spontaneously.
	Category 2	Water-react. 2		Danger	H261	In contact with water releases flammable gases.
	Category 3	Water-react. 3		Warning		
Oxidising liquid **Oxidising solid**	Category 1	Ox. Liq. 1 Ox. Sol. 1	 GHS03	Danger	H271	May cause fire or explosion; strong oxidiser.
	Category 2	Ox. Liq. 2 Ox. Sol. 2		Danger	H272	May intensify fire; oxidiser.
	Category 3	Ox. Liq. 3 Ox. Sol. 3		Warning		
Substance or mixture corrosive to metals	Category 1	Met. Corr. 1	 GHS05	Warning	H290	May be corrosive to metals.
Desensitised explosive substances/ mixtures	Category 1	Desen. Expl. 1	 GHS02	Danger	H206	Fire, blast or projection hazard; increased risk of explosion if desensitising agent is reduced.
	Category 2	Desen. Expl. 2		Danger	H207	Fire or projection hazard; increased risk of explosion if desensitising agent is reduced.
	Category 3	Desen. Expl. 3		Warning		
	Category 4	Desen. Expl. 4		Warning	H208	Fire hazard; increased risk of explosion if desensitising agent is reduced.
Acute toxicity	Category 1	Acute Tox. 1	 GHS06	Danger	H300 H310 H330	Fatal if swallowed. Fatal in contact with skin. Fatal if inhaled.
	Category 2	Acute Tox. 2				
	Category 3	Acute Tox. 3			H301 H311 H331	Toxic if swallowed. Toxic in contact with skin. Toxic if inhaled.
	Category 4	Acute Tox. 4	 GHS07	Warning	H302 H312 H332	Harmful if swallowed. Harmful in contact with skin. Harmful if inhaled.

Classification				Labelling		
Hazard class	**Category codes**		**Pictogram, code**	**Signal word**	**Hazard statements**	
Skin corrosion/ irritation	Category 1A	Skin Corr. 1A	 GHS05	Danger	H314	Causes severe skin burns and eye damage.
	Category 1B	Skin Corr. 1B				
	Category 1C	Skin Corr. 1C

All values given in this table refer to plastic raw material and can only be regarded as guidelines. As the chemical resistance may vary with different conditions of manufacturing or environmental influences, suitability tests by the user are highly recommanded.
No legal claims can be derived from this information; nor do we accept any liability for it.

General Information & Index

Sales and delivery terms and conditions 300

Impressum. 302

Terms and Conditions of Sale and Delivery

These Terms and Conditions of Sale and Delivery also apply for all future deliveries.

1. Validity for future business transactions – Validity of contrary General Terms and Conditions – Validity for companies only

1.1. Our Terms and Conditions of Sale and Delivery apply exclusively. They shall also apply to all future deliveries, even when no special reference is made thereto. We do not accept any contrary terms and conditions or those terms and conditions of the customer which differ from our Terms and Conditions of Delivery, even if the contract is performed unconditionally, unless we have expressly agreed to the validity thereof in writing or in text form.
1.2. Our Terms and Conditions of Sale shall only apply to entrepreneurs (Section 14 German Civil Code [BGB]), legal persons governed by public law or a separate legal entity under public law.

2. Quotes, formation of contract, delivery item

2.1. Our quotes are subject to change and are non-binding unless they have been explicitly declared binding or include a specific period of acceptance.
2.2. The ordering of goods by the customer shall be deemed to be a binding contractual offer. Orders are only binding for us if we confirm them in writing or in text form within two weeks, or if we fulfil them within two weeks through shipment of the ordered goods.
2.3. The legal relationship between the customer and us shall be governed exclusively by the contract, which has been entered into in writing or in text form, including these general Terms and Conditions of Sale and Delivery. Verbal agreements made by us before the contract is formed are not legally binding and verbal understandings between the parties are superseded by the contract that is formed in writing or in text form, unless it is expressly stated therein that such agreements will continue to apply.
2.4. Amendments and modifications to the agreements made, including these general Terms and Conditions of Sale and Delivery, must be made in writing or in text form in order to be valid. With the exception of managing directors and holders of commercial powers of attorney, our employees are not authorised to make verbal agreements which are contrary to the cited provisions.
2.5. The information we provide on the item to be supplied (e.g. weights, dimensions, quantities and functional values), as well as our representations of the item to be supplied, are only approximations, unless use for the purpose intended by the contract requires full conformity and specific characteristics have been agreed. Unless identified as such, these are not guaranteed physical characteristics, rather descriptions or characterisations of the product. Deviations that are customary in the trade and deviations that are the result of legal provisions are permissible provided that they do not impair usability for the contractually agreed purpose. Refer below to Item 10 of these Terms and Conditions.

3. Prices, price adjustments, electronic invoicing

3.1. Our prices are quoted "ex works" from Karlsruhe plus packaging, tariffs where export shipments are concerned, statutory VAT, fees and other public duties.
3.2. We reserve the right to amend our listed prices upon which the contract is based accordingly if cost reductions or increases arise as a result of tariff agreements, or if the price of materials increases after the contract is concluded. These shall be verified to the customer upon request. A price adjustment shall not be effected in cases where delivery is made as contractually stipulated within four months of conclusion of the contract.
3.3. We provide an electronic invoice in compliance with data protection legislation. This presumes the formation of a separate agreement.

4. Payment terms and conditions, payment arrears

4.1. To avoid accounting errors and the resulting erroneous issue of dunning notices, we rely on receiving the correct invoice number, invoice date and individual invoiced amounts with incoming payments. This data can be found on all of our invoices. If the payer is not the same as the invoice recipient, the name stated on the relevant invoice must also be given when the payment is made. If we receive payments without this information, we cannot guarantee that payments will be assigned correctly.
4.2. The invoiced amounts become payable upon receipt of the goods. Unless otherwise specified in writing or in text form, they are payable within thirty days without any deduction. In the event that the date on which the invoice or an equivalent payment schedule was received is disputed, the customer is considered to be in default 30 days after receipt of the goods at the latest, according to Section 286(4) German Civil Code [BGB]. The date of receipt of payment is decisive. Otherwise, the statutory regulations on defaults of payment apply.
4.3. For payment within eight days from date of invoice, a 2% discount shall be granted. The precondition for any discount shall be the settlement of all other customer payables arising from the business relationship with us that are older than 30 days.
4.4. For new customers, we reserve the right to require that payment be made prior to delivery or by cash on delivery.

5. Off-setting, retention

The off-setting of counter-demands by the customer or the retention of payment due to such demands shall only be permissible if such demands are indisputable, or if their validity has been legally established.

6. Shipping, packaging, transfer of risk

6.1. The shipping method and the packaging shall be subject to our due discretion in compliance with the statutory provisions if no other agreement has been made.
6.2. The risk of accidental loss or incidental deterioration of the delivered goods is, at the latest, transferred to the customer upon handover of the goods to the forwarding agent, the carrier, or any other third party charged with the task of performing shipment (applicable from commencement of loading). This also applies in the case of partial deliveries, and with respect to each partial delivery.
6.3. The shipment is only insured against theft, breakage, transport, fire and water damage or other insurable risks at the express request of the customer and at the customer's expense.

7. Delivery time

7.1. The promised delivery periods and dates are only binding for us if we have confirmed them in writing or in text form. The delivery dates indicated on our website during the ordering process or in our catalogue do not constitute such confirmation. Compliance with our delivery obligation requires the timely and proper fulfilment of the customer's obligations. The delivery dates and deadlines refer to the time at which the goods are made available for handover upon collection by the forwarding agent, carrier, or other third party assigned to transport the goods.
7.2. We cannot be held liable should a delivery prove impossible or in the case of delays in delivery due to force majeure or other events that were unforeseeable on signing of the contract (e.g. fire, explosion, strikes, lawful lockout, complications in procuring materials or energy, war, unrest, epidemics or pandemics where a risk level of "moderate" or above has been defined by the Robert Koch Institute, government rejection or renunciation of import and export licences, shortage of raw materials and/or other products and/or constituent parts), and for which we are not accountable. We reserve the right to withdraw from the contract if such occurrences substantially complicate delivery or make delivery impossible, and if the disruption is not merely of a temporary nature. If the disruption is of a temporary nature, delivery times shall be extended to take account of the period of disruption and a reasonable start-up period. We shall notify the customer of the start and end of such circumstances as promptly as possible. If such a delay makes acceptance of delivery unreasonable for the customer, the customer shall be entitled to withdraw from the contract by issuing immediate notice in writing or in text form.
7.3. If we are in default of delivery or performance, or are unable to carry out delivery or performance, for any reason whatsoever, our liability is limited to the extent set out in Item 13 of these Terms and Conditions of Sale and Delivery.
7.4. We cannot be held liable for the impossibility of, or delay in, performance of delivery obligations if, and to the extent that, such an impossibility or delay arises from circumstances caused by the customer, in particular if the customer fails to comply with public law obligations in connection with the European Regulations on Chemical Substances (REACH) or with other mandatory provisions.

8. Partial deliveries

8.1. In the absence of any special agreement, we may provide partial deliveries if
– the partial delivery can be used by the customer in the context of the contractually agreed intended use,
– delivery of the remaining goods is ensured and
– this causes no extensive additional effort or additional costs to the customer.
8.2. A partial delivery made under these conditions is considered a complete delivery with regard to the agreed delivery date.

9. Default of acceptance

Should the customer be in default of acceptance or culpably in breach of other duties to cooperate, we shall be entitled to charge for the resulting damages, including any additional costs incurred. In this case, the risk of accidental loss or incidental deterioration of the purchased goods also passes over to the customer at such time as the customer falls into default of acceptance, provided that our delivery obligation has already been met with regard to the goods to be delivered.

10. Intended use of the goods, obligations of the customer, liability

10.1. If we have made a pledge for certain products to effect delivery contingent upon their intended use, the customer shall be liable for any and all disadvantages which we may suffer as a result of incorrect statements made. In the case of toxins and other substances which may only be used within the scope of legal or official provisions, the customer's order shall also serve as a statement that these substances shall be used for a purpose permissible under the foregoing terms and conditions. The customer shall observe all the applicable statutory provisions when handling or using the substances, mixtures and products supplied by us. Private persons cannot be supplied with chemicals.
10.2. Information given concerning the usability of goods does not constitute any assurance or guarantee of suitability for such use. Relevant identified uses according to Regulation (EC) No. 1907/2006 (REACH Regulation) in the applicable version do not represent a contractual guarantee of any characteristic nor a use stipulated in the contract.
10.3. Our products shall be checked by the user with respect to their specific suitability, particularly prior to use for medical purposes, food and beverage processing, plant cultivation and similar applications. This applies in particular to natural substances, which are always subject to slight variation in content. We therefore cannot assume any liability for any such use.
10.4. Where a product comes with specific conditions for use provided by us or the manufacturer, e.g. as per the product datasheet, these must be complied with. We expressly accept no liability for any use to the contrary. Product datasheets are available via our homepage or can be requested from us directly.
10.5. Insofar as we provide the customer with advice – be this verbally, in writing or as a result of tests – such advice is provided to the best of our knowledge but without liability on our part, and does not release the customer from the obligation to check the delivered goods with respect to their suitability for the intended processes and purposes. The application, use and processing of goods is carried out beyond the scope of our control and is therefore the sole responsibility of the customer.

11. REACH clause

If the customer notifies us of a use according to Article 37.2 of the Regulation (EC) No.1907/2006 dated 5th August 2021 (Regulation (EC) No. 2021/1297) of the European Parliament and the Council for the Registration, Evaluation, Approval and Control of chemical substances (REACH Regulation) which requires updating of the registration or the chemical safety report or results in another obligation according to the REACH Regulation, the customer shall reimburse us all expenses for which evidence is provided. Art. 53 of the REACH Regulation remains unaffected. We shall not be liable for delays in delivery caused by the notification of this form of use and performance of the applicable obligations as stipulated by the REACH Regulation. If, for reasons of health and safety or environmental protection, or due to other mandatory provisions, we are unable to consider this use an identified use and should the customer, against our advice, intend to use the goods in the manner which we have advised against, we shall be entitled to withdraw from the contract.

12. Claims for defects, compensation

12.1. Claims for defects are subject to the prerequisite that the customer has properly performed their duties to examine and give notice of defects according to Section 377 German Commercial Code [HGB].
12.2. Rejected goods must no longer be used without our explicit prior written consent. Where notification of defects is justified, we undertake to bear the costs of all expenses required for rectification of the defects, in particular transportation, travel, labour and material costs. This shall not apply insofar as the expenses increase as a result of the delivery item being subsequently delivered to a location that differs from the one specified in the contract. The buyer's rights according to Section 439(3) German Civil Code [BGB] shall not be restricted as a result.
12.3. Insofar as we are liable for a defect in goods purchased from us, we are entitled to correct the defect or replace the relevant product at our discretion and within a reasonable period of time. The place of subsequent performance is our registered office (Karlsruhe, Germany). If this subsequent performance or replacement delivery fails, i.e. if it is impossible, unreasonable, rejected or unreasonably delayed, the customer shall be entitled to withdraw from the contract or to reduce the purchase price by a reasonable amount, where statutory requirements are present.
12.4. If a defect is attributable to us, the customer is entitled to claim for compensation exclusively according to the following provisions.
12.5. In the case that an essential contractual obligation is culpably breached (a material obligation), where statutory requirements are present, we shall be liable for compensation, but only limited to the foreseeable damages typically incurred, unless otherwise specified below. Material obligations are those which must be fulfilled as part of the proper execution of the contract in the first instance, the fulfilment of which the buyer may rely on and which if breached would jeopardise the achievement of the purpose of the contract.
12.6. The customer is entitled to assert claims for compensation against us, without restriction, according to the statutory provisions and at the statutory rate, if these are attributable to us, one of our legal representatives or vicarious agents and are based on
– a culpable loss of life, physical injury or damage to health, or
– an intentional or grossly negligent breach of duty, or
– the German Product Liability Act [Produkthaftungsgesetz], or
– a breach of a duty arising from an assumption of procurement risk or warranty.
12.7. Any further claims to compensation against us, our legal representatives or vicarious agents are excluded, regardless of their legal basis.
12.8. Section 478 German Civil Code [BGB] remains unaffected by the above provisions.
12.9. The bases of claims relating to data protection law are not covered by this limitations of liability clause.

13. Limitation period

13.1. Claims on the part of the buyer concerning material defects shall become time-barred after one year, unless
a) the goods supplied by us include an item which has been used for a building in accordance with its normal use and has caused a defect in the latter, or
b) the defect was maliciously concealed or is based on an intentional breach of duty by us or our legal representatives or vicarious agents, or
c) they relate to a culpable loss of life, physical injury or damage to health, or
d) they relate to claims based on a warranty or procurement risk assumed by us, or
e) they relate to claims to compensation (with the limitation of Item 13.2.).
The statutory limitation period applies in the cases above.
13.2. Claims to compensation which are based on refused subsequent performance are subject to a shortened limitation period of one year if subsequent performance has not been requested within the period shortened to a year for claims concerning material defects.
13.3. The statutory limitation periods also apply in the event of claims according to Section 445a German Civil Code [BGB] if the last contract in the supply chain is a consumer goods contract in the meaning of Section 474 German Civil Code [BGB].

14. Withdrawal by the customer

If the purchased item is defective, the legal right of the purchaser to withdraw from the contract shall not be subject to our culpability. In all other cases, the customer shall only be entitled to withdraw in the event that we are in breach of obligations for which we are accountable.

15. Return of defect-free goods

Insofar as we accept the return of defect-free goods, this shall only apply to new goods in original packaging. We are entitled to charge the customer any third-party costs which we incur as a result of the return up to 25% of the list price of the goods.

16. Consequences of deterioration in the financial circumstances of the customer

16.1. In the case of payment arrears and justified doubts concerning the solvency or creditworthiness of the customer, we are – irrespective of our other rights – authorised to request guarantees or advance payments for outstanding deliveries and set all claims arising from the business relationship to payable immediately.
16.2. We may withdraw from the contract in the event that we become aware of the suspension of payments, the opening of insolvency or judicial settlement proceedings, the refusal of insolvency due to lack of assets, bill protests or cheque protests or any other tangible indications that the financial circumstances of the customer have deteriorated.

17. Retention of title

17.1. The retention of title agreed to hereinafter serves to safeguard all existing and future claims that we may have against the customer as a result of the supply relationship between the two parties.
17.2. We, the seller, shall retain the right to ownership of the goods delivered to the customer until full payment has been made for all secured receivables. The goods and any goods taking their place and subject to retention of title under the following provisions shall hereinafter be referred to as "Reserved Goods".
17.3. The customer shall ensure the safekeeping of the Reserved Goods on our behalf at no charge.
17.4. The customer shall be entitled to process and resell the Reserved Goods in normal business transactions until such time as a claim is made against them. It is not permitted to pledge Reserved Goods or to use Reserved Goods as collateral.
17.5. If the Reserved Goods are processed by the customer, it is agreed that they will be processed in our name and for our account and that we will acquire direct title to them or – if they are processed together with items from more than one owner or the value of the processed item is greater than the value of the Reserved Goods – we will acquire (partial) joint ownership of the newly-created item. In the event that we do not acquire such title to goods, the customer shall herewith transfer future ownership or, to the extent specified above, joint ownership of the newly-created item to us as a security. If the Reserved Goods are compounded or inseparably combined with other items to form a single item and if one of the other items is considered the main item, then, insofar as the main item belongs to us, we shall transfer the co-ownership of the single item proportionally to the customer in the ratio stated in sentence 1.
17.6. In the event of the resale of Reserved Goods, the customer shall, by way of a security, herewith transfer to us the resulting accounts receivable from the buyer or our pro rata share in the case of joint ownership. The same shall apply to any other claims that take the place of Reserved Goods or otherwise accrue with respect to Reserved Goods, such as insurance claims or claims arising from unauthorised actions in case of loss or irreparable damage. We hereby authorise the customer on a revocable basis to collect receivables assigned to us on its own behalf. We shall only be entitled to revoke this authorisation for collection in the event that a claim is made.
17.7. In the event that third parties lay claim to the Reserved Goods, particularly through seizure, the customer shall without delay inform them of our ownership and notify us in writing, so that we can take action to enable assertion of our ownership rights. Unless the third party is in a position to reimburse us for legal expenses and out-of-court settlement costs, the customer shall be liable for our loss.
17.8. We undertake to release the Reserved Goods as well as any goods or claims superseding the Reserved Goods should their value exceed the amount of the secured receivables by more than 50%. The selection of the securities subsequently to be released shall be incumbent upon us.
17.9. Should we withdraw from a contract due to a breach of contract on behalf of the customer, particularly with regard to delayed payment (enforcement event), then we shall be entitled to demand that the Reserved Goods be returned.

18. Export control clause

18.1. When transferring our goods or services performed by us to third parties, the customer undertakes to observe and comply with the relevant applicable national and international legal regulations with regard to export control. This includes, but is not limited to, compliance with legal regulations governing export control in the European Union, the United States of America and the Federal Republic of Germany.
18.2. Prior to transferring our goods or services performed by us to third parties, the customer undertakes to ensure by means of suitable checks and measures that such transfer or provision does not constitute a violation of embargo regulations, including but not limited to those applicable in the European Union and the United States of America, also taking into account any anti-circumvention provisions.
18.3. The customer also undertakes to observe the provisions of European and US sanctions lists with regards to any business activities with organisations, individuals and companies listed therein. The customer also undertakes to guarantee that the use or transfer of our goods and services does not serve any military or arms-related purposes that are prohibited or require authorisation, unless the necessary authorisations have been granted.
18.4. If deemed necessary as a result of any checks, the customer is obligated, upon request and without delay, to provide us with all information regarding the end use, end recipient and intended use of our supplied goods and services.
18.5. The customer shall fully indemnify us against all claims asserted by the recipient as a result of the failure to comply with the above legal obligations regarding export control and undertakes to compensate us for the losses and expenses arising from such claims.

19. Information on brands and other industrial property rights

The goods we supply may be subject to intellectual property rights such as brands, utility models or other industrial property rights. Please contact the relevant manufacturer or owner for information on brands and other industrial property rights. We are happy to help you in this process.

20. Use of customer data, data protection

On this subject, we refer to our following data protection notice and to our Privacy Policy Statement, which you can access on our website at
https://www.carlroth.com/en/en/Datenschutzerklaerung

21. Place of performance, place of jurisdiction, choice of law

21.1. Unless specified otherwise in the order confirmation, the place of performance for all obligations arising from the contractual relationship is Karlsruhe, Germany.
21.2. The exclusive place of jurisdiction for all disputes arising from the contract is, if the customer is a merchant, a legal person governed by public law or a separate legal entity under public law, the competent court for our head office. However, we are also entitled to bring action against the customer in their domicile court. Peremptory legal provisions concerning the exclusive place of jurisdiction for disputes shall not be affected by this provision.
21.3. The laws of the Federal Republic of Germany exclusively govern the relationship between us and our customer. The United Nations Convention of 11th April 1980 on the International Sale of Goods (CISG) does not apply.
